Foundries—George A. Gunn, chairman, Best Steel Casting Company, San Francisco; C. E. Williams, Columbia Steel Corporation, San Francisco; Dave Guild, Phoenix Iron Works, Oakland; C. M. Henderson, McAulay Foundry Company, Berkeley; A. D. Scoville, Pacific Coast Foundrymen's Association, San Francisco.

Steel Mills—S. S. Lawrence, chairman, Columbia Steel Corporation, San Francisco; E. S. Houdlette, Pacific Coast Steel Company, San Francisco.

otherwise deter them from exercising their best talents, the architect, general contractor and owner are pursuing a policy that is costly to all.

In good faith the sub-contractors carefully goes over the architect's plans. In good faith he submits his bid, hoping to secure the award and perform a creditable job, one that he can point to with pardonable pride. What happens? All too often these days, he and one or two others are called in and told that plans have been revised, their prices are too high and that they must again go into competition to determine which can shave his bid the most and, unfortunately, his work the most. The landing of the contract has become a dollar and cent proposition. The reputation of the one bidder for thorough, careful work is frequently not given sufficient consideration and the "sharpshooter" placed on an equal footing. The one has a desire to use his unquestioned talent in producing a thorough, workmanlike job, and the other, having nothing in mind but profit, has the leverage in his favor with respect to prospects for landing the contract.

American building practices will benefit when the work of the sub-contractor is given more consideration. Those specialists in the sub-contracting field have ideas of their own. Those who design and plan buildings will do well to place the sub-contractor on a higher level than that of a day laborer, as too many architects have been inclined to do in the past.

The good workman is always worthy of his hire.—Seattle Journal of Commerce.

SUB-CONTRACTORS ON REDDING HIGH SCHOOL SUED

The Sterling Lumber Co. and the Diamond Match Co. have filed suits against the C. L. Wold Co., Harry W. Jensen, the Shasta Union High School District and others to recover for materials furnished during the construction of the new Redding high school.

Both companies furnished Jensen, a sub-contractor under the Wold Company, with building materials, and neither have been reimbursed. Both have filed notice with the high school board to withhold payment by material men, and the money is being held by the high school board.

The Diamond Match Co. is seeking payment for materials worth \$2096.11. The amount sought by the Sterling Lumber Co. is \$1150.78.

RECOGNITION DUE SUB-CONTRACTOR - PLACE HIM ON HIGHER LEVEL IS AIM

The general contractors of American need a necessary link in the chain of progress that pulls American construction forward. Much has been said of the general building contractor—perhaps not enough, but a good deal. The public is familiar with his work. Our people are impressed with its importance, but without the remarkable efficiency of the

sub-contractor the building progress of our country would be seriously hampered. It is entirely proper to refer to the progressive sub-contractor as a specialist, one who has thoroughly mastered his trade. And the particular point we would make is that because of the growing tendency to compel sub-contractors to cut their bids, to rush their work and

THE OBSERVER

**What He Hears
and Sees
On His Rounds**

According to S. W. Straus & Company, the five-day week for the building trades has loomed as a major problem in the building industry, prospectively, throughout the country, and in two cities, Chicago and St. Louis, as a definite working policy. Opposition has been encountered in contractors' circles. What the economic and political effects of this move may mean are as yet undetermined. Plans to introduce the five-day week as a working policy, as advocated by the recent American Federation of Labor convention on the Pacific Coast, were announced late in January by the Carpenters District Council of St. Louis. The St. Louis carpenters will bring about a five-day week program by all the St. Louis building trades. In Chicago the building industry has already started experiments in the short week plan. The plasterers union has negotiated a contract on a three months' trial of the plan; lathers are also negotiating for the plan. Delegates representing 20,000 Chicago painters have already taken action favoring the five-day week. Although 1200 plumbers have voted against the plan it has been announced that 150,000 members of the Chicago Building Trades Council look with favor upon the proposal. The situation throughout the building crafts generally is tranquil and wage scales generally are stabilized. In keeping with the prospect of increased activities, the basic building materials during January strengthened their market position and caused the various building cost indexes to rise about 1%. Especially firm was the structural steel market. Buying for railways, subways, implements and large buildings was active and prices of bars, plates and shapes rose from 1.80c to 1.85c Pittsburgh base. Common brick and Portland cement held their own, although small declines in cement were reported in a few localities. Progress has been made in the adjustment of lumber production to demand and the effect upon prices for most items is already noticeable.

A merger of the West Coast Lumber Trade Extension Bureau and the West Coast Lumbermen's Association was approved in Seattle February 17, with only one dissenting vote, by the 150 Pacific northwest lumbermen whom the association represents. The new organization, to begin functioning within the year, is to be known as the West Coast Lumbermen's Association and will represent a total annual lumber cuttage of more than five billion feet. It is expected that many of the 119 independent lumbermen in the region will join the combined bureaus in an attempt to systematize and advertise the industry. Colonel W. B. Greely, chief forester of the United States, is to assume the post of secretary-manager of the new association. Robert Allen, secretary-manager of the old association for ten years, tendered his resignation.

Four million years ago magnolia, sycamore and chestnut trees flourished in the Yosemite Valley, in the opinion of H. L. Mason, associate in phenogamist botany in the University of California. The blasting away of a ledge to widen the park's loop road between Mammoth Hot Springs and Camp Roosevelt has revealed tons of rocks bearing the fossil imprint of leaves and twigs of these species. Professor Mason believes the material of which this rock was formed accumulated about 4,000,000 years ago during a volcanic eruption that destroyed the trees and buried the leaves. From the abundance of chestnut leaves it appears that the chestnut was one of the most common trees in this pre-historic forest. The redwood also is known to have lived in Yosemite Valley.

The Belgian Embassy, in a statement at Washington, D. C., declared the amount of cement imported into the United States from Belgium and other foreign countries was too small to jeopardize the industry in this country. The statement was issued, it was said, in response to recently published charges that the American cement industry was being threatened by foreign importation, and it pointed out that cement imported by the United States in 1927 amounted to less than 1½ per cent of that produced in this country. The United States, it was added, exported about the same quantity as it imported.

The California Building-Loan League believes that more than 1,000,000 homes should be built annually in the United States to meet natural requirements and to offset destructive elements. The league bases its estimate on the following: 1. There are more than 1,200,000 marriages each year in the United States. 2. A definite number of homes is deteriorated each year by time and the elements. 3. Many are destroyed by fire. 4. Houses are destroyed by increased demands of railroads, utilities, industrial and mercantile needs. 5. Better living conditions are demanded by the American wage earner.

Adoption by the federal government of the Columbia river basin irrigation project, one of the largest reclamation developments in the world, is recommended by the senate irrigation committee in favorably reporting the Jones-Dill bill. Cost of constructing the project, which embraces 3,000,000 acres of land in southwestern Washington, is placed at \$300,000,000. A total of 1,883,000 acres would be irrigated and made into valuable farm lands and the remaining 1117 acres would be used as grazing lands.

Plaster inspectors of San Diego, recently interviewed by E. E. Dowe of the western division of the National Lumber Manufacturers Association, state that plastered walls with lime and sand plaster are coming back in style and that there will be an increased demand for wood lath. The inspectors told Dowe that they allow no pitch pockets which go through the lath to the accepted. They are educating lathers to place the side of the lath which contains a pitch streak or pocket which does not go through the lath, to the stud side of the wall.

Details now available regarding the pulp and paper mills to be erected by the Zellerbach corporation near Ketchikan, Alaska, indicates that the plant will be of huge proportions. It will call for an investment of \$10,000,000 or more, of 400-ton ultimate daily capacity and 200-ton initial capacity, and require development of logging operations and waterpower. Engineers and timber cruisers are due to leave Portland in April for preliminary surveys. The plant will be completed and in operation in 1932.

The Phipps bill authorizing an appropriation of \$75,000,000 for State aid road construction in each of the years 1930 and 1931 was ordered favorably reported by the Senate Post Office Committee, according to word from Washington.

Los Angeles Board of Education proposed to hold election June 5 to bonds of \$29,400,000 to finance erection of new schools; \$12,000,000 to be allocated to city school district and \$16,400,000 to city high school district.

City trustees of Newman have passed to first reading a building ordinance designed for cities of the sixth class. The ordinance is designed to meet the requirements of the underwriters and the same time will not be prohibitive to building operations.

Following the example of the steel industry in west Germany, that of Upper Silesia has begun producing small houses. Four-family, six-family small houses are furnished, in five different styles. They can be erected in 24 days.

The board of advisory engineers of Power Transmission Association, at first annual meeting held in New York recommended the promotion of standardization and simplification of equipment and practices, as a step toward elimination of avoidable waste in industry.

Plans to again adopt an ordinance to prevent the use of wooden shingles roofing in the congested sections of city have been started in Berkeley. Preventionists, supported by a number of citizens and officials, are now preparing a new ordinance which will be presented to the city council in the near future.

Utah Construction Co. of San Francisco at approximately \$2,451,000, has been awarded a contract by the Southern Pacific Railroad to relocate tracks between Globe and Bodie, Arizona, made necessary by the construction of the Coolidge Dam over the Gila river at San Carlos. The new line will be approximately 10 miles in length.

The Massachusetts State Association of Master Plumbers, Inc., recently held an institute on heating and plumbing with the cooperation of the Massachusetts Sanitary Club, and the Massachusetts Institute of Technology. This was the second such conference to be held by the master plumbers of the state, the one last year having a registration of 476.

Requests for addresses to be made by Winfield Scott, public relations representative of the western division of the National Lumber Manufacturers Association, are coming in rapidly from service clubs, women's organizations at schools, according to the San Francisco office. Scott will make a speaking tour of Northern California between March 15 and April 15, and has already obtained many speaking dates for talk on reforestation. He will be available as a speaker for California forestry programs during the week April 22 to 29.

Resolutions of intention to award a bridge franchise to T. A. Tomasini of Larkspur, with certain modifications, have been passed by the Alameda County Supervisors. The proposed bridge will cost \$18,750,000 and will take about three and one-half years to construct. Erle L. Obe, San Francisco consulting engineer, is drafting plans to meet the recommended modifications.

Otto Linde has purchased a half interest in the Electric Equipment Company of Lodi. He will be associated with W. I. Le.

Application has been filed with the State Department of Public Works, Division of Water Rights by Malcolm B. Woods of Los Angeles, seeking to divert 10 cubic feet of water per second from Coyote Creek in San Diego County for power development. Plans contemplate the construction of a concrete dam 500 ft high. The total cost of the entire project is estimated at \$6,000,000.

Substituting the trowel and mortar for the rolling-pin and cook book, 45 women in Liverpool, England, are engaged in the trade of bricklaying and building. It is announced by the U. S. Department of Commerce. The women are said to be as efficient at their unusual task as are the masculine bricklayers.

January exports from the U. S. were \$11,000,000 and imports were \$333,000,000, leaving a favorable trade balance for the month of \$73,000,000. The figures, as announced by the U. S. Department of Commerce, indicate a slight decline in the foreign trade totals for the year as compared with last year.

Bids for construction to be undertaken by the State Department of Public Works will henceforth be opened on Wednesdays, according to B. B. Meek, state director of public works. The uniform opening day was changed from Monday in order to avoid conflict with the opening of bids for city and county projects. Also, the contractors claimed to be, it often was difficult to make banking arrangements at the end of the week in preparation for Monday.

Six new labor disputes were brought before the Department of Labor for settlement during the week ended February 11. At the close of the week there were a total of 44 strikes before the Department for settlement and, in addition, 14 controversies which had not yet reached the strike stage. Three adjustments of labor disputes were reported during the week. Among those included was that of the Eagle Construction Co. and Volunteer Portland Cement Plant of Knoxville, Tenn., when twelve steel workers asked an increase of 20 cents an hour.

The appeal of the Navarro Lumber Co. of San Francisco from the additional assessment of \$53,000 for income and profits tax made by the Commissioner of Internal Revenue for the years 1919 and 1920 was decided adversely by the United States Board of Tax Appeals. The corporation was dissolved in 1922. Prior to this dissolution it had a mill at Navarro, Cal., in Mendocino county with headquarters in San Francisco.

In order to better serve the architects of the country, a Chicago concern has organized a service that places the architects in direct touch with the information they need in their work. Believing that the architects should know more about Simplified Practice, this company is listing the completed simplified practice recommendations in their current catalog bulletins, together with a preface regarding the simplification movement.

TRADE NOTES

J. D. Murphy will operate from 2359 Harrison street, San Francisco, under the firm name of Standard Building Materials Co.

E. Royce and E. C. Bonin will operate from 656 East Fourteenth street, Oakland, under the firm name of Service Plumbers.

Pacific Coast offices of the Celotex Company, formerly located in the Sharon Bldg., San Francisco, have been moved to 714-715 Architects' Building, Los Angeles.

Bechtel-Kaiser Rock Co. of San Francisco, capitalized for \$500,000, has been incorporated. Directors are: K. K. Bechtel, T. M. Price, S. McWhorter, Paul S. Marrin and G. G. Sherwood, all of Oakland.

Triangle Builders, Inc., capitalized for \$25,000, has been incorporated with the principal place of business in San Francisco. Directors are: A. H. Fernell, A. Calderwood, E. Emig, C. P. Jacoby and M. A. Nathan.

Dickey Kelvinator Sales Co. of San Francisco, capitalized for \$150,000, has filed articles of incorporation in Oakland. Directors are: Roland C. Foerster, H. A. Judy, C. C. Kreis, Wm. L. Holloway and F. C. Hutchens.

According to word from Montreal, Que., the president of the U. S. Steel Corp., is given as authority for the announcement that the corporation will locate in Canada and erect branch factories for the Canadian market and for export.

Jas. Rose has purchased the business of the Hayward Building Material Co., Jackson and Atherton streets, Hayward. The business was formerly owned by Roscoe Byrnes, who will engage in a similar line of business in the San Mateo section.

Another reduction in freight rates that will give an important Oakland industry an advantage over competitors in other sections, has been secured from the railroads. A reduced rate of 43½ cents per 100 pounds on wire cloth, iron or steel, from Paesteel, an industrial section of Oakland, to Portland, Oregon, has been put into effect by the Southern Pacific Company.

The American Electric Switch Corporation, Minerva, Ohio, announces acquisition of the Nyelec Switchboard Company, 422 E. 53rd St., New York, N. Y. The Nyelec Switchboard Company will retain their New York office, factory and personnel and will operate at the Nyelec Division of the American Electric Switch Corporation. The sales for the present will be handled by the American Electric Switch Corporation sales organization.

Petition seeking dissolution of the Tilden-Eakle Lumber Co. of Richmond has been filed with the county clerk at Martinez. Capital of the corporation is set at \$50,000 with E. M. Tilden as president and J. L. Eakle, secretary. Directors of the corporation are E. M. Tilden, J. L. Eakle and Margaret Jane Tilden. The petition asks the court to direct distribution of the assets. The company has been idle for some time and has been succeeded by the Tilden Lumber Co.

ALONG THE LINE

C. O. Clausen, architect and A. D. Disston, contractor, have been named members of the San Francisco Advisory Board of Reappraisal, succeeding Philip Paschal and Paul Sinsheimer, resigned.

Sustaining a paralytic stroke, George C. Abernethy, prominent Pacific Coast lumberman, died suddenly at Port Haney, B. C., Feb. 15.

J. C. Oglesby, town engineer of Mill Valley, has submitted his resignation to the town trustees, who have taken the resignation under advisement.

George F. Barber, veteran Los Angeles contractor and president of the Building Industries Clearing House Association and also of the Master Builders' Association, died in Los Angeles, Feb. 13. Mr. Barber was 55 years old and was for 23 years a contractor in the southern section of the state. He was formerly president of the Barber-Bradley Construction Company.

HERE — THERE — EVERYWHERE

C. M. Morehead succeeds E. W. Shaw as secretary-manager of the Builders' Exchange of Alameda County.

L. S. Patterson, secretary of the Sacramento Builders' Exchange, was a recent visitor on the floor of the San Francisco Builders' Exchange.

Sacramento Chapter, American Association of Engineers, held the annual dinner-dance in Florentine Room of the Hotel Senator February 16. George McCormick, assistant division engineer for the Southern Pacific Co., was in charge of the affair.

Los Angeles has commenced the work of a general revision of its building code with the view of bringing it up to date and arranging the material in more logical order. C. V. Welch, Chief of the Division of Buildings, Department of Building and Safety, has been appointed by the Board of Building and Safety to supervise this work.

The 33rd annual banquet of the San Jose Builders' Exchange was held at the Travatore Inn, San Jose, February 18. No business was transacted. About 100 were present, including members of the Exchange, architects and visitors.

T. M. Sanford, president, and E. W. Shaw, secretary of the State Builders' Exchange, were honored visitors. William Herman acted as toastmaster.

Formal steps for organization of the Fresno Engineers' Club were taken when members of the Fresno Chapter, American Association of Engineers, under temporary chairmanship of Harold K. Fox, discussed by-laws and constitution and decided to elect new officers. Reasons for the club as distinctive from the chapter are outlined in a statement by President Chris P. Jensen in which he states that lack of co-operation from the national organization and consequent resignation of J. M. Buswell of Fresno, national director, because of this discouraging attitude, brought about local action.

MARBLE, LIME AND LIMESTONE LEAD IN TUOLUMNE MINERAL PRODUCTION

Field work for a new report on the mineral resources of Tuolumne County shows that marble quarrying and the lime and limestone business are the most active branches of mining in that section at present, according to C. A. Logan, mining engineer of the State Division of Mines and Mining.

The Columbia Marble Co., near Columbia, has been working lately on an order for marble for the new state library and courts building at Sacramento. The Columbia marble is stronger and more durable than stone shipped into the state from outside quarries, and this quarry has been steadily operated for many years. The principal product is a handsome white stone with blue veining, although other shades have been produced, including Portola marble, a buff stone with red veining.

In quarrying, blocks of marble 16 feet by 50 feet by 12 feet are cut by the channeling machines. Then rows of holes are drilled horizontally along the bottoms of the blocks, which are broken out by wedges and feathers. These large blocks are split into blocks weighing about seven tons each, which are loaded by an electrically operated derrick and hoisted up the inclined track to the saws.

There are eight gangsaws, some with 25 saws each, set to saw the blocks into

slabs an inch and a quarter thick. These saws use steel balls and sand, and saw at the rate of one-fourth inch an hour. The edges of the slabs are trimmed with an air chisel, then go to the rubbing bed, a cast iron disc twelve feet in diameter and four inches thick, which revolves 45 to 50 times a minute. Sand and water are used on this to rub the marble, the resulting finish being enough for steps and flooring. Thirty to forty men are employed. Marble is hauled to the railroad in trucks and tractors.

The Pacific Lime & Plaster Co. operates the largest lime plant in Superior California at their property one mile south of Sonora. The limestone is of very high grade, with little magnesia and little more than traces of silica, alumina and iron oxide. Three mines are being worked through tunnels. Ten lime kilns out of a total of thirteen are in use. The limestone is burned for 48 hours, and a maximum temperature of 2400 degrees Fahrenheit is reached.

The larger part of the product is marketed as lump and ground lime. Lime hydrate for plaster is made in several grades. Crushed lime is produced principally for export, going to many Pacific Coast and island ports. Farmers, mine cyanide plants and others also use the products of this plant. Eighty men are employed.

PATENTS

Granted to Californians as reported
by Munn & Co., Patent Attorneys

Archimedes J. Novelli of San Francisco. Adjustable Volume Aggremeter. An object of this invention is a meter which measures volume of pulverized, granular or broken material such as cement, sand and broken stone utilized in making concrete.

Edwin P. Bly of San Francisco. Pneumatic Pipe Cleaning Machine. This provides simple means for holding and controlling a working device, such as chipping device, to enable it to be pressed by power against the work and to enable it to be withdrawn and controlled in its operation at will. Mr. Bly assigns his patent to Standard Oil Co. of California.

William R. Ray of San Francisco. Automatic Oil Feeding and Regulating Valve. This invention relates to an automatic oil feeding and regulating valve for oil burners of the atomizing type.

Elroy L. Payne, Los Angeles. Electric Gas Igniting Device. This invention relates to electrical ignition means for gas burners whereby the operation of opening the gas valve causes an electric spark to be produced adjacent the point at which the gas issues from the burner, so as to ignite same. Mr. Payne assigns his patent to Payne Furnace Supply Co.

Joseph F. Richardson of Oakland. Wire Crimping Machine. The primary object of this invention is to provide an improved machine for crimping wire screws to form self-spacing metal furring.

BIGGEST BUILDING IN THE WORLD MAY REIGN OVER BOSTON SKYLINE

Plans are announced for the erection of a \$20,000,000 building in Boston having a total floor area said to be greater than that of any structure now in existence, giving it the claim of being the biggest building in the world, says the Christian Science Monitor. It is to be constructed in the most modern and distinctly American architectural style, escaping the skyscraper appearance, yet with a central tower rising from its terraced base to 24 stories above the street, it was stated from he offices of the newly created New England Department Store, Inc.

Six floors of the new building, to be known as the New England Building, and to be located at St. James Avenue, Berkeley and Stuart Streets, will serve as a sales and display headquarters for New England manufacturers, with space provided for a permanent industrial exhibit, thus tending to consolidate in one location the representatives of industries spread over a wide geographical territory.

Ten Acres of Floor Space

The first five floors and the first basement, with the exception of space for some 20 specialty shops, will be devoted to the newly formed department store. It was announced more than 10 full acres of floor space would be occupied by this huge retail service.

In the second and third basements of the building, to be reached by a long and moderately sloped ramp, provisions will be made in accordance with the most modern building ideas for the parking of automobiles. Able to handle from 3000 to 5000 passenger automobiles a day, it was stated, these facilities will supplement the street parking spaces and those of one of the largest garages in the world, but a block distant, which handles from 20,000 to 25,000 automobiles a week.

Plans Tunnel System

In addition to connections by tunnel with the subway and street car facilities, it was further announced, a much larger tunnel will connect the building with a proposed warehouse, to be situated in the proximity of railroad lines. This storehouse will eliminate the necessity of devoting large parts of the New England Building to storage, and will also speed up the deliveries from the department store, it was stated, in addition to dispensing with the congested traffic resulting from the delivery of goods from within the building, all of which would be transferred by tunnel to the warehouse.

According to W. J. McDonald, Boston real estate man, who conceived the idea of this project, and who is one of the directors of the New England Department Store, Inc., the proposed tower of the building, which will be devoted to general office space, will not be built until permission is granted by city and state officials.

Exceed Zoning Limit

"The height of the proposed tower," Mr. McDonald said, "exceeds the limit set by the Boston zoning laws, although the total cubic contents of the building is less than that permitted by the building-height regulations for a site of this size. The seeming contradiction is caused by pyramided and terraced style of architecture, which allows a maximum of light for the building, and escapes the characteristic skyscraper tendency to increase street congestion by concentrating too many people on a small ground area. City officials who have been shown the plans assure us that there will be no objection to the tower."

ENGINEERING SOCIETIES EMPLOYMENT SERVICE

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 715, 57 Post Street, San Francisco, (Phone Sutter 1684).

K-23-X-4173-CS ENGINEER, to direct development and test work conducted in conjunction with U. S. Army A. Corp. Must have graduated in business administration or engineering from a recognized college or university, and in addition must have had at least 5 years administrative experience. Should be familiar with aeronautical equipment in general and knowledge of military and commercial aeronautical activities desirable. Headquarters Eastern. Apply by letter.

R-1490-S STRUCTURAL DESIGNER fully competent to design all types of mine structures, steel, concrete and frame. Position will probably last for several years as large development is contemplated. Apply by letter, Location Canada. Salary open.

R-1488-S MECHANICAL ENGINEER AND DRAFTSMAN, experienced in designing, to make estimates, plans and detail drawings of new mine equipment under supervision; 225 a mo. Permanent. Location Northern Mexico.

R-1479-S STRUCTURAL DESIGNER experienced on steel and concrete warehouse structures. Must be American citizen. Temporary; 250 a month. Local.

Chas. H. Thompson, formerly of Santa Barbara, has opened offices in the Arcade Bldg., Burlingame, for the practice of architecture.

Frederick Roehrig will operate from 3907 Telegraph avenue, Oakland, under the firm name of C and R Sheet Metal Works.

BONDS

GLENDALE, Los Angeles Co., Cal.—Board of Education plans election to vote bonds for new elementary schools. The board is divided on the question of employing experts to make a survey of the school system, their fee to be deducted from the fee to be paid to the architects selected to design the proposed buildings.

BURBANK, Los Angeles Co., Cal.—Board of Education sets \$765,000 as amount of proposed bond issue for new school buildings. Of this sum \$502,000 will be for high school purposes and the remainder for grammar schools. Francis D. Rutherford, Santa Monica, is architect for the school board.

MONTEREY, Monterey Co., Cal.—Election will be held March 23 in Monterey Union High School District to vote bonds of \$220,000 to finance erection of new school buildings. One structure will provide 12 classrooms, a cafeteria to seat 170 pupils and gymnasium. Machine shops, wood working shops, etc., will be enlarged and the present gymnasium will be remodeled for an assembly hall.

MOJAVE, Kern Co., Cal.—Election will be held shortly to vote bonds of \$25,000 to finance erection of grammar school. Cullimore & Symmes, architects, Bakersfield.

DELANO, Kern Co., Cal.—Delano Joint Union High School Dist. defeats proposal to issue bonds of \$75,000 to finance erection of physical education building, and alter and make additions to present school; 506 for and 302 against proposal. George Sellen & Co., California State Life Bldg., Sacramento, architects.

REDDING, SHASTA Co., Cal.—Election will be held March 5 in Columbia School Dist. to vote bonds of \$3,000 to finance erection of new school. Trustees of district are: Mrs. Ella Crespo, Mrs. C. J. Meisner and E. E. Leighton.

VACAVILLE, Solano Co., Cal.—Election will be called shortly in Vacaville High School District to vote bonds to finance erection of gymnasium and remodeling present high school. Election held in April, 1927, to vote \$75,000 for this purpose, failed to carry. If the new issue carries, plans will be prepared by Architect Coffman, Sahlberg & Stafford, Plaza Bldg., Sacramento.

PHOENIX, Ariz.—Phoenix Union High School District sets March 8 as date to vote bonds of \$625,000 to erect additional buildings to include a new high school building to cost \$300,000, a new Junior High School to cost \$175,000, and additions to the auditorium and heating system to cost \$125,000.

LONG BEACH, Cal.—Citizens Committee urging city council to call election to vote \$2,750,000 bonds to purchase site and erect memorial auditorium. Three sites under consideration will be put on the ballot.

MADERA, Madera Co., Cal.—City will hold election in April to vote bonds of \$3000 to remodel city hall for quarters for fire department. Jas. Wakefield, city clerk.

TEHAMA, Tehama Co., Cal.—Election will be called shortly in Tehama Grammar School District to vote bonds of \$25,000 to finance erection of new school, preliminary plans for which are being prepared by Architects Starks & Flanders, Ochsner Bldg., Sacramento. Will be one-story brick veneer; 2-classrooms; auditorium; kitchen and library.

BRYTE, Yolo Co., Cal.—Election will be called shortly to vote bonds of \$7500 to finance erection of new town hall.

S. F. BRIDGE FAN GETS 13 TRUMPS

The bridge player who held thirteen trumps and only took one trick (he trumped his partner's ace and his partner shot him) must yield the hard-luck accolade to Miss Josephine De Martini, 470 Clipper Street.

Miss De Martini held thirteen clubs in a game with friends Tuesday night bid five clubs, was doubled—and failed to redouble. But she made game, a grand slam, 100 points for honors, and in all 434 points.

"Bridge isn't difficult," she said yesterday; "all you have to do is lay your hand down."—News item.

EVERYTHING IS bridge.

IF THE women.

ARE NOT playing bridge.

SAN FRANCISCO is trying.

TO BRIDGE the bay.

THEY HAVE the Carquinez bridge.

AND THE Antioch bridge.

AND IF the State Highway.

BUILDS A concrete bridge.

ANYWHERE IN Northern California.

CLARENCE (SANDY) Pratt, President.

OF THE Pratt Building Material Co.

WILL TRY to sell.

BOTH CLEAN, sharp sand.

AND CLEAN, hard rock.

SO IT is bridge, bridge.

WHEREVER YOU go.

THE WOMEN play every day.

AND MANY evenings.

AND WHEN a bridge.

IS BUILT across the bay.

SANDY PRATT hopes.

TO SHIP sand and rock.

FROM SACRAMENTO, Marysville.

PRATTROCK (NEAR Folsom).

MAYHEW (SACRAMENTO County).

OR PRATTCO (Monterey County).

CENTRAL OFFICE—San Francisco.

"I THANK you."

This 1928 scene shows friend husband trying to arrange so that his better half can spend a little more time at home fixing the dining room table instead of the bridge table at the woman's club.

ICE AND COLD STORAGE PLANTS

HOLLISTER, San Benito Co., Cal.—National Ice & Cold Storage Co., Postal Telegraph Bldg., San Francisco, has purchased site, 72 by 240 ft., on which will be erected an ice manufacturing and cold storage plant, concrete and corrugated iron construction. Will have capacity of 20 tons per day and storage capacity of 1000 tons. Chas. J. Shaw, branch manager at Hollister.

Grang Contract Awarded
ICE PLANT Cont. price \$261,800
FRESNO, Fresno Co., Cal.
Reinforced concrete plant, 165x44 feet and icing platform, 3300 ft.
Owner—Pacific Fruit Express Co., 65 Market st., San Francisco.
Architect—Eng. Dept. of owner (Mr. Weatherwax).
Contractor—Lynch Cannon Co., Chapman Bldg., Los Angeles.
Gring-Kaiser Paving Co., Latham Square Bldg., Oakland.
Approximately 225,000 cubic yards of excavating is involved.

POWER PLANTS

LODI, San Joaquin Co., Cal.—Pacific Gas & Electric Co., 245 Market St., San Francisco, appropriates \$80,000 to finance power extensions in addition to purchase of power plant equipment.

SUTTER CITY, Sutter Co., Cal.—Pacific Gas & Electric Co., 245 Market St., San Francisco, will expend \$75,000 to erect substation and rebuild lines in territory adjacent to Tudor. Station will have capacity of 4000 h. p. and will cost \$40,000. Approx. ten miles of feeder line will be placed in addition to 12½ mi. of new distribution lines.

SACRAMENTO, Cal.—Until March 1, M. M. bids will be received by H. G. Dixon, city clerk, to furnish filter control panel board and rate of filtration panel board for Municipal Filtration Plant. Cert. check 10% payable to City Controller req. with bid. Specifications on file in office of clerk. A. J. Wagner, city engineer.

NORTHERN CALIFORNIA—Pacific Gas & Electric Co., 245 Market St., San Francisco, appropriates \$22,500,000 for construction during the current year. In connection with this expenditure the Mokelumne river development is included. It involves the building of the world's largest rock-filled dam, 1300 feet long and 36 feet high across the Mokelumne river, 5 miles above Jackson, which is the first step of a project for the development of a 2,000 horsepower generating plant at St. Springs and a great power plant of 700 horsepower on Tiger Creek. In Esmer and Nevada counties additions to the Spaulding-Drum developments will be completed, involving the erection of a 1000 horsepower unit on Lake Spaulding; replacing of temporary structures and lining of the Drum Canal providing increased water capacities; the installation of a penstock and a fourth generating unit of 20,000 horsepower capacity at the Lim plant near Colfax, which will bring its plant up to an installed capacity of 7100 horsepower.

PHOENIX, Ariz.—Bids rec. by Roosevelt Irrigation Dist. for electrical equipment, follow:

- (1) 4 100-hp 750 rpm, 440-volt, 3-phase, 25-cycle vertical induction motors.
- (2) 3 75-hp, 750 rpm, 440-volt, 3-phase, 25-cycle vertical induction motors.
- (3) 12 3½-kva, 11,000 to 440-v., single-phase transformers, adjusting taps.
- (4) 9 25-kva, 11,000 to 440-v., single-phase transformers, adjusting taps.
- (5) 15,000-v. lightning arresters.
- (6) 21 15,000-v. line suspension type, oak coils.
- (7) 7 24-cycle, 440-v. definite time relays.
- (8) 4 300-amp. 440-v. 25-cycle starting compensators, hand type.
- (9) 3 300-amp 440-v. 25-cycle magnetic switches.
- (10) 4 150-amp. 440-v. 3-phase 3-wire cycle watt-hour meters.
- (11) 3 100-amp. 440-v. 3-phase 3-wire cycle watt-hour meters.

(12) 7 pole type oil circuit breakers, 3-pole, single throw, 15,000 volt.

The bids follow:
General Electric Co.—(1) \$1033, (2) \$789, (3) \$279, (4) \$292, (5) \$22.88, (6) \$7.40, (7) \$50, (8) \$193, (9) \$134, (10) \$54, (11) \$50.
Ideal Electric Co.—(1) \$1005, (2) \$760.
Khunan Elec Co.—(3) \$403, (4) \$309.
Wagner Elec Co.—(3) \$308, (4) \$300.
Westinghouse Elec & Mfg. Co.—(1) \$908, (2) \$690, (3) \$370, (4) \$285, (5) \$23.23, (6) \$13.69, (7) \$42.50, (8) \$185, (9) \$116, (10) \$52, (11) \$49, (12) \$109.

MORGAN HILL, Santa Clara Co., Cal.—Pacific Gas & Electric Co., 245 Market St., San Francisco, has purchased site and will erect substation in connection with additional transmission lines from Newark to Morgan Hill and Salinas.

OAKLAND, Cal.—Safety Cable Co., 589 Howard St., San Francisco, awarded contract by City Port Commission to fur. and del. 1200 ft. submarine cable.

PUBLIC BUILDINGS

DIXON, Solano Co., Cal.—Dixon Fire Department will select site shortly on which to erect two-story firehouse with quarters for town trustees and police chief.

BUSINESS OPPORTUNITIES

SAN FRANCISCO—The names and addresses of the parties concerned in these opportunities may be obtained from the office of the Larsen Advance Construction Reports, 547 Mission St., San Francisco, either by phone, letter or personal call. Such requests should be accompanied by the index number of each opportunity, and self-addressed envelope for reply by mail.

D-2763—Fabricated Reinforced Concrete. New York, N. Y. Manufacturers of fabricated reinforced concrete for masonry wall construction are desirous of securing suitable sales representation for their product in San Francisco and surrounding territory.

D-2765—Oregon Representation. Portland Ore. Established manufacturers' agent desires contact with San Francisco manufacturers of building material products, who wish to extend their market to the Portland district.

D-2766—Cork Waste. San Francisco, Cal. Manufacturer desires outlet for cork waste. Local manufacturers of cork products utilizing ground cork as a raw material may be interested in this source.

D-2771—Fruit Graders, Box Presses and Gravity and Power Conveyors. Portland, Ore. Manufacturers of fruit graders; also box presses and gravity and power conveyors with a San Francisco firm or individual to represent them in the distribution of the above-named products in this territory.

D-2772—Incinerators. Buffalo, N. Y. Manufacturers of a line of chimney-fed incinerators, suitable for installation in schools, hospitals, hotels, apartment houses, homes, etc., wish to locate a suitable concern to handle their line in this city.

D-2773—Sales Representation. Chicago, Ill. National distributors for several large organizations are anxious to get in touch with San Francisco companies whose manufacturing facilities exceed their marketing and selling.

D-2776—Alder Lumber. Astoria, Oregon. Producers of kiln dried alder lumber, log run, not edged, and of good quality and texture, seek connections with San Francisco furniture manufacturers or other interested users of this type of wood.

D-2777—Representation in the Southwest. Dallas, Texas. Distributing company is seeking contact with a manufacturer who is looking for a distributor in the southwest who knows how to organize a sales force, handle the advertising and put his product on the market.

12705 — Glass Manufacturers. Luenen, Germany. Manufacturers of glass lighting fixtures (globes, bowls), drinking glasses and novelties of glass, wish connections with wholesalers and agents in San Francisco.

12707—Sales Representation in Spain. Madrid, Spain. Company has recently been established for the purpose of carrying on a general export and import business, assuming the representation of exclusive sales agency of American manufacturers and firms desirous of opening the markets of Spain for their products. Members of concern have excellent business connections.

12710—Ice-Making Machinery. Manila, P. I. Concern is interested in receiving prices and catalogs from manufacturers of ice-making machinery, ranging from household size to 30 tons.

12711—Reed and Grass Furniture. Brooklyn, N. Y. Furniture wholesalers and factory representatives are interested in handling a line of Chinese reed and grass furniture and they desire to get in touch with San Francisco importers of that type of furniture.

12714—Cedar Slats for Pencils. Yokohama, Japan. Company is interested in purchasing cedar slats for the manufacture of pencils and wishes to secure offers and samples from San Francisco concerns.

12715—Australian Representation. San Francisco, Cal. Australian salesman of integrity with excellent sales record, having connections in the principal cities in Australia, is now in San Francisco and wishes to interest an American firm, with a view of representing them in Australia. Has had experience in leather-goods, draperies and radio accessories. Big business assured with large responsible firms. Prefers to work on commission basis with drawing account.

12718—Mexican Tiles and Decorated Pottery. Los Angeles, Cal.—Company seeks connections with a San Francisco firm or individual interested in distributing a line of hand-decorated glazed imported Mexican tile, a high-grade roof tile and a line of pottery attractively designed in imitation of the Egyptian and American Indian styles.

SAN JOSE ENGINEERS ELECT

Temporary offices of the Engineers' Club of San Jose were elected at a meeting in the Commercial Club, that city, last week. W. H. Hall was elected president; John S. C. Ross, vice president; and M. H. Antonacci, secretary-treasurer.

Following the election of officers, C. T. Keefer of the Cement Gun Construc-

tion Co. delivered an interesting talk on the use of the cement gun in the construction field. Albert J. Capron, secretary of the Society of Engineers (San Francisco Bay District) discussed engineers' license laws.

CIVIL SERVICE EXAMINATION

U. S. Civil Service Commission announces examinations will be held shortly for the position of Architect, paying \$3800 a year; Associate Architect, \$3000 and Assistant Architect, \$2400. Applications must be filed with the commission at Washington, D. C., not later than March 27. Further information obtainable from offices of the commission in the principal cities throughout the country.

BRIDGES

SANTA ROSA, Sonoma Co., Cal.—Until March 14, 12 noon, (to be opened 1:30 P. M.), bids will be rec. by W. S. Coulter, county clerk, to const. sidewalk on river bridge at Guerneville, 5th Supervisor Dist., involy. 50 cu. yds. unclassified excavation; 102.5 cu. yds. "A" and 34.5 cu. yds. "D" conc.; 21,000 lbs. reinf. steel; 54,000 lbs. structural steel. Est. cost \$8950. Plans obtainable from E. A. Peugh, county surveyor.

SAN RAFAEL, Marin Co., Cal.—Until March 5, 11 a. m., bids will be rec. by Rob. E. Graham, county clerk, to const. three bridges on Bolinas to Olema rd., involy. 108 cu. yds. A conc.; 11,500 lbs. reinf. steel in place. Cert. check 10 per cent req. with bid. Plans obtainable from Rodney Messner, county surveyor.

ALAMEDA COUNTY, Cal.—Resolutions of intention to award a transbay bridge franchise to T. A. Tomasini, Larkspur, with certain modifications, have been passed by the Alameda County Supervisors. The proposed bridge will cost \$18,750,000. It will take about 3½ years to complete. Erle L. Cope, consulting engineer, 216 Pine St., San Francisco.

OAKLAND, Cal.—County Surveyor Geo. A. Posey preparing plans to repair Park st. and High st. bridges.

SAN RAFAEL, Marin Co., Cal.—County Surveyor Rodney Messner preparing plans for bridge on Wilson ave. at Novato in Rd. Dist. No. 5.

DREDGING, HARBOR WORKS AND EXCAVATIONS

BAKERSFIELD, Kern Co., Cal.—Stroud Bros., Bakersfield, at \$10,876 sub. low bid to city for imps. at Arroyo Ditch. Other bids: Dean & Stroble, Bakersfield, \$11,000; Nighbert & Carnahan, Bakersfield, \$11,725. Taken under advisement.

LONG BEACH, Cal.—Major R. G. McGlone, city harbor engineer, recommends \$2,750,000 bond issue for harbor improvements.

LIGHTING SYSTEMS

MADERA, Madera Co., Cal.—D. S. McEwan, Long Beach, at \$9870 awarded cont. by city to install electrolier system in F St.

MACHINERY AND EQUIPMENT

STOCKTON, San Joaquin Co., Cal.—Robertson & Lauritzen at \$6190 sub. low bid to county supervisors to construct ferry boat to be operated in the San Joaquin Delta. Other bids, all taken under advisement, were: M. A. Jenkins, \$6930; Colberg Boat Works, \$7000; General Engineering & Drydock Co., \$7050; Robertson Shipyard, \$8930.

SANTA CRUZ, Santa Cruz Co., Cal.—Until Feb. 23, 9 a. m. (to be opened at 9:30 a. m.), bids will be rec. by S. A. Evans, city clerk, to fur. 4-cylinder gasoline motor driven tractor having motor speed rating not to exceed 850 rpm. 25-draw bar horse power with 3-speeds forward and one speed reverse. Tracks and rollers shall be dropped forged steel with 12-inch track shoes; to weigh not less than 9000 lbs. Delivered f. o. b. Santa Cruz. Cert. check or surety bond 10 per cent req. with bid. Roy Fowler, city eng.

OAKLAND, Cal.—Prescott Co., Seattle, at \$1200 awarded cont. by City Port Commission to fur. and del. 4 dock tractors.

RAILROADS

FRESNO, Fresno Co., Cal.—Minarets and Western R. R. denies report that company plans to extend r. r. from present terminus at Bass Lake through Minaret Pass to connect with main line east. The denial is made by B. A. Cannon, general manager.

EUREKA, Humboldt Co., Cal.—City rejects bids to reconstr. Municipal Railway system bet. I and K Sts. Work indefinitely postponed.

EUREKA, Humboldt Co., Cal.—Mercer-Fraser Co., Eureka, at \$6990 awarded Cont. by city to reconstr. municipal railway in Fifth St., bet. K and Myrtle Avenue.

OROVILLE, Butte Co., Cal.—Expenditures of \$484,800 for imps. to the Western Pacific Railroad in Oroville and in the Feather River Canyon are announced by T. E. Coyle of Sacramento, division superintendent. Of this amount \$425,000 will be spent in the Feather River Canyon and the remainder, \$59,800, will be expended in Oroville. Improvements near Oroville consist largely of two permanent concrete and steel bridges over Huntton and Lincoln streets to replace the present wooden structures. Additional track and machinery at the round house will conclude the remainder of the program for Oroville. Construction of new buildings, including a new station at Belden, laying of ballasting rock, passing sidings and new rails, construction of concrete retaining walls and concrete work in tunnels comprise the program for the canyon. Work in the canyon, just beginning now, is expected to be in full swing by April 1. Construction work in Oroville on the two bridges and of laying new steel at the terminal is expected to start April 1 also.

SAN CARLOS, Ariz.—Utah Construction Co., Phelan Bldg., San Francisco, awarded cont. by Southern Pacific R. R. to relocate tracks between Globe and Bodie, made necessary by the const. of the Coolidge Dam over the Gila river at San Carlos. Estimated cost \$2,451,000. The new line will be 18.97 miles.

FIRE ALARM SYSTEMS

MADERA, Madera Co., Cal.—Election will be held in April to vote bonds of \$8000 to finance installation of fire alarm system. Jas. Wakefield, city clerk.

FIRE EQUIPMENT

ORANGE, Cal.—American La France Fire Engine Co., 2339 E 9th st., Los Angeles, awarded cont. by city at \$13,000 to fur. fire engine. Bids allowed \$1000 on old equipment.

BRYTE, Yolo Co., Cal.—Town trustees will call election shortly to vote bonds of \$6000 to finance purchase of fire engine.

MILL VALLEY, Marin Co., Cal.—Fire Department recommends to town trustees the purchase of 500 ft. of fire hose. Will Falley, town clerk.

RESERVOIRS AND DAMS

BEVERLY HILLS, Cal.—Carpenter Bros., 457 N Canyon dr., Beverly Hills, sub. low bid to city (on original plan of Thomas arch type construction) at \$123,780 to const. underground water reservoir of 7,250,000 gals. capacity of reinf. concrete construction, with an arch rib arch — covered with soil which will be landscaped. Alternate type of construction will be for flat slab and girder. Their bid on the alternate type was \$153,931. The dimensions will be 200 x 200 ft. roughly, 12 to 18 ft. in depth of rectangular shape. Excavation will involve 30,000 cu. yds. Location of job, corner Coldwater Canyon rd. and Coldwater Canyon Bridge path. Salisbury, Bradshaw & Taylor, 714 W 10th st., Los Angeles, engineers. Other bids: Oberg Bros., \$126,500, no bid on alternate; L. A. Investment Co., \$127,640; alternate \$139,725; Elliott & McKenna, \$128,855, alternate \$146,000; John H. Simpson Co., \$129,388, no bid on alternate; Roche-Axman Co., \$137,160.94, alternate \$137,160.94.

SANTA BARBARA, Cal.—Until March 1, 2 P. M., bids will be rec. by V. E. Trace, City Water Supt., to fur. and del. material and reconstr. Reservoir No. 1. Cert. check or bidder's bond of 10% req. with bid. Plans obtainable from above on deposit of \$5, returnable.

SAN DIEGO COUNTY, Cal.—Malcom B. Woods of Los Angeles has filed application with State Department of Public Works, Division of Water Rights, to divert 75 cu. ft. of water per second from Coyote Creek for power development. Construction of a concrete dam 500 ft. high together with other construction will involve an expenditure of \$6,000,000.

MISCELLANEOUS CONSTRUCTION

SAN FRANCISCO—Pacific Gas & Electric Co., 245 Market st., has approved budget providing for expenditure of \$22,500,000 for improvements in Northern California. Included is a 16-in. high pressure main between San Francisco and San Bruno.

WATER WORKS

TURLOCK, Stanislaus Co., Cal.—Sterling Pump Works, Stockton, at \$1487.50 awarded cont. by city to fur. and install deep well turbine pump at Well No. 5. Orchard street auxiliary plant.

E. D. BULLARD Co.

275 EIGHTH ST. 800 W. 11th St.
San Francisco Los Angeles
Mkt. 2322 Westmore 4179

STOCKTON, San Joaquin Co., Cal.—Until Feb. 27, 5 P. M., bids will be rec. by A. L. Banks, city clerk, to drill well, const. conc. floor slab and switchboard and motor housing and fur. and install pumping plant and pressure tank at Victory Park. Cert. check 10% payable to City Auditor req. with bid. Spec. on file in office of clerk. W. B. Hogan, city engineer.

GRENADA, Siskiyou Co., Cal.—Until March 5, 1:30 P. M., bids will be rec. by Victor Bovo, Secty., Big Springs Irrigation District, to const. two pumping plants, seven flumes, one ditch and minor project units; also to furnish cement, lumber, reinforcing steel, metal flumes and concrete pipe. Spec. obtainable from secretary. See call for bids under official proposal section in this issue.

TRACY, San Joaquin Co., Cal.—Election will be called shortly to vote bonds of \$70,000 to finance extensions to water system. E. T. A. Bartlett, city engineer.

NEWMAN, Stanislaus Co., Cal.—City Engineer W. R. Sherman authorized by city trustees "to purchase through local dealer, if possible," a pump and equipment suitable for cleaning septic tank.

SANTA BARBARA, Cal.—Until March 1, 2 P. M., bids will be rec. by Carl E. Hasse, City Purchasing Agent, to fur. pipe, fittings, hydrants, etc., as follows:
Group No. 1—3200 lin. ft. of 20 in. and 2100 lin. ft. of 16 in. Class C cast iron pipe; 3 crosses 16x8. All bells; 6 tees, 20x 6. All bells; 3 tees, 16x6. All bells; 2 wye branches, 20x8. All bells; 1 plug, 20x2.

Group No. 2—5000 in. ft. 8 in. and 8000 lin. ft. 6 in. Class B cast iron pipe; 12 tees, 8x6, two bells and one spigot; 12 tees, 12x6, two bells and one spigot; 12 curves, 8 in. 45 deg., bell and spigot; 12 curves, 8 in. 22 1/2 deg., bell and spigot.

Group No. 3—5 gate valves, 20 in. hub end, horizontal geared; 4 gate valves, 16 in. hub end, horizontal geared; 4 gate valves, 12 in. hub end; 12 gate valves, 8 in. hub end; 36 gate valves, 6 in. hub end.

Group No. 4—24 fire hydrants, 6 in. 3 1/2 ft. bury with two 2 1/2 in. nozzles.

Cert. check or bidder's bond 10% payable to Mayor req. with bid.

ALBANY, Alameda Co., Cal.—Regents of the University of California have purchased 105-acre tract in Albany to be developed for athletic purposes. Tract is bounded on the east by San Pablo ave., and on the west by the Southern Pacific right-of-way.

ELLENBURG, Wash.—See "Government Work and Supplies," this issue. Bids opened for Kittitas Diversion dam.

NILES, Alameda Co., Cal.—Citizens Water Co., Niles, authorized by State Railroad Comm. to execute a mortgage and to issue promissory note for \$16,000 payable on or before two years after date of issue, with interest at not exceeding 6 per cent per annum for the purpose of paying outstanding note of \$6500, and to finance cost of additional land and facilities.

PHOENIX, Ariz.—Bids were opened Feb. 10 by Roosevelt Irrigation Dist. to fur. 10 or more deep well multistage turbine centrifugal or screw type pumps without motors, designed to receive motors selected and to operate at about 720 rpm, with capacities from 2600 gpm. at 35-ft. head, to 6600 gpm. at 60 ft. head. Pumps will be installed in 18-in. and 20-in. wells.

The bids were:
Byron-Jackson Pump Mfg. Co., Berkeley—(1) 2 300 G P M, 55 ft. lift, \$1873; (2) 1 3500 C P M, 50-ft. lift, \$1980; (3) 1 4000 G P M, 55-ft. lift, \$2792; (4) 1 5000 G P M, 55-ft. lift, \$2549; (5) 1 5000 G P M 40-ft. lift, \$2102; (6) 1 6000 G P M 35-ft. lift, no bid; (7) 3 6000 G P M, 40-ft. lift, no bid.

Frank J. Kimball Co., Los Angeles—(1) \$1873, (2) \$1482, (3) \$1546, (4) \$1596, (5) \$1305, (6) \$1244, (7) \$1356.

Peerless Pump Co.—(1) \$1518, (2) \$1518, (3) \$1718, (4) \$1872, (5) \$1776.

Worthington Pump & Machine Co.—(1) \$2500, (2) \$2883, (3) \$3047, (4) \$2883, (5) \$2717, (6) \$2880, (7) \$2800.

MADERA, Madera Co., Cal.—Election will be held in April to vote bonds of \$10,000 for water main extensions. Jas. Wakefield, city clerk.

INGLEWOOD, Cal.—Until March 5, 8 p. m., bids will be rec. by Otto H. Duelle, city clerk, to fur. (1) one 7-stage deep well centrifugal turbine pump of enclosed line shaft type, having capacity of 900 gals. per min. against total head of 147 ft. when operating at a speed of 950 to 975 rpm; shall be equipped with service discharge pump head and shaft for a direct connection to a 440-volt motor and equipped with 24 ft. of shafting tube and discharge column to connect with 9-in. O.D. 2 1/2-in. tubing, 1 11/16 in. shafting, in well at present; (2) one 60 hp., 440-volt, 6 pole, 50 cycle, 3 phase, vertical type electric motor, constructed to operate at 950 to 975 rpm., equipped with handstarting compensator with low voltage protection and overload relays. Allowance is to be made on 3 stage pump now installed in city's well No. 7, and 40 hp. vertical 4 pole motor, starter and head, also in present installation. Above equipment is to be installed in city's 18-in. well No. 7. Cert. or cashier's check or bond for 10 per cent.

MADERA, Madera Co., Cal.—City will hold election in April to vote bonds of \$3000 to finance drilling well and installation of pump equipment. Jas. Wakefield, city clerk.

OAKLAND, Cal.—American C. I. Pipe Co., Balboa Bldg., San Francisco, awarded cont. by City Port Commission to fur. and del. c. i. pipe and elbows for Municipal Airport.

Official Proposals

NOTICE TO CONTRACTORS (Painting—Sacramento County)

Notice is hereby given that the Board of Supervisors of Sacramento County, California, will receive sealed bids at the Office of the Clerk of said Board, Room 201, Court House Building, Sacramento, California, for painting the following named rooms, County Court House, Sacramento, California.

1. Memorial Hall. (Assembly room, ante-room and kitchen).

2. Room No. 2. Farm Advisors.

3. Office of the County Treasurer.

Bids to be received covering all of the work and for each room separately.

Specifications

All walls and ceilings to be cleaned and patched where necessary and given three coats of washable wall paint. Side walls to be stippled.

Said bids to be received up to 10 o'clock A. M., February 28, 1928.

Each bidder must submit a proposal to the Clerk of the Board of Supervisors on standard forms, which may be obtained from the Office of the Board of Supervisors, to be accompanied by a certified check of ten per cent of the amount of the bid submitted, check to be made payable to the Chairman of the Sacramento County Board of Supervisors.

Plans and specifications are on file in the office of the Board of Supervisors, to which all prospective bidders are hereto referred.

The Board of Supervisors reserves the right to reject any and all bids received as the public good may require.

By order of the Board of Supervisors, Sacramento County, dated February 9, 1928.

HARRY W. HALL,

Clerk and Ex-Officio Clerk of the Board of Supervisors.

By GEO M. POTTLE, Deputy Clerk.

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Highway Building, Sacramento, California, until 2 o'clock P. M., on March 14, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Del Norte County, between Wilson Creek and Crescent City (I-DN-1-B), about fifteen (15) miles in length, to be surfaced with crushed gravel or stone.

Madera County, between Tharsa and Arcola School (VI-Mad-4-A), about six and five-tenths (6.5) miles in length, to be paved with asphalt concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the District office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the District office.

No bid will be received unless it is made on a blank form furnished by the

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

DEPARTMENT OF PUBLIC WORKS,

According to plans and specifications on file with the Clerk of the Board of Trustees of the Town of Orland.

Each bid or offer shall be accompanied by cash or by a check certified by a responsible bank in a sum equal to ten per cent (10%) of the amount bid.

All bids and proposals to be submitted to the Clerk of the Board of Trustees of the Town of Orland on or before eight o'clock P. M. on the 23rd day of February, 1928, at which time such bids and proposals will be opened at the meeting place of the Board of Trustees in the Library Building of the Town of Orland.

The right is hereby reserved to reject any or all bids if found unsatisfactory.

E. W. FARLIN,

Clerk of the Town of Orland and Ex-Officio Clerk of the Board of Trustees of the Town of Orland.

NOTICE TO CONTRACTORS

(Marin County — Olema to Randall's Ranch Road)

Sealed proposals will be received at the office of the County Clerk, County Court House, San Rafael, California, until 11 o'clock A. M. on March 5, 1928, at which time they will be publicly opened and read, for the construction in accordance with the specifications therefor, to which special reference is made, portions of County Highway as follows:

Marin County, from Olema to Randall's Ranch on the Olema-Bollinas Road, a distance of approximately five and four-tenths (5.4) miles in length, to be graded and rock surfaced.

County Surveyor's Estimate

Item 1—63,000 cubic yards of excavation without classification.

Item 2—30,000 station yards overhaul.

Item 3—1050 lineal feet 12-inch corrugated metal pipe.

Item 4—250 lineal feet 18-inch corrugated metal pipe.

Item 5—318 lineal feet 24-inch corrugated metal pipe.

Item 6—160 lineal feet 30-inch corrugated metal pipe.

Item 7—134 lineal feet 36-inch corrugated metal pipe.

Item 8—95 Cubic yards Class "A" Portland cement concrete (headwalls and culverts).

Item 9—5500 lbs. reinforcing steel.

Item 10—6000 cubic yards of gravel or broken stone in place.

The County of Marin will furnish corrugated metal pipe as more explicitly set forth in the specifications.

The foregoing quantities are approximate only, being given as a basis for the

comparison of bids, and the Board of Supervisors do not expressly or by implication agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, as may be deemed necessary expedient by the said Board. All bids are to be compared on the basis of the County Surveyor's estimate of the quantities of work to be done. Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the County Surveyor's Office, Court House, San Rafael, Calif. No bid will be received unless it is made on the blank form furnished by the Board. The special attention of prospective bidders is called to the "Instructions to Bidders" annexed to the blank form of proposal, for full directions as to bidding, etc. The Board of Supervisors reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the county.

Dated San Rafael, Feb. 14, 1928.
ROB E. GRAHAM,
Clerk of the Board of Supervisors.

NOTICE TO BIDDERS

Big Springs Irrigation District—Siskiyou County)

Big Springs Irrigation District, Grenada, California, February 8th, 1928. Sealed proposals will be received by the Directors of Big Springs Irrigation District at the office of the Secretary in Grenada, California, for the construction of two pumping plants, seven flumes, a ditch and minor project units; and for the furnishing of cement, lumber, reinforcing steel, metal flumes and concrete pipe.

The bids will be opened in public at 3 o'clock P. M. on March 5th, 1928, at the Office of the Secretary of Big Springs Irrigation District in Grenada, California.

Contracts will be let to the lowest responsible bidders subject to the right of the District to reject any or all bids.

Plans and specifications may be seen at the office of the Secretary.

By order of the Board of Directors of Big Springs Irrigation District.

VICTOR BOVO, Secretary.

NOTICE TO BIDDERS

(Classroom Building—Stockton)

Notice to bidders is hereby given that bids on the new classroom building in the northwest corner of the high school grounds, Harding way and San Joaquin Street, Stockton, Calif., as per plans and specifications on file at the office of the High School Board and also with Peter Ala, architect, 2130 North Commerce Street, Stockton, Calif., will be opened on Thursday, March 8, 1928, at 7:30 P. M., at the office of the High School Board, corner of Lindsay and San Joaquin Sts. Obtain bid form and plans and specifications from the Architect.

The High School Board reserves the right to reject any or all bids.

A certified check of 10% of the amount bid must accompany said bid. A bidder's bond will not be accepted.

Dated Stockton, Calif., February 16, 1928.

By order of the High School Board.

ANSEL S. WILLIAMS,
Clerk.

NOTICE CALLING FOR BIDS

(Outfall Sewer—Town of Hayward)

Pursuant to Statute and to Order of the Board of Trustees of the Town of Hayward directing this notice, Notice is hereby given inviting sealed proposals for bids, for the furnishing materials for and constructing an addition to the outfall sewer of the Town of Hayward, in accordance to the plans and specifications heretofore adopted for doing said work, and now on file in the office of the Town Clerk of the Town of Hayward, which said plans and specifications are hereby expressly referred to and made a part of this notice the same as if set out in length herein.

A copy of said plans and specifications will be furnished upon application to either the Town Clerk of the Town of Hayward, or to Jesse B. Holly, Town Engineer of the Town of Hayward, and the person applying for the same will be required to deposit \$5.00 for each set of such plans and specifications so fur-

nished, which said sum will be returned upon the return of said copies so obtained.

All proposals or bids shall be in writing in the form set out in said specifications and must be accompanied by a check payable to the Town of Hayward, certified by a responsible bank for an amount which shall not be less than ten per cent of the aggregate total of the proposal or bid, or by a bond for the said amount and so payable, signed by the bidder and two sureties, who shall justify, before an officer competent to administer an oath, in double the said amount and over and above all statutory exemptions.

Such sealed proposals or bids shall be delivered to Clerk of said Town of Hayward, on or before Wednesday, the 7th day of March at the hour of eight o'clock P. M., 1928. Proposals or bids will be opened and declared on said day and hour. The said Board of Trustees reserves the right to reject any and all proposals or bids.

Dated: February 6th, 1928.
(SEAL) M. E. TEMPLETON,
Town Clerk of the Town of Hayward.

NOTICE TO CONTRACTORS

GENERAL WORK

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Bldg., Sacramento, California, up to 2 o'clock P. M., Friday, March 9th, 1928, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the erection and completion of the General Work, Machinery Building, Agricultural Park, Sacramento, California, in accordance with plans and specifications there-

for, copies of which may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

The Machinery Building will be a one-story brick building with reinforced concrete foundations, common brick walls, and tile roof.

General Work will include all manner of work except Plumbing, and Electrical Work. Bids must be submitted on Proposal Forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bids, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, Machinery Building, Agricultural Park, Sacramento, California."

BENEFITS OF CITY PLANNING

Modern city planning pays, it means better living conditions, better business and a more attractive and agreeable city in which to live and do business according to a committee of nine nationally known business and professional men who have made a study of the subject in co-operation with the United States Department of Commerce.

Their conclusions are based on personal observation and analysis of the experiences of hundreds of American communities, with the object of finding out how city planning actually works out in practice.

A city or town, the committee points out in a special report just published, is a place in which to live, to work, and to play, and should be planned systematically with these ends in mind, just as the location of buildings on a factory site is carefully determined.

Business is much better in the Peninsula communities than in Southern California, says E. C. Cottier, San Mateo plumbing contractor, who recently returned from a tour in the southern part of the state.

A "Pittsburg" Automatic Water Heater installed in the Home indicates high quality throughout.

Recommended and specified by all the leading architects, plumbers and builders.

Consider the high merit of the Pittsburg coupled with "Pittsburg Perfect Service."

"Hot water quick as a wink."

TIMPIE HYDRATED LIME

(a true dolomite lime)

for Brick Mortar, White Coat and Sand Float Finish, and for inducing plasticity in and water proofing Portland Cement Concrete.

Used in approximately \$70,000,000 High Class Pacific Coast construction in last 3 years.

EXAMPLES:—

New Standard Oil Building, San Francisco	Central Bank, Oakland
Oakland Savings Bank	New Subway Terminal Building, Los Angeles
New Mark Hopkins Hotel, San Francisco	Federal Reserve Bank, San Francisco
New Hunter-Doolin Building, San Francisco	New Russ Building, San Francisco
Pacific Telephone and Telegraph Building, San Francisco	

Sold by most progressive dealers throughout Pacific Coast.

1928 EDITION

San Francisco Building Laws Now Ready for Distribution

With the issuance of this 1928 Edition, the Building Ordinance Books heretofore published will be obsolete, inasmuch as many sections of the law have been amended and additional sections added.

The 1928 Edition contains all the revisions and additions to the code up to and including January 31, 1928.

In addition to the Building Laws, the 1928 Edition contains FIRE ORDINANCES as regards the construction industry—the ELECTRICAL ORDINANCES and RULES of the San Francisco Department of Electricity—the BILLBOARD ORDINANCE and other laws covering regulations concerning the construction interests.

EQUIPMENT SPACE IN DEMAND AT ROAD EXPOSITION

Records for road shows in the United
States are expected to be shattered when
the Western Road and Equipment Ex-
position is opened in Los Angeles, March
7 to 11.

An unprecedented rush for space
followed announcement of this third
annual Pacific Coast display, and four
weeks before the opening date 125,000
square feet of exhibit space has been re-
served. By the time the exposition
opens, it is expected that approximately
100,000 feet of space will have been re-
served, which will mean the largest dis-
play of the kind ever held in the United
States.

An unusual feature of the exposition
will be that for the first time it will bring
the annual gathering of western con-
tractors, engineers, equipment distribu-
tors, supervisors and others together in
the same city.

The western district of the American
Association of Engineers have arranged
their annual convention during the
dates of the show, March 7 to 11. The
western chapters of the Associated Gen-
eral Contractors with delegations from
Seattle, Portland, Spokane, San Fran-
cisco, Denver and Salt Lake City also
will meet on these dates.

The Western Association of State
Highway Officials, the California State
Supervisors' Association, the Western
Construction Equipment Distributors
also will combine their annual gathering
with a visit to the exposition. These
conventions will serve to bring together
leading representatives in the eleven
western states of the contracting and
road building industry.

The exposition has been given recog-
nition by the United States Government
through the Bureau of Public Roads
which is sending a comprehensive exhibit
detailing an ideal plan for road building
from the initial financing through con-
tribution and down to the last detail.

NEW STATE HIGHWAY CHIEF TAKES OFFICE

C. H. Purcell, recently named Califor-
nia State Highway Engineer, officially
took office last Monday, succeeding R.
M. Morton, resigned.

Mr. Purcell recently met with the State
Highway Commission and participated
in a discussion of plans for handling of
convict camps and the \$50,000,000 road
program recently laid out for the biennium
by the commission. While rumors
have been current that several changes
in the engineering division were im-
minent, it is not expected they will be
announced until Mr. Purcell begins active
work.

Mr. Purcell is considered one of the
foremost road engineers in the United
States. He resided for a number of

C. H. PURCELL

years in Los Angeles, attended Stanford
University and later graduated from the
University of Nebraska. He has had
twenty-two years active experience in
civil engineering. For the past fifteen
years he has devoted himself exclusively
to highway engineering, and for the past
seven years has been connected with the
U. S. Bureau of Public Roads of Wash-
ington, D. C., with assignment as District
Engineer to the district comprising
Oregon, Washington, Idaho, and Montana,
with headquarters at Portland. Prior
to his connection with the U. S. Bureau
of Public Roads, Mr. Purcell served as
bridge engineer for the Columbia River
Highway, bridge engineer for the Oregon
State Highway Department, and principal
assistant State Highway Engineer for the
same Department. An offer of appoint-
ment as State Engineer of Oregon was
declined by Mr. Purcell.

Mr. Purcell's experience also includes
railroad construction and location, smelt-
ing and power developments, both in
North and South America. He is an as-
sociate member of the American Society
of Civil Engineers.

POWER ENGINEERS WILL INSPECT EUROPEAN PROJECTS

A large number of engineers associ-
ated in the Midwest Power Conference
are planning to go abroad on the Interna-
tional Power Tour. The party will sail
from New York on August 18. While in
Europe they will visit most of the large
power plants and new developments in
the various countries.

The tour will last six weeks and in con-
junction with the visits to the various
plants, several sightseeing and pleasure
jaunts have been arranged.

Inspiration for the sponsoring of such
a tour was found by the Midwest Power
Conference, in fact that power develop-
ment in Europe is progressing very rap-
idly and has made tremendous strides
following the war.

Foreign engineering bodies have ex-
tended the warmest of invitations to the
American Engineers. Plants will be
thrown open for their inspection and re-
ceptions will be given for them at vari-
ous places on the tour route.

It is quite probable that definite con-
nections will be established between the
engineers abroad and their visitors for
the exchange of ideas, etc.

Several countries will be visited and
the itinerary has been arranged with
great care so that engineers who take
this tour will have ample time to see the
sights and scenic beauties of Europe.

Headquarters have been established by
the Midwest Power Conference at Suite
656, 25 Broadway, New York, for the In-
ternational Power Tour. Interested en-
gineers can secure additional details at
that address.

SCHOOL BUILDING SPECIALIST NAMED AT WASHINGTON

The Bureau of Education, Department
of the Interior, has just announced the
appointment of Miss Alice Barrows as
specialist in school buildings in the City
Schools Division. The Bureau is under-
taking a study of the school-building
situation in 100 representative cities. The
full text of the statement follows:

Miss Barrows was appointed as a re-
sult of a general demand existing in ed-
ucational circles throughout the country
for information regarding school building
surveys. She was formerly specialist in
the city school systems and in that ca-
pacity she gave much of her time to a
study of the platoon plan of school or-
ganization. She has conducted some 20
school building surveys during the past
six years, the most recent being the
school building survey of the Portland,
Oregon, schools. The 15-year building
program recommended by the survey was
adopted by the Board of Education of
that city and is now being carried out.

The Bureau of Education is now un-
dertaking an exhaustive study of the
school building situation in 100 of the
leading cities of the country, covering
such points as the amount of school
congestion, the educational facilities pro-
vided, the type of modern elementary,
junior high school, and high school build-
ing being provided, with cost of same.
This is the first time such a compre-
hensive study of the school building
situation has been undertaken.

Miss Barrows was graduated from
Vassar and was a Fellow of Columbia
University. She was a teacher in ele-
mentary schools and high schools and
an instructor at Vassar. After leaving
Vassar, she specialized in educational
and social surveys, including surveys of
school buildings.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department

S F GENERAL CONTRACTORS ELECT OFFICERS AT ANNUAL MEETING

The Annual Meeting and election of directors of the General Contractors of San Francisco, was held at the Stewart Hotel, February 16th. The business meeting was preceded by an excellent dinner with some fifty members participating.

President Bergstrom's annual report reviewed the Association's activities during the past year, calling particular attention to the successful legislative campaign, not only in the City and State Government, but also in the National Government. During the course of the meeting, many matters of importance were discussed by those present, the most important being that of broadening the scope of the organization to such an extent that no general contractor in this vicinity could afford to be outside of the organization.

The following directors were unanimously re-elected to serve for the ensuing year: Messrs. A. H. Bergstrom, John Monk, J. G. Leibert, W. W. Hayes, W. J. Stevens, J. W. Cobby, N. E. Nielsen.

At the organization meeting of the Board, the following officers were chosen: A. H. Bergstrom, President; John Monk, 1st Vice-President; J. G. Leibert, 2nd Vice-President; W. J. Stevens, Treasurer; C. J. Dixon, Secretary; J. W. Cobby, W. W. Hayes and N. E. Nielsen, Directors.

ALAMEDA CO. BUILDERS SMOKE AND ENJOY FILMS

The first of a series of social jinks to be featured monthly by the Builders' Exchange of Alameda County was held in the exchange quarters last Tuesday evening.

Features of the evening were motion pictures displayed by Henry J. Hoey of the Boeing Air Transport Co. and the Bates Valve Bag Corp. The former firm provided films showing flights in the North Pole region and a series of films on the Lindberg flight to Paris.

The film of the Bates Valve Bag Corp. featured the use of the Bates bag in the construction field. A test where a sack of cement encased in the Bates bag was dropped into a container of water and taken therefrom with the contents in perfect condition, establishing the worth of the bag from the waterproof standpoint.

To the tune of "Heinie" Gentry's orchestra members of the exchange smoked cigars and cigarettes which were distributed by the organization.

Regular monthly socials of this type are scheduled for the exchange, according to C. M. Morehead, secretary, to promote a greater get-together spirit among the members.

Adrian B. Greenberg and George Bicaluppi were in charge of the arrangements for the social.

BAY CITY ENGINEERS ARE FETED AT SACRAMENTO

A delegation of the San Francisco Chapter, National Association of Power Engineers, was entertained by the Sacramento Chapter, Feb. 25 and 26. The party arrived Saturday evening, and after a dinner at the Hotel Sacramento, met at the Capital National Bank for a discussion of engineer topics. The Sacramento municipal filtration plant and the steam plant of the Pacific Gas & Electric Company were inspected by the delegation under the guidance of Engineers Edward Kay and George D. Burlingame.

CLEVELAND MAKING PROGRESS IN TRAINING APPRENTICES

A modernized version of the apprenticeships in the guilds and the handicrafts of the Middle Ages has been developed under the vocational and public school system of Cleveland.

The plan was described recently in Boston before the department of superintendence of the National Education Association by Howard L. Briggs, director of vocational and practical arts education in Cleveland.

Briggs said that "national prosperity is based upon industrial competition and certainly an effective program of apprentice training will form a basic element in enabling us to compete internationally for the economic supremacy to which we aspire."

"Before any trade training courses are established," he said, "a joint advisory committee upon apprenticeship must be established by the trade itself."

"Definite 4-year apprenticeship agreements are drawn up with the students for a minimum of four hours a day working time with pay, and the schools are supplied by the trade with the materials needed for instructional purposes."

"At the present time," he added, "we are training every bricklayers', carpenters', plumbers', electricians', painters', paperhangers', sheet metal workers' and stonecutters' apprentice in the city of Cleveland."

MASTER PAINTERS DISCUSS CRAFT BETTERMENT

The bettermen of the painting industry, from the point of work improvement and improvement of general conditions was the subject of a series of five-minute talks at a gathering of master painters of Santa Clara county at a dinner at the Sainte Claire Hotel, San Jose, Feb. 21.

Architects were invited and several of them made short talks. The meeting is one of a series which is designed to improve the profession generally.

The speakers were Walter McGinley, T. W. Von Hauck, of Palo Alto; Carl McClellan, William Herman, A. C. Traux, Charles Scarper and Charles Lynds, all master painters.

Architects who spoke were Ernie Curtis, Ralph Wyckoff, Carl Carlson, Carl Wolf, Charles McKenzie, H. W. Higbie, and Warren Skillings.

A bronze plaque, shaped like a palette, was presented to the local master painters' organization by W. W. Woolley, regional president. It was the prize offered for the greatest membership during the year 1927.

The entertainment committee included G. E. Lenzen, Charles Lynds and William Loos.

MAKE YOUR ORGANIZATION GROW

Ten good reasons for the growth and progress of your association: (1) Exchange ideas; (2) Use better apprentices; (3) Improve trade conditions; (4) Prevent unjust legislation; (5) Regulate working and wage conditions; (6) Hold educational meetings addressed by specialists; (7) Secure lower insurance rates and proper classification; (8) Compile building construction reference information; (9) Kill distrust and replace with friendliness and co-operation; (10) Raise the building industry to the dignity to which it belongs.

LUMBERMEN TOLD NEED OF CO-OPERATION

Declaring that individual prosperity depended upon the success of the lumber industry, Robert M. Graham of Gre. Falls, Mont., president of the Western Retail Lumbermen's Association, opened that organization's annual convention at Salt Lake February 23, with a plea for greater co-operation among lumber men. He said in part:

"Those of us who are cognizant of the benefits of our association know that we need to present a united front in the business struggle that confronts us."

"The old days are gone, never to return. In those days we regarded our competitor, in the retail lumber across the street, as the only fellow we had to compete with."

Now, the bulk of our competition is not with our fellow retail lumbermen but rather with the automobile man, the radio man and others who are out after the dollar which is to be spent."

The present generation is pursuing different ideals and ideas than we have used. The wise man recognizes this and charts his course accordingly. If he does not he is going to be left behind as the procession moves forward."

"The days of 'let the buyer beware' have gone. Fortunately, the ethical standards of the profession have been so raised in the last few years that one can sit down with his competitor, make business deals with the other fellow, put his cards face up on the table and know that there is no 'joker' running wild."

PLASTERERS ELECT OFFICERS

Officers elected at the annual convention of the California State Master Plasterers Association, held recently in San Jose, were: Fred W. Young of Los Angeles, president; P. H. Donnelly of Oakland, first vice president; Joe Young of Santa Monica, second vice president; Ray Anderson of San Diego, third vice president; J. J. O'Connor of Los Angeles, treasurer, and Don R. Wadle of Los Angeles, secretary.

Members of the executive board are: George Pedgrift of Los Angeles, E. J. Thayer of San Diego, William Keen of Glendale, Leo Ludlow of Santa Monica, L. F. Robinson of Pasadena, John Watson of Santa Barbara, M. E. Summers of Fresno, T. D. Sexton of Oakland, John Perry of Stockton, R. I. Stienagel of Sacramento, Charles Smith of San Francisco, A. H. Winchcole of Richmond, and W. I. Sinclair of San Jose.

SUB-BIDS AVAILABLE ON STATE TEACHERS' PROJECT AT FRESNO

General contractors figuring the Fresno State Teachers' College project at Fresno are requested to communicate with Mr. H. R. Cayford, secretary-manager of the Fresno Builders' Exchange, 1837 Merced St., Fresno. Mr. Cayford announces that sub-contractors in Fresno have prepared sub-bids on the project and desire to submit same to those bidding on the general contract. The Valley Lumber Company of Fresno desires especially to submit bids on the lumber.

STEEL INGOT PRODUCTION

Steel ingot production shows a higher rate of activity than last year and the last few weeks. The United States Steel Corporation is operating at about 88 per cent capacity, a decline of 1 per cent from the preceding week and 1 per cent higher than a year ago. The average rate for the independent steel companies is 2 per cent higher than last week and 1 per cent above a year ago. The increase from two weeks ago is 6 per cent for United States Steel and 8 per cent for independents. Unfilled orders for steel reported January 31, 1928, by the United States Steel Corporation amounted to 4,275,947 tons, which is the largest back log of orders since March, 1926.

HERE — THERE —
EVERYWHERE

Mr. J. Twaits of the Seofield-Twaits Company has been nominated for president of the Southern California Chapter, Associated General Contractors of America. Twaits has served as vice-president during the last year. E. A. Irish was nominated for vice-president and George He of the Thomas Havery Company was nominated for secretary-treasurer. Twenty nominations were made for the office of director, six to be elected. The election will take place at the next regular meeting.

The regular monthly banquet-meeting of the Richmond Builders' Exchange was held Feb. 23 with about one hundred in attendance. Motion pictures and a musical program comprised the entertainment features arranged for by Henry Gibson, representative of the W. P. Miller Company. A short business session preceded the banquet.

Frank C. Kendall of Spokane, Wash., was elected president of the Western Retail Lumbermen's Association at the annual convention in Salt Lake City, recently. Vice presidents elected included J. E. Olds of Winslow, Ariz.; M. F. Din Prescott of Fresno, and Jesse E. Smith of Reno. Directors elected included, P. M. Norbryhn, Rio Linda, Cal.; Edward Von Tobel, Las Vegas, Nev.; and W. W. Anderson, Ogden, Utah. Butte Montana, was selected as the 1928 convention city.

Second reading and passage of an ordinance prescribing the rules and regulations for the installation of electric wiring in the city of Richmond has been voted by the city council. All electric wiring hereafter undertaken within the city limits will be under the code of the National Board of Fire Underwriters and regulations of the State Safety Commission.

L. M. Hundley of the Unorganized City has been nominated for the office of director of the San Francisco Builders' Exchange.

Retail lumber dealers of Marin County are organizing for co-operation with the National Retail Lumber Dealers' Association in a nation-wide movement to promote home ownership. Harry Ballou has been requested to become chairman of the movement in Marin county by L. Lewin of Cincinnati, president of the national Association.

Archie Winchcole, the singing plasterer of the Richmond Builders' Exchange, left last Sunday for a two-months trip to Europe.

Mano Zan, who has had valuable experience in executive and association work, has been appointed manager of the Los Angeles Builders' Exchange. Mr. Zan was formerly connected in a managerial capacity with Meese & Gottlieb Company, machinery and equipment dealers and later with the Commercial Board of Los Angeles.

More than sixty members of the Agricultural Engineering classes at the University Farm, Davis, were participants in a visit to the steel plant of the Lumbia Steel Corp. at Pittsburg, Contra Costa County. The expedition was in charge of Professor H. A. Stirnman and S. Winters of the agricultural engineering department. A complete inspection tour of the plant was made showing the manufacture of barbed wire, coils, galvanized iron and other products.

PATENTS

Granted to Californians as reported
by Munn & Co., Patent Attorneys

John A. Renstrom, of San Francisco. SEAT OR PLATFORM FOR OUTSIDE WINDOW CLEANING. The primary object of this invention is to provide a safety seat or platform of the class indicated that is very simple in design and construction, is strong, durable and that may be readily and safely adjusted to any ordinary window frame.

Paul Di Pietro and Harry M. Edwards, of San Francisco. VEHICLE SIGNAL. This relates to the class of electrically illuminated signal devices used upon vehicles to indicate the intention of the driver to turn, slow down or stop.

Alexander Dickey, of Bakersfield. SOCKET WRENCH. This relates to socket wrenches or the like, and aims to provide novel means whereby wrench socket members may be readily and easily inserted and removed from the wrench supporting the same, thereby adapting a single wrench for use in connection with wrench sockets of various sizes.

Frank W. Alder, of Oakland and Sydney N. Baruch of Palo Alto. ELECTRIC CIRCUIT BREAKER. An object of this invention is to provide an automatic circuit breaker in which all of the separable contacts are submerged in oil. The inventors assign their patent to Federal Telegraph Company.

Alfred C. Mayers, of San Jose. HINGE. This provides a spring hinge construction by means of which a closure may be suspended from the head casing of an opening and normally held in closed relation thereto. Mr. Mayers assigns his patent to H. W. Garman (one-half) and one-half to B. S. Settrini.

Edward H. Noack, of Stockton. CONVEYER CLEAT. This relates to improvements in conveyer cleats of that type particularly used on chain drag conveyors for sawdust and refuse in saw mills and like places. Mr. Noack assigns his patent to Monarch Foundry Company.

J. Claude Hosch, of Los Angeles. AIR HEATER. This relates to heaters and more particularly to air heaters that serve to provide a large current of heated air to a space to be warmed.

OAKLAND SCHOOL CONSTRUCTION
BEING RAPIDLY COMPLETED

Oakland's \$9,600,000 school building program, started in 1924, is three-fourths completed and will be finished within the five-year period planned, according to the report of Don B. Rice, business manager for the school department, to the board of education.

A total of 42 school buildings costing \$4,095,024.63, with a capacity of 16,527 pupils, have been completed and are now in use. Sixteen buildings costing \$1,760,634.64 with a capacity of 6390 pupils are now in the course of construction. Final plans and specifications have been approved for ten more buildings to cost \$1,156,000 and house 2830 pupils. Preliminary plans are now being prepared for seven buildings to cost \$651,000 and house 1955 pupils.

Savings in construction costs have enabled the business department to extend building operations beyond the program as outlined in the bond issue. A net gain of 53 additional classrooms over the amount provided in the original plan was built and added to the school system. This is equivalent to four schools the size of the Glenview elementary school plus one the size of the Crocker Highlands school.

Eight additional sites have been purchased over the amount provided in the original program, the total cost of these sites being approximately \$200,000.

EMPLOYMENT SERVICE
ENGINEERING SOCIETIES

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 715, 57 Post Street, San Francisco, (Phone Sutter 1684).

R-1474-S ENGINEER DRAFTSMAN, prefer C. E. graduate, with hydraulic experience, 28-38 years. Must be able to turn out A-1 drawings and tracings for record maps, etc.; \$225 a month. Location San Francisco.

K-32-X-4259-CS CHEMICAL ENGINEER to study corrosion problems for large producing oil company. Must be technically trained, but reliability, industry and initiative is more important than anything else. Salary \$175 and car mileage. Opportunity. Loc. Mid. West. Headquarters East. Apply by letter, with references and photo.

R-1491-S SALES ENGINEER, to carry on a research and statistical department for a welding organization, and to do indirect selling through contact with key men in the field. Must be physically active, technically trained, good personality and free to travel. Salary and expenses. Apply by letter with photograph. Headquarters West.

X-3810-CS SALES ENGINEER for company manufacturing high tension insulators for power and transmission companies. Single man preferred. Apply by letter. Headquarters New York City. Los. South America.

STOCKTON ARCHITECTS WIN SUIT
ON GALT SCHOOL

Members of the Board of Trustees of the Galt School District (Sacramento County) are ordered to pay the claim of \$1296 made by Davis, Heller & Pearce Company, architects, under the terms of a writ of mandate issued by the Superior Court.

The architects had served in the construction of the Galt Union High School building up to December, 1926, when the school board terminated their services with the explanation that there was no money in the district's funds to pay their claim.

In a previous suit the architects had secured judgment for the sum, but the school board refused to pay, claiming that money secured for school purposes in one year could not be used to pay for services rendered or supplies furnished the previous year.

EL DORADO LIME QUARRY TRAM
READY FOR WORK

The more than three-mile tramway which will carry rock from the quarries of the Diamond Springs Lime Company to their mill and crusher has been completed and work is going ahead rapidly on quarry buildings and on the mill, according to word from Diamond Springs, El Dorado County.

Aside from the erection of the tramway, most of the work has been in the nature of excavations and the framework of the plant is just beginning to rise.

Officials of the company announce that construction work may exceed the approximate figure of \$250,000, set some time ago as being the probable cost of the development.

BAD BILL COLLECTOR

With the vast increase in the use of various installment, deferred payment and credit plans have come added collection difficulties. For the few who drop behind in payments and fail to respond to polite and even caustic collection letters, a Pittsburgh firm resorts to a little broadcasting. A man drives to the door in a bright red car carrying a sign in the largest possible letters, "Bad Bill Collector."

THE OBSERVER

**What He Hears
and Sees
On His Rounds**

"The Observer," due to the courtesy of J. E. Mackie, managing secretary of the Pacific Coast Building Officials Conference, is in receipt of the 1927 edition of the Uniform Building Code, just off the press and now being distributed.

Publication of the code is being hailed with interest by contractors, engineers, architects, building officials and all who are connected with the construction industry. The code was prepared and published by the Pacific Coast Building Officials Conference.

Adoption of the uniform building code by individual cities is the next step toward the goal set by the conference. Uniformity in building codes of cities would provide a much needed simplification for the entire building industry. There is a great deal of red tape and ambiguity in building codes today, and in many cases there exists in building regulations of neighboring towns startling contradictions, the code of one city utterly contradicting that of a sister city. Yet building officials agree that there is no reason why engineering, fire and structural regulations should differ in any two cities, and such differences work a hardship on contractors, engineers and architects whose practice reaches into other cities than their own, and on building material manufacturers whose product is used in many cities.

The uniform building code has been written especially for use by western cities, for the purpose of providing a set of building regulations broad enough of application to be used in any town, in whatever locality, yet restrictive enough to insure safety to the public and economy of construction.

At the annual meeting of the organization in Phoenix last October, the proof draft of the code was adopted. Since that time it has been given further study and an index and appendix added.

More than two years of active work have gone into the preparation of the ordinance, with hours of consultation and discussion with building officials, architects, engineers, contractors, building material dealers and manufacturers, financial and banking interests and technical research experts. The basis of the uniform code, then, is broader than the opinions of a group of municipal building officials, and the 1927 edition, as it now stands, reflects the best of the combined opinions and experience of a large body of experts. No stone has been left unturned to make this code the complete, reliable, unbiased and workable set of regulations which members of the Pacific Coast Building Officials Conference believe it to be.

Orders for more than a thousand copies have already been received at conference headquarters in Long Beach, Cal., these orders coming from all parts of the United States. The code is receiving widespread favorable comment for its completeness and logical arrangement, and because it contains the very latest information available concerning modern building regulations.

Thirty western cities at the present time are considering adoption of the 1927 edition, and some have already commenced work through committees which have started a study of the code in its present form.

During the entire period of code preparation discussions were held at various places along the coast, and these discussions and meetings were always open to the public. Every building interest attending these meetings was given opportunity to enter the discussions, and the book, as it now stands, is considered the latest word in building rules—an unbiased, thoroughly workable and fair set of building regulations.

The uniform code is now ready for adoption in any city. For California cities all that will be necessary for adoption of the code will be the framing of a short ordinance consisting of a few paragraphs. This is called an ordinance of adoption by reference, which is a method permitted by state law in California.

The regulations in the code have been determined on the basis of minimum safe standards, with the thought that there is no necessity of putting more material into a building than is required for safety of future occupants according to the use to which the building will be put.

The Reno, Nev., plant of the Verdi Lumber Co. may be taken over on March 1 by A. T. Eveleth of Verdi, who was manager for the company's plant in Verdi for 15 years.

The Kentucky Retail Lumber Dealers Assn. has invested the major portion of its surplus funds in local building and loan associations, as a practical method to aid institutions furthering the home building idea.

J. M. Hughes of Palo Alto and Mark Glaze of Mountain View, plumbers, have been awarded \$10 each by the Clay Products Association of San Francisco for technical improvements offered by them. The basis for the award given Hughes is a new frame for use in making the bitumen joints in vitrified clay pipe house sewers. Glaze's contribution is the use of sand in making the seal where the joints are poured vertically.

At least 2000 building workers are killed each year, 10 every working day, an accident rate higher than any other except the mining industry, according to the Worker's Health Bureau. In four states—New York, Pennsylvania, Ohio and California—over 56,000 accidents were reported in 1926 of which 600 were fatal.

Col. William B. Greeley, chief of the Forest Service, will resign May 1, 1928, to accept a position with the West Coast Lumber Manufacturers Association. It is announced by Secretary of Agriculture Jardine, Maj. R. Y. Stuart, now assistant forester in the Forest Service in charge of public relations, has been appointed to succeed Colonel Greeley who has been with the Service since 1904, his first connection, following some investigative and inspection work, being that of overseeing the welfare of the Sequoia National Forest in Southern California.

Lumber and other materials used in the manual training department of the Sacramento City School District will hereafter be purchased by the Board of Education in lump quantities and then distributed to students on stock tickets. In the past, each pupil has purchased his own materials.

T. A. Tomasini will file application with the Marin county supervisors April 1 seeking a franchise to construct a trestle bridge over Richardson Bay between Sausalito and Belvedere, Marin county. The proposed bridge will be 7300 feet in length and 22 feet wide. The same owner is also promoting a bridge between Alameda county, and Bluff Point, Marin county. This latter project will cost approximately \$18,750,000.

A new term building program for a California State institutions will be prepared immediately for completion in time for the 1929-31 State budget. Such a program has been authorized by Governor C. C. Young, it is announced by A. I. Heron, director of the department of finance. Heron has requested all State departments to start at once upon the requests for permanent improvement appropriations from the next budget.

Pledging a fund of \$1,000,000 to educate the public to the supply, quality and uses of lumber, was announced recently by A. C. Horner of San Francisco, addressing the Western Retail Lumbermen's Association in convention at Lake City, Feb. 24. The fund has been pledged by the National Lumber Manufacturers' Association, representing 11 regional organizations of lumber manufacturers and timber owners. Horner said. He called on the dealers to support a plan now being worked out by the national association whereby lumber will be definitely marked for quality. On grade would be "just lumber," while higher grade would be offered carrying financial guarantee.

Don M. Crist, electrical engineer, has filed a voluntary petition in bankruptcy in the United States District Court at San Francisco listing liabilities of \$52,917 and assets of \$78,560. Of the liabilities \$34,500 is held on a promissory note due Simon Erlanger. The bulk of the assets are in Crist's holdings of 765 shares of the Triumph Steel Company.

Retail lumber dealers of Sacramento County, are organizing for co-operation with the National Retail Lumber Dealers Association in a nation-wide movement to promote the ownership of homes and the keeping of present structures in repair as well-improved property. J. H. Shepard of the Friend & Terry Lumber Company of Sacramento, is in charge of organization in Sacramento County, and will appoint his committee soon. The movement is to be supported by a four years' national newspaper advertising campaign, which will cost about \$40,000,000.

The Portland cement industry in January, produced 9,782,000 barrels, shipped 6,531,000 barrels from the mills, and had in stock at the end of the month 25,193,000 barrels, according to the United States bureau of mines. The production of Portland cement in January, 1928, showed an increase of nearly 12 per cent and shipments an increase of about 17 per cent as compared with January, 1927. Portland cement stocks at the mills were 11 per cent higher than a year ago.

Pacific Portland Cement Company reported earnings of \$2 a share on \$2,500 shares of common outstanding, after depreciation, bond interest, taxes and preferred requirements had been met. Secretary H. T. Battelle says this record is officially satisfactory. Earnings represent nine months' business because the fiscal year of the re-organized company began on April 1. All officers and directors were re-elected. For the purpose of expanding the scope of the company's operations, and to obtain additional capital on an advantageous basis, President S. Waldo Coleman has called a meeting of stockholders of North American Investment Corporation, March 13, to consider an increase in the capital stock from \$5,000,000 to \$18,000,000. Funds derived will be used to purchase securities. Stockholders will be asked to approve creation of \$5,000,000 of a new class of 50 per cent stock, \$100 par value, and to increase capitalization of common stock from \$2,000,000 to \$10,000,000, of which \$1,350,000 is at present outstanding. The \$3,000,000 of 6 per cent preferred, of which \$1,650,000 is now outstanding, is not to be increased. New 5½ per cent preferred will stand on same basis as existing 6 per cent preferred except for lesser dividend rate, and will be redeemable at company's option at 105 upon 30 days' notice.

An article on trade-union old-age pensions and hames for the aged and tuberculosis in the February issue of the Monthly Labor Review shows that the question of care for their aged or disabled members is receiving more and more attention from labor organizations. Old-age pensions are paid at present by ten national or international unions to those members who fulfill certain requirements as to age, union membership, and physical and financial condition, and several other unions provide some sort of old-age benefit although they do not pay a regular pension. A home for the aged and disabled members is maintained by five unions, two of which also operate a tuberculosis sanitarium in connection with the home, while a number of unions contribute in one way to the cost of treatment for tuberculosis among their members.

The work of the United States Reclamation Service was discussed in detail by B. Debler, federal reclamation engineer, in a recent address before members of the Sacramento Section of the American Society of Engineers. Mr. Debler reviewed a number of the most important projects now under way by the government.

The National Lumber Trade Extension Committee has found it impossible to determine the winners of the National Lumber slogan contest to make an announcement of the results at the present time. The announcement will be made in the latter part of March. The Committee explains that the complications of making careful selections of fifty-seven winning slogans from 370,000 submitted are beyond comprehension of anyone who has not participated in this or a similar endeavor. As soon as the decision is arrived at, every contestant will receive communication informing him of the result.

The Carpenter's District Council of St. Louis following a referendum vote of 900 members announced that commencing May 1st it will adopt the five-day week sponsored by the American Federation of Labor. Approximately 1400 other members of the St. Louis Building Trades Council with a total membership of 18,000 have already voted for the shorter week. The electrical workers, plasterers, hodcarriers and lathers are now working under the short week arrangement. A five-day week for all members of the St. Louis Building Trades Council is forecast.

TRADE NOTES

Plant of the C. L. Frost Roof & Tiling Company at Pacific Grove, Monterey County, suffered an \$8000 fire loss recently.

Layrite Floors Corp., of Oakland, capitalized for \$70,000 has been incorporated. Directors are: Sam Humphrey of Oakland and H. B. Cleveland of Berkeley.

Peter Bercut will operate from 1559 Howard St., San Francisco, under the firm name of Neon Electric Sign Company.

Hoblek Fireplace Furnace Co. of Oakland, capitalized for \$75,000 has been incorporated. Directors are: Anton Hoblek, Paul D. Morse and L. H. Kelleher.

MacDonald & Harrington of San Francisco are reported to have purchased the plant and yards of the Vallejo Lumber Co. at Vallejo. Carl Mitchell will be retained as manager under the new ownership.

United Construction Co. of San Francisco, capitalized for \$25,000 has been incorporated. Directors are: C. H. Doty, Lewis De Lew, Salve Matheson and E. L. Fullerton.

United Concrete Pipe & Construction Co., operating plants at Merced, Woodland and Delhi, has purchased a 3-acre tract on the Southern Pacific Railroad at Tracy and will establish a plant for the manufacture of concrete pipe and other concrete products.

Coast Rock & Gravel Company, having notified the Railroad Commission that it has obtained a satisfactory adjustment of the matters involved, the Railroad Commission has set aside its order reopening the proceeding involving rock and gravel rates on the application of F. W. Gomph, as agent for the Pacific Freight Tariff Bureau and Southern Pacific Company.

A school to educate western lumbermen in the needs and practices of the industry was urged at the annual convention of the Western Retail Lumbermen's Association at Salt Lake City, by Parson P. A. Simpkin, chaplain of the Concatenated Order of Hoo Hoo.

MacDonald & Harrington of San Francisco, who recently purchased the business of the Vallejo Lumber Company at Vallejo, contemplate the erection of a new planing mill and the installation of modern mill equipment. The present mill will be remodeled for warehouse quarters.

Stone & Webster, Inc., who claim to have designed and constructed more than 10 per cent of the total installed capacity of the power industry of this country, have opened a Paris office through which growing foreign business will be handled. James F. Case, former government engineer, will be in charge.

Output of Schumacher Wall Board Corp. will be increased 75 per cent to 77,000,000 square feet of wall board and plaster monthly with opening of a new \$500,000 factory in Los Angeles. The plant will be running at full capacity by March 15. The present production of the corporation is 4,000,000 monthly. The new factory will enable the company to expand into the national field, and the company plans distribution of products throughout the East.

ALONG THE LINE

W. W. Crosby has reopened his office as consulting engineer at Coronado, Calif. He is specializing on highways, parks and traffic.

Fresno Engineers' Club held a dinner-dance at the Hotel Fresno, Feb. 24. For members of the club who did not dance card games, in charge of Leonard Hall, were provided.

H. Diedsch of Los Angeles addressed the Sonoma County Lumbermen's Association at Petaluma recently. A full course dinner was served after various other speakers reported on conditions in the lumber industry throughout the county.

California State Board of Architecture, Northern District, has granted certificates to practice architecture to Reddick H. Bickel, Cliff Hotel; Richard A. McLaughlin, 618 20th Ave., and Benjamin Schreyer, 1211 Russ Bldg., all of San Francisco.

John D. Galloway, San Francisco engineer, has been retained as consulting engineer by directors of the Tulare Lake Water Storage District, on its \$1,500,000 project to provide flood water protection, and an irrigation system on the 100,000 acres of grain lands in the Tulare Lake bottoms.

Harrison Todd, Sacramento engineer, recently addressed the Architects' and Engineers' Club of Sacramento on a new method of waterproofing not only to keep small underground basements dry and sanitary but can be used for underground shafts to a great depth and will stand any amount of pressure.

Henry Root, 83, pioneer California engineer and railroad builder, died in Oakland Feb. 23. Mr. Root retired from active service in the eighties. He was engineer in charge of construction for the old California Street Cable Railway in San Francisco and later installed the cable lines on Market, Haight, McAllister and other streets in the same city.

In connection with the building program of the University of California, Professor R. E. Davis of the College of Civil Engineering left Feb. 27 for the East on a trip that will require about three weeks. Professor Davis will investigate certain phases of construction that are of importance in the successful completion of the large building program contemplated for the Berkeley campus.

Sanderson & Porter, engineers, have moved their San Francisco offices to the Crocker First National Bank Building. The home office of the firm is in New York City. Sanderson & Porter are nationally known engineers and have been identified with many important enterprises on the Pacific Coast, including the designing and construction of the Sierra & San Francisco Power Company's properties, the Valley Pipe Line for the Shell Company of California, and many other western projects. Wynn Meredith is the resident partner of the firm. E. N. Sanderson, the senior partner, is the president of the Federal Light & Traction Company of New York, and H. Hobart Porter is the president of American Water Works and Electric Company, also of New York.

Building News Section

APARTMENTS

Plans Being Figured.

APARTMENTS Cost, \$15,000
SAN FRANCISCO. NE Church and Twenty-second Sts.
 Two-story and basement frame and stucco apartment building (7 apts.)
 Owner—George Reede, Humboldt Bank Bldg., San Francisco.
 Architect—Bos & Quandt, Humboldt Bk. Bldg., San Francisco.
 Building permit applied for.

Plans Being Prepared.

APARTMENTS Cost, \$30,000
REDWOOD CITY. San Mateo Co., Cal. Birch Street and Broadway.
 Two-story frame and stucco apartment building.
 Owner—Misses Jean, Marion and Blanche Cumming.
 Architect—John McCool, Hearst Bldg., San Francisco.
 Plans will be ready for bids in 30 days.

Sub-Bids Being Taken.

APARTMENTS Cost, \$150,000
SAN FRANCISCO. NE Bay and Larkin Streets.
 Six-story and basement reinforced concrete apartment building (24 apts.)
 Owner and Builder—R. E. Romano, 791 Ashbury St., San Francisco.
 Architect—None.

Plans Ready For Bids March 2nd.

APARTMENTS Cost, \$110,000
SAN JOSE. Santa Clara Co., Cal. N. First St. and Hensley Ave.
 Two-story frame and stucco apartment building (34 apts.)
 Owner—C. W. Howson.
 Architect—Wolfe & Higgins, Realty Bldg., San Jose.

Sub-Bids Being Taken.

APARTMENTS Cost, \$50,000
SAN FRANCISCO. NE Presidio Ave. and Sutter St., N Sutter E Presidio Ave.
 Three three-story and basement frame and stucco apartments buildings (21 apts.)
 Owner and Builder—Stempel & Cooley, Hearst Bldg., San Francisco.
 Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

As previously reported, wrecking awarded to Symon Bros. Wrecking Co., 1435 Market St., San Francisco.

Plans Being Prepared

APARTMENTS Cost \$60,000
SAN FRANCISCO. N Duboce st. S Market.
 Three-story frame and stucco apt. bldg., 18 2 and 3-room apts.
 Owner and Builder—Lindsay Bros., 550 Joost st.
 Architects—R. R. Irvine & L. Ebbets, Call Bldg.
 Sub-bids will be taken in 2 weeks.

Contract Awarded

APARTMENTS Cost \$31,000
BERKELEY. Alameda Co., W Curtis st. N University ave.
 Frame and stucco apartment bldg.
 Owner—Grace Davis, 2247 Bancroft way, Berkeley.
 Architect—None.
 Contractor—A. G. Davis, 2247 Bancroft way, Berkeley.

Sub-contracts Awarded

APARTMENTS Cost \$--
SAN FRANCISCO. Jackson st. near Buchanan st.
 Fourteen-story class A steel frame and concrete apartment building (28 5-room apts.)
 Owner—A. Penziner, 750 Taylor st., S. F.
 Plans by owner.
 Plastering—J. M. Piconi, Hearst Bldg.
 Heating—Scott Co., 243 Mina st.
 Electrical Work—Collonan Elec. and Mfg. Co., 2211 Mission st.
Window Sash—Frank Graves, 285 Turk.
 As previously reported, structural steel awarded to Golden Gate Iron Works, 1511 Howard st.

Plans Being Revised

APARTMENTS Cost \$250,000
SAN FRANCISCO. Mission District.
 Ten-story class C steel frame and brick bldg., 50 apts., stores, offices and garage.
 Owner—Withheld.
 Architect—R. R. Irvine & L. Ebbets, Call Bldg.

Two stories of the structure will be devoted to garage. One story for stores and one floor for doctors' offices. Previously reported for a reinforced concrete bldg.

Sub-bids Being Taken

APARTMENTS Cost \$25,000
OAKLAND. Alameda Co., Cal. Flag ave. near Fruitvale.
 Two-story frame and stucco apartment building (6 apts., all modern conveniences).
 Owner and Builder—A. F. Flag, 2501 Best ave., Oakland.
 Architect—W. W. Dixon, 1840 Park Blvd.

Ready For Bids In Three Weeks.

APARTMENTS Cost, \$45,000
BERKELEY. Alameda Co., Cal. Telegraph Ave., bet. Bancroft and Alston Way.
 Three-story Class U-1 reinforced concrete store and apartment building (12 2-room apts. and 2 stores).
 Owner—Addie H. Gorrell, 37 Bonita Ave., Piedmont.
 Architect—McWethy & Greenleaf, 2910 Telegraph Ave., Oakland.

Concrete Contract Awarded

APARTMENTS Cost, \$75,000
SAN FRANCISCO. NE Gough St. and Fern Ave.
 Six-story and basement reinforced concrete building.
 Owner and Builder—A. Penziner, 750 Taylor St., San Francisco.
 Plans by owner.

Concrete—L. Le Lucca, 666 Mission St.
 As previously reported reinforced steel awarded to Soule Steel Co., Rialto Bldg., S. F.; structural steel to Golden Gate Iron Works, 1541 Howard St., S. F.

Contract Awarded.

APARTMENTS Cost, \$52,000
OAKLAND. Alameda Co., Cal. E-Third St. and Fifteenth Ave.
 Three-story frame and brick veneer apartment building (24 2-room apts.)
 Owner—Jacob Goldstein.
 Architect—Clay N. Burrell, American Bank Bldg., Oakland.
 Contractor—Edward Sommarstrom, 463 Jerome Ave., Oakland.
 Sub-bids will be taken in ten days.

To be Done by Day's Work

APARTMENTS Cost \$50.
OAKLAND. Alameda Co., Cal. E Yg St. N Mondana blvd.
 Three-story frame and stucco apartment bldg., 39 rooms.
 Owner and Builder—H. A. Norton, 1 Cavanaugh rd., Oakland.
 Architect—None.

Contract Awarded.

APARTMENTS Cost, \$25.
SAN FRANCISCO. No. 350 Dew Blvd.
 Three-story and basement frame and stucco apartment building (12 apt)
 Owner—Chas. Monson, 1855 San Bruno Ave., San Francisco.
 Architect—Chas. F. Strotroff, 227 1/2 R St., San Francisco.
 Contractor—R. Monson, 1473 7th Av San Francisco.

Sub-Bids Being Taken.

APARTMENTS Cost, \$600.
SAN FRANCISCO. N Pacific Ave 80 Laguna St.
 Six-story steel frame and concrete apartment building.
 Owner and Builder—Marian Realty Co 110 Sutter St., San Francisco.
 Architect—Douglas Stone, 354 Hobart St. Oakland.

Contract Awarded.

APARTMENTS Cost, \$90.
SACRAMENTO. Cal. SW Seventeenth and H Streets.
 Two-story apartments (Spanish type. 2 and 3-room apts.), 30x115 feet.

NOTE:—The following K.C.B.-like story appeared in these columns in June, 1924, and at that time a young lady had just entered our employ. She thought this story about the lady's underclothes being made of flour sacks very, very funny. She is one of the modern girls, knew only of silks, etc.

TIMES HAVE surely changed.
ON BUSY Market Street, San Francisco.
THEY MOVED a market.
THAT SELLS food you eat.
TO MAKE room.
FOR A beauty shoppe.
AND A 35-chair barber shop.
AND ON lower Market Street.
A FORMER saloon site.
IS A bobbed hair emporium.
SO IT is the barber.
WHO CAN afford.
TO PAY the high rents.
IN THESE bobbed hair days.
SANDY PRATT, President.
OF THE Pratt Building Material Co.
PRODUCER OF crushed rock.
WASHED GRAVEL and clean sand.
REMEMBERS OUR grandmothers.
AS SOAP makers.
OUT OF ashes.
AND GREASE from the kitchen.
BUT NOW with fireless cookers.
AND STEAM heat.
WE HAVE no ashes.
SO THE coming grandmas.
WILL HAVE to buy soap.
WHEN SANDY Pratt.
WAS A small boy.
DOWN in Tulare.
THE GIRLS wore underclothes.
MADE OF flour sacks.
HOW DOES Sandy know.

BECAUSE HE saw them.
ON THE clothes lines.
FLIRTING in the wind.
SAYING "SPERRY'S Best Flour."
OR "JONES' Oatmeal Mush."
BUT SHOW Sandy Pratt.
SELLER OF clean rock.
ALSO CLEAN sand and gravel.
THE HUSBAND or father.
WHO HAS the backbone.
IN THESE days.
OF SILKS and satins.
TO ASK his wife or daughter.
TO WEAR underclothes.
MADE OF flour sacks.
"I THANK you."

The wedding of Miss Rock Candy of Prattrock near Folsom, (home of Sandy Pratt's crushed rock and gravel plant) and B. A. Sandwich of Prattice, Monterey County. (Home of the sand plant). Miss Rock Candy made her wedding trousseau from Sperry flour sacks—a present from Sandy Pratt, gravel producer at Sacramento, Marysville, Prattrock (near Folsom) Mayhew (Sacramento County) and Prattice (Monterey County)—Central Office—San Francisco.

Paint on exterior brickwork; omitting room 4 deduct \$800 each school. Omitting rooms 4 and 5, deduct \$110 each school.

State will fur. corr. metal pipe.

UNIFORM WAGE SCALE DISCUSSED BY LABOR BODY

A uniform wage scale and a closer co-operation between organized labor and legitimate home contractors were topics of discussion at the regular monthly meeting of the Contra Costa County Building Trades Council, held in Martinez, Feb. 24. The purpose of the discussion was to perfect the plans for co-operation to meet conditions as they exist at this time, complaint being made that bidding, outside contractors are willing to take advantage of unemployment about the bay region and depress wage working condition. On bidding these contractors, operating on a shoestring, frequently embarrass the legitimate contractor who recognizes the merit of good workmanship and fair labor conditions.

SACRAMENTO BUILDING CODE HELD AID TO CITY

Sacramento's building code, just entering its second year of operation, has resulted in building construction improvement all along the line, declares L. Shields, city building inspector.

"The new code, based on systematic regulation of details, has given construction a stability not possible under the old system of individual instructions for each builder," Shields said.

"Contractors generally have expressed themselves as well satisfied with the code. It gives all bidders an equal chance because specifications are based on standard provisions," he continued.

One of the most satisfactory provisions, according to Shields, is that requiring fire-stops to be no larger than seven feet in any direction in concealed spaces. "This, he said, prevents a fire from extending, particularly in wall

Another provision which cuts down the fire hazard, Shields added, is one requiring garages nearer than three feet to other property to be built of fire or hour fire resisting material.

Theatre construction has become virtually fireproof, no wood being allowed in walls or roofs, while in residence wood lath has been outlawed near sto pipes. Chimneys must now have fl lining in all cases, he said.

These provisions have helped in the sale of houses, he declared, and have resulted in a better class of structures.

SPRING BUILDING IN EAST BAY EXCEED \$7,000,000

More than \$7,000,000 worth of building, not including residential or small apartment house construction, is now under way or planned for the immediate future in Oakland and the East Bay district.

Letting of the contract and groundbreaking for the new \$3,000,000 H. Capwell department store has given the building industry in Oakland a definite forward impetus and one of the most prosperous years in the history of Alameda county is predicted.

Other large projects listed include the new Bowles hall at the University of California, cost \$1,500,000; International House, a hotel for foreign students the university, to cost \$1,000,000; the new Duff-Win theatre to be erected on Seventeenth street at a cost of \$750,000; new rock bunkers on Peralta street for the William Ford Co., cost \$200,000; a new market at Fourteenth and Jefferson streets for James Rohan cost \$250,000; a \$200,000 addition to the He Corp. factory in Berkeley; a new office and store building with a frontage of 135 feet on Seventeenth street, planned by the Coit Investment Co.; a new \$750,000 warehouse for the Howard Termin Co.; a \$350,000 hotel for women on a site at Fifteenth and Castro streets, and new Pacific Telephone and Telegraph Co. building on Telegraph avenue, Berkeley cost \$100,000.

Official Proposals

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS
NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Highway Building, Sacramento, California, until 2 o'clock P. M., on March 21, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor, to which special reference is made, as follows:

Humboldt County (I-Hum-1-K), the following reinforced concrete girder bridges:

Across Prairie Creek about 1½ miles north of Orick, a bridge consisting of four 30-foot spans.

Across Lost Man Creek about 3 miles north of Orick, a bridge consisting of one 40-foot span and two 32-foot spans.

Plans may be seen, and forms of proposals, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the District office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the District office.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

DEPARTMENT OF PUBLIC WORKS,
DIVISION OF HIGHWAYS,
R. M. MORTON,
State Highway Engineer.

Dated: February 21, 1928

NOTICE TO CONTRACTORS

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Tuesday, March 27, 1928, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the erection and completion of the Store Room and Employees' Building, and Employees' Cottages, Veterans' Home, Yountville, California, in accordance with plans and specifications therefor, copies of which may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

The Store Room and Employees' Building is a two-story reinforced concrete building with cement finish floors and tile roof. The two Employees' Cottages are one-story each with reinforced concrete foundations, the balance being frame with plastered exterior and tile roof. Plumbing, Heating and Electrical Work is included.

Bids must be submitted on Proposal Forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Store Room and Employees Building, and Employees' Cottages, Veterans' Home, Yountville, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

Geo. B. McDougall,
State Architect.
B. B. MEEK,
Director of Public Works.

NOTICE OF TIME AND PLACE OF RECEIVING BIDS FOR EXCAVATOR

Notice is hereby given that the Jacinto Irrigation District intends to purchase one Model 204, P. & H. excavator equipped as dragline, complete with thirty-five foot boom and one-half yard dragline bucket, and hereby invites bids or proposals for the furnishing of same. Said bids or proposal shall be in writing and shall be delivered to the undersigned secretary of the Board of district, at the office of said district situated on lot No. 59 of the Jacinto Unit in said district, not later than the 6th day of March, 1928, at 10 o'clock a. m., at which time and place said board of directors will meet and open said bids or proposals, reserving the right to reject any and all such bids or proposals.

Dated this 21st day of February, 1928.
ROSCOE CALDWELL,
Secretary of Jacinto Irrigation Dist.

NOTICE TO BIDDERS

(Lockers and Furniture — Richmond Union High School District)

Notice is hereby given that the High School Board of the Richmond Union High School District will receive sealed bids for various steel lockers and school furniture, for the new Richmond Union High School building, at its office in Lincoln School, 235 Tenth Street, Richmond, California, up to and including the hour of 2:30 o'clock P. M., of Friday, March 16, 1928, at which time and place said bids will be opened.

Specifications for said articles may be obtained from the office of the City Superintendent of Schools, 235 Tenth Street, Richmond, California. The details of bids will be more fully described in the specifications.

The Board reserves the right to reject any or all bids. The bid will not necessarily be awarded to the lowest bidder.

By order of the High School Board of the Richmond Union High School District.

AUBREY WILSON, President
W. T. HELMS, Secretary.
Richmond, Calif., Feb. 13, 1928.

NOTICE TO BIDDERS

(Radio Beacon—Fort Winfield Scott)

Office Constructing Quartermaster, Fort Mason, Calif. Sealed proposals will be received here until 11:00 a. m., March 1928, for erecting radio beacon at Fort Winfield Scott, California. Information on application.

NOTICE CALLING FOR BIDS

(Outfall Sewer—Town of Hayward)

Pursuant to Statute and to Order of the Board of Trustees of the Town of Hayward directing this notice, Notice hereby given inviting sealed proposals or bids, for the furnishing materials and constructing an addition to the outfall sewer of the Town of Hayward, in accordance to the plans and specifications heretofore adopted for doing said work, and now on file in the office of the Town Clerk of the Town of Hayward, which said plans and specifications are hereby expressly referred to as made a part of this notice the same if set out in length herein.

A copy of said plans and specifications will be furnished upon application either the Town Clerk of the Town of Hayward, or to Jesse B. Holly, Town Engineer of the Town of Hayward, and the person applying for the same will be required to deposit \$5.00 for each copy of such plans and specifications so furnished, which said sum will be returned upon the return of said copies so obtained.

All proposals or bids shall be in writing in the form set out in said specifications and must be accompanied by a check payable to the Town of Hayward, certified by a responsible bank for an amount which shall not be less than ten per cent of the aggregate total of the proposal bid, or by a bond for the said amount so payable, signed by the bidder and two sureties, who shall justify, before an officer competent to administer an oath, double the said amount and over and above all statutory exemptions.

Such sealed proposals or bids shall be delivered to Clerk of said Town of Hayward, on or before Wednesday, the 7th day of March at the hour of eight o'clock P. M., 1928. Proposals or bids will be opened and declared on said day at 2 o'clock P. M. The said Board of Trustees reserves the right to reject any and all proposals or bids.

Dated: February 6th, 1928.
(SEAL) M. B. TEMPLETON,
Town Clerk of the Town of Hayward

1928 EDITION

San Francisco Building Laws

Now Ready for Distribution

With the issuance of this 1928 Edition, the Building Ordinance Books heretofore published will be obsolete, inasmuch as many sections of the law have been amended and additional sections added.

The 1928 Edition contains all the revisions and additions to the code up to and including January 31, 1928.

In addition to the Building Laws, the 1928 Edition contains FIRE ORDINANCES as regards the construction industry—the ELECTRICAL ORDINANCES and RULES of the San Francisco Department of Electricity—the BILLBOARD ORDINANCE and other laws covering regulations concerning the construction interests.

FEBRUARY BUILDING TOTALS

February building operations in San Francisco totaled \$2,398,450 when 676 building permits were issued as compared with 623 permits in February, 1927, and the total was \$3,210,978.

Following is a segregated list of the activities for the month of February,

	Number	Est. Cost
Permits	1	\$ 40,000
Buildings	1	50,000
Structures	14	700,500
Highways	262	1,288,952
Other operations	398	318,998

Total 676 \$2,398,450
February, 1928, activities did not include improvements undertaken by the municipality nor construction undertaken by the State, which in 1927, aggregated 744 for the former and \$256,000 by the latter.

FEBRUARY BUILDING IN L. A.

During the month of February, 1928, the Los Angeles city building department issued 2849 permits with an estimated valuation of \$7,947,728 as compared with 2476 permits with an estimated valuation of \$7,574,354 for the same month last year. For the first two months of the current year Los Angeles building total is \$15,475,419 as compared with \$15,704,103 for the corresponding period in 1927.

LUMBER RECEIPTS GAIN

Lumber shipments into San Francisco during February showed a considerable increase over the shipments for January, figures compiled by marine dept. of chamber of commerce reveal. Last month's shipments amounted to 72,970 ft, compared with 69,735,000 feet for the preceding period. Of the February total of 46,398,000 feet was from Washington and Oregon ports.

EFFECT OF CLIMATE CHANGES ON CONCRETE BRIDGE TOLD

Variations in temperature and in the moisture content cause concrete to change in volume, and these variations produce changes in the shape of an arch rib that are accompanied by direct and bending stresses in the rib and by an overturning thrust upon the piers.

The object of the investigation reported in Bulletin No. 174 of the Engineering Experiment Station of the University of Illinois was to observe the change that took place in a multiple-span arch bridge in order that the magnitude of the changes might be determined, and the measured and computed changes compared.

The bridge on which the tests were made is a six-span two-rib highway bridge and is of the open-spandrel type except that, for the middle three panels of each span, the rib is connected to the deck by means of a spandrel wall.

The observations included the rotation of the piers and the change in the width of the expansion joints for all spans, and, for one rib of one of the spans, they included the change in temperature of the concrete, the rise and fall of points on the arch rib, the rotation of points on the rib, the transverse deformation of the concrete, and the longitudinal deformation of the steel and the concrete. Observations were made on 18 different days distributed over a period of approximately 20 months, including at least one extremely hot day in the summer and one extremely cold day in the winter.

Copies of Bulletin No. 174 may be obtained without charge by addressing the Engineering Experiment Station, Urbana, Illinois.

STATE ENGINEER IS HIT IN RECENT RULING

The East Bay Municipal Utilities District and other similar districts in California are not subject to the jurisdiction of the state engineer, H. H. Linney, deputy attorney general, so rules. This settles a point at issue for many years.

The ruling was asked by Edward Hyatt, Jr., following an opinion by Speneer Burroughs of the department of public works legal staff and in contradiction to opinion by T. P. Wittscher, attorney for the district.

Hyatt asked the opinion as a means of fixing responsibility for the safety of engineering work undertaken by the East Bay Municipal Utility District in construction of Lancha Piana dam, built to impound water of the Mokelumne river for power, light and water service to nine east bay cities including Oakland, Alameda, Berkeley, Hayward.

In the same opinion, Linney holds that the Los Angeles county flood control district and the United States Bureau of Reclamation are not under Hyatt's jurisdiction, but that he has direct responsibility and control over engineering projects undertaken by irrigation, reclamation, drainage and levee districts.

BETTER BUILDING DRIVE BEGUN IN OAKLAND

Appointment of sub-committees to carry on the "Build Better" campaign in Oakland will be made shortly, according to Emil Fritsch, president of the Oakland Real Estate Board. The campaign is sponsored by the Society of Architects of Alameda County, the Builders' Exchange and the Real Estate Board.

MASTER BUILDERS COMPANY AS NEW SURFACE PROTECTION

It has been an acknowledged fact for years that the beauty and even the life of many brick, stucco, stone or cement buildings are materially affected when rain and atmospheric moisture penetrate the pores.

Not only does the exterior suffer but in some instances there is loss or injury to interior decorations by the penetration of moisture through the entire wall. In addition to the deterioration of the building and decorations, a further loss is sometimes sustained from a reduction in rental value because of such conditions.

A new material affording complete protection from moisture penetration has been developed during the past year by The Master Builders Company of Cleveland.

This material, known as Masterseal, is transparent and colorless. It is applied like paint and penetrates the pores, sealing them against moisture absorption and at the same time retains the full natural beauty and texture of the building material.

Masterseal protects the walls of a building from disintegration, stain, efflorescence, mildewing and other disfigurements. The checking and spalling off of surface particles are primarily due to moisture absorption and by rendering the surface non-absorbent, Masterseal effectually prevents such disintegration.

This new protective material penetrates deeply and is unaffected by temperature. If applied before the original surfaces have been weather-damaged, it preserves their full beauty and texture indefinitely.

A striking demonstration of the water repellent and transparent qualities of Masterseal are obtained by treating part of a blotter with this material and leaving the other part untreated. It is impossible to detect, by sight or touch, which part has been treated until a drop of water is allowed to run down the surface of the blotter held at an angle. The drop of water crosses the treated portion without diminishing in size but is immediately absorbed upon reaching the untreated portion.

TRUSCON STEEL COMPANY NAMES THREE VICE-PRESIDENTS

Appointment of three vice-presidents of the Truscon Steel Co. of Youngstown, Ohio, was made this week by Julius Kahn, president of the company.

C. I. Auten, who began as an engineer with Truscon 17 years ago, has been named vice-president in charge of sales in the standard building division of the firm. Under his charge will be sales of structural steel, steeldeck roofing and transmission structures. This appointment continues Auten's connection with the complete building sales end of Truscon.

M. T. Clark is vice-president in charge of sales of the steel window division, with which he has been identified for the last nine years. Clark was originally an architect, and followed a national interest in industrial standardization into the manufacturing field. He is credited with much of the popularity of standardized steel windows at the present time.

C. D. Loveland, formerly manager of the Pittsburgh district of the Truscon organization is made vice-president with headquarters at Newark, N. J. He will be in charge of Truscon distribution in that state.

CITY OF PORTLAND PLANS TO ADOPT CONTRACTORS' LICENSE LAW

To control the operations of would-be fraudulent building contractors and to facilitate enforcement of the building code, the city council of Portland is considering adoption of a Contractors Licensing Ordinance. The ordinance has been drafted by Portland's city attorney and has the unqualified support of the Portland Chapter, A. G. C. of A., Portland Master Builders Association, Portland Builders Exchange, Oregon Building Congress, Building Material Dealers Credit Association, Master Plumbers Association and the Building Trades Association.

That violations of the building codes of large cities are easily covered up by builders who desire to "skin the job" is the premise on which the ordinance is based. It is pointed out that it is economically impossible for a city building department to employ enough building inspectors to actually prevent violations. The present Portland ordinance carries only minor punishment for violations, while the proposed ordinance gives the city power to take away from fraudulent contractors the right to do business.

The ordinance provides that no construction shall be undertaken by any contractor not licensed by the Bureau of Licenses. The only exception to that rule is that owners "erecting single family or duplex dwellings for his own occupancy" may build such structures without retaining a licensed contractor. **Examination and Surety Bond Required**

Contractors now operating in Portland, under the terms of the ordinance, may obtain licenses without examination within 30 days after the ordinance becomes effective. However, after that date applications for licenses must be made to the Board of Examiners and must post \$2500 surety bond as a "guarantee that applicant will perform and complete" his contracts in accordance with laws and ordinances pertaining thereto, and to indemnify the city on account of any violation of the building code, and to indemnify any person suffering damage by reason of any violation of the building code. It is provided that any person damaged by such a violation may sue and recover on this bond in his own name.

Licenses will be granted for three classes of work, as follows:

Class I. Work which shall include Class II and III and all classes of building construction permitted by the Building Code.

Class II. Work which shall include Class III and shall include reinforced concrete, structural steel or wood frame construction but shall not include the underpinning of foundations with bases over 14 feet below the sidewalk grade.

Class III. Work which shall include structures of two stories and attic but not reinforced concrete or structural steel frame, nor any type requiring wood trusses, nor any type the foundation walls of which rest over 14 feet below sidewalk grade.

After the 30 day period of grace, licenses will be issued only in the class or classes recommended by the Board of Examiners.

In case a licensed contractor wishes to have his license transferred from one class to another, or for a license in an additional classification, he will not be granted the license until the Board of Examiners certify he is qualified for that particular work. A license fee of \$10 is provided for.

Architect, Engineers, Builders on Board
The Board of Examiners, as provided

by the ordinance, is well balanced. The board shall consist of five members—a registered architect, a registered structural engineer, two building contractors, each of whom have had at least five years' experience in the city of Portland, and one building owner who shall have resided in the Rose City during at least five years. Members will serve without pay and shall hold office for one year. The Inspector of Buildings would act as secretary of the board. Members are appointed by the mayor.

Before building permits are issued, it must be established by the owner that the work will be handled by a contractor whose name appears on the list of licensed contractors. Such a provision is the essence of the ordinance. It might be pointed out parenthetically that such a provision places something of a hurdle in front of "fly-by-nights" who so often leave a trail of disappointments and indebtedness in the wake of their operations.

License Suspended for Code Violation

The ordinance has two sections full of sharp and effective teeth. Section 11 provides that "The Inspector of Buildings . . . shall suspend any license issued . . . and stop all work for the wilful violation of any building law or ordinance or for gross incompetency."

Section 12 means a penalty severe enough to furnish food for thought to any prospective violator of Portland's building code. Upon conviction of such violation in municipal court he will be "punished by a fine not exceeding \$500 or by imprisonment in the city jail not exceeding six months, or by both."

Under Section 11 it is further provided that—

"The Inspector of Buildings may file a report of his action in suspending any such license with the Council, stating his reasons therefor, and apply for revocation of the license of any such licensee. A copy of such report and application shall be served upon the licensee and he shall be notified of the time and place of hearing. At such hearing the Council may revoke any such license, refer to the board for recommendation or impose any terms upon its continuation which it may deem advisable. In the event of revocation there shall be returned to the licensee an amount of money equal to the unexpired term of the license and any permit or permits issued by the Bureau of Buildings to said licensee shall be cancelled. No license issued under this ordinance shall be suspended or revoked on account of faulty plans and specifications which may have been issued or approved by the Bureau of Buildings."

It is provided that any building contractor refused certification by the Board of Examiners may appeal to the city council. The council has the power to affirm, overrule or modify the Board of Examiners. It is also provided that "any persons aggrieved by the Inspector of Buildings" may appeal to the city council for relief.

The ordinance is designed to relieve the building fraternity of the depredations of "irresponsibles," to give owners a more substantial safeguard than is now afforded them, and to facilitate enforcement by the Inspector of Buildings of the building laws and ordinances.

The ordinance has been perfected only after exhaustive investigations of other such ordinances throughout the United

States. Authorities have declared that the proposed Portland law is the best and most workable law of its kind. In furnishing the initiative and conducting the research upon which the ordinance is based, the building fraternity of the Oregon metropolis is considered to have made one of the most constructive contributions to the industry in recent years.

SIMPLIFICATION OF BUILDING PRODUCTS PROPOSED

The following data is compiled by the Department of Commerce, (Commerce Standards), 316 Commerce Bldg., Washington, D. C., as regards building material products:

HOLLOW METAL AND KALAMEIN DOORS—On January 25 there was held at the Department of Commerce, a joint general conference on the simplification of Hollow Metal and Kalamein Doors. This conference adopted two simplified practice recommendations, one for Hollow Metal Doors, and one for Kalamein Doors. The one for Kalamein Doors provides for four stock door sizes, five semi-stock single doors and five semi-stock sizes for resultant pairs, while the recommendation for Hollow Metal Doors provides for nine sizes for single doors and the same for the resultant pairs.

FORM DIMENSIONS FOR CONCRETE RIBBED FLOOR CONSTRUCTION. The tentative simplified practice recommendation on this subject, which was circulated to a representative group of manufacturers, distributors and users, has met with general approval. Such criticisms as have been offered are minor in character. It is expected that a general conference will be held about the middle of March.

HOSPITAL PLUMBING FIXTURES. At the third preliminary conference of manufacturers of vitreous china, so porcelain and enamelled iron plumbing fixtures, held at the Department of Commerce on January 11th, a tentative simplified practice recommendation was developed covering overall dimensions of hospital plumbing fixtures. The schedule is now before the hospital authorities for their review and recommendation as to definite sizes and heights considered best adapted to hospital use.

PORCELAIN PLUMBING FIXTURES.—The meeting of the manufacturers' advisory committee on porcelain plumbing held January 10, decided to distribute mimeographed copies of grading rules and marking of culls to wholesalers of plumbing equipment and to put the rules into effect immediately. The committee also agreed upon a dimension standard for porcelain stall urinals. It planned to complete dimensional standardization and simplification at the meeting scheduled for March 6-7, at the Bureau of Standards.

TILE PRODUCTION IN DECEMBER

December, 1927, production of floor and wall tile, as reported to the Department of Commerce by 36 concerns (including in earlier months 2 additional firms now out of business) making nearly 80 per cent of the total volume of floor and wall tile production in 1927, totaled 4,489,932 square feet, as compared with 5,017,532 in November and 5,311,099 in December, 1926. Total production for 1927 was 63,562,480 square feet as compared with 64,884,833 square feet in 1926.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department

ENGINEERS NAME OFFICERS

Selection of officers and approval of bylaws and constitution marked the formal appearance of the Engineers Club, a new service organization of the San Joaquin Valley, replacing the public work formerly carried on by the Fresno Chapter American Association of Engineers. Chris P. Jensen was chairman of the club. Officers elected were headed by Dr. H. C. Burbridge of the Fresno State College as president; Frank Rantsma, vice president; J. W. Jordan, secretary-treasurer.

The board of directors includes M. C. Posen, Max Enderlein, Charles Kaupke, Al Hall and J. M. Buswell. The meeting was held at the Hotel Fresno.

S. F. BUILDERS' EXCHANGE TO ELECT DIRECTORS MARCH 19

March 19 is the date set for the annual election of officers of the San Francisco Builders' Exchange. Alphabetical nominations, as reported by R. J. H. Forbes, secretary of the exchange, are as follows: C. M. Allred, home builders; Fred C. Baymiller, structural steel; S. F. Cohn, painters and decorators; W. M. Cashmire, roofers; W. W. Dennis, common brick manufacturers; Nat A. Dickey, press brick and terra cotta; R. J. H. Forbes, concrete contractors; W. H. Grise, building material dealers; Emil Herberg, masons and builders; E. M. Hildley, unorganized; Jos. B. Keenan, marble dealers; Chas. A. Koenig, hardwood floor contractors; Al. Kindt, ornamental iron; H. T. Lynch, contracting painters; J. D. McGilvray, cut stone contractors; Alexander Mennie, contracting plasterers; J. E. Mullen, cabinet manufacturers; James H. Pinkerton, plumbing and heating; D. J. Sullivan, underplumbers and housemovers; M. S. Sprague, asbestos contractors; W. C. Thieleman, reinforcing steel dealers; Geo. A. Wiedel, sheet metal contractors; A. H. Wilhelm, general contractors.

BICK MAKERS URGE CO-OPERATION IN CLAY PRODUCTS FIELD

Greater co-operation among the burned clay products industries through the medium of a national council of the ceramic industries, to be composed of the officers of the several associations, was urged at the convention, Feb. 13-17, of the Common Brick Manufacturers' Association by B. Mifflin Hood, Atlanta, Ga. Hood is a leading brick and tile manufacturer in the South. The plan he suggested was heartily approved.

Closer relationship and better understanding between the hollow tile and common brick industries, to the end that their differences may be amicably adjusted in conference rather than fought out in a keenly competitive way, was encouraged in a talk by T. W. Murphy, Masonville, Ohio, hollow tile manufacturer.

The progress being made in Detroit in the development of new uses for common brick and new ways of winning back lost ground from its competitors was discussed by Charles A. Bowen. Basement walls, soundproof partitions in office buildings, closer contact with bricklayers and architects and the introduction of skintiled brickwork in residence construction were the features stressed. The value of cost finding and the efficiency of the new system being offered through the association was discussed by F. Gardner Long, Boston, and E. E. Higrim, Chicago.

STOCKTON BUILDERS' EXCHANGE ELECTS OFFICERS

Stockton Builders' Exchange elected its Board of Directors for the ensuing year on March 5, giving W. F. O'Keefe, retiring president, complimentary votes. The Board elected Edward Grogan, president, and Earl Lewis, secretary. Plans were discussed for the state convention to be held in Stockton April 27 and 28.

The new Board consists of Edward Grogan, Earl Lewis, Charles Frederickson, Walter Lanen, Harry Reynolds, J. F. Ecker, George Little, Ernest Seiler, John Perry, O. H. Chain and L. S. Peletz.

ORSECON ARCHITECTS TO CONSIDER LICENSE AND FIVE-DAY WEEK

Joseph Jacobberger, A. I. A., is chairman of the special committee appointed by the Oregon Chapter, A. I. A., to represent that organization in negotiations involving the five-day week problem, and the proposed licensing of contractors at Portland. With Mr. Jacobberger are serving John V. Bennes and C. D. James.

Other committees appointed by Jamieson Parker, chapter president, are:

Publicity—W. G. Purcell, Harry Herzog, A. Glenn Stanton.

Membership—O. R. Bean, John V. Bennes, Morris Whitehouse.

Professional Practices and Competitions—Joseph Jacobberger, O. R. Bean, C. D. James, W. G. Holford, J. G. Wilson. Public Buildings—W. G. Holford, Morris Whitehouse, Fred A. Fritsch.

Legislative—John V. Bennes, J. G. Beach, Harry Herzog.

Exhibition—A. Glenn Stanton, Fred A. Fritsch, Herman Brookman.

Building Laws—C. H. Wallwork, Fred S. Allyn, F. T. Webber.

Educational—Folger Johnson, E. F. Lawrence, Walter E. Church.

RELIEF FOR POTTERY INDUSTRY SOUGHT AT WASHINGTON

An effort to bring to the attention of the United States Tariff Commission the difficulties of the pottery industry, due to increasing importations, will be made orally after the conferencees had an informal conference held February 18 in the office of Representative Eaton (Rep.) of North Plainfield, N. J. Those attending the conference were Representatives Watson (Rep.) of Langhorne, Pa., and Murphy (Rep.) of Steubenville, Ohio, and William Burgess of Morris Heights, Pa., former member of the Tariff Commission.

Announcement of the meeting was made orally after the conferencees had agreed it was hopeless at this time to remedy the situation by legislation. The Department of Treasury also will be asked to determine the difference between the cost of pottery production in the United States and abroad, particularly Japan and France, the countries competing with the United States.

It was explained that the customs duty on pottery could be increased 50 per cent under the flexible provision of the act of 1922, but the Tariff Commission procedure in recommending a change to the President is based on costs of production. A recent agreement with France permits French potters to decline to open their books. American potteries feel, it was stated, that a 50 per cent tariff, however, could not give them the relief sought.

ENGINEERING SOCIETIES EMPLOYMENT SERVICE

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 718, 57 Post Street, San Francisco, (Phone Sutter 1684).

R-1499-S ASSISTANT CHIEF ENGINEER, mechanical or mining graduate with at least 10 years experience in design, construction maintenance and operation of mining, quarrying, handling, conveying, milling or manufacturing machinery and equipment. Must have energy, loyalty and tact, and administrative ability. Experience in copper mining, cement or plaster industry, non-metallies or chemical production valuable. Salary open. Employer confidential. Loc. West. Apply by letter.

R-1474-S ENGINEER DRAFTSMAN, prefer C. S. graduate with hydraulic experience, 28-38 years. Must be able to turn out A-1 drawings and tracings for record maps, etc. \$225 a mo. Location San Francisco.

R-1491-S SALES ENGINEER, to carry on a research and statistical department for a welding organization, and to do indirect selling through contact with key men in the field. Must be physically active, technically trained, good personality and free to travel. Salary and expenses. Apply by letter with photograph. Headquarters West.

X-4288 RESIDENT ENGINEER, to supervise or have charge of engineering work on banana plantation in Central America. Salary \$300-\$400 a month. Apply by letter. Hdqts. East.

R-1502-S OFFICE ENGINEER, preferably college graduate with experience on various municipal and county improvements. Salary \$200 or more depending upon ability. Apply by letter. Location Southern Calif.

LUMBER COMPANY LOSES IN CONTRACT SUIT

Verdict of \$10,430 was returned in favor of R. C. Crawford of Mt. Shasta against the Pioneer Box & Lumber Company of Mt. Shasta in the superior court at Yreka, March 1. The suit was brought for the sum of \$15,000 on account of a logging contract that Crawford alleged was breached by the lumber company.

BILL TO SELECT DEVICE TO PREVENT GRADE CROSSING ACCIDENTS

A bill introduced in the House by Representative Newton of Minnesota proposes the appointment of a board of engineers to select the most practical device for the prevention of grade crossing accidents and to supervise its testing and installation. This board is to have five members, two appointed by the interstate commerce committee of the Senate and the remaining three by the interstate and foreign commerce committee of the House. The bill provides that after the most practical appliance has been selected and tested the board shall supervise its installation on the railroads, requiring them to install a certain percentage of their total mileage each year and imposing fines in cases of delay or failure.

SACRAMENTO BUILDING PERMITS

Permits issued in Sacramento for building operations during the month of February amounted to \$581,211, bringing the total for the first two months of the year to \$956,330. More than half of the month's total was represented in homes. There were permits issued for fifty-eight one-family homes totaling \$225,533.

THE OBSERVER

**What He Hears
and Sees
On His Rounds**

The chief problem confronting the construction industry at present, said Truman Morgan, president of the F. W. Dodge Corporation, of New York, at the annual meeting of the National Association of Builders' Exchanges, held in Miami, Fla., is the closing of the gap in a satisfactory volume of business between little or no profit and a fair return on the investment. This can be done, he declared, by gathering in council, bridging competitive differences and jealousies and working harmoniously in the interests of common business. Another talk along the same lines was made by Gen. R. C. Marshall, Jr., of Washington, manager of the Associated General Contractors of America, whose subject was "Co-operation in the Building Industry."

Estimates have it that 3,000,000 to 4,000,000 are unemployed in the United States at present. The American Federation of Labor states that the latter figure means that 40 per cent of the potential labor power of the country is out of work, whereas 20 per cent is normal for this time.

The Division of Simplified Practice, Department of Commerce, announces that the standing committee on sand lime brick has reaffirmed the existing simplified practice schedule without change for the two calendar years 1928 and 1929. A survey conducted prior to the revision meeting indicated that the average degree of adherence to the recommendation was 77.6 per cent.

The selling price of the Spring Valley Water Co. is \$39,047,595. That is the value fixed by the company on its properties as of January 1, 1927. The San Francisco Board of Supervisors had inquired what the price would be in case the city wants to buy the company.

Half of the lumber carrying intercoastal steamship lines have signed an agreement creating a separate freight conference to govern lumber shipments. Ten lines have signed within the last 10 days. This was disclosed by M. J. Wright, vice president of the Luckenbach line, acting as spokesman for the companies. The separate conference is known as the U. S. intercoastal lumber conference. It is understood the conference will be independent of the intercoastal freight conference. The lines will be heavily bonded and there will be severe penalties for violation of agreements. The conference will have rate making and police powers and entry to the books of the companies, according to tentative outlines of organization.

California's highway needs are greater than political pressure and the people of the State greater than the individual, declared B. B. Meek, State director of public works, in addressing a meeting of district engineers of the State Division of Highways. Engineers who are not willing to subscribe to these policies—to assist in keeping politics out of road construction—were invited by Meek to tender their resignations. "The first objective of the department," declared Meek in outlining the \$50,000,000 program, "is to make all highways in the State travelable and to expand the roads in the vicinity of populous centers to meet the heavy traffic demanded."

San Mateo county supervisors have granted a franchise to Albert Mansfield, Redwood City Attorney, representing other interests, to construct a toll bridge

over San Francisco Bay from Candlestick Point, San Mateo County, to the foot of Webster St., Alameda County. The bridge will be 45,000 feet long and 40 feet wide and so designed as to widen the same to 80 feet. The estimated cost is placed at \$27,500,000.

Los Angeles leads Pacific Coast cities in building operations for the month of February, just closed, with a total of \$7,947,728, with Seattle following with a total of \$4,126,795. San Francisco was third with \$2,398,450, Portland next with \$1,503,225, and Oakland fifth with \$1,349,380.

TRADE NOTES

William S. Gregg, former district representative for the Monolith Portland Cement Company in San Francisco, has been transferred to Los Angeles. He will be succeeded in this district by J. W. Glassick with headquarters at 741 Monadnock Bldg., San Francisco.

T Merritt Concrete Products Co. and the California Concrete Products Co. are preparing articles of incorporation and have purchased land for a plant in Oakland. The concerns have purchased 5.17 acres of land in Sixty-sixth avenue below East Fourteenth street at a cost reported to be \$26,000. Initial outlay for improvements will total about \$25,000. The Merritt Co. now operates plants at San Jose and Centerville.

The width of Gyplap sheathing boards has been changed from 32 inches to 24 inches, according to an announcement from the United States Gypsum Company. As now manufactured, each board is 24 inches wide, eight feet long and one-half inch thick. A need for greater convenience in handling the boards, before and during application, made necessary the new width. In the new size, it is possible for the carpenter to carry two boards at a time, one under each arm. The new size also makes application easier. The one-half inch gypsum core of Gyplap sheathing, the tongue-and-groove edges and the waterproof surfacing remain unchanged.

Gladding, McBean & Co. has declared the entire year's dividend of \$3, payable in regular monthly installments of 25 cents payable March 1 on record of February 20 and on similar dates for each succeeding month. Net earnings of the company for 1927, according to preliminary figures from sources close to the company, were about \$6 a share on 207,689 shares of no par common outstanding as against about \$24 a share on 51,922 shares of old stock outstanding in 1926. The company does not make public income statements and balance sheets.

A merger of the Jewell Steel & Malleable Co. of San Francisco, the Pacific Malleable Castings Co. of Oakland, and the Western Malleable Co. of Los Angeles, is announced. The merger, financing of which was accomplished through the Bank of Italy, involves approximately \$1,500,000, and gives the three companies control of the malleable iron casting business of the Pacific coast.

The Atlas Lumnite Cement Co., 125 Broadway, New York City, has recently issued a folder showing the advantages claimed for their high alumina cement, Lumnite, for cold weather construction. In this bulletin they play the fact that Lumnite gains strength within 24 hours equal to that gained by portland cement concrete in 28 days, and that the setting reaction liberates a sufficient quantity of heat to give still further cold weather protection. This bulletin discusses the properties of the material, gives directions for its use in cold weather, and illustrates a number of jobs that were done in winter with aid of this special cement.

Genfire Steel Co., Youngstown, Ohio, has just published a new booklet entitled "Steel Joists," which contains complete information, including loading tables on two new types of steel joist construction—the plate girder and the T-joists. The booklet contains 39 pages and the drawings, descriptions and tabular matter are of such nature as to be of practical value to architects, contractors and engineers.

P. Grassi & Co. ("Travertite") World, Inc. of San Francisco, has filed articles of incorporation. The company is capitalized for \$500,000. Directors are: W. Lowery, Carlo Tricoli, S. Andriano, Ren Turco and D. Buddington.

Bodinson Manufacturing Co. of San Francisco, manufacturers of labor saving devices for contractors, has opened a branch office in the Ray Building, Oakland, to handle business in the East Bay section. Frank Leach will be in charge of the Oakland office.

Suspension of the corporation license of the El Dorado Slate Products Co., \$400,000 Sacramento concern, has been ordered by J. M. Friedlander, corporation commissioner. The order was issued because of the company's inability to furnish a 1927 financial statement. It claimed it suspended business last year.

STOCKTON BUILDERS STORM CAPITAL IN INTEREST OF STATE MEETING

A delegation from the Stockton Builders' Exchange, headed by Wm. O'Keefe, president of that body, attended the first meeting of the reorganized Sacramento Builders' Exchange last Tuesday evening. The Stockton delegation is making a tour of various exchanges to promote interest in the next regular meeting of the California State Builders' Exchange to be held in Stockton in April. The exact date of the meeting has not yet been determined.

S. M. Williams of the Associated General Contractors of America delivered the principal address at the meeting. His topic was "Loose Credits." Other speakers included Earle G. Lloyd, secretary of the Associated General Contractors of Northern California; M. Williamson of the Granite Construction Co. of Watsonville; Wm. O'Keefe, John Burke, J. F. Wilson and T. P. Scollan.

The Stockton delegation in addition to Mr. O'Keefe, consisted of Ernest I. Seiler, R. E. Fraser, W. J. Lanen and John Burke.

The announcement of L. Patterson, secretary of the Sacramento Builders' Exchange, that 40 new members were added to the membership roll since reorganization of the exchange, was greeted with much applause.

HERE — THERE —
EVERYWHERE

erced's hollow tile ordinance which would have restricted the use of the material to partition walls within the fire lines, has been rescinded by the city council. The ordinance was killed with only one dissenting vote, that of L. J. C. Winer.

Ynn S. Atkinson of Los Angeles has been appointed a member of the board of control of the National Association of Builders' Exchanges for the year 1928-19. Announcement of the choice was made by President Robert L. Reisinger of Milwaukee, chosen as the head of the national organization at the recent convention in Miami.

las Hauling and Grading Co., 243 Day street, and Patterson & Koster Iron Works, 280 Thirteenth street, have been elected to membership in the San Francisco Builders' Exchange. Victor D. Riso, architectural modeller, 2227 East Fourteenth street, Oakland, has filed his application for membership, which will be considered at the next meeting of the directors.

adding, McBean & Co., manufacturer of vitrified clay pipe, has filed a protest with the Burlingame city council against a proposed uniform plumbing ordinance in which it is specifically declared that the use of nothing but cast iron pipe be mandatory. The ordinance, however, has not yet been considered by the council.

ALONG THE LINE

he fourteenth annual convention of American Association of Engineers will be held in El Paso, Texas, June 4, 5 and 6, 1928, with headquarters in Hotel Hussman.

Los Angeles Gas & Electric Co. will expend \$8,500,000 for physical development during 1928, covering gas and electric service extensions, new generator stations, sub-stations, power lines, etc. In addition to the steam generating plant at Seal Beach will absorb the largest single item in the budget.

Under a resolution passed by the Senate on Feb. 24, President Coolidge was asked to invite the International Association of Road Congresses, with a present membership of 45 nations, to hold its sixth convention in the United States either in 1929 or 1930. At the same time the Senate passed a resolution calling for American participation in the second In-American Conference on Highways to be held in Rio de Janeiro next July.

W. E. Schirmer, architect, formerly located in the Thayer Bldg., Oakland, has moved to larger quarters at 700 Twenty-first street, Oakland.

Earl Rienda, 35, assistant county engineer of Napa county, was probably fatally injured March 6 when he fell head first into the Napa river, six miles north of Napa. His skull was fractured. He was single and a graduate of the University of California.

Bernard Tanklage will operate from 62 Oak Grove avenue, San Francisco, under the firm name of Liberty Mill & Cabinet

\$5,000,000 CONN VALLEY WATER
PROJECT MAY BE STARTED MAY 1

Construction of the \$5,000,000 Conn Valley water project designed to carry water from Napa county to industries in Contra Costa county is scheduled to begin May 1. It is expected to be completed by December 1.

The project, unofficially said to be backed by the four big oil companies, Standard, Associated, Shell and Union, and the Spreckels sugar refinery, will develop one of the largest natural water storage sites in this section of the state, capable of storing 9,000,000,000 gallons.

Situated in Conn Valley, northeastern Napa county, three constantly flowing

streams, Conn, Chiles and Sage creeks, will empty into the reservoir, forming a lake that will back up a distance of eight miles.

This water will be distributed by a 35-mile pipe line to industries along Carquinez Straits and, the backers state, a share will be reserved for farm irrigation in Napa county and for state institutions located in this section.

Utilities and Service, Inc., the company building the project, reports it has practically overcome opposition from farmers by assuring them that adequate water would be available for their needs.

TO IMPROVE STATUS OF ENGINEERS
IN U. S. PUBLIC HEALTH SERVICE

A bill designed, among other things, to give the sanitary engineers in the U. S. Public Health Service the same status as that of members of the medical profession in the service is before Congress. The bill (H.R. 11026) has been given the unanimous approval of the House committee on interstate and foreign commerce and is favored by both the President and the Secretary of the Treasury. Similar legislation has been urged for several years past by the American Public Health Association, the National Health Council, the American Federation of Labor, the Chamber of Commerce of the United States and other national organizations.

Support is being given to the bill by committees of the American Society of Civil Engineers and the American Public Health Association, both of which are headed by George W. Fuller, consulting engineer, 170 Broadway, New York City. These committees desire the backing of other engineering societies as

well as of individual engineers, through appeal to their respective Congressmen as well as any other Senators or Representatives of their acquaintance. Sponsors of the bill have summarized its more important provisions as follows:

1. Co-ordination of federal health work will be brought about through the detail of officers of the Public Health Service to other departments to co-operate in the conduct of their health activities.

2. Additional divisions in the Hygienic Laboratory are authorized to meet the requirements of public health research. This will permit of some public health engineering research.

3. Public health officers may be assigned to educational and scientific institutions for special studies, and facilities of the Hygienic Laboratory are made available to health officials and other scientists. A national advisory health council will be created representing various branches of the public health profession. Sanitary engineering undoubtedly will be represented on this council.

RENTAL DEMAND DETERMINES PRICE
OF BUILDING — SAYS RESEARCH BUREAU

"The determination of the price of a building is not primarily based on the cost of producing it," according to a recent statement of the Economic Research Bureau, of the American Bond and Mortgage Company. The statement continues:

"This is a matter which lies within the workings of the law of supply and demand. This law as applied to building operations is based upon rental demand. From a true weighing of this factor can be determined the value of the property to a buyer who is to treat it as an investment.

"In investigating the safety of a mortgage investment on a completed structure the amount and permanency of the earnings is of the greatest importance. Thus it becomes necessary continually to make accurate surveys not only of the amount of occupancy in all localities where mortgage issues are secured but of general conditions as well.

"In investigating a construction mortgage issue however, it is always necessary for the mortgage house to get bids and to figure costs very closely in order that they may determine the exact amount, which the owner is to put into the building. It is necessary in such cases to know exactly, day by day, what are the fluctuations in material prices

and how large a percentage of labor cost goes to make up the total building.

"For some time it has been the fact that labor constitutes a larger percentage of the total building costs than does the material.

"At present 62% is given as the amount of labor going into the cost of an average house. The foundation work constitutes 36% of the total and 29% goes for the labor and materials classified as carpentry. Plumbing stands at 10% and the heating equipment at 9%. The figure of 8% is given for hardware, and 6% for the materials and labor of painting. The lowest item in the cost is that of lighting fixtures which stands at 2%.

"It must be remembered that these percentages are averages and are modified by various types of buildings.

"For instance—A hospital or a hotel requires a much larger percentage of plumbing than does the usual dwelling. Other materials vary likewise if the building is to be fireproof. However, the cost of labor does not vary so widely with a variation in the type of structure.

"In determining the price at which a building should sell, location will be found to be an important consideration. For the more centrally located a property is the greater is the land value and the more permanent are the rentals."

KLAMATH RIVER HIGHWAY BRIDGE PROBE IS ORDERED BY THE STATE

Sweeping and thorough State investigation of the "faulty construction" of the Klamath river highway bridge, built during the administration of former Governor Friend W. Richardson, has been ordered by Bert B. Meek, state director of public work.

At the same time it became known that a legislative investigation also looms as a probability. A demand for such an inquiry is gaining momentum steadily in legislative circles, it was declared.

Three Parties Involved

The State, the Federal Government, and F. Rolandi, San Francisco contractor, who built the disputed structure at Requa, Del Norte county, are the three parties involved in the tangle. Meek characterized the situation as "a mess inherited from the previous administration," and declared that every effort will be made to put the responsibility where it belongs.

Two significant facts are pointed out in connection with the controversy:

1. Although the structure was formally dedicated by Governor Richardson in May, 1926, it has never been accepted by the state highway commission and will not be accepted until the pending investigations have been completed.

Rejected by U. S.

2. The bridge has been definitely rejected as "not acceptable" by the United States government, through Dr. L. I. Hewes, chief eng., Western region or Bureau of Public Roads, and therefore the State must give back \$121,000 in Federal aid.

Engineers for the government and also a special engineering committee appointed by the State, have reported the bridge "defective in workmanship." The cement work on the main arch spans were defective, the engineers charged, deep fissures undermined the concrete, and there were many other flaws.

Construction Scored

The engineering committee appointed by the State included Henry D. Dewell, San Francisco consulting engineer; Chas. E. Andrew, now State bridge engineer, at that time bridge engineer for the state of Washington, and Merrill Butler,

city bridge engineer for Los Angeles.

They reported:

"The bridge is defective in workmanship and therefore not in accordance with the contract plans and specifications. The bridge is defective to the extent that repairs are urgently necessary if hazard is to be eliminated and the bridge saved from rapid deterioration. On account of the defective and porous concrete, the bridge is likely to suffer a serious deterioration. The bridge as repaired will not be a 100 per cent structure."

This report was made in September, 1926. The Federal engineers had reached much the same conclusions. So in October, five months after Governor Richardson had "dedicated" the bridge, the State took the entire job out of Rolandi's hands.

At that time Rolandi had been paid \$317,685. Highway engineers estimated that an additional \$68,938 was technically due him, but that the State had been obliged to pay \$69,473 for repair work, materials and other costs on the new structure, which made the contractor, if anything, a debtor of the State.

Roland, however, asserts that the highway engineers during the Richardson administration unduly interfered with him and failed to give proper direction and supervision to the work. He has filed a claim for \$328,704, which would boost his total allowance to a figure well over \$600,000, and it is expected that litigation will result.

Costs Mount

Roland's original contract was for \$391,740. The bridge was built under a \$225,000 appropriation by the 1923 legislature, supplemented by State highway funds and the Federal aid money, which must now be rebated. Should Roland's claims be allowed, the total cost to the State will be more than \$700,000. More than \$400,000 already has been spent, including payments to Rolandi, repairs, and an additional \$19,921 for rip-rap work.

The bridge is now in good shape, in the opinion of Dr. Hewes.

"But the government has definitely decided not to share in the cost," he added. "That is final."

HUNT PROCESS OF CURING CC CRETE WIDELY USED

Since graduating from the "test class" shortly over a year ago, the "Hunt process" of curing concrete has had a phenomenal growth, according to a resumé of activities for the year 1927 just released by the Morris Engineering Co. licensee for this method in California.

Approximately eight million square feet of cement concrete pavement has been cured by the Hunt process in Southern California during the past year. A short time ago much curiosity and interest was in evidence when the crews came up with a compressor and a spray to put a coat of "black stuff" on wet concrete. At that time it seemed ridiculous and rather foolish, the principle being so entirely revolutionary, now thousands of people daily pass many paving jobs without a remark because the "new method" has been accepted practically as standard procedure in Southern California.

Almost every large contractor is using the Hunt process exclusively, company reports, and many of the smaller ones, as well as many cities have made a direct specification of the system of curing concrete.

The Morris Corp. reports that the popularity of this revolutionary process is spreading over the United States; that work is in progress in Washington, Utah, Arizona and Texas; and that the increasing interest there is no doubt other states will be using the Hunt process when their paving season of this spring.

PASO ROBLES HOT SPRINGS HOTEL IS SOLD

Paso Robles Hot Springs Hotel has been sold by the Fleishhackers to a syndicate of San Francisco capitalists headed by Joseph Greenbach, general contractor. The purchase price is said to run in the neighborhood of \$300,000. The hotel property consists of 1100 feet of highway frontage and approximately 100 town lots. The new owners plan to remodel the hotel, sell off the subdivision and construct store buildings along the highway.

ALAMEDA BUILDING

Permits for 19 buildings were issued at Alameda during February, the structure costing \$135,450. Alteration permits totaled 50 for improvements costing \$920, bringing the total money expended for the month to \$191,370.

PAPER AND BOX BOARD PLANT PROPOSED AT FRESNO

An investigation into the possibility of establishing a paper and box board mill in Fresno for the utilization of lumber wastes is to be investigated by a special committee of the San Joaquin Regional Advisory Council of the California Development Association, it is announced by Chas. S. Knight, industrial director. The subject is to be the principal topic at a meeting to be held at Fresno March 22 at which time representatives of the Sugar Pine Lumber Co. is expected to furnish statistics on lumber waste available for by-product development in such a plant.

STEEL INSTITUTE TO MEET

The Concrete Reinforcing Steel Institute will hold its fourth annual meeting at Biloxi, Miss., on March 19 to 21, at which Dr. John T. Holdsworth, University of Miami, will give an address on "Coming Changes in Industry." They will also be addresses on "New Architectural Possibilities of Reinforced Concrete" and "Fabricating and Selling Concrete of Reinforcing Steel." The joint building code will be submitted by the committee on engineering practice. M. A. Reemtsma, Tribune Tower Bldg., Chicago, is secretary.

BUILDING MATERIAL PRICES ON DECREASE

Wholesale prices in January averaged slightly lower than in December, according to information collected in representative markets by the Bureau of Labor Statistics of the U. S. Department of Labor. The bureau's weighted index number, computed on prices in the year 1926 as the base and including 550 commodities or price series, stand at 96.3 for January compared with 96.8 for December, a decrease of one-half of 1 per cent. Compared with January, 1927, with an index number of 96.6, a decrease of one-third of 1 per cent is shown.

Comparing prices in January with those of a year ago, as measured by changes in the index number, it is seen that farm products and hides and leather products were considerably higher, while foods, textile products, and house-furnishing goods were somewhat higher. Fuel and lighting materials, owing to large decreases in bituminous coal, coke and petroleum products, were 17 per cent cheaper than in January, 1927. Small decreases are shown for metals and metal products, chemicals and drugs, and miscellaneous commodities, with a larger decrease for building materials.

Index Numbers of Wholesale Prices by Groups and Sub-groups of Commodities.
(1926=100.0)

Groups and subgroups—	Jan. 1927	Dec. 1927	Jan. 1928	Purchasing power of the 1926 dollar in January (cents)
Building materials	97.5	90.4	90.8	110.1
Lumber	96.7	88.0	88.5	113.0
Brick	98.3	92.2	92.4	108.2

APARTMENTS

Sub-Bids Being Taken.
OPERATIONS Cost, \$15,000
SAN FRANCISCO. NW Fell and Webster Streets.
Operations and additions to present apartment building (add eight 2-room apts.)
Owner—Dr. A. Morton, 1055 Pine St., San Francisco.
Architect—A. H. Knoll, 222 Kearny St., San Francisco.
Bids are being taken by the foreman of the premises.

Sub-Bids Being Taken.
APARTMENTS Cost, \$300,000
SAN FRANCISCO. W Stockton St., bet. Pine and California St., San Francisco.
Two-story and basement class A apartment house (approx. 80 2 and 3-room apts.)
Owner and Builder—Marcus Marcussen, 485 California St., San Francisco.
Architect—H. C. Baumann, 251 Kearny St., San Francisco.

Preparing Working Drawings.
APARTMENTS Cost, \$430,000
SAN FRANCISCO. Pacific Heights Dist. Twelve-story class A apartment building (216 rooms, 3, 4 and 5-room apts. and 2 8-room roof apts.)
Owner—Withheld.
Architect—Albert H. Larsen, 447 Sutter St., San Francisco.
Specifications are as follows: Two high speed passenger elevators; one freight elevator; electric dumb waiter; automatic steam heating plant; electric refrigeration; incinerators; colored bath fixtures; colored tile; built-in showers; toughout covered wall; hardwood floors throughout.

Preparing Working Drawings.
APARTMENTS Cost \$500,000
SAN FRANCISCO. SW California and Laguna St.
Thirteen-story class A apartment bldg., 268 room subdivided in 4, 5 and 7-room apts.
Owner—American Investment Co.
Architect—Albert H. Larsen, 447 Sutter st.
Previously reported for 6-story bldg. Plans will be ready for bids about April 1.
Specifications are as follows: Two high speed elevators, one freight elevator, electric dumb waiters, automatic steam heating plant, electric refrigeration, incinerators, colored bath fixtures, coiled tile, built-in showers, canvas covered wall, hardwood floors throughout.

Plans Complete
APARTMENTS Cost \$60,000
OAKLAND, Alameda Co., Cal., Oakland ave. near Harrison st.
Three-story frame and stucco apartment building, 24 2-room apts.
Owner—E. Field.
Architect and Mgr. of Cons.—E. J. Field, American Bank Bldg., Oakland.
Sub-bids will not be taken for about days.

Sub-Contracts Awarded.
APARTMENTS Cost, \$80,000
SAN FRANCISCO. NW Fell and Buchanan Streets.
Three-story frame and brick veneer apartment building (21 2-room and 6 3-room apts.); electric refrigeration; elevator; steam heating, etc.
Owner—Fred Hechter, 1424 Balboa St., San Francisco.
Architect—R. R. Irvine and L. Ebbets, Call Bldg., San Francisco.
Concrete Reinforcing Steel, Wood Form— California Concrete Co., 8 Avery St., San Francisco.
Plumbing— J. J. McLeod, 1246 Golden Gate Ave., San Francisco.
Construction will be started immediately.

Sub-contracts Awarded
APARTMENTS Cost \$600,000
SAN FRANCISCO, NE Pacific ave. and Laguna sts.
Six-story steel frame and concrete apartment building, 50 4 and 5-room apts.
Owner and Builder—Marian Realty Co., 110 Sutter st., S. F.
Architect—Douglas Stone, 354 Hobart st., Oakland.
Concrete— L. Vannucci, 1875 San Bruno ave.
Steam heating system— H. E. Silva, 169 Eddy st.

Structural Steel Contract Awarded
APARTMENTS Cost \$600,000
SAN FRANCISCO, N Pacific ave. 80 E Laguna st.
Six-story steel frame and concrete apartment bldg.
Owner and Builder—Marian Realty Co., 110 Sutter st., S. F.
Architect—Douglas Stone, 354 Hobart st., Oakland.
Structural steel— Western Iron Works, 141 Beale st.

Contract Awarded.
APARTMENTS Cost, \$25,000
SAN FRANCISCO. S Filbert St. 100 E Polk St.
Three-story frame and stucco apartment building (6 apts.)
Owner—A. Boetano.
Architect—J. A. Porporato, 619 Washington St., San Francisco.
Contractor—R. Polioiti, 597 Greenwich St., San Francisco.

Owner Taking Bids.
APARTMENTS Cost, \$12,000
SAN FRANCISCO. NE Seventeenth and Ord Streets.
Two-story frame and stucco apartment building (4 3-room apts.)
Owner—Milton Lepitch, 798 Larkin St., San Francisco.
Architect—R. R. Irvine and L. Ebbets, Call Bldg., San Francisco.

SAN LEANDRO, Alameda Co., Cal.—Cooper Bros., San Leandro, having plans completed and construction will be started at once on 2-story store and apartment building in E-14th st. near Peralta ave. Will be 45 x 108 ft. with two stores on ground floor and apartments above.

Plans Being Prepared.
APARTMENTS Cost, \$100,000
SAN FRANCISCO. Location Withheld.
Ten-story class A apartment building.
Owner—Withheld.
Architect—N. W. Sexton, DeYoung Bldg., San Francisco.

Plans Ready For Bids March 8th.
APARTMENTS Cost, \$110,000
SAN JOSE, Santa Clara Co., Cal. N. First St. and Hensley Ave.
Two-story frame and stucco apartment building (34 apts.)
Owner—C. W. Hovson.
Architect—Wolfe & Higgins, Realty Bldg., San Jose.

Plans To Be Prepared
APARTMENTS Cost \$65,000
RICHMOND, Contra Costa Co., Cal., NE MacDonald ave. and 4th st.
Three-story apt. and store bldg. (type of construction not decided).
Owner—W. T. Esteb.
Architect—W. H. Weeks, Hunter Dulin Bldg., S. F.; 1736 Franklin st., Oakland; 246 So 1st st., San Jose.

Sub-Contract Awarded.
APARTMENTS Cost \$300,000
SAN FRANCISCO, W Stockton st. bet. Pine and California.
Ten-story and basement class A apartment house (approx. 80 2 and 3-room apts.)
Owner and Builder—Marcus Marcussen, 485 California st., S. F.
Architect—H. C. Baumann, 251 Kearny st., San Francisco.
LUMBER— J. H. McCallum, 748 Bryant street.
MILLWORK: Pacific Mfg. Co., Mo-nadnock Building.
GRADING Sibley Grading & Teaming Co., 165 Landers st.
GLASS: W. P. Fuller Co., 301 Mission street.

Sub-Bids Being Taken.
APARTMENTS Cost, \$12,000
CAPUCHINO MANOR, San Mateo Co., Cal. Near Millbrae.
Two-story frame and stucco store and apartment building (3 stores and 2 apts.; Studio type).
Owner and Builder—F. A. Oehm, Capuchino Manor.
Architect—Grimes & Scott, Balovich Bldg., San Mateo.

Plans Being Prepared.
APARTMENTS Cost, \$—
SAN FRANCISCO, Jackson St., between Buchanan and Laguna Sts.
Twelve-story class A steel frame and concrete apartment building.
Owner—A. Penziner, 750 Taylor St., San Francisco.
Plans by Owner.

Sub-Contracts Awarded.
APARTMENTS Cost, \$75,000
SAN FRANCISCO. NE Gough St. and Fern Ave.
Six-story and basement reinforced concrete apartment building.
Owner and Builder—A. Penziner, 750 Taylor St., San Francisco.
Plans by Owner.
Plumbing— Henry Ernst, 551 Hayes St., San Francisco.
Steam Heating— C. Petersen Co., 390 6th St., San Francisco.
As previously reported, concrete awarded to L. Le Lucca, 666 Mission St., S. F.; reinforcing steel to Soule Steel Co., Rialto Bldg., S. F.; structural steel to Golden Gate Iron Works, 1541 Howard St., San Francisco.

BONDS

SANTA BARBARA—Board of education sets March 27 to vote bonds of \$600,000 to erect new schools. The project will include two new elementary schools, a new junior high school and the erection of a manual arts building and a gymnasium at the Le Cumbre junior high school.

MARTINEZ, Contra Costa Co., Cal.—Election will be held shortly in Bradford Island School Dist. to vote bonds of \$3000 to finance erection of frame school building.

SACRAMENTO, Cal.—Election will be held March 21 in Washington School District to vote bonds of \$8500 to finance school improvements. Trustees of district are: Geo. F. McDonnell and Jas. Hamilton.

HUNTINGTON PARK, Cal.—School trustees decide to re-submit question of issuing bonds of \$265,000 to erect new grammar schools. The proposed issue was defeated by a small majority at the election of February 14.

TULARE, Tulare Co., Cal.—Bonds of \$43,000 voted in Tipton Grammar School District to finance erection of an annex to the present school including auditorium and 3-classrooms.

SALINAS, Monterey Co., Cal.—Until April 2, bids will be received by county supervisors for purchase of \$60,00 bond issue of Chualar Union District; proceeds of sale to finance erection of new school.

SAN ANSELMO, Marin Co., Cal.—San Anselmo School District sells \$35,000 bond issue for premium of \$3364; proceeds of sale to finance school improvements. S. Heiman, 57 Post St., San Francisco, architect.

MARTINEZ, Contra Costa Co., Cal.—Until April 2 bids will be received by county supervisors for purchase of \$45,000 bond issue of Walnut Creek School Dist.; proceeds of sale to finance erection of additions to present school.

BAKERSFIELD, Kern Co., Cal.—Election will be held April 13 in Kern County Union High School District to vote bonds of \$300,000 to finance school improvements. Money will be apportioned as follows: \$55,000 for Shafter school; \$55,000 for McFarland school and the remainder for a 14-classroom building and completion of shop building at high school. The buildings will be furnished from funds already on hand. Chas. Biggar, Bank of Italy Bldg., Bakersfield, architect.

BAKERSFIELD, Kern Co., Cal.—Election will be held March 30 in Buena Vista School Dist. to vote direct tax of \$12,000 to finance school improvements. Trustees of district are: Mrs. R. Hall and Edna Hart (clerk.)

RAVENSWOOD, San Mateo Co., Cal.—Election will be held March 30 in Ravenswood School District to vote direct tax of \$7,000 to finance school improvements. Trustees of district are: J. C. Neifing, E. R. Bain and Edith C. Follett.

CHICO, Butte Co., Cal.—Board of Education, Chas. H. Camper, city supt. of schools, contemplates a bond issue or direct tax of \$125,000 to finance school improvements including 7500 wing for Paradise school; new Chico Vecino School, \$35,000; first unit of new school in Thirteenth Subdivision, \$35,000; construction of new wing at Central School; new auditorium and gymnasium for high school.

CHURCHES

Contract Awarded
CHURCH Cost \$17,000
SAN FRANCISCO, W 17th ave., S Ulloa street.
Alterations and additions to church Bldg. Owner—Roman Catholic Archbishop of S. F., 1100 Franklin st.
Architect—Leo J. Devlin, Pacific Bldg.
Contractor—Barrett & Hilp, 918 Harrison St.

SACRAMENTO, Cal.—Church of the Nazarene, 28th and S sts., will campaign for funds to finance construction of a modern edifice. Rev. I. W. Young is pastor.

DELANO, Kern Co., Cal.—L. J. Fiala, Delano, at approx. \$35,000 awarded cont. to erect frame and stucco church for Roman Catholic Archbishop at Main and 12 sts; will be approx. 150 by 175 ft., seating approx. 350 persons.

TURLOCK, Stanislaus Co., Cal.—Bids are being received by Mission Church Congregation, A. E. Sandberg, chairman of building committee, to erect \$50,000 edifice on Beulah Park site. Will be one story and basement; tabernacle type;

seating 1500. Other members of the building committee are: C. A. Hillberg, Anton Swanson, Oscar Lindberg, J. E. Wallstrom and Rev. Rood, the pastor. G. N. Hilburn, architect, Turlock. Plans obtainable from architect and chairman of building committee.

Contract Awarded.
ADDITION Cost, \$10,000
LIVERMORE, Alameda Co., Cal.
Addition to present church building (6 classrooms, parlor and kitchen, 26 x 58 feet).
Owner—Livermore Presbyterian Church.
Architect—Francis W. Reid, 1630 Josephine St., Berkeley.
Contractor—Neils Jensen, College and J Sts., Livermore.

Completing Plans.
CHURCH Cost, \$50,000
FRESNO, Fresno Co., Cal.
One-story brick church building with tile roof.
Owner—Trinity Methodist Episcopal Church.
Architect—Rollin S. Tuttle, California Bldg., Oakland.
Bids will be taken shortly.

Completing Plans.
ALTERATIONS Cost, \$50,000
SACRAMENTO, Sacramento Co., Cal.
Twenty-seventh and N Sts.
Alterations and additions to present church building (Bible school addition; auditorium, etc.)
Owner—First Christian Church.
Architect—Jens. C. Petersen, California State Life Bldg., Sacramento.
Bids will be taken in about two weeks.

Preparing Working Drawings.
CHURCH Cost, \$27,000
STOCKTON, San Joaquin Co., Cal. Miner and Sierra Nevada Sts.
Two-story brick church (Sunday school and social rooms).
Owner—East Side Presbyterian Church.
Architect—Davis-Pearce Co., Grant and Weber Sts., Stockton.
Plans will be ready for bids in three weeks.

Plans Being Prepared.
CHURCH Cost, \$50,000
SACRAMENTO, Cal. Tenth St., bet. O and P Sts.
Two-story brick church building (auditorium seating capacity 450).
Owner—First Evangelical Church.
Architect—Jens. C. Petersen, California State Life Bldg., Sacramento.

LIVERMORE, Alameda Co., Cal.—N. Jensen, Livermore, has contract for additions to Presbyterian Church involving enlargements to Sunday school quarters, kitchen addition 12 x 20 ft., etc. A heating plant will also be installed.

NOGALES, Ariz.—Clinton Campbell of Phoenix was awarded a contract at about \$100,000 for the erection of a new church at Nogales, Ariz., for the Catholic Church. It will be of brick construction. Lescher & Mahoney, Phoenix, are the architects.

What architects and all who build have learned to expect from Quandt craftsmen:

"Co-operation for Quality"

Materials applied efficiently and expeditiously by brush or spray application to achieve the best result at the minimum cost to the owner.

A. Quandt & Sons
Painters and Decorators
SINCE 1885
374 GUERRERO STREET, SAN FRANCISCO
Telephone Market 1711

Quandt-quality is available for the small job as well as the large. Pioneers and Specialists in the application of Lacquer in the architectural field. Complete decorative color schemes designed and furnished. Advice for technical painting requirements furnished. Our operations are state-wide.

FACTORIES & WAREHOUSES

Contractor Taking Sub-Figures.
WAREHOUSE Cost, \$12,000
OAKLAND, Alameda Co., Cal. Sixteen and Campbell Streets.
One-story reinforced concrete warehouse.
Owner—Drayage Service Corp., 18th and Peralta Sts., Oakland.
Plans by Owner.
Contractor—Barrett & Hilp, 918 Harrison St., San Francisco.

Contract Awarded.
ALTERATIONS Cost, \$10,000
SAN FRANCISCO, SE Harrison and Mariposa Sts.
Alterations and additions to present factory building.
Owner—Sussman & Wormser, Fourth and Berry Sts., San Francisco.
Architect—Dodge A. Riedy, 821 Mark St., San Francisco.
Contractor—E. J. Brown, 666 Mission St., San Francisco.

SAN FRANCISCO—San Francisco aircraft concern is conferring with A. Dudley, secretary-manager of Sacramento Chamber of Commerce regarding sites for proposed aircraft manufacturing plant.

Contract Awarded
WAREHOUSE Cost \$25,000
OAKLAND, Alameda Co., 2310 Peralta
Rebuilding hollow tile and brick warehouse (recently destroyed by fire).
Owner—East Bay Iron & Metal Works
Plans by Chas. Wagner, Hobart Bldg., S. F.
Contractor—Spivock & Spivock, Hobart Bldg., S. F.
Sub-bids will be taken in a few days.

COLUSA, Colusa Co., Cal.—Rosenberg Bros. & Co., 334 California St., San Francisco, seek to sign growers in this district for crops to assure the erection of a \$50,000 prune packing plant. The project is yet in a preliminary stage.

Construction Started.
WAREHOUSE Cost, \$15,000
UNION STATION, Napa Co., Cal. Near Napa.
One-story frame warehouse, 184x54 feet.
Owner—Earl Fruit Co., 85 Second St., San Francisco.
Engineer and Contractor—James Ludlow, 460 Montgomery St., San Francisco.

Contract Awarded
WAREHOUSE Cost \$80,000
SACRAMENTO, Cal. Nineteenth and streets.
Three-story reinforced concrete warehouse.
Owner—California Almond Growers, 1800 O St., Sacramento.
Architect—Engineering Dept. of owner.
Contractor—H. W. Robertson, 2633 Geary ave., Sacramento, \$96,642.

Other bidders were:
Lindgren & Swinerton, S. F. \$97,35
Herndon & Finnigan, Sac. 104,17
Mathews Const. Co., Sac. 111,15
K. E. Parker, S. F. 112,47
Vogt & Davidson, S. F. 117,50
Holdener Const. Co., Sac. 130,66

STOCKTON, San Joaquin Co., Cal.—Gilmore Oil Co., 2423 East 28th St., Vernon, will erect a \$20,000 oil distribution station on Santa Fe tracks in Church st. bet. Edison and Baker sts.

Plans Being Figured.
FACTORY Cost, \$20,000
SAN FRANCISCO, Twentieth and Florida Streets.
One-story reinforced concrete factory building.
Owner—City of Paris.
Architect—Fabre & Hildebrand, 110 Sutter St., San Francisco.

SAN FRANCISCO—The Investment Properties Inc. (Walter H. Sullivan, Alexander Bldg.) have purchased the property on the southeast corner of 25th and Potrero ave. A 1-story reinforced concrete building is now on the property and the new owners will erect an additional story to the building and install a railroad spur track in front of the premises. The Western Stopper Co., 2701 18th st., will take a lease on the building upon completion of same.

St-Contracts Awarded.
MG. PLANT Cost, \$23,417
BERKELEY, Alameda Co., Cal. Parker St., bet. 5th and 6th Sts.
O and part two-story steel and brick manufacturing plant (12,000 sq. ft.).
Owner—Bunting Iron Works, 820 Parker St., Berkeley.
Architect—Benjamin G. McDougall, 353 Sacramento St., San Francisco.
Contractor—Lawton & Vezey, 354 Hobart St., Oakland.
Sheet Metal Work—Berkeley Sheet Metal Works, 829 Bancroft Ave., Oakland.
Rolling Doors—Chas. Christiansen, 354 Hobart St., Oakland.
Stl Sash and Glass—Federal Glass Co. Plumbing—Feary & Moll, 1075 40th St., Oakland.

Structural Steel Contract Awarded.
WAREHOUSE Cont. price \$53,750
OAKLAND, Cal., 1st and Market sts., adjoining present warehouse.
O—story steel frame and brick warehouse.
Owner—Howard Co., 1st and Market sts., Oakland.
Architect—Reed & Corlett, Oakland Bk. Bldg., Oakland.
Contractor—James T. Walsh, 608 Woodland, San Leandro.
Structural steel—Moore Drydock Co., ft. of Adeline st., Oakland.
Sub-bids on all other parts of the work are now being taken.

St-Bids Being Taken.
FACTORY Cost, \$40,000
SAN FRANCISCO, SW Fifteenth St. and Potrero Ave. (140x100 feet).
TV—story reinforced concrete factory and warehouse building.
Owner and Builder—James H. Hjul, 128 Russ Bldg., San Francisco.
Pls by Owner.
Leases—International Harvester Co.

SOUTH BEND, Wash.—Puget Sound Dredge & Dredging Co., Central Bldg. Seattle, at approx. \$1,000,000 awarded contract by Willapa Pulp & Paper Mills to erect pulp mill at South Bend with capacity of 60 tons.

FRESNO, Fresno Co., Cal.—San Joaquin Regional Advisory Council of the California Development Association, Chas. S. Knight, industrial director, is investigating the possibilities of establishing a saw and box board mill in Fresno for utilization of lumber wastes. The subject will be the topic at a meeting in Fresno March 22 when representatives of the Star Pine Lumber Co. are expected to furnish statistics on the lumber waste available for by-product development in such a plant. Possibilities of establishing a cotton textile mills for the manufacture of shirts, corduroys and overalls will also be investigated.

FRESNO, Fresno Co., Cal.—Green Mountain Dairy, 453 Fresno st., has purchased property in R st. bet. Tulare and Kn sts., and will have plans prepared for a modern dairy.

SACRAMENTO, Cal.—Southern Pacific Co. 65 Market st., San Francisco, contemplates erection of quarters to house stores department to replace Stores Nos. 4 and 5. Plans for the work are yet to be prepared.

Contract Awarded
FACTORY Cost \$10,000
OAKLAND, Alameda Co., W Magnolia St. N 26th.
O—story factory bldg.
Owner—Laher Auto Spring Co., 26th and Magnolia st., Oakland.
Architect—None.
Contractor—Austin Co. of Calif., 244 Kearny st., S. F.
Building permit applied for.

St-Contracts Awarded
FACTORY Cost \$14,000
SAN FRANCISCO, Folsom and Rogers sts.
T—story and mezzanine floor class C reinforced concrete factory building.
Owner—W. C. Johnson.
Engineer—James H. Hjul, 128 Russ st., San Francisco.
Plumbing—Rodni-Recker, 445 10th st.
Electrical work—Coney Kuchel.

ELSFYVILLE, Lake Co., Cal.—The Kesyville Sun is planning the erection of a reinforced concrete newspaper plant, to be 1-story in height, 16 x 36 ft. Adjoining this will be another 1-story concrete building, to contain store

space, offices and a 4-room apartment. P. Q. Robinson will be the contractor. This building will replace the one recently destroyed by fire.

Mill Work and Electrical Contracts Awarded
WAREHOUSE Cost \$65,000
OAKLAND, Alameda Co., Cal., E Peralta st. bet. 24th and 26th sts.
O—story reinforced concrete warehouse and office bldg. and concrete bunkers.
Owner—W. H. Ford.
Architect—J. C. Buckbee, Chicago, Ill.
Engineer—H. J. Brunnier, Sharon Bldg., S. F.
Contractor—P. J. Walker Co., Sharon Bldg., S. F.
Mill work—Lannon Bros. Planning Mill, 5th and Magnolia sts., Oakland.
Electrical work—C. L. Rosenberg,
Other awards reported Feb. 23.

Sub-contracts Awarded
WAREHOUSE Cont. price \$99,180
OAKLAND, Alameda Co., Cal., Ninth and Castro sts.
T—story reinforced concrete wholesale drug warehouse and offices.
Owner—Langley & Michaels, 50 First st., S. F.
Architect—Henry H. Meyers, Kohl Bldg., S. F.
Contractor—Clinton Construction Co., 923 Folsom st., S. F.
Mill work—Lannon Bros. Mfg. Co., 5th and Magnolia sts., Oakland.
Plumbing—Scott Co., 113 10th street, Oakland.

As previously reported, steel forms awarded to Ransome Co., Oakland; steel sash to U. S. Metal Products Co., 339 10th st., S. F.; reinf. steel to Badt-Falk & Co., 74 New Montgomery st., S. F.

GARAGES

Sub-Bids Being Taken.
GARAGE Cost, \$25,000
SAN FRANCISCO, N Clement E Twenty-first Avenue.
T—story reinforced concrete garage building.
Owner—Frederick W. Schmidt, 2744 Balboa St., San Francisco.
Architect—Felix Spitzer, 251 Kearny St., San Francisco.
Contractor—J. M. Johnson, 2744 Balboa St., San Francisco.

Plans Being Figured
ADDITION Cost, \$12,000
BERKELEY, Alameda Co., Cal. Addison Street.
O—story concrete and brick veneer addition to present garage building.
Owner—Withheld.
Architect—B. Reede Hardman, First National Bank Bldg., Berkeley.
Contractor—E. F. Henderson, 2114 Shattuck Ave., Oakland.
Mr. Henderson is the only contractor figuring the plans.

GOVERNMENT WORK AND SUPPLIES

PUGET SOUND, Wash.—Following bids received by Bureau of Yards and Docks, Navy Department, under Spec. 5474, for chimney at Puget Sound: Rust Engineering Co., 311 Russ St., Pittsburgh, item 1, \$11,283; 2, \$10,340; Elder Eng. Co., Stack Bldg., Los Angeles, item 1, \$9985; Weber Chimney Co., McCormick Bldg.,

Chicago, item 1, \$9490; J. F. Bachelor, 1138 N. L St., Tacoma, Wash., item 1, \$13,392; A. M. Quist, 310 Hoge Bldg., Seattle, Wash., item 1, \$16,438; J. V. Boland Constr. Co., 721 Olive St., St. Louis, item 1, \$10,298; Heinie Chimney Co., 111 W. Washington St., Chicago, item 1, \$11,663.

WHISKERING CLUB PLANS TO JOIN DAYS OF '49 FETE

Members of the Sacramento Whiskering Club will meet in the Chamber of Commerce at 8 o'clock Thursday night to discuss participation in the proposed Days of '49 celebration in Sacramento next year.

The club will discuss means of co-operation with the Chamber of Commerce, Retail Merchants' Association of Sacramento and other groups back of the celebration.

It was stated that the Capital City Band under the direction of R. V. Baker will be present at the meeting to play several selections. The band, likewise, is in favor of the celebration.—Sacramento Bee.

SANDY PRATT will co-operate.

AND TAKE a large delegation.

TO THIS big Sacramento celebration.

SANDY PRATT is President.

OF THE Pratt Building Material Co.

WITH SAND, rock and gravel.

PRODUCING PLANTS.

AT SACRAMENTO, Marysville.

PRATT ROCK (NEAR Folsom).

PRATT CO. (MONTEREY County).

AND MAYHEW (Sacramento County).

CENTRAL OFFICE—San Francisco.

"I THANK you."

Sandy Pratt in his outfit representing Br. Harte's gentleman gambler, Jack Hamlin (picture opposite) will gladly help and boost the '49 celebration. Sandy's hat is over 10 years old and came from Forest Hill, above Placeville. The coat from Oshasta, is 65 years old. The red shirt, guinea windsor tie, boots, gold-headed cane and watch chain is just like Jack Hamlin wore. Many girls and boys will wear their '49 outfits. Sandy's business cards read "Jack Hamlin, Poker etc., Hangtown, Calif."

CONSTRUCTION COUNCIL ELECTS

W. C. Bickford has been re-elected president of the Seattle Construction council, an organization of 200 sub-contractors and building material dealers, affiliated with the Seattle Chapter Associated General Contractors of America, according to Secretary-Manager H. V. Bogert, who also officially reported that H. A. Nelson has been elected vice president, W. M. Meacham secretary and A. Van Doren treasurer. Mr. Bogert states that the organization is functioning very satisfactorily and that a membership campaign to be inaugurated shortly will bring the membership to 300. The Seattle Construction council meets at 4137 Arcade Square, Seattle.

CITY PLANNING CONFERENCE

The National Conference on City Planning will hold a meeting in Texas May 7 to 10. The meeting will open in Fort Worth, and the sessions will be continued in Dallas, in which city will be considered, among other subjects, "Comprehensive Financing for Comprehensive Planning," "The Relation of the Planning Commission to Other Departments of the City Government," "City Planning Procedure in Smaller Cities," "The Planning of Undeveloped Areas," "Airports and Airways as a Part of City and Regional Planning," "What Is Comprehensive Zoning?" and "Profits in Sound Community Planning."

HIGHWAY MANAGER IS NAMED BY A. G. C.

S. M. Williams, well known in highway and construction circles, director of the American Road Builders Association, has been appointed manager of the Highway, Public Works and Railway divisions of the Associated General Contractors of America. This new branch, embracing engineering construction, was created at the recent convention of the A. G. C. at West Baden, Ind. Mr. Williams has spent most of his time in the past sixteen years in the field of highway construction equipment, particularly motor trucks, during which time he has done much toward improving road construction responsibility and technique. Mr. Williams was the originator of what is now the standard questionnaire, and his efforts were largely responsible for the formation of the Joint Conference on Construction Practices. W. Williams has been for many years vice-president of the Autocar Sales & Service Co.

PURCHASE STEEL R. R. TIES

An order for steel railroad ties, amounting to approximately 10,000,000 marks (about \$2,500,00) has been obtained by German firms from the government of the Union of South Africa. In view of the continuously decreasing supply of timber in South Africa, the railways will equip all their lines with steel ties. The total orders received by German firms during 1927 amounted to more than \$5,000,000.

JANUARY TERRA COTTA ORDERS

New orders for terra cotta in January as reported to the Department of Commerce by 26 manufacturers (and, for the earlier months, of two additional firms now out of business) who produced over 95 per cent of the terra cotta made in 1925, were 10,850 tons, as compared with 9898 tons in December and 9851 tons in January, 1927.

SAN ANSELMO BUILDING PERMITS ISSUED IN FEBRUARY

Following building permits were issued during the month of February, 1928, by Chas. H. Cartwright, city building inspector:

G. A. Cooley, garage, \$125; lot 1, Ross Valley Park Hillside Tract.

A. B. Shearer, dwelling, \$4600; portion lot 166 Ross Valley Park Villa Lots.

F. J. Paille, dwelling, \$4900; lot 25 Bella Vista Tract.

E. Grubert, dwelling, \$1800; lot 306 Short Ranch.

George Norton, porch, \$150; lot 75 Ross Valley Park.

J. Leroux, add porches to dwelling, \$400; portion lot 3 Barber Tract.

M. Dos Reis, dwelling, \$3500; lot 35 Tamal Park, Tamal ave.

J. Milani, build porch, \$200; lot 9, blk. 9, Sunnyside Tract.

M. Lazarus, double garage, \$400; lot 78 Ross Valley Park.

F. W. Northon, dwelling, \$800; lot 205 Amended Map Bush Tract No. 2.

Mabel J. Siemer, repair and improve rooming house and lobby, \$500; lot 24 and portion lot 25 Linda Vista Tract.

F. H. Allen, Inc., dwelling, \$4000; portion lots 9 and 10, blk. C, Carrigan Tct., Calumet ave.

MERGER REPORTED

The Pan-Pacific Construction Co. has been taken over by the Warren Bros. Co., Citizens' National Bank Bldg., Los Angeles, and will be operated as the Pan-Pacific Piling & Construction Co., a California corporation, to handle the waterfront business of Warren Bros. Co. W. A. F. Norris is the general manager of the new company, and E. C. Michener has charge of finance. The new company was recently awarded a contract for paving Hermosa ave. and Pier ave. at Hermosa Beach, a Warrenite paving contract amounting to \$313,928.84.

According to word from Houston, Tex., a decision has been handed down in the case of the United States vs. the Markle Steel Co., holding that steel bars for reinforcing concrete should be taxed at a rate of 20 cents per 100 pounds as structural instead of 30 cents per 100 pounds as bars or merchant bars. Approximately \$30,000 was involved in the case. The decision establishes a customs precedent affecting all such steel bars imported into this country, and means a substantial saving in taxes for steel importers.

The provisions of a supplement (June 10, 1924) to the building code of Montclair, N. J., limiting to three stories all buildings constructed or altered for use as apartments to house more than six families have been upheld by a decision of the New Jersey Supreme Court (rendered Jan. 5 and filed Feb. 6, 1928; Harrison R. Vandyne, Inc., vs. William H. Senior, building inspector, and Town of Montclair). The decision supports the contention of the town that the proposed apartment house would still further overburden an already overcharged sewer for which the town is actively planning relief.

The West Coast Lumbermen's Association announces that new business for the 112 mills reporting for the week ended February 25 was 6 per cent above production, and shipments were 11 per cent below production, which was 118,668,519 feet, as compared with a normal figure for the week of 109,239,571. Of all new business taken during the week 50 per cent was for future water delivery, amounting to 62,231,066 feet, of which 43,458,181 feet was for domestic cargo delivery and 18,772,885 feet for export.

Frank A. Canzi, electrical engineer and member of the Society of Engineers of San Francisco, has returned to San Francisco after spending three years in Chile for the Guggenheim interests.

Official Proposals

NOTICE TO CONTRACTORS

(Krause Avenue School—Oakland)

Office of the Secretary of the Board of Education of the City of Oakland.
Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday the 20th day of March, 1928, at 10:45 A. M., at which time said bids will be opened for the erection and completion of the Krause Avenue School Building, to be erected on the north side of Krause Ave. 220 ft. southeast of Church Street. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 15th Street, Oakland, California.

Separate bids will be received for:
(1) General Work.
(2) Awning Type Window Fixtures and Hardware.
(3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on applications to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before March 20, 1928, shall be returned on or before March 21, 1928. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided however, that in no case shall said check be required to be in excess of Five Thousand (\$5,000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 20th day of March, 1928, at 10:45 A. M., in the Board Room, 211, Second Floor, of said City Hall, in said City of Oakland. The Board reserves the rights to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,
Secretary of the Board of Education of Oakland, California.

NOTICE TO CONTRACTORS

(Storm Drains—Benicia, Calif.)

Sealed proposals will be received at the office of the City Clerk of the City of Benicia, County of Solano, State of California, until eight o'clock P. M., April 3rd, 1928, for the constructing and installation of the drain within certain streets in the City of Benicia, County of Solano, State of California, in accordance with the plans and specifications for the building of storm drains and for placing of drainage within the water course streets in said City of Benicia, County of Solano, State of California, indicated on said plans and specifications which were adopted at a meeting of the City Council of the City of Benicia at a regular meeting held February 28th,

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

1928, and reference is particularly made to said plans and specifications for further particulars.

Plans and specifications may be secured from the City Clerk of the City of Benicia, at the City Hall in said City of Benicia, or from F. A. Steiger, Engineer, at his office in the Courthouse, at Fairfield, Solano County, California, provided however, that a deposit of Five Dollars (\$5.00) must be made, which said deposit will be returned when said plans and specifications are returned.

No particular form of proposal is required, except that all proposals shall be in such form as to definitely set forth the proposed work upon which a bid is being made and such proposal must be consistent with the specifications.

The successful bidder shall be required to enter into a contract within fifteen (15) days from the date that the award of contract is made by the City Council of the City of Benicia and the work to be performed must be commenced within thirty days after the date of such award of contract.

A certified check in the sum of Five Hundred Dollars (\$500.00) or a bond executed by a responsible surety company in a like sum must accompany the proposals. The condition of such filing of such check or bond being that the successful bidder will enter into a contract and commence the work within the time hereinabove set forth.

The successful bidder shall be required to furnish labor and material and performance bonds in the amounts that may be fixed by the City Council of the City of Benicia in awarding the contract. The right is reserved to reject any and all bids or accept other than the lowest as may appear to the best interests of the City of Benicia.

Dated this 28th day of February, 1928.

JOHN J. O'GRADY,
City Clerk, Benicia.

NOTICE TO CONTRACTORS

(Hydraulic Earth Fills—Benicia)

Sealed proposals will be received at the office of the City Clerk of the city of Benicia, County of Solano, State of California, until 8 o'clock p. m., April 3, 1928, placing hydraulic earth fills within certain streets in said city of Benicia, which said work involves the filling of approxi-

mately two hundred seventy-five thousand (275,000) yards.

That said work shall be performed in accordance with those certain plans and specifications for the building of storm drains and for placing hydraulic earth fills within certain streets in said city of Benicia, County of Solano, State of California, as indicated on said plans and specifications which were adopted at a meeting of the city council of the city of Benicia at a regular meeting held February 28, 1928, and reference is particularly made to said plans and specifications for further particulars.

Plans and specifications may be secured from the city clerk of the city of Benicia, at the City Hall in said city of Benicia, or from F. A. Steiger, engineer, at his office in the Court House, at Fairfield, Solano County, California, provided however, that a deposit of five dollars (\$5.00) must be made which said deposit will be returned when said plans and specifications are returned.

No particular form of proposal is required, except that all proposals shall be in such form as to definitely set forth the proposed work upon which a bid is being made and such proposal must be consistent with the specifications.

The successful bidder shall be required to enter into a contract within 15 days from the date that the award of contract is made by the city council of the city of Benicia, and the work to be performed must be commenced within 30 days after the date of such award of contract.

A certified check in the sum of one thousand dollars (\$1,000.00) or a bond executed by a responsible surety company in a like sum must accompany the proposals. The condition of such check or such bond being that the successful bidder will enter into a contract and commence the work within the time hereinabove set forth.

The successful bidder shall be required to furnish labor and material and performance bonds in the amounts that may be fixed by the city council of the city of Benicia in awarding the contract. The right is reserved to reject any or all bids or accept other than the lowest as may appear to the best interests of the city of Benicia.

Dated this 28th day of February, 1928.

JOHN J. O'GRADY,
City Clerk of Benicia.

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Highway Building, Sacramento, California, until 2 o'clock P. M., on March 28, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications therefore, to which special reference is made, of portions of State Highway as follows:

Sacramento County, between McConnell Station and Sacramento (X-Sac-4-B), about thirteen and one-tenth (13.1) miles in length, rock borders, oil treated to be constructed.

San Joaquin County, between the San Joaquin River and French Camp (X-S.J.-5-B), about six and eight-tenths (6.8) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

NOTICE TO CONTRACTORS

Horace Mann School Additions—Oakland

Office of the Secretary of the Board of Education of the City of Oakland.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland California, until Tuesday the 20th day of March, 1928, at 10:45 A. M., at which time said bids will be opened for the erection and completion of the Additions to the Horace Mann School of the Oakland School District, to be erected on the northwest corner of Congress Ave. and Ygnacio Street. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before March 20, 1928, shall be returned on or before March 21, 1928. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of District on Tuesday, the 20th day of March, 1928, at 10:45 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,
Secretary of the Board of Education of the City of Oakland, California.

NOTICE TO BIDDERS

(Shades, Blackboards, Lockers—Mountain View School District)

Pursuant to an order of the Board of trustees of the Mountain View Elementary School District, Mountain View,

Calif., notice is hereby given that said Board will receive up to 8 P. M., on the 19th day of March, 1928, at the office of the Principal of the High School of Mountain View, Calif., separate sealed proposals for Blackboards, Shades and Lockers to be furnished and installed in the New Elementary School of Mountain View, California.

Plans and specifications for said work are to be obtained at the office of A. I. Coffey, architect, 1126 Phelan Bldg., San Francisco, Calif.

A certified check equal to at least ten per cent of the amount of the bids submitted must accompany each proposal.

The Board of Trustees reserves the right to reject any or all bids.

By order of the Board of Trustees of the Mountain View Elementary School District.

CHARLES H. MOORE,
Clerk.

NOTICE TO CONTRACTORS

(Camden Street School—Oakland)

Office of the Secretary of the Board of Education of the City of Oakland.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland California, until Tuesday the 20th day of March, 1928, at 10:45 A. M., at which time said bids will be opened for the erection and completion of the Camden Street School Building, of the Oakland School District, to be erected on the north side of Brann Street, 120 feet southeast of Morcom Avenue. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

- (1) General Work.
- (2) Awning Type Window Fixtures and Hardware.
- (3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before March 20, 1928, shall be returned on or before March 21, 1928. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award or to give bonds required for the faithful performance of the contract or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 20th day of March, 1928, at 10:45 A. M., in the Board Room, 211, Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEMOND,
Secretary of the Board of Education of Oakland, California.

NOTICE TO BIDDERS

(Painting—Letterman General Hospital)

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif. Sealed proposals will be received here until 11:00 a. m., March 16, 1928, for painting buildings at Letterman General Hospital, Calif. Information on application.

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, Room 407, Highway Building, Sacramento, California, until 2 P. M., March 14, 1928, at which time they will be publicly opened and read, for performing work as follows:

Furnish and deliver Standard Road Surfacing on about five (5) miles of State Highway in Glenn County, between Orland and Hamilton City (3-GI-47-A).

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the above address.

No bid will be received unless it is made on a proposal form furnished by the District Engineer. Each bid must be accompanied by cash, or a certified check made payable to the Director of Public Works, for an amount equal to ten (10) per cent of the amount bid, such guaranty to be forfeited should the bidder to whom the contract is awarded fail to enter into the contract.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

Specify A GROTH FIREPLACE DAMPER FURNACE

and insure yourself against a smoky fireplace. It saves your heat and cir-
culates pure warm air, keeping home at an even temperature. 50 percent
saving of fuel will pay for installation. Burns Coal, Wood or Gas.

GROTH-GAGE CO.,

816 W. 5th Street

Los Angeles, Calif.

TIMPIE HYDRATED LIME

(a true dolomite lime)

for Brick Mortar, White Coat and Sand Float Finish, and for inducing plasticity in and water proofing Portland Cement Concrete.

Used in approximately \$70,000,000 High Class Pacific Coast construction in last 3 years.

EXAMPLES:—

New Standard Oil Building, San Francisco	Central Bank, Oakland
Oakland Savings Bank	New Subway Terminal Building, Los Angeles
New Mark Hopkins Hotel, San Francisco	Federal Reserve Bank, San Francisco
New Hunter-Doolin Building, San Francisco	New Russ Building, San Francisco
Pacific Telephone and Telegraph Building, San Francisco	

Sold by most progressive dealers throughout Pacific Coast.

For special information write or wire

1928 EDITION

San Francisco Building Laws Now Ready for Distribution

With the issuance of this 1928 Edition, the Building Ordinance Books heretofore published will be obsolete, inasmuch as many sections of the law have been amended and additional sections added.

The 1928 Edition contains all the revisions and additions to the code up to and including January 31, 1928.

In addition to the Building Laws, the 1928 Edition contains FIRE ORDINANCES as regards the construction industry—the ELECTRICAL ORDINANCES and RULES of the San Francisco Department of Electricity—the BILLBOARD ORDINANCE and other laws covering regulations concerning the construction interests.

DETROIT BUILDERS TO HAVE JUNE WEATHER ALL YEAR ROUND

Electrical boxes will be hooked up with steam heat, air washers, air filters and giant ventilating fans, to manufacture perfect weather in all seasons for Detroit's new Union Trust Bank building, a 40-story structure, now under construction. The building will have three basements below grade.

All a tenant of the new building will have to do on a sweltering, hot summer's day is to open a register in his office and refrigerated, clean air, cooled to a temperature of 70 degrees or less, will pour forth to soothe his feverish brow and remind him of his summer camp. Every room in the new building will have its individual air control so that tenants may be comfortable and free from the city's dust and other sources of air pollution.

The air conditioning and ventilating apparatus alone in the new building will cost more than \$250,000. Twenty-four fans will blow 440,000 cubic feet or 33,000 pounds of air per minute to ventilate the building. This is equal to 990 tons of air per hour. The refrigerating machines, to be used for cooling the air, will have a refrigerating capacity equivalent to the making of 700 tons of ice per day. Conditioned air will be driven even into the bank vaults to keep these spaces cool and well ventilated at all times.

STEEL FURNITURE SHIPMENTS

January shipments of steel furniture stock goods, as reported to the Department of Commerce by 33 manufacturers in the "business group," were \$2,712,663, as compared with \$2,740,602 in December and \$2,730,714 in January, 1927. January shipments of shelving, compiled from the reports of 15 companies, were \$680,264, as compared with \$577,910 in December and \$55,996 a year ago.

U. S. STEEL FEBRUARY ORDERS JUMP 122,242 TONS

Forward tonnage of the United States Steel Corporation increased 122,242 tons in February, according to the monthly statement of the corporation. Unfilled orders on the books of the corporation on February 29 aggregated 4,398,189 tons, against 4,275,947 on January 31 and 3,597,119 on February 28, 1927.

The increase is considerably larger than had been expected in Wall street, although some estimates had run as high as 100,000 tons. In the early days of February predictions had been rather general that the unfilled orders would show little change from January 31, and a decrease of 75,000 or more was considered not impossible. A material gain in orders in the last week of the month followed a general slowing up of bookings in the earlier periods and accounted for the gain.

The February tonnage figures were largest since February 28, 1926.

The following tables gives unfilled tonnage of the Steel Corporation at the end of each month since the close of 1925:

	1928	1927	1926
Jan.	4,275,947	3,800,177	4,882,729
Feb.	4,298,198	3,597,119	4,616,822
March	3,553,140	4,379,935	
April	3,456,132	3,867,976	
May	3,050,941	3,649,250	
June	3,053,246	3,478,642	
July	3,142,014	3,602,522	
Aug.	3,196,037	3,542,335	
Sept.	3,148,113	3,593,509	
Oct.	3,341,040	3,683,661	
Nov.	3,545,444	3,807,447	
Dec.	3,972,874	3,960,963	

IMPORTATION OF FOREIGN BRICK AROUSES BRICK INTERESTS

The seriousness of the competition resulting from the importation of foreign brick was forcibly brought to attention at the tenth annual convention of the Common Brick Manufacturers' Association in Washington last month.

The cities of the Atlantic seaboard and adjacent thereto have naturally felt this competition most keenly. Unfortunately for them, brick is on the tariff free list, and any attempt to interest Congress in tariff legislation preceding a presidential election would seem to be most futile.

The high standard of living of the American wage earner would seem not to apply to the brickyard laborer if this foreign importation should continue to grow as it has in the past. Every brick which comes from abroad displaces one which would be made in this country, and affects the interests of all concerned.

Last year the brick importations represented a wage loss to American brickyard laborers of close to \$1,000,000 and correspondingly decreased their purchasing power. This affects not only the laborer but every manufacturing line which produces a product that the laborer consumes.

Henry F. Kalvelage, who was for several years identified with the lumber industry in Portland, Ore., before coming to San Francisco, recently resigned as manager of the wholesale department of Wm. Smith to become general manager of the McCullough Lumber Company, which has offices at 1 Drumm St., San Francisco.

DEADLOCK IN BUILDING CONTRO- VERSY AT SEATTLE DENIED.

Statements to the effect that deadlock had been reached in the negotiation looking toward a new working agreement between the employing building contractors of Seattle and the Seattle Building Trades Council have no basis in fact, according to general contractors and craftsmen representatives.

The signing of the new agreement between the contractors and building tradesmen is scheduled for the first of May. Negotiations are now under way. George Tufel is chairman of the committee from the Seattle Chapter, Associated General Contractors of America, and Rowland Watson is president of the Seattle Building Trades Council. These are the contact men on each side.

"We are not deadlocked, as our continuous meetings prove," stated Chairman Tufel of the contractors' organization. "We are making no public statement with respect to progress, however. That will be made when agreement is reached. We hope that there will be no interruption to the present healthy building program."

George Early, secretary of the Seattle Building Trades Council, also denied the statement that negotiations were at a standstill.

James Murdock, president of the Seattle Chapter, Associated General Contractors of America, denied that negotiations were at a standstill. Declining to go into detail he appeared hopeful that the problems may be solved.

It is known that one of the principal "bones of contention" is the demand on the part of labor that the new agreement include building laborers with the more skilled crafts. The five-day week demand of the carpenters is also a disputed point.

If agreement cannot be reached it is possible—though neither side would comment upon it—that a neutral citizens committee may arbitrate the matter. It is also possible that failure to agree by the first of May might result in the continuance of work approximately under the terms of the present agreement.

Both sides appear anxious that they be permitted to handle the affair in private sessions and believe that there is greater likelihood of reaching a decision satisfactory to all in that manner rather than to make their dispute a public matter.

PROMOTION ENGINEER A BANKRUPT

Frank S. Sinnicks, San Francisco engineer and promoter, whose interests in half a dozen corporations formed for mining and lumber operations were declared at one time to have totaled half a million dollars, has been declared bankrupt.

The adjudication was on an involuntary petition filed by Miss Ora McCreary, former stenographer; Fred D. Winterberg, former auditor and secretary in Sinnicks' offices, and L. and M. Alexander & Co., a typewriter servicing firm, who presented claims totaling \$1487.25. Their claims were "for wages due and services rendered."

They alleged Sinnicks turned over \$425,919 in securities to Luther Elkins, attorney, to satisfy a claim of \$125,000 by James Kelly, associate of Sinnicks.

The bankruptcy action was brought against Sinnicks personally and does not affect the solvency of any of the corporations in which he was interested.

"CERTIFIED CONCRETE" A NEW INDUSTRY

BY JOSEPH A. KITTS, CONSULTING CONCRETE TECHNOLOGIST,
KITTS & TUTHILL, SAN FRANCISCO

Concrete has been certified by testing engineers for many years. Production and selling concrete from central mixing plants is well established. The central manufacture and selling of "certified concrete," however, is a new industry to meet new demands, and involves new requirements in the matters of plant transporting equipment and technological control of manufacture. The need and demand for such material and the advantages of central and mass production in areas of dense population make it a promising industry.

Definition

The fundamental idea of "certified concrete" manufacture is to supply each individual customer with exactly the ingredients or quality he wants in his concrete and to support such product with an authoritative certification or guarantee.

Demands on the Industry

The combinations of ingredients, the bases of measurement and the qualities of concrete demanded are varied and innumerable. The customer may want any of the following:

Various brands and types of cement;

Various types of aggregates;

A mixed aggregate, up to 6-in. maximum size, made up of one to six sizes, graded to the Fuller, Talbot, Pugh, Tut-hill, Wright, Kitts, or his own equation, having a coarseness modulus of 0 to 12, a density of 0.5 to 1.0, a sand to voids in rock ratio from 1 to 2, etc.;

Concrete with from 0 to 6.75 bbl. of cement per cubic yard, any compressive strength from 0 to 10,000 lb. per sq. in., density of 0.5 to 1.0, water cement ratio from 0.4, slump from 0-12 inches, impermeability, flexural strength, weight, wear resistance, workability, flowability and cohesion in the fresh mix, and measurement of ingredients by loose-moist, loose-dry, dry-rodded or absolute volume, or by moist or dry weight.

Requirements of the Industry

To meet these demands the principal requirements for the production of certified concrete are:

1. A central proportioning plant equipped with accurate and efficient facilities for weighing out cement, aggregates, admixtures and water;

2. Mixing and transporting equipment of usual modern types, also "transmixers" or "mixer-trucks," for delivery of freshly mixed concrete where demanded;

3. A fully equipped cement, aggregate and concrete testing laboratory at the proportioning plant; and

4. Maintenance of constant and efficient technological control of the concrete proportioning.

The plant should have a proper bunkering capacity for aggregates of the various sizes demanded, cement bins to accommodate the demanded brands in bulk, facilities for handling these materials efficiently, a layout designed for dispatching output without congestion. Considering the various demands to be met, it can be seen that pedometers or weighing hoppers are essential to accuracy, to meet the various conditions, and to expediency in changing from one measure to another merely by shifting the runner on a scale-beam. As the water-cement ratio is one of the principal items affecting the quality of the concrete, accurate water measuring devices are an essential part of the proportioning plant.

Under certain conditions of mix and

of transporting distance, central mixing and ordinary truck haulage are practical, efficient and economical. Less favorable conditions require special equipment to transport the proportioned material from the central plant and to mix same upon arrival at the job. Where the highest degree of workability is required, as in the structural parts of buildings, the combined hauling and mixing equipment is generally necessary.

Aggregates, although from the same source, vary from day to day in density, specific gravity, grading, coarseness, absorption, moisture, bulking, silt, inferior particles, and organic matter. The demands upon the industry require that the quality of materials be standard, and that the physical characteristics be determined upon receipt of each shipment of materials. The cement received needs to be tested to determine any possible deterioration during transportation or storage and to determine its suitability for special purposes. Concrete is required to be tested for strength, density, weight, yield of combination, water-cement ratio, workability, impermeability, wear resistance, etc. A laboratory at the proportioning plant is, therefore, quite essential to insure quality of materials received, to obtain accuracy of measurements in proportioning and billing, and to make it possible to "certify" in good faith that the ingredients in, or the qualities of, the concrete are as specified.

The weights of ingredients to produce a particular volume of concrete must be computed (with an accuracy within 1 per cent) from the tested physical characteristics of the materials and with exact regard to the physics of concrete mixtures. Short delivery means a claim for shortage and a dissatisfied, skeptical or lost customer. Excess delivery over that billed means a loss to the dealer and sometimes an inconvenience to the buyer in disposing of the excess. The almost indefinite variety of ingredient proportions and qualities demanded, and the business necessity of exact delivery, require utmost service of the concrete physicist and technologist. One man-hour of highly efficient laboratory testing, and proportioning control is required for every five to twenty-five cubic yards of concrete. Without the aid of such control "certified concrete" is merely a catch phrase.

In producing and selling "certified concrete," three principals are concerned, the manufacturer, the building contractor and the building owner (his architect or engineer). Their interests are not the same. Therefore, the direction of proportioning, or technological control of the manufacture, must be under an independent authority serving the three principals with skill, fairness and integrity. The obligation of the concrete technologist under these conditions is, first, to furnish the owner concrete of the specified proportions or quality; secondly, to supply the contractor concrete of suitable workability, flowability and cohesion in the fresh mix, and, finally, to maintain the quality of materials received by the manufacturer, use them with accuracy where the proportions of ingredients are specified by the buyer, and accurately and efficiently where the quality of concrete is specified.

Advantages Of The Industry

The competitive advantages of "certified concrete," produced at a modernly equipped central proportioning plant, are

that a better, more uniform and a more workable quality of concrete can be produced at a lesser cost than possible otherwise, for the following reasons:

1. The plant and laboratory does not need to be dismantled, moved and rebuilt after each job.

2. The plant and laboratory may be more fully equipped with accurate proportioning devices than practicable on the average job.

3. More sizes of aggregate may be handled for uniformity of grading with corresponding increase of efficiency from the materials.

4. It has the advantage of efficiency and economy of mass production in handling cement and aggregates in bulk.

5. The most thorough laboratory control can be maintained at one-half the cost of and more efficiently than that of a 20,000 cubic yard job, at one-fifth that of the 500 yard job, and it cannot be competed with on the job for quality of product.

6. It provides the same accuracy of quality for concrete to repair a small hole in the street as it does for a major structure.

7. It has the advantage that, in case of urgent and unforeseen need, concrete of any quality may be provided at a fraction of an hour's notice.

Its particular advantage is in quality, concrete.

What The Buyer Should Specify

Concrete for any purpose should have the physical characteristics and qualities best suited to that purpose. If the buyer is not expert in concrete proportioning, he should specify the quality of concrete required, strength, density, weight, etc., also the practical requirements of maximum size of aggregate and the working consistency of mix.

Where compressive strength is the essential requirement, it should be understood that measurement of the strength of specimens is subject to the law of probability and error, as is any other measurement, that very slight defects in the form of the specimens cause large adverse errors in the measurements and accordingly, a tolerance of 10% of specimens measured less than 80% of the strength sought, should be provided for in the contract between manufacturer and purchaser.

It should be observed that "certified concrete" will be as bad, average, or as excellent, as the specification provides.

Contractors of San Luis Obispo seek the appointment of a city building inspector, declaring that several buildings have been erected within the city limits with inadequate bracing. The Pacific Coast Uniform Building Code was brought into discussion and it is probable that the code will be adopted previous to the selection of an inspector.

L. N. Crawford, Santa Maria architect, addressed the Santa Maria Rotary Club March 5 on the subject of "Architecture." Directors of the Santa Barbara Association of Architects were present, these including Winsor Soule, Leonard Cooke, J. Fredrick Murphy and E. Keith Lockhard.

Herbert L. Dodge, formerly assistant to the manager of the Wood Homes Bureau of Cleveland, has joined the trade extension staff of the National Lumber Manufacturers' Association as an assistant in the architectural and building code bureau of the Washington office.

THE OBSERVER

**What He Hears
• and Sees
On His Rounds**

Phlehem Steel Corp. announces that last year 37,142 employees bought 71,813 shares of its preferred stock.

Even bond issues for public improvements totaling more than \$2,000,000 carried off a recent municipal election in Tacoma, Wash. All proposition carried by a vote of from 2 to 1 and 3 to 1.

The National Committee on Wool Utilization of the Department of Commerce cites an instance where a contractor saved \$1500 on material and from 15 to 25% on labor by using end matched sheathing on a job calling for \$12,000 worth of sheathing lumber.

Engineers of the Pacific Gas & Electric Company are said to be preparing estimates of cost for a pipe line from Ventura to San Francisco to carry natural gas from the oil fields. Previous estimates place the cost at \$30,000,000.

Plans for an international trade fair to be held in 1929 are being outlined by business leaders of Oakland. At a recent meeting to discuss the proposal about 20 attended. The fair will be modeled after the famous exposition at Leipzig, Germany, and will be held from August to October.

Steel manufacturers are said to believe production this year will be close to normal, but do not anticipate a boom, expecting output to average 80 per cent of capacity, which would be a very large average. The industry is "booming" with operations are between 90 and 100 per cent. Orders on books of various steel companies indicate fair operations for the first half of the year.

Despite a reduction of 4000 in the number of workers, United Steel Works Corporation of Germany reports an increase in iron and steel output, with a turnover of 361,700,000 marks for the first quarter of its fiscal year ended December 31. The turnover for the year ended September 30 was 1,417,000,000 marks.

Endorsement of the combined bridge and tube as an alternate for the Rincon Alameda transbay bridge proposal has been voted by the Alameda city council. The alternate plan is suggested by Leohiel M. King, one of the engineers connected with the Oakland-Alameda estuary tube project, and is said to meet the requirements of the War Department. Mr. King's plan calls for a tube starting at the foot of Army street, in San Francisco, extending 4500 feet out to the bay, where it would rise gradually to a bridge over shallow water on the island side of the bay.

Employment conditions in the United States are improving with the return of reasonable weather, according to Secretary of Labor, James J. Davis, in commenting on the resolution (S.147) adopted by the Senate, March 5, directing the Secretary of Labor to investigate and compute the extent of unemployment and part-time employment. "Building operations are being resumed," said Secretary Davis, "and the return of manufacturing activity in the Ford automobile plant in Detroit, Michigan, is making for improved conditions in that city. The naval building program, the public building program and the program for flood control in the Mississippi River Valley will take up much of the slack in unemployment in the United States."

Damage estimated at more than \$2,000,000 was caused in California's timber area last year by insect pests with a penchant for wood diets, it is announced by State Forester M. B. Pratt. The bugs' board consumption amounted to 1,000,000 board feet of lumber, more than the state's loss by forest fires last year.

May 1 is the date which will probably be set by the San Francisco supervisors to vote on the proposal to issue bonds to purchase the Spring Valley Water Co. properties, to operate as a municipal project. The amount of the bonds will probably be set at \$41,000,000.

Nineteen California counties will be benefited this month by the state's "speed up" program of highway construction, according to B. B. Meek, director of the state department of public works. The March program calls for awards of contract and calls for bids totaling \$4,250,000, with the probability of \$5,336,818 work being done in the next four months.

San Mateo county supervisors have withdrawn franchise granted interests represented by Albert Mansfield, Redwood City attorney, authorizing the construction of a bridge from Candlestick Point, San Mateo county, to the foot of Webster street, Alameda. The structure was to be 45,000 feet in length, 40 feet wide and so designed as to permit widening to 80 feet to provide for railroad facilities. The cost was estimated at \$27,500,000. The franchise was withdrawn due to protests of San Francisco city officials and interests in the Peninsula district.

Proposed standard dimensions for removable concrete forms was a subject discussed at the semi-annual meeting of the Concrete Reinforcing Steel Institute held at Detroit. The conference decided to standardize on the width of forms, the length and total contraction of tapers, special filter widths and depths of forms. These recommendations will be taken up with the division of simplified practice, Department of Commerce, with the idea of nationalizing these standard dimensions.

Scientists, who have adopted the Missionian creed and have to be shown, now may sit back and view the test of a West Texas tradition that hornloads can live 100 years or more without water, food or air. Two of the reptiles, martyrs to science, allowed themselves to be sealed in a concrete block at a public park at Fort Worth, Texas, March 3. City officials, college professors and other prominent citizens were on hands at the ceremony. The performance attending the imprisonment was conducted by students of Texas Christian University.

More than 3,000,000 workmen will receive employment this year in the construction industry, according to opinions expressed by leading building contractors assembled at the recent annual convention in West Baden, Ind., of the Associated General Contractors of America. It was estimated, also, that construction materials having an approximate total value of \$1,600,000,000 will be used this year. This forecast of healthy conditions is based upon the belief among constructioners that this year's program will rival in size the record-breaking activities of 1927.

Mrs. Ediebell B. Plachek, wife of James B. Plachek, Berkeley architect, passed away March 7, on her birthday, in an Oakland hospital after a courageous fight of a year to regain her health. Mrs. Plachek was a native of Atlanta, Ga., and a member of a pioneer Southern family. She married Mr. Plachek twenty years ago in New York City and for the last sixteen years had lived in Berkeley. Until she was taken ill she was active in charity work. Besides her husband, she leaves her mother, Mrs. Elizabeth Buck of Berkeley, an aunt, Mrs. Delia Lermond of Santa Barbara and an uncle, Harry Wight of Los Angeles.

Officials of the Michigan-California Lumber Company express the hope that the plant units that are now nearing completion will be in operation some time in May, according to word from Camino, El Dorado County. The new plant represents an investment of more than \$1,000,000. In addition to the new buildings now being erected the owners are installing modern mill machinery. The new improvements will include the suspension of four new cables across American river canyon to form a ferry system for carrying lumber-loaded cars across the chasm.

A prediction by John Raskob, chairman of the finance committee of General Motors, that eventually every workingman would have 2-day holiday each week has aroused general interest because Raskob has the reputation among his associates of having a rather uncanny foresight and he has helped make eighty millionaires. Raskob's prediction of a two-day holiday per week was made in a statement to the Regional Planning Federation at Philadelphia. Electricity, coupled with the great inventive skill of man, he said, would eventually bring this about. In most cases this would be Saturday and Sunday, he said, but in others it probably would be advisable to have it over the week-end.

Voleske Tool Co., 690 York St., Portland, Ore., reports a demand for its shear and cutting tools. Among the one hundred representative users of the company's product in the Pacific Coast district, the following are located in the San Francisco Bay section: Otis Elevator Co., W. H. Worden Co., Smith-Rice Co., Waterbury Wire Rope Co., Black & Steel Wire Co., and E. H. Edwards Co., all of San Francisco. Holdener Construction Co., Sacramento; Mare Island Navy Yard, Vallejo and Moore Shipbuilding Co., Oakland, are other users.

A check of the licensed plumbers of the Los Angeles metropolitan district, including Beverly Hills, shows 591 plumbers doing business on January 9, 1928, under licenses issued by A. A. Bennett, chief of the plumbing division. W. Burwood Jones, the Daily Permit Service, who made the survey, notes a decrease of 97 in the number of firms doing business as compared with the same date last year.

W. C. Bickford, Seattle engineer, has been re-elected president of the Seattle Construction Council, an organization of 290 sub-contractors and building material dealers, affiliated with the Seattle Chapter, Associated General Contractors of America.

ALONG THE LINE

William Thomas, formerly engineer and draftsman in charge of operations on the North and South Jetties at Humboldt Bay has joined the engineering staff of the Little River Redwood Company at Eureka.

Noah H. Falk, retired pioneer lumberman and best known among the Redwood lumber interests, died at his home in Arcata, Humboldt County, March 11, following an illness of two weeks. He was 92 years of age.

J. R. West, who returned to this country from China last fall, has been appointed chief engineer of the Port of Seattle. Mr. West thus returns to the position he left 11 years ago to take up engineering work in the Orient.

Edward Hyatt Jr., state engineer, is in Southern California investigating the collapse of the Los Angeles aqueduct system in the San Franciscoquito Canyon, 45 miles from Los Angeles. He is accompanied by W. A. Perkins, deputy engineer.

Wm. A. Winn, county surveyor of San Benito County, died in Hollister, March 8. Mr. Winn has been ailing since a year ago last November when he suffered a seizure of heart trouble. He was 66 years old. His widow, daughter, son and brother survive.

Austin B. Fletcher, former California state highway engineer, died in Chevy Chase, Maryland, March 7. Death was due to pneumonia. Mr. Fletcher, who was the first highway engineer under the State Highway Commission, appointed by Governor Johnson in 1911, had been a consulting engineer for the United Bureau of Public Roads. Mr. Fletcher went to Sacramento from San Diego and resigned from the state service in 1922. Under the re-organization during the administration of Governor Wm. D. Stephens he held the office of director of the Department of Public Works.

Replying to rumors that he had resigned or would resign soon, Allan J. Wagner, Sacramento city engineer, announces he had "given no thought to it." He admitted, however, that he has had some attractive offers from contractors which he is still considering—also that he contemplated entering the contracting business for himself. As city engineer he receives a salary of \$7000.

Chas. H. Spear, former president of the California State Board of Harbor Commissioners, died in Berkeley March 7 at the age of 65. Death was due to heart trouble from which he had suffered for several years and as a result of which he was compelled a year ago to resign from the position of managing director of the Los Angeles City Harbor Commission, which position he accepted in 1925.

A merger of the Pennsylvania-Dixie Cement Corp. and North American Cement Corp. is reported to be in the stages of completion, according to word from New York. Announcement of the terms is expected shortly. The pending consolidation is believed in cement circles, it is said, to be a forerunner of a larger unit embracing International Cement Corp. This would give the consolidation plants in Argentina, Uruguay and Cuba, thereby creating a concern that would have output of favorable comparison with such companies as Lehigh Universal, Atlas and Alpha.

\$33,995,301 IS PACIFIC COAST CONSTRUCTION TOTAL FOR FEBRUARY

A notable resumption of new construction activity in the Pacific Coast cities is forecast by the official reports of building permits issued during February, as tabulated in the National Monthly Building Survey of S. W. Straub & Co.

In the 103 municipalities comprised in this survey, 11,679 permits were issued during February, for the erection of new buildings to cost \$33,995,301. This total is 16 percent above the January total, 21 percent above the December total, and is 5 percent above the comparable figure for last February.

The 10 Pacific Coast cities issuing the greatest volume of building permits during February, in order of relative construction costs are: Los Angeles, Seattle, Vancouver, San Francisco, Portland, Oakland, San Diego, Long Beach, Santa Monica and Glendale.

San Francisco's February total, 676 permits for \$2,398,450 of new construction, is 35 per cent under the January figure and 25 percent under that of last February. In the San Francisco Bay area 13 municipalities issuing \$5,257,000 in February permits, show a 14 percent reduction from January and a reduction of 11 percent from last February's figure.

Los Angeles, issuing 2849 permits for \$7,947,728 in new buildings during February, shows a 5 per cent gain over January's figures, a 4 per cent gain over last February, and a 19 per cent increase over the December, 1927, total. In the Los Angeles metropolitan area 14 municipalities outside of Los Angeles proper, issued \$2,767,337 in February building permits, 4 per cent less than in January, but 14 per cent more than during February of 1927.

Seattle increased 168 per cent over last February and 53 per cent over January's figure with a February total of 866 permits for \$4,126,795 of new construction. Of the 15 Washington cities reporting, 10 show gains over February of last year and 10 show gains over the January figures.

Portland issued 921 February permits for buildings to cost \$1,530,340, a 55 percent increase over January's figure, 50 per cent less than that of last February, but 36 percent above the total for December.

Oakland's February figure, 546 permits for \$1,348,380 of new buildings, is 4 per cent above January's total, but 21 per cent below that of last February.

Sacramento, issuing \$581,211 in February building permits, reports a 4 percent increase over January's figure but a 60 percent reduction from the total of February of last year.

San Jose's February total of \$262,035 in building permits issued, is 57 per cent less than the figure for last February but is 61 percent above that of January of this year.

Berkeley, issuing \$498,647 in February permits for new buildings, shows a 52 per cent gain over January and a 27 percent gain over last February.

Stockton's February total, \$122,422 in building permits, is 19 per cent above January's total and 9 percent above the figure for last February.

Following are the official February, 1928, construction cost figures reported by building department executives from 13 cities comprised in the Pacific Coast Section.

Will include exterior and interior changes. Cement stucco exterior. Plant is operated by Peacock Goode.

Sub-bids being taken.
WAREHOUSE Cost \$25,000
OAKLAND, Alameda Co., 2310 Peralta st.
Rebuilding hollow tile and brick warehouse (recently destroyed by fire).
Owner—East Bay Iron & Metal Works. Plans by Chas. Wagner, Hobart Bldg., S. F.
Contractor—Spivock & Spivock, Hobart Bldg., S. F.

Sub-Contracts Awarded.
AUTO LAUNDRY Cost, \$50,000
SAN FRANCISCO, NE Van Ness Ave. and Pine Street.
One-story reinforced concrete auto laundry, 100x150 feet.
Owner—Pacific Gillespie System, Inc.
Architect—Chas. W. McCall, 1404 Franklin St., Oakland.
Contractor—Villadsen Bros., 417 Market St., San Francisco.
Steel Sash—Detroit Steel Products Co., 417 Market St., San Francisco.
Electric Work—Central Electric Co., 179 Minna St., San Francisco.
Brick Work—Wm. Rainey & Son, 323 Clementina St., San Francisco.
Cast Stone—August Dackert & Co., 1450 15th St., San Francisco.

Structural Steel Contract Awarded
MILL BLDG. Cost \$75,000
SOUTH SAN FRANCISCO, San Mateo Co., Cal.
One-story steel mill building, 60x720 ft.
Owner—E. H. Edwards Co., Butler rd., South San Francisco.
Architect—Eng. Dept. of owner.
Contractor—George Wagner, Inc., 181 South Park, S. F.
Structural steel—Pacific Coast Engineering Co., foot of 14th st., Oakland.

OAKLAND, Cal.—Until March 19, 5:30 p. m., bids will be received by City Port Comm., Oakland Bank Bldg., to construct super-structure for Hangar No. 2 at Municipal Airport. Will have structural steel frame with corr. iron covering. Contract for foundation work has been awarded to Triberti & Massaro, 635 44th st., Oakland. Plans obtainable from secty. of City Port Comm.

MODESTO, Stanislaus Co., Cal.—Modesto Terminal Co. and Modesto-Empire Traction Co. will expend \$75,000 in improvements to facilitate freight handling, according to George Beard, manager of the concerns. Warehouses, loading platforms, etc., are included.

FLATS

Plans Being Figured—Bids Close March 16th.
FLAT BLDG. Cost, \$15,000
SAN FRANCISCO, Powell St., between Pacific and Broadway.
Three-story frame and stucco flat and store building (2 5-room flats and 1 store).
Owner—Withheld.
Architect—Fabre & Hildebrand, 110 Sutter St., San Francisco.

GARAGES

SAN FRANCISCO—W. A. Degan, Alameda, at \$748 submitted low bid and was awarded the contract by Constructing Quartermaster, Fort Mason, to erect Radio Beacon at Fort Winfield Scott.

What architects and all who build have learned to expect from Quandt craftsmanship:

"Co-operation for Quality"

Materials applied efficiently and expeditiously by brush or spray application to achieve the best result at the minimum cost to the owner.

A. Quandt & Sons
Painters and Decorators
SINCE 1885
374 GUERRERO STREET, SAN FRANCISCO
Telephone Market 1711

Quandt-quality is available for the small job as well as the large. Pioneers and Specialists in the application of Lacquer in the architectural field. Complete decorative color schemes designed and furnished. Advice for technical painting requirements furnished. Our operations are state-wide.

Preliminary Plans Being Prepared
GARAGE Cost \$110,000
SAN JOSE, Santa Clara Co., South First
street
Three-story reinforced concrete garage
bldg.
owner Withheld
Architect Binder & Curtis, 75 W-San
Carlos st., San Jose.

GOVERNMENT WORK AND SUPPLIES

SAN FRANCISCO BAY—Recommendation for a main channel across the bar in San Francisco Harbor, forty-five feet deep at mean low water and 2000 feet wide and other improvements at an estimated total cost of \$1,281,000 with \$200,000 annually for maintenance, has been made to Congress by the chief of army engineers. The recommendation modifies the existing project and also calls for removal of Presidio Shoal, Rincon Reef (inner) Rincon Reef (outer) Blossom Rock, and Aleatroz Shoal, westward of a north and south line 2000 feet west of Aleatroz light to a depth of forty feet at mean low water. It calls for removal of Arch Rock, Shag Rocks, Nos. 1 and 2 and Harding Rock, to a depth of thirty-five feet at mean low water; and removal of Raceoon Shoal and Point Knox Shoal westward of a north and south line through Point Stuart light to a depth of thirty-five feet at mean low water.

SAN DIEGO, Cal. (Special Correspondence)—As previously reported, Rowlett E. McKee, 28 Central Bldg., Los Angeles, submitted low bid to Bureau of Yards and Docks, Navy Dept., Washington, D. C., to construct pier at foot of E. St. San Diego, will be 65x430 ft. in addition to constructing bulkhead 185 ft. long; also 8000 cu. yds. dredging and filling. Pier construction will involve 359 reinf. conc. piles, 29x20 in., 40 to 62 ft. long; 1500 cu. yds. reinf. conc.; 100 tons reinf. steel; 2660 ft. 8x24-in. reinf. conc. sheet piling; 3000 sq. ft. timber (relieving platform); 100 creosoted fender piles; 110 untreated piles. Tracks, water and electric supply system, bitts, timber work, etc., also included in project.

Bids were taken as follows: Item 1a, work complete, design a, cast in place, concrete superstructure; 1b, work complete, design b, precast concrete superstructure, alternative 1; 2a, add and deduct from item 1a for each typical bay added to or omitted from the outboard end of the pier; 2b, add to and deduct from item 1b for do; 3a, deduct from items 1a and 1b for the omission of track work on shore and all work appertaining thereto except the concrete approaches for the track; 3b, deduct from items 1a and 1b for the omission of the water pipe line on shore; 2c, deduct from items 1a and 1b for the omission of the telephone and electric duct lines and all work on shore appertaining thereto.

Robert E. McKee, 1128 Central Bldg.,
Los Angeles, Cal., item 1a, \$161,000; 2a,
\$7,000; 3a, \$5,000; 3b, \$1100; 3c, \$1300.

Lange & Bergstrom, Commonwealth Bldg., San Diego, item 1a, \$166,000; 2a, add \$1238, deduct \$3000; 3a, \$5700; 3b, \$1300, 3c, \$1500.

McWilliams & Ritchey, 5535 Fernwood
av., Los Angeles, item 1a, \$238,000; 1b,
\$242,000; 2a, \$7000; 2b, \$7200; 3c, \$7400.

S. N. Kerns, 1403 E. Anaheim St., Long Beach, item 1a, \$222.50; 1b, \$222.50; 2a, \$1900; 2b, \$9200; 3b, \$1250; 3c, \$1600.

Frank Moran, Speckel's Theatre Bldg.
San Diego, item 1a, \$198,000; 2a, \$6,500;
3a, \$5,000; 3b, \$10,000; 3c, \$2100

Rose Construction Co., 105 W 4th st., Los Angeles, item 1a, \$199,500; 1b, \$262,100; 2a, \$800; 2b, \$7000; 3a, \$5600; 3b, \$2750; 3c, \$500.

SAN FRANCISCO—Until March 20, 11 A. M., under Order No. 9517-1279, bids will be received by U. S. Engineer Office, 85 2nd St., to fur. and del. Rio Vista, Solano county, carriage bolts, stove bolts, machine bolts, lag screws, cap screws, lock washers, soft lead wire, cold rolled steel, twist drills, etc. Further information obtainable from above office.

SAN FRANCISCO—The following bids received by Constructing Quartermaster, Fort Mason, to erect wire fencing around gasoline storage plant at Crissy Field: Michel & Pfeffer Iron Works, Tenth and Harrison Sts., \$441; Standard Fence Co., \$474; Anchor Post Fence Co., \$475.

SAN DIEGO, Cal.—Until 11 A. M., Mar. 27, bids will be received by Capt. Geo. A. McKay, public works officer, San Diego, for services to sick officers' quarters and gate house at naval operating base hospital at San Diego. The work will include (a) steam, vacuum and high pressure return piping in concrete conduits, (b) fiber and steel electric ducts incased in concrete, concrete electric manholes, high-tension light and power cables, low tension feeders, transformers; (c) terra cotta and cast iron drains, brick manholes; (d) cast iron and galvanized steel water piping; (e) cast iron and wrapped black steel gas piping. Plans may be obtained from public works office on deposit of \$10.

SAN FRANCISCO—Until April 9, 11 A. M., bids will be received by U. S. Engineer Office, 321 Customhouse, to furnish 300,000 tons of stone for jetty at entrance to Umpqua river, Ore. Spec. obtainable from above office.

WASHINGTON, D. C.—Bids are being received by Bureau of Supplies and Accounts, Navy Department, to furnish and deliver materials to Navy Yards and Stations, the date of opening bids as noted at close of each paragraph. (Further information regarding the Schedule may be obtained from Navy Purchasing Officer, 210 California St., San Francisco):

Sch. 8635, various yards, lumber, Mar.

Sch. 8641, western yards, ratchet braces, bolt clippers, breast and hollow handle drills, Mar. 27.

Sch. 8612, western yards, countersinks
and drills, Mar. 27.

Sch. 8613, western yards, vases, Mar. 27.
Sch. 8645, 182 liquid pest-extermimator
sprayers, Mar. 20.

Sch. 8632, Mare Island, 10 arc welding sets, Mar. 20.
Sch. 8682, Mare Island and Puget

Sound, 6000 lbs. forgings, steel, cruising turbine rotor, Mar. 27.

DENVER, Colo.—Until April 10, bids will be rec. by U. S. Reclamation Service, Denver, for fabrication and erection of the riveted plate steel portions of the 12 ft. 1 in. diameter siphons for Horse shoe Canyon and Morrison Canyon on the main canal, Kittitas division, Yakima projects, Washington. The siphon sites are located about 8 and 9 miles respectively, east of Cle Elum, Wash. The work will require about 890,000 lbs. of metal work. Plans obtainable from above office.

VALE, Ore.—Until April 6, bids will be rec. by U. S. Reclamation Bureau, Vale, Ore., to construct earthwork and structures of the Vale main canal from station 625.50 to station 1117.50. The work is located near Harper, Ore., on the Oregon eastern branch of the Oregon Short Line Railroad. The work will include 821,000 cu. yds. of canal, structure and other excavation, 14,500 sta. cu. yds. of overhaul, 9200 cu. yds. of compacted embankments or puddled core, 28,000 cu. yds. of backfill about structures, 2000 cu. yds. of puddling or tamping backfill about structures, 2200 cu. yds. of concrete structures, placing 184,000 lbs. of reinforcement bars, laying 680 lin. ft. of 6 in. drain pipe and 680 lin. ft. of 6 in. to 24 in. diam. concrete pipe for structures, erecting 21,000 ft. b. m. of timber bridges and installing 14,000 lbs. of gates and other metal work. Plans obtainable from above office.

HALLS AND SOCIETY BUILDINGS

WOODLAND, Yolo Co., Cal.—Members of the Town and Country Club contemplate purchase of site in Woodland residential district on which it is proposed to erect club building. Of total amount required for construction, \$10,000 is already available. The proposal to erect an adobe structure has been rejected by the club membership and a more modern structure than first anticipated will be erected.

WOODLAND, Yolo Co., Cal.—Carleton Pierson, Woodland, has completed plans and bids are being received by St. Luke's Episcopal Church to erect additions to parish house; estimated cost \$10,000. Addition will comprise a combined Bible school, hall and social room and will be located on the Second street side of the church property. Plans are obtainable from the Building Committee at the church.

Plans Being Prepared.
CLUB BLDG. Cost, \$50,000
BERKELEY, Alameda Co., Cal. Bancroft
Way near College Avenue.
Club building.
Owner—College Women's Club of Ber-
keley, 2642 Bancroft Way, Berkeley.
Architect—Walter Steilberg, 1 Orchard
Lane, Oakland.

CRESCENT CITY, Del Norte Co., Cal.—Architect Jens C. Petersen, California State Life Bldg., Sacramento, commissioned by Veterans' Memorial Building Committee for proposed \$60,000 memorial building; main auditorium will have seating capacity of 1000 exclusive of balcony.

SEBASTOPOL, Sonoma Co., Cal. — Sebastopol Post, American Legion, has adopted resolution to purchase site in North Main st. on which will be erected new clubhouse. Early construction is contemplated.

MARYSVILLE, Yuba Co., Cal.—City council has offered to sell to Benevolent and Protective Order of Elks an irregular shaped parcel of property on the west side of D st. bet. 9th and 10th sts. on which the lodge proposes to erect a modern club building. Dean & Dean, California State Life Bldg., Sacramento, are brokers.

MARYSVILLE, Yuba Co., Cal.—Erection of proposed clubhouse for Yuba-Sutter Golf Club will be financed through membership due payment. Plans for the proposed building have already been completed and construction will probably be started in April. Directors are: I. C. Evans (general contractor); H. B. P. Carden, J. U. Pearson, Donnell Greely and J. L. Sullivan.

Contracts Awarded
CLUB HOUSE. Cont. price \$238,000

SAN FRANCISCO—Until April 4, 3 M. bids will be received by Board of Public Works for work in connection with

PRATT'S CONCRETE MIX

by Clarence
Sandy Pratt

COSTS NO MORE TO OWN A HOME THAN TO PAY RENT

Every vacant piece of land in the city's environs is an invitation to stop paying rent and own your own home. Why people go on year after year without owning the roof that shelters them is one of the great mysteries. It is possible nowadays to own a home for no more than it costs to occupy somebody else's property. It is possible to establish a real headquarters for the family, where men and women can plan and children can grow up with some assurance of permanence for the future.

Men who today are paying rent look at others of the same age and earning power and wonder how they can get by so much better on what they earn. More often than not it is because the other fellow has been putting his rent money into his own home and now owns it without the monthly call from the landlord.

From every standpoint of stability, prosperity and good citizenship of the present and rising generation it is good for a family to be in its own home. Every home building space is a reminder that there is no time like the present to make a start.—Editorial in San Francisco Chronicle.

IT SEEMS to be stylish.

TO OWN your home.

AND EVERYBODY seems.

TO BE buying a home.

IT ONLY takes.

A LITTLE cash.

TO MAKE the first payment.

AND THEN the rest.

IS LIKE rent.

CLARENCE (SANDY) Pratt, president.

OF THE Pratt Building Material Co.

CAN REMEMBER.

WHEN THE rich only.

OWNED THEIR homes.

JUST BE careful.

WHEN YOU buy.

ASK THE contractor.

OR REAL estate man.

IF PRATT'S clean sand.

WAS USED to plaster.

BOTH INSIDE and out.

THEN ASK about the foundation.

AND OTHER concrete work.

ASK IF Pratt's clean gravel.

OR PRATT'S hard rock.

WAS USED in all.

OF THE concrete work.

FOR SANDY produces.

CLEAN SAND, rock and gravel.

AT SACRAMENTO, Marysville.

PRATT ROCK (NEAR Folsom).

PRATT CO (MONTEREY County).

AND MAYHEW (Sacramento County).

CENTRAL OFFICE—San Francisco.

"I THANK you."

It is fun to own your own home if made of Sandy Pratt's clean sand, rock and gravel (nothing to worry about). You can play your piano till daylight in your own home, and no landlord can stop you.

Edward Robeson Taylor School in area bounded by Bacon, Goettingen, Burrens and Somerset Ave. Bids are wanted for (1) general construction, est. cost, \$64,000; (2) finished carpentry, \$16,000; (3) painting, \$4000; (4) plumbing, \$500; (5) mechanical work, \$6800; (6) electric work, \$4500. 1093 Longridge Road, Oakland

BUSINESS OPPORTUNITIES

Sanitary Apparatus and Septic Tanks.
Paris, France, Association Nationale
C'Expansion Economique, 23 Avenue de
Messine, Paris, France. Exporters of
the above-mentioned equipment are seek-
ing connections in San Francisco.

Ceramic Products. Barcelona, Spain,
Ceramica del Xandri, S. L., Aribau 55,
Barcelona, Spain. Manufacturers of
ceramic products for the building trade,
such as red floor tiles, glazed round red
roof tiles in all colors, sanitary piping
and ornamental ceramics, floor tiles in
all colors, and kindred products, desire to
introduce their products in this territory.

Artistic Carved and Stamped Woods.
Trieste, Italy. Enrico Krisa, via Artisti
N. 3, Trieste, Italy. Manufacturers wish
to get in touch with San Francisco im-
porters interested in artistic wood bor-
ders; pressed and stamped, spiral staves;
carved and stamped ornaments and
patent borders in variegated woods for
furniture and tapestry purposes.

Market for California Products in
Greece. Athens, Greece. I. P. Cotsim-
biris & Co., 3, Rue Proastiou 3, Athens,
Greece. Trading company seeks con-
nections with San Francisco manufacturers
and commercial houses, which are in-
terested in having their goods marketed
in Greece.

Scrap Tin. Kobe, Japan. Mitsudzumi
& Co., P. O. Box 348, Kobe, Japan. Firm
requests prices, c.i.f. Kobe, on scrap tin
plate. They are in a position to do quite
an extensive business in that commodity
providing the goods are right and the
price moderate.

Electric Lamp Filament. Osaka, Jap-
an. M. Nagaoka & Co., 1-Chome Yedo-
berri, Minamidori, Osaka, Japan. Im-
porters of tungsten wires and molyb-
denum wires, to be used for incandescent
lamps and gas filled lamps, solicit prices
and samples from U. S. A. manufacturers
and exporters.

Machinery and Merchandise for the
Calcutta Market. Calcutta, India. Mr.
John D. Marsh, United Trading Com-
pany, S. A., Chester Williams Bldg., 5th
and Broadway. Company desires to se-
cure the agency of San Francisco job-
bers and manufacturers, who sell mer-
chandise and machinery suitable for sale
in India. The type of machinery desired
is small hand-powered machines for
various purposes, acetylene lanterns and
lamps, cheap ice cream freezers, ma-
chines requiring small gasoline engines
to operate them, also other articles and
machines of this type. Representative
of the Calcutta company is now in Los
Angeles for the purpose of arranging the
above-mentioned connections, and he
would appreciate hearing from interested
San Francisco concerns.

Accepting without discussion the rec-
ommendation of the Municipal Water
Committee, the Aberdeen (Wash.) city
council awarded a contract to supply
10,000 barrels of Portland cement to the
Building Materials Co., Inc., of Grays
Harbor. Action on the award has been
delayed last week to allow additional
time to scan the bids, but no reason for
the action was given. The Grays Har-
bor firm had bid \$3.11 per barrel as
against \$2.76 offered by the Stonewav
Dock Co., Seattle. The low bid was for
Belgian cement while the local proposal
specified the domestic product. It is un-
derstood unofficially that the question of
possible damage to cement brought in
water influenced the decision, although
question of transportation and availabil-
ity of additional materials are believed to
have been involved.

California State Civil Service Com-
mission, Forum Building, Sacramento,
announces examinations for various po-
sitions in highway construction, inspec-
tion and location and civil engineering
drafting positions. Applications for ex-
amination under the former must be filed
with the commission not later than April
14 and on the latter not later than April
5. Further information, together with
application blanks for examinations, are
obtainable from the commission offices at
San Francisco, Los Angeles and the main
offices at Sacramento.

Engineering News Section

TEHAMA, Tehama Co., Cal.—Until March 30, 8 P. M., bids will be rec. by Louise Underhill, city clerk, to const. reinf. conc. bridge at n. w. entrance to city. Est. cost \$8875. Cert. check 5% req. with bid. Plans on file in office of clerk.

DEL NORTE COUNTY, Cal.—Until April 4, 2 P. M., bids will be rec. by State Highway Commission, to const. steel cantilever bridge consisting of two 114-ft. anchor arms, two 114-ft. cantilever arms and one 152-ft. suspended span; on conc. piers and about 1.16 mi. of rdwy. to be graded. Bridge will be constructed over Smith River, about 8 mi. east of Crescent City. C. H. Purcell, State Highway Eng. See call for bids under official proposal section in this issue.

SAN FRANCISCO—Alameda city council has given endorsement of combined bridge and tube as an alternative for the Rincon Hill-Alameda transbay bridge project. The alternate plan is suggested by Lochiel M. King, engineer connected with the Alameda Estuary tube project. His plan is said to meet the requirements of the War Department. Tube would start at foot of Army st., San Francisco, and extend 4500 ft. out into bay where it would rise gradually to a bridge over shallow water on the island side of the bay.

NEWPORT BEACH, Cal.—Until April 2, 7:30 p. m., bids will be rec. by Alfred Smith, city clerk, to const. reinf. conc. bridge together with conc. abutments, foundations, columns, walls, approaches, conc. pipe drains, etc., in Goldenrod ave. Cert. check 10 per cent req. with bid. Plans on file in office of clerk.

SAN MATEO COUNTY, Cal.—County supervisors rescind action awarding franchise to interests represented by Albert Mansfield, Redwood City attorney, authorizing the const. of a toll bridge over San Francisco Bay from Candlestick Point, San Mateo county, to ft. of Webster st., Alameda county. Franchise rescinded due to protests of city and county of San Francisco and Peninsula district. Proposed structure as contemplated was to be 45,000 ft. long, 40 ft. wide and so designed as to permit widening to 80 ft. to handle railroad business. The cost was placed at \$27,500,000.

SAN JACINTO, Cal.—Riverside County Supervisors contemplate const. of bridge over San Jacinto river on route of San Jacinto-Solobos Rd., the city of San Jacinto and county to pay one-half and the Federal Gov't the remaining half; est. cost \$10,000.

DREDGING, HARBOR WORKS AND EXCAVATIONS

SAN FRANCISCO—Until April 9, 11 A. M., bids will be received by U. S. Engineer Office, 321 Customhouse, to fur. 300,000 tons of stone for jetty at entrance to Umpqua river, Ore. Spec. obtainable from above office.

SANTA BARBARA, Cal.—City plans to imp. Bird Refuge Lake by creating two artificial islands and filling a portion of the present lake will involve about 151,000 cu. yds. material. City Engineer E. B. Brown has estimated the cost at \$60,400.

SAN FRANCISCO BAY—See "Government Work and Supplies," this issue. Modification of San Francisco Harbor.

OAKLAND, Cal.—City Port Commission rejects bids to fill slough along South Shore dr., at Municipal Airport. Work will be done by day labor. Paris Bros., Antioch, low bidder at 62c yd.

STOCKTON, San Joaquin Co., Cal.—City council votes \$2000 appropriation to cover completion of deep water surveys in connection with Stockton Harbor. W. B. Hogan is city eng.

IRRIGATION PROJECTS

GRENADA, Siskiyou Co., Cal.—Following is complete list of bids rec. by Big Springs Irrigation District, to const. two pumping plants, seven flumes, one ditch and minor project units; also to furnish cement, lumber, reinforcing steel, metal flumes and concrete pipe:

Official Proposals

STATE OF CALIFORNIA DEPARTMENT OF PUBLIC WORKS DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Highway Building, Sacramento, California, until 2 o'clock P. M., on April 4, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Del Norte County, across Smith River about 8 miles east of Crescent City (I-D-N-1-C), a steel cantilever bridge consisting of two 114-foot anchor arms, two 114-foot cantilever arms and one 152-foot suspended span; on concrete piers and about 1.16 miles of roadway to be graded.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the District Office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the District Office.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

Dated: March 7, 1928.

DEPARTMENT OF PUBLIC WORKS,
DIVISION OF HIGHWAYS,
C. H. PURCELL,
State Highway Engineer.

ADVERTISEMENT FOR BIDS

Sealed bids will be received at the Office of the Comptroller, 220 California Hall, University of California, Berkeley, California, on or before 11:00 A. M. Monday, March 26, 1928, for (a) Development and Improvement of the Strawberry Canyon Roads and (b) General Excavation, Fill and Grading of the Site and Roads for a Poultry Research Station located in Strawberry Canyon, Berkeley and Oakland, California.

Drawings and Specifications may be obtained from the Comptroller's Office, Room 218 California Hall, on deposit of \$20.00 for each set.

The right is reserved to reject any or all bids.

THE REGENTS OF THE UNIVERSITY
OF CALIFORNIA

NOTICE TO BIDDERS

(Voting Booths and Ballot Boxes—Reno Nevada)

Pursuant to an order of the Board of County Commissioners of Washoe County, State of Nevada, made and entered on the 5th day of March, 1928, sealed bids and proposals will be received by the undersigned at the office of the County Clerk of Washoe County, in the City of Reno, County of Washoe, State

of Nevada, not later than ten o'clock A. M., Wednesday, April 11, 1928, for the following, to-wit:

Seventy-two (72) folding voting booths, twelve sections.

Also twelve large size ballot boxes. The said Board of County Commissioners reserves the right to reject any or all bids and to accept the bid best suited to the needs of Washoe County.

E. H. BEEMER,
Clerk of Board of County Commissioners

Standard Form No. 20
STANDARD GOVERNMENT FORM OF
INVITATION FOR BIDS
(Construction contract)

United States Department of Agriculture,
Bureau of Public Roads.

San Francisco March 7, 1928

SEALED BIDS, in single copy only subject to the conditions contained here-in will be received until 10:00 o'clock a. m. on the 27th day of March, 1928, and then publicly opened, for furnishing all labor and materials and performing all work for grading the portion from Sta. 409 plus 68 95 to Sta. 588 plus 60 on the Cromberg-Feather River Inn section of Route No. 23, Quincy-Blairdsen National Forest Highway, located in the Plumas National Forest, County of Plumas, State of California. The length of the project to be graded is 3.36 miles and the principal items of work are approximately as follows:

Excavation, unclassified, 128,600 cu. yds.; excav. incl. for structures, 1050 cu. yds.; overhaul, 26,500 sta. yds.; class A concrete, 213 cu. yds.; class B concrete, 32.5 cu. yds.; reinforcing steel, 18,500 lbs.; 18" C. M. P. haul and place, 800 lin. ft.; 24" C. M. P. haul and place, 1000 lin. ft.; 70" C. M. P. haul and place 130 lin. ft.; hard laid rock embankment, 23 cu. yds.

Proposals will be received from capable and responsible contractors who must submit with their request for Standard Government form of Bid, on forms to be supplied by the District Engineer, an attested statement of their experience and financial resources. Standard Government Form of Bid will be supplied only to contractors showing sufficient experience and financial resources to properly construct the work contemplated.

Where copies of plans and specifications are requested, a deposit of \$10.00 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and made payable to the Federal Reserve Bank of San Francisco.

Guarantee will be required with each bid as follows: In the amount of five (5) per cent of the bid.

Performance bond will be required as follows: in the amount of one hundred (100) per cent of the total contract price. Performance will begin within ten (10) calendar days after date of receipt of notice to proceed and will be completed within two hundred (200) calendar days from that date.

Liquidated damages for delay will be the amount stated in the Special Provisions for each calendar day of delay until the work is completed and accepted.

Partial payments will be made as the work progresses for work and material delivered if such work and material meet the approval of the Contracting Officer.

Article on patents will be made a part of the contract.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction.

The right is reserved, as the interest of the Government may require, to reject any and all bids, to waive any informality in bids received, and to accept or reject any items of any bid, unless such bid is qualified by specific limitation.

Award of contract will not be made unless and until the necessary funds therefor have been appropriated by Congress.

Envelopes containing bids must be sealed, marked, and addressed as follows: Bid for Road Construction Cromberg-Feather River Inn section, Quincy-Blairdsen National Forest Highway, 807 Sheldon Bldg., 461 Market St., San Francisco, Calif. To be opened 10 a. m., March 27, 1928.

C. H. SWEETSER, District Engineer.
NOTE—See Standard Government Instructions to Bidders and copy of the Standard Government Form of Contract, Bid Bond, and Performance Bond, which may be obtained upon application.

1 time March 10

NOTICE TO CONTRACTORS

(Steel Bascule Bridge—Near Freeport, Sacramento County)

Notice is hereby given that the Board of Supervisors of Sacramento County, California, will receive sealed bids at the Office of the Clerk of said Board, Room 201, Court House Building, Sacramento, California, for the construction of a Bascule Steel Bridge, across the Sacramento River, near Freeport, Calif.

Said bids to be received up to ten o'clock A. M., March 26th.

Each bidder must submit a proposal to the Clerk of the Board of Supervisors on standard forms which may be obtained from the Office of the County Engineer, said proposal to be accompanied by a certified check of ten per cent of the amount of the bid submitted, check to be made payable to the Chairman of the Sacramento County Board of Supervisors.

Plans and specifications are on file in the Office of the County Engineer to which all prospective bidders are hereto referred.

The Board of Supervisors reserves the right to reject any and all bids received as the public good may require.

By Order of the Board of Supervisors, Sacramento County, Dated February 6th, 1928.

HARRY W. HALL,
Clerk and Ex-Officio Clerk of the Board of Supervisors.

By GEO. M. POTTLE,
Deputy Clerk.

NOTICE TO CONTRACTORS

(Oakland High School Gymnasium)

Office of the Secretary of the Board of Education of the City of Oakland.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211 City Hall, Oakland, California, until Tuesday, the 27th day of March, 1928, at 10:45 A. M., at which time said bids will be opened for the erection and completion of the Oakland High School Gymnasium of the Oakland High School District, located on the southwest corner of Park Boulevard and Hopkins Street, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 Seventeenth St., Oakland, California.

Separate bids will be taken on:

- (1) General Work.
- (2) Finish Hardware.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned within ten (10) days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District, as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals ob-

tained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland, and of Oakland High School District, to be retained by said School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000.00) Dollars, but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for a least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 27th day of March, 1928, at 10:15 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEWORTH,
Secretary of the Board of Education of
Oakland, California.

NOTICE TO CONTRACTORS

(East Bay Municipal Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Ray Building, Oakland, California, until 7:30 o'clock P. M., Friday, April 20th, 1928, for furnishing materials for and constructing the Sequoia and Wildcat Aqueducts, Mokelumne River Project. Specifications may be obtained by application to the office of the District.

JOHN H. KIMBALL,
Secretary
Oakland, Calif., March 3rd, 1928.

NOTICE FOR BIDS

(Steel, Redwood and Concrete Pipe—Oroville-Wyandotte Irrigation District).

1928 EDITION

San Francisco Building Laws Now Ready for Distribution

With the issuance of this 1928 Edition, the Building Ordinance Books heretofore published will be obsolete, inasmuch as many sections of the law have been amended and additional sections added.

The 1928 Edition contains all the revisions and additions to the code up to and including January 31, 1928.

In addition to the Building Laws, the 1928 Edition contains FIRE ORDINANCES as regards the construction industry—the ELECTRICAL ORDINANCES and RULES of the San Francisco Department of Electricity—the BILLBOARD ORDINANCE and other laws covering regulations concerning the construction interests.

ARTHUR BROWN, S. F. ARCHITECT,
NAMED ON CHICAGO FAIR BOARD

Arthur Brown, San Francisco architect, who designed the horticultural building at the Panama-Pacific International Exposition, is wearing a new honor today.

He has been named as one of eight nationally known architects who will design the physical structure of the world's fair in Chicago, opening in 1933.

Besides Mr. Brown, the architectural board will comprise Edward H. Bennett, Hubert Burnham and John A. Holabird of Chicago; Hervey W. Corbett of New York, Paul P. Cret of Philadelphia, and Raymond Hood and Ralph T. Walker of New York.

Appointment of Brown and his colleagues was made public in Chicago by Rufus C. Dawes, president of the forthcoming world's fair, according to an Associated Press dispatch.

ARRANGEMENTS UNDER WAY FOR BUILDERS' STATE MEETING

Arrangements are now under way by the Stockton Builders' Exchange for the convention of the California State Builders' Exchanges to be held in that city April 27 and 28. Session will be held in the Lincoln Hotel.

Committees have been appointed to outline a program of entertainment both for members and their ladies.

A banquet will be held on the evening of the 27th in the banquet room of the civic auditorium at 7 p. m. In addition to delegates and their ladies, city officials, members of civic organizations, and leading citizens will attend.

After the banquet a free public dance will be held.

The committee on arrangements consists of E. H. Grogan, plumbing supplies dealer; Walter Lanen of the Yolland Ice and Fuel Co., L. S. Peletz, contractor, and J. M. Burke, publicity chairman.

COLONEL ROWAN ADDRESSES SOCIETY OF ENGINEERS

Col. Andrew Somers Rowan, U. S. A., retired, addressed 300 members and friends of the San Francisco Society of Engineers at the Palace Hotel, San Francisco, March 13, telling how in 1893 he ran the gauntlet of Spanish gunboats and soldiers, and delivered dispatches from President McKinley to General Garcia in command of the Cuban insurgents.

Colonel Rowan's act has been immortalized by Elbert Hubbard in his famous "Message to Garcia," more copies of which have been circulated than any other publication; the Bible alone excepted.

The Colonel's address was inspirational to his audience because of its simplicity.

ENGINEERS' CLUB IS ORGANIZED AT FRESNO

Final abandonment of the Fresno Chapter, American Association of Engineers was accomplished in Fresno March 15 by the newly organized Engineers' Club.

The business of the old chapter, with its affiliation with the national organization of engineers, was wound up and the new organization started to function when President H. C. Burbridge of the new club named his committees for the year.

The committees are as follows: Program, Lee R. Duncan, A. Segel, C. J. Gronlund; civic and public relations, George L. Svendsen, C. P. Jensen, Perry F. Brown, J. W. Hall and E. E. Wallace; membership, J. Mark Webster, H. N. Kalb, W. A. Gee, C. P. Johnson and Stanley W. Scarfe; employment, C. W. Manley, R. L. Beuthel and H. H. Minor; auditing committee, Fred Gamboni, H. P. Councilman and John Mahon Jr.; publicity and historical committee, Charles A. Miller, O. L. Dickinson, Edgar C. Smith and F. R. Morris.

W. H. GEORGE WILL ADDRESS SANTA BARBARA BUILDERS' EXCHANGE

Wm. H. George, president of the San Francisco Builders' Exchange, will be the principal speaker at a get-together dinner meeting of the Santa Barbara Builders' Exchange on March 30. The meeting will be held in the Margaret Baylor Inn, Santa Barbara. Officers of the California State Builders' Exchange will probably attend the meeting, according to A. J. Nolder, secretary-manager of the Santa Barbara Exchange.

In an effort to curb the ever-increasing number of "fly-by-night," irresponsible and "skin the job" contractors, the Richmond Builders' Exchange has appointed a committee from its membership to draft an adequate ordinance which would require all contractors to apply for a city license and furnish a bond before a building permit is granted.

Utilization of short lengths of lumber which heretofore have been considered waste materials, recently netted the War Department a saving of 35 per cent on a purchase of \$1700 worth of crating material. A saving of \$14 per thousand board feet was made possible by the use of lengths under 8 feet, in place of sixteen foot pieces.

NEW COMPANY IS FORMED TO FINANCE HOMES

To finance the erection of homes at a moderate cost throughout the country, the National Home Funding Corporation with a capital of \$5,000,000 has been formed.

Using its millions of dollars of capital as a revolving fund, the corporation plans to go into the nation's industrial centers, support the own-your-own-home movement, lend its funds to prospective home builders, and, at the same time, by the application of the bond-mortgage principle, that has been widely adopted in conservative banking sections earn a reasonable dividend for the shareholders.

"Statisticians estimate," said Arthur S. Somers, a prominent New York business man and head of the new organization, "that the demands for home building capital is much greater than the supply now readily available through the regular channels. It is also estimated that upward of one million rent-paying, salary and wage earners in the United States could and would become home owners if they were encouraged and enabled to borrow, on equitable terms, a reasonable amount of building capital."

"For every mortgage negotiated in the past," said Mr. Somers, "there have remained nine mortgages unsold and nine houses unbuilt and nine reliable individuals kept in the rent-paying class. The National Home Funding Corporation proposes to contribute its resources toward improving this condition."

CONTRACTORS AND UNION LEADERS GET TOGETHER AT BAKERSFIELD

Seeking a means whereby the building industry of Bakersfield may be stabilized for the protection of both the builder and his client, steps toward organization of an employers club patterned after the old Builders Exchange of Bakersfield were taken March 21 when general contractors of the city met with representatives of the Building Trades Council and the Labor Council at a dinner in St. Francis cafe. An honor guest of the evening was Judge E. W. Owen.

Speakers included Contractors Peter Stevens, Willard Michaels, Clark Gramling, Gene Cartley, Oscar Tomerlin, Geo. Wilson, Virgil Young, Arthur Ferguson and Roy Meyers. Speakers representing the union labor included E. R. Day of the painters; Charles Rohrer, electricians; James Dupes, carpenters; and H. C. McCune, interior decorating foreman for the Clark Gramling Construction Co.

Other than its natural purpose of providing a way for closer relationship between the employer and the employee engaged in building trade activities here, the organization is expected to safeguard the public from the unscrupulous contractor who might drop into the city "overnight," accept a contract by far underbidding local contractors, and then cheapen his work to make a profit, according to Foreman McCune, one of the principal speakers of the evening.

The conference was presided over by Fred Hunter, prominent union leader in the Kern county section.

New orders for fabricated steel plate in January, based on reports received by the Department of Commerce from 51 firms, were 41.1 per cent of capacity, as compared with 44.1 per cent in December and 44.6 per cent in January, 1927.

ARCHITECT AND ENGINEER ARE NEEDED TO SOLVE THE TROUBLES OF CONTRACTORS AND SUB-CONTRACTORS

(By GEO. B. WALBRIDGE, Past President, A. G. C., From an Address Delivered at the National A. G. C. Convention at West Baden, Indiana, January 23-27, 1928)

This is an opportunity which should be welcomed by everybody in the construction industry, for general contractors have grievances and if sub-contractors have them, the place to get rid of them is to come out in the open and talk about them. You can't cure them any other way. I am very glad for the opportunity to take part in this discussion.

I spent the better part of one entire year traveling all over these United States, trying to sell a few profit seeds to the general contractors—talking and discussing construction in all its phases, trying to find a cure for the general contractor's low profits, for everyone knows that the remuneration is not enough for the responsibility taken.

I don't seem to have done much good for which I am sorry, but if we keep everlastingly pounding at the subject, honestly some time we will find that "the servant is worthy of his hire."

I am more than pleased to have our good friends, the sub-contractors, represented here today, for that shows progress. The more cooperation between all members of the construction fraternity, the quicker our mutual problems will be solved.

I haven't any doubt but that Mr. Reum's expressions form a pretty good representation of the feeling and problems of all the different sub-trades. Our grievances and the subs' grievances are not imaginary. They are very real. And I have found this out; the general contractor cannot solve them alone; the subs cannot solve them alone. The two, co-operating, can help; but to have a real cure we need the other side of the triangle in closer co-operation, viz.: the architects and the engineers.

The three sides of the triangle, which is a good symbol of construction, is made up of the architect, engineers, general contractor and the sub-contractors, and it would collapse without all three sides. Then why don't we three who cannot get along without each other try to look after each other's interest a little better, all in the interest of good construction, which is to the interest of the owner.

I am going to repeat again what you have all heard me say time and time again. That is: there is no more honorable or legitimate business in the world than construction for it is constantly serving a human need. It is constructive, it builds up; it is not a business that preys upon the earnings of others. Every other business and profession in the world depends upon it to carry on.

With such a foundation for a business which is so great, doesn't it seem strange that the cry, "We can't make any profit and without profit we cannot pay taxes, we cannot do good work, we cannot exist," is universally set up from one end of the country to the other by both general contractors and subs?

Now what's the answer? We have blamed the ten laws; we have blamed the bonding companies; we have blamed day labor; we have blamed the architect; we have blamed the owner; we have blamed everything under the sun, even ourselves. Every one of the things I have mentioned has had its share, but the thing most of all to blame is the lack of co-operation by the three sides of the triangle. If we don't co-op-

erate of our own free will and accord, circumstances will force us to do it. The main thing that hinders this co-operation, or let's call it consolidation of all those having experience, is what Mr. Reum has called bid peddling and unfair competition.

I am very sorry indeed this does happen and often, too, and I am right here to tell you it is going to happen until the construction triangle raises its standard and absolutely refuses anything to lower it and demands enough price to do a good job. It seems to me it would be a good plan to adopt a motto, "Cut the price, cut the product."

You all know the things that cause bid peddling but I am going to talk about them just the same. When the owner, the architect or owner's representative takes bids and then starts the old familiar gyp game of calling in all bidders and telling them they are now low but they can get the job by revising their bid, and after repeating this two or three times, some sucker takes the job at cost or less than cost. Then he starts out, playing the same game on the subs and finally catches some sucker and they, in turn, play the same game on their material men. The consequence is every trade is skinning their work, trying to make some money. The owner finally gets a building of low standard.

The price was cut; so was the product.

Many of you are saying now that it is possible to get the architect and engineer to take the contractor and sub with good fair prices to the owner, and put up a united front for high standards, but I am not so sure of that for things are happening in many of our larger cities which must force those who stand for honesty and quality to stand together and one of them is this:

One of our most prominent architects said in a public meeting the other day that the curse of the building industry is known as the owner's representative and is something intolerable for he is a man the architect wouldn't have; he is not good enough to work for the contractor and doesn't know enough to be in business for himself, but will sell himself to the owner as spy on the architect. This architect was right in some cases and if you sub-contractors think the general contractors are peddling, wait until you are up against this growing tendency.

This one thing alone should consolidate the legitimate construction men and it is a thing we should not overlook. I am frank to say I believe the architect has brought this owner's representative on himself by broadcasting a sales talk of cheap price, rather than high standards. The owner's representative is going him one better and showing his owner how much he can save, forgetting or not caring about the future maintenance which last as long as the building.

Now if we raise our standards and bring everyone up to them, we can accomplish the thing we all want and that is to get money enough to do a good job and play the game fair with each other.

Mr. Reum has commented upon the good old days when the general contractors received adequate compensation so they could award specialized contractors their work without peddling or discount. That is just what we all want and the

reason that we are not enjoying the happy condition is due to our own lack of co-operation and mutual confidence. What have we all been doing? Just this. The architect has been in one corner, the general contractor in another corner, and the sub-contractor in another, all throwing mud at each other to the everlasting detriment of all, including the owner. Our job right now is to stop this practice and co-operate and get that thing which Mr. Reum calls quality.

The subject is big enough and important enough to command the best thought of the construction industry, and for the purpose of getting all thinking and discussing, I am going to give you a few items that may or may not have a direct bearing on the subject. I have not put them down in their order of importance, perhaps, but you can determine that.

First, there seems to be a deplorable tendency by some who have the power now to impose one-sided rules and regulations on the other fellow that tend to stir resentment in the minds of some. But, I believe it is the best thing we know now and those having this power must be open minded to adopt something better as it develops. I am putting some of these in the form of questions for discussion.

Second, would public openings for a work with recommended subs' names attached help the situation?

Third, would it help to provide openings of all bids by some central committee when the day bids are called for with all hands then to stand pat? We should get some good idea from this question.

Fourth, in my judgment, one of the causes of the evil under consideration is the question of separate contracts. I mean when the sub-contractor gives his bid to any one that will ask for it. This is important and I will leave the pro and cons to you.

Fifth, should the general contractor do his own estimating in every branch of work and not ask for sub-bids until he has the contract, and then invite a certain few to bid, then open those bids to public and award to the lowest bidder then and there?

Sixth, while I have not put this one first, I think it is the biggest thing of the whole list and would do more to stabilize construction than anything else. I know. I am not going to put it in the form of a question but I will make a definite statement. We should have an affiliated bureau which contains every organization of this building business with common headquarters which represent construction in the same manner as the American Federation of Labor represents labor. This should be started now, for it will take years to function.

Seventh, would it help to have an industrial council in each city made up of all the factors?

Eighth, will this unfair competition cause the general contractors to make their own plans, thereby competing with the architect?

Ninth, does the quantity survey have a tendency to strangle profits?

Tenth, the superlative builder is a question to receive serious consideration.

Eleventh, does the engineers' questionnaire have a tendency to benefit the owner and responsible contractor?

There are many other question of importance but I have given you enough to take up the time of the whole conference if thoroughly discussed. But remember this—improve the banking conference, or the entire industry may be taken, for as some banker has said, "the trouble with you contractors is you will sign any kind of a contract that is laid before you regardless of price, just to get a job, and it is not sound business."

These discussions must be impersonal and without selfishness, for selfishness is caused us to be in the no-profit, poor quality position we are in today. I don't believe I am going beyond by bounds when I say to Mr. Architect and Mr. Subcontractor every contractor in the A. G. C. is ready and willing to invite them here today—now, at this moment—to join the side of the triangle and to do more on its share to raise the standards of the thing that is so vital to the economy of this country.

AMERICAN CABLE CO. DEVELOPS FLEXIBLE JOINT

Through the development of the pre-molded type of wire rope which makes possible the attachment of fittings by a processing method that compels the fitting to become an integral part of the rope, the American Cable Co. has recently perfected the Tru-Lay-Tru-Loc flexible bolt.

These new bolts may be used in countless places in and around the plant or mill or in any place where rigid U bolts are impracticable. They are finding ready acceptance as auxiliary hangers for power shafts, suspension brackets for overhead steam or water piping, shackle bolts for temporary wall boxes, etc., for affording and tackle, on various parts of machinery, and in other places where non-flexible connections are necessary. The principle on which the new flexible bolt rests is the preformed type of wire rope. Preforming the wires and strands to the exact helical shape they must assume in the completed rope results in a bolt that does not require seizing but may be cut like a rod. This type of rope permits a close fitting attachment to be slipped over the unsized end of the rope and to be processed so that the seal of the fitting cold flows into the interstices of the rope and thus becomes practically an integral part thereof. Naturally such fittings can be threaded for nut or capped for a head. The flexible bolt which has resulted from these developments is available in varying lengths and holds promise for universal acceptance.

NO STATES HAVE NO FIXED SPEED LIMIT

Connecticut and Michigan, which formerly had maximum speed limits of 30 and 35 mile per hour, respectively, have repealed these laws, and have enacted "no-limit" speed laws. The feature of these new laws, point out the California State Automobile Association, is that they provide that drivers must have cars under complete control at all times.

GYPSUM PARTITION TILE IS SUBJECT OF BOOKLET

The Gypsum Industries, 844 Rush St., Chicago, has issued a handbook, written by Henry J. Schweim, Assoc. M. Am. Soc. C. E., giving a well prepared standard specification for gypsum block partitions and which devotes a great deal of space to the properties of gypsum block as revealed by fire tests and the experience of users. The book is well prepared, authoritative tests are quoted, and the information contained therein is of value. The handbook conforms in size to the standard size for architects' files and bears the A. I. A. standard construction classification 10a3.

\$27,000,000 DECREASE UNDER RECORD YEAR OF 1926 REVEALED IN STEEL REPORT

Decreased production and lower prices combined with reduced demand for steel products after the first four months of 1927 caused a decline in the earnings of United States Steel Corporation to \$172,315,489 from the record 1926 earnings of \$199,058,868. Earnings per share on common stock was \$8.80 as compared with \$17.99 in 1926, the annual report revealed but in this case the decrease was due in part to increased capitalization.

The net income was \$105,418,368, as against \$134,837,957 in 1926, and the surplus \$12,863,514, as compared with \$55,366,552.

The report explains that while during a greater part of the year it was found necessary to adjust production to demand, operating efficiency was well maintained. The substantial tonnage of unfilled orders carried over from 1926 with the rather liberal tonnage of new business received during the first quarter, enabled the mills to operate at an average of about 87 per cent of capacity during the first six months. During the last half of the year the average dropped to 70 per cent. The average for the year was 79.9 per cent, as compared with 88 per cent in 1926.

Less Than Domestic

The average selling price received a ton for rolled and other finished products netted \$23.8 a ton less for domestic and

\$1 cents a ton less for export shipments than in 1926.

Improved demand and more stable prices, first noticeable about the middle of December, made the year end unfilled orders more favorable, the total being 3,972,874, compared with 3,960,969 at the close of 1926. By March 1, 1928, the report shows, the total of unfilled orders had increased to 4,398,189 tons, and operations during the first two months had averaged 86.5 per cent of capacity.

A detailed summary of the production statistics contained in the report shows that in all lines except cement there were decreases of 9 to 20 per cent. Cement production increased 6 per cent.

The total value of business transacted by all companies in the corporation as represented by combined gross sales and earnings was \$1,310,392,861, as against \$1,568,076,090 in 1926.

40 Per Cent Dividend

A 40 per cent stock dividend declared June 1 increased the number of shares of common to 7,533,210, of which 7,116,235 are outstanding. At the end of the year there were 70,429 holders of preferred stock and 96,558 holders of common. More than 46,000 employees were registered stockholders and about 25,000 more held open subscription accounts covering purchases, the employees holding an aggregate of 146,381 shares of preferred stock and 662,353 shares of common.

WHOLESALE PRICES IN FEBRUARY REPORTED BY DEPARTMENT OF LABOR

Practically no change in the general level of wholesale prices from January to February is shown by information collected in representative markets by the Bureau of Labor Statistics of the U. S. Department of Labor. The bureau's weighted index number, computed on prices in the year 1926 as the base and including 550 commodities or price series, stands at 96.4 for February compared with 96.3 for January, an increase of one-tenth of 1 per cent. Compared with February, 1927, with an index number of 95.9, an increase of one-half of 1 per cent is shown.

Foods as a whole advanced slightly. Small price increases are shown for fuel and lighting materials, metals, and metal products, and building materials.

Of the 550 commodities or price series for which comparable information for

January and February was collected, increases were shown in 134 instances and decreases in 139 instances. In 277 instances no change in price was reported.

Comparing prices in February with those of a year ago, as measured by changes in the index numbers, it is seen that farm products and hides and leather products were considerably higher, while foods and textile products were somewhat higher. Slight increases are shown for metals and metal products and house-furnishing goods, while small decreases are shown for building materials, chemicals and drugs, and miscellaneous commodities. Fuel and lighting materials, owing to large decreases in bituminous coal, coke, and petroleum products, were 15 1/4 per cent cheaper than in February, 1927.

Index Numbers of Wholesale Prices by Groups and Sub-groups of Commodities		1926 = 100.0)			
		Feb. 1927	Ja. 1928	Feb. 1928	Pur. power of 1926 dollar Feb. (cts.)
Groups and sub-groups—					
Building materials	96.2	90.8	91.0	109.9
Lumber	96.0	88.5	88.9	112.5
Brick	96.0	92.4	92.5	108.1
Cement	96.5	96.5	96.5	103.6
Structural steel	99.6	91.9	94.5	105.8
Paint materials	94.5	88.0	85.9	116.4
Other building materials	96.6	92.7	93.2	107.3

VIRGINIA COMMISSION REPORTS ON FIRE INSURANCE RATES.

An investigation of the fire insurance rates in Virginia has just been completed by a special commission appointed by the Governor of that State. The findings of the commission are of particular interest to lumber manufacturers and dealers. Among the conclusions and recommendations of the Commission, the following startling facts are emphasized: (1) That the fire insurance companies are making large profits and are declaring large dividends; (2) That their method

of estimating operating profit and loss, called by them "underwriting profit and loss," for rate making purposes is fallacious; (3) That if the proper basis for estimating operating profit or loss were used, it would be shown that the insurance companies are making more than a reasonable profit; (4) That in 1926 the insurance companies were allowed an increase in rates which will cost the policyholders of Virginia over a million dollars a year, which increase makes their operating profit still more unreasonable. That these increases should not have been granted in many cases and should be removed as quickly as possible.

THE OBSERVER

What He Hears
and Sees
On His Rounds

Their best year since the peak year 1921 was experienced by American electrical equipment exporters in 1927, according to the Electrical Equipment Division, Department of Commerce, announced March 15. Exports were valued at \$102,310,236, almost a \$4,000,000 gain over the \$98,955,215 shipped abroad in 1926, it is said.

As another step in the elimination of waste in industry, a survey of non-utilized wood, available as raw material for by-products industries, will be undertaken in North Carolina by the National Committee on Wood Utilization, of the Department of Commerce. A similar survey of Virginia is now nearly completed. This series of State surveys, planned to eventually cover the entire country, is part of the Committee's program of closer use of wood to enable profitable commercial reforestation.

For February the square yardage included in concrete pavement contract awards, according to the Portland Cement Association, was 7,164,342 sq. yds. The total awards for concrete roads, streets and alleys from January 1, 1928, to February 25, 1928, equalled 13,366,372 sq. yds.

Governor Young is requested in a resolution passed by the city council of Long Beach to include water control in his proposed call for a special session of the legislature. The St. Francis dam disaster has called to the public's attention the necessity for careful safeguarding the construction of such projects, to the end that life and property may not be jeopardized by construction in another county, the resolution said. The resolution was prompted by the projected construction of San Gabriel dam, and it was desired that any possible error in its construction might be avoided.

Steel and iron export trade in January totaled 205,766 tons, the largest month since January, 1927. Imports of 5553 tons represented a decrease of 8.9 per cent from December and 46 per cent from January, 1927.

A. L. Trowbridge, chief engineer for the Kern River Water Storage Dist., estimates the cost of a high storage dam below the forks of the Kern river, near Isabella, tentatively planned to store 150,000 acre feet of water for irrigation of 248,000 acres included in the district, at \$2,733,500. The engineer's summary of estimated costs of water storage at Isabella is as follows: Acquisition of site, \$645,000; concrete dam, \$1,423,200; supplementary earth fill dam, \$74,100, and obviating interference with the Borel power plant system, \$581,800.

Logging operations will be resumed by the Sugar Pine Lumber Co. on April 1, it is announced by C. L. Mullen, assistant general manager. The year's cut is expected to be about the same as that of last year, which was 80,000,000 feet. Advance crews will go into the camps in readiness about the 29th of this month, and about March 25 the woods crews will be sent to the various camps to get ready to start timbering April 1. Start of the 1928 season, Mullen says, finds the lumber company in much better shape than a year ago, and the woods crews will start right off at regular speed to make the schedule now set for them. B. A. Cannon, general manager of the company, is now in the East.

American engineers are already making plans to participate in the World Engineering Congress, which will be held in Tokio in October, 1929. The purpose of the congress is to promote international cooperation in the study of engineering science and problems. The American committee meets in Washington on March 22 at the invitation of Tsuneo Matsudaira, Japanese ambassador to the United States, to discuss details of the proposed trip to the Orient.

Wage rates in representative foundries and machine shops in the United States showed a definite increase between 1925 and 1927, according to the biennial wage survey of the industry just made public by the Bureau of Labor Statistics of the Department of Labor. The principal figures in the report are average full-time hours per week, average earnings per hour, and average full-time earnings per week, and cover 38,986 wage earners of 417 foundries and 86,771 wage earners of 526 machine shops in 28 states. The states not included in the report employ only 3 per cent of the total number of wage earners in these closely correlated industries, according to the 1925 Census of Manufacturers.

TRADE NOTES

At the first annual meeting of the board of directors of the Stewart Inso Board Co. held February 21st at St. Joseph, Missouri, A. D. Stewart was re-elected president, Charles Waddles was elected vice-president, I. A. Vant, treasurer, James A. Davis, secretary, and O. Robinson, assistant secretary-treasurer. The board of directors consist of the officers with the exception of Mr. Robinson, and the following men: William Goetz, St. Joseph, Mo.; William Albrecht, St. Joseph, Mo.; J. J. Linn, Kansas City, Mo.; Ed S. Linds, Wichita, Kans. The Inso Board plant has been in operation for about thirty days, turning out daily about 60,000 square feet of insulating board made from wheat straw. Technical difficulties have been overcome and within a short while the plant will be running to capacity.

Designed to be used as a universal solvent and in fact so named, a metal preservative oil has been announced by the Detroit Universal Solvent Co., Detroit, Mich., known as F-267. Besides having an affinity for all colors and all pigments the oil is claimed to produce a non-porous, tight clinging film, highly resistant to rust and corrosion by itself. It is claimed that only 40 to 60 per cent of the pigment required with linseed oil is necessary with this new oil and that at the same time a 20 to 25 per cent greater coverage is obtained.

Merritt Concrete Products Co. and M. Scholten of the California Concrete products Co., both California corporations, will jointly finance erection and operation of a plant covering 5.18 acres in 66th Ave., East Oakland, for the manufacture of concrete products. The plant will be served by either a Southern Pacific or Western Pacific spur.

Santa Cruz Portland Cement direct on March 20 voted the usual quarterly dividend of \$1 a share, payable April to stockholders of record March 22.

Fireboard Products Co., Inc., recently absorbed by the Paraffine Company Inc., has assumed complete control of the latter's plant at Antioch, according to deeds filed with the county record at Martinez transferring ownership of the Antioch facilities to the Fireboard Co. The deed covers the Antioch plant and adjacent acreage utilized for storage of materials.

Pratt-Rymer Co. is having a plant erected in Washington avenue, San Leandro, for the manufacture of front and interior door locks. Officers of the company are: O. W. H. Pratt of Alameda, president; John A. Rymer of Oakland, first vice president; J. H. Petersen of Dixon, second vice president; S. Pratt of San Leandro, secretary-treasurer.

American Truck Mixers Co. of San Francisco, capitalized for \$100,000, has been incorporated. Directors are: O. L. Barrymore; C. C. Bills; B. L. Nielsen; J. R. McElroy and G. S. Conger.

Stimulation and extension of markets for their cement products, in keeping with a comprehensive program of expansion, will be started in Hawaii, according to C. A. Low, vice-president and general manager of the Monolith Portland Cement Company. Capt. A. Bullock-Webster, special representative of the Monolith interests, is now in Honolulu, where he will make his headquarters for several months to direct the program of promotion and distribution of Monolith products in that territory.

Pacific Rock Co. has purchased 68 acres of sand and gravel bearing land in the town of Centerville, Alameda county, at the intersection of the Dumbarton bridge road and the Oakland-San Jose highway. The deposit is part of the so-called Alameda creek gravel beds, which for many years have been commercially mined and sold for building purposes around the metropolitan area of San Francisco bay. Another recent activity of the company is the acquiring of 50 feet on the Southern Pacific Co.'s right of way, adjoining the Centerville railroad station. A number of bankers and business men in Alameda county are interested in the company. Lee J. Frontz, who for fifteen years has operated rock companies in Alameda county and was one of the founders of the California Rock Co. of Elliott, Cal., is manager for the concern.

Tentative cost estimates on fifteen proposed municipal improvement projects involving a total estimated cost of \$1,317,000, have been prepared by Allan Wagner, city engineer of Sacramento. In preparing the estimates the authorities have not contemplated that the work be done in any one year. The projects are part of a 10-year program and some of them of such a nature that they may be financed by bond issue. Contemplated improvements include a police and fire alarm system, additional traffic signals, new firehouses and equipment, street and park improvements, etc.

ALONG THE LINE

H. Gunby, manager of retail lumber of the Diamond Match Co., at Chico, injured when his automobile overturned on the state highway north of Marysville, is in a critical condition in a Marysville hospital. Gunby is reported to be semiconscious at times.

State inspection of municipally constructed dams will be proposed in a bill to be introduced in the 1929 legislature by Senator Edwin Mueller of San Diego. Mueller believes the St. Francis Dam disaster in the South indicates the need of state supervision of such municipal projects.

Appointment of Professor Harry Bruce Walker, nationally known engineering research expert, to the faculty of the University of California, effective July 1, is announced by President W. Campbell. Professor Walker recently resigned from the faculty of the Kansas State Agricultural College at Manhattan, Kas., where he had been since 1910, according to President Campbell. He has held several important positions in state and national engineering research and advisory bodies, and was a captain of engineers during the World war.

Frank H. Lascy has been named town engineer of Mill Valley, succeeding J. Oglesby, resigned.

San Diego city council contemplates the construction of a municipal paving plant. The cost is estimated at \$350,000.

Jos. P. Leonard, 57, contracting member, died at his home in Alameda, March 19 after an illness of six weeks from heart trouble and dropsy.

ENGINEERING SOCIETIES EMPLOYMENT SERVICE

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 718, 57 Post Street, San Francisco, (Phone Sutter 1684).

-38-X-447-CS SALES ENGINEERS abt. 30, technical graduates, preferably structural engineers to promote among architects, engineers and contractors, steel roof decking and to maintain enthusiasm and help salesmen in company's various branch offices. Must be trained in roofing and especially in insulating material. One man for East, one for Midwest and one for the South. Will be required to travel to headquarters at own expense for 1 mo. special training before being assigned to a territory. Salary \$250-\$300 a mo. with all expenses paid when traveling. Apply by letter. Location Midwest.

R-1128-S ENGINEER, with 2-2 years exp. in teaching or experimental work in prominent university or industry, to direct the mechanical development and research work of a large mfg. company. Must have proved ability to direct development work. Apply by letter Loc. Midwest.

R-1514-S POSITIONS OPEN on a large construction project in Northern Mexico for a rock and excavation foreman and a carpenter foreman experienced on concrete form work. Also experienced time keeper. Knowledge of Spanish required. Hdqts. S. F. Apply by letter.

R-1537-S JUNIOR DRAFTSMAN, 22-30 years old, neat letterer and experienced on maps and statistical charts. Does not require college graduate. Permanent. Location San Francisco.

A. G. C. RAISE OBJECTIONS TO CONTRACT RESTRICTIONS

According to Paul Wootton, Washington correspondent for Engineering News-Record, New York, strenuous objection is being raised by the Associated General Contractors against proposed legislation that would place restrictions upon contractors engaged in public works, in the matters of preference in the employment of labor and in establishing other requirements affecting government contracts. A proposed amendment to the latter bill, requiring the use of domestic cement only, also is opposed by them. The bill dealing with preferences in the employment of labor requires the employment first of those who have been honorably discharged from the military or naval service and who are residents of the locality in which the work is to be performed. Other citizens who are bona fide residents of the state, territory or district in which the work is located are to be employed next. No aliens are to be employed if citizens of the United States are available for employment. The attitude of the A.G.C. toward the establishment of uniform requirements affecting government contracts is that such details should be matters of specifications rather than of basic law.

EAST BAY ARCHITECTS OFFER FREE CONSULTATIONS

Free architectural consultations on your building problems will be furnished throughout the "Build Better" campaign by prominent Oakland architects. A man who knows his T-square will be ready and willing to give advice on any problem, it is announced by Chester A. Miller, president of the society.

This service will be furnished daily at the Builders' Exhibit Palace, 363 Hobart St., Oakland.

The Society of Architects of Alameda County, one of the sponsors of the "Build Better" campaign, has arranged for one of its members to be in daily attendance at the exhibit to confer with and advise all who are planning to build.

Home-made plans will be given particular attention and the amateur draftsmen will be given practical information on costs, materials, economics and beautiful lines.

In addition to the free consultations, the architects have one of the most comprehensive exhibits of local architecture ever shown in Oakland. Among the Oakland architects who have displays are:

Major Harris Allen, Claude B. Barton, John J. Donovan, Charles W. McCall, Mrs. Gertrude Comfort Morrow, Frederick H. Reimers, William F. Schirmer, Wallace & Wastell and William R. Yelland.

NEW BUSINESS DECADE PREDICTED BY ROGER BABSON

Loring Pratt, Editor of Institutional Merchandising, in reporting an interview with Roger W. Babson, quotes him as saying that we are entering on a period of generally settled conditions, satisfactory employment, and sane prosperity. In some parts of the country the people are enjoying more prosperity now than they have known for a long time.

"In general," said Mr. Babson, "we are entering a period of stabilization and standardization. Post-war adjustments have been going on for ten years. Now things are pretty well shaken down and readjusted. New normals have been established. The froth of super-service and de luxe this and that will be passed up by most people who want reasonable service for their money."

According to Mr. Babson the public is going to consider price and sound values for the next ten years rather than be interested in unnecessary and expensive frills of super-service.

STANDARD FORMS FOR CONCRETE FLOORS TO BE DISCUSSED

A tentative simplified practice recommendation on form dimensions for concrete ribbed floor construction has been prepared by the Bureau of Standards. This is the direct result of a preliminary conference in the fall of 1927 with the manufacturers and distributors of these forms. Since the recommendation has been found satisfactory by a representative number of concerns, it is to be submitted to a general conference of the Concrete Reinforcing Steel Institute.

The recommendation proposes to standardize the following:

(1) 20 and 30 in. width pans only; (2) tapers in 3 ft. lengths; total contraction of 4 in. for 20-in. pans and 6 in. for 30-in. pans; (3) both normal and tapered end pans complying with (1) and (2); (4) 10-in. and 15-in. widths for special filler forms; and (5) depths varying by multiples of 2 in. ranging from a minimum of 6 in. to a maximum of 14 in. The depth is interpreted to mean the vertical distance from the under side of the concrete slab above the center of the pan to the bottom of the concrete slab.

BUILDING MATERIAL DEALERS ELECT DIRECTORS

B. A. Newman, L. L. Walker and Elmer Lord were re-elected directors of the Fresno Building Material Dealers' Association at the annual meeting at the Hotel Fresno, March 19. Charles M. Wilson and Ben Maisler were selected new directors of the board.

President Newman read his annual report, showing that the association had made progress in all phases of its work. The financial condition of the organization was reported by L. J. Allen, treasurer, while F. J. Robinson, secretary, reviewed activities and meetings sponsored during 1927.

New officers of the association are to be elected within a few days.

HOLLOW BUILDING TILE MEN REORGANIZE

The Hollow Building Tile Association held one of its most important conventions at Chicago on February 1, 2 and 3. With the unanimous approval of delegates a new plan of reorganization which will greatly broaden the scope of the association was adopted.

With this new plan of reorganization the association will find itself in a better financial situation than ever before, it is said, due to 100% increase in dues to 10 cents a ton.

With the increased funds available from this increased tonnage, the association will be able to carry on a vigorous program of research, advertising and engineering promotional work.

BUILDING MATERIAL COSTS ON DECREASE SAYS BUILDER

One can build better and build more cheaply, James H. Pedgrift, president of the Builders' Exchange of Alameda County, finds as the result of a survey of materials and realty prices in the East Bay district.

"On an average," Pedgrift said, "the cost of materials and real estate is about 25 per cent lower than a year ago."

"The supply of skilled labor is ample, which was not the case a few months since."

Election of eleven directors and the official staff of the Fresno Builders' Exchange will be the principal business of the exchange members at their annual meeting at the Hotel Fresno at 6:30 p. m., March 26, according to Secretary-Manager Harry R. Cayford. The meeting will start with a dinner and the program will include entertainment numbers and reports of the officers for 1927.

IF YOU want to see.
HOW POOR everybody is.
JUST GO up.
TO THE Assessor's office.
IN ANY courthouse.
AND HEAR the people.
TURN IN their assessments.
NOBODY HAS any cash.
IN THE bank.
OR IN their pockets.
ON THE first of March.
CLARENCE (SANDY) Pratt, President.
OF THE Pratt Building Material Co.
DOUGLAS 300—"easy to remember."
AND PRODUCER of clean, sharp sand.
AND CLEAN rock.
SPENT AN amusing half hour.
LISTENING TO the sworn statements.
OF OUR good citizens.
A CHINESE druggist was the first.
AND HE tried.
TO TELL the assistant lady assessor.
THAT HIS drug store.
LIQUOR, FIXTURES, dead lizards and all.
WAS WORTH only \$400.
WHEN ONE case of China gin.
WOULD SELL for that sum.
HE DIDN'T get away with it.
NEXT WAS an Italian barber.
WHO OWNED two barber chairs.
AND A few soap bars.
HE PAID \$1.39 in 1927.
AND COMPLAINED.
WHEN HIS total tax for 1928.
RAN UP to \$2.79.
AND NEXT was a funny old lady.
WHO WANTED her furniture assessed.

FOR LESS than \$10 per room.
BUT \$10 per room.
IS THE minimum of furniture.
SO SHE was very unhappy.
AND OVER assessed.
THEN AN office lady.
WANTED HER typewriter.
ASSESSED FOR less than \$25.
SO THAT'S the way it goes.
AND SANDY Pratt, Producer.
OF CLEAN, sharp sand.
AND CLEAN gravel.
HEARD ONLY a few.
OF THE funny ones.
AT THE Assessor's office.
BUT WE are all alike.
NEVER WANT to pay taxes.
AND THE richer you are.
THE LESS you want to pay.
"I THANK you."

This fellow pays no taxes, has no roof for the roofers to fix and he never has a cold from wet feet. He lives on the American River near Sacramento and near the sand and gravel-producing plant of the Pratt Building Material Co. (Sandy Pratt, President).

Architect—Clausen & Amendes, Hearst Bldg., S. F.
Exclusive Agents—Allen & Co., 168 Sutter st., S. F.

Collection system and intercepting sewer, est. cost, \$110,000, will involve 8-in. to 48-in. sewer, the 48-in. will be of Meier block or brick, other sizes to be vit. pipe. Plans on file in office of clerk and obtainable from engineers.

\$3,000,000 DAM CONTRACT AWARDED

Ambursen Construction Co. of San Francisco announces that General Rodriguez, governor of the northern district of Lower California, has signed a contract for \$15,000,000 for irrigation construction in the territory immediately south of San Diego and the California international boundary.

First construction would be a \$3,000,000 dam rising 225 feet from the bed of Tijuana river, 30 miles from San Diego and 11 miles south of the boundary.

Further development would follow on Tecate river, which joins the Tijuana three miles below the dam site.

Other items include extension of the Pacific Coast highway from the U. S. boundary 70 miles to the port of Ensenada and resumption of the San Quintin irrigation project, 200 miles to the south.

STABLE BALANCE BETWEEN SUPPLY AND DEMAND IN P. C. BUILDING

That a stable balance between supply and demand in the building industry is being more effectually protected on the Pacific Coast than is evident throughout the United States, generally, is a significant feature shown by an analysis of the national building trend during the last seven years, recently made by S. W. Straus & Co.

Enormous as has been the volume of new construction in Pacific Coast cities during the period of strenuous post-war building activity, the relative increase over the annual total for 1920 has not been so great in any year as that reflected by the national record.

Although war-time cessation from building was more pronounced in these western cities than in the east, and although resumption of normal activity came a year later in the west, the latter, as a whole, reached its highest trend in 1923 and began a recession, while the country, generally, continued the advance and reached a peak in 1925.

Such excess of housing and floor space in various cities throughout the country as has resulted from the unprecedented volume of new construction achieved

since 1920, is fast being discounted through reduction of new projects, and an analysis of comparative statistics indicates that in this process the Pacific Coast area is leading the country.

PLAN NATIONAL DISTRIBUTION OF SCHUMACHER WALL BOARD

National distribution of products of the Schumacher Wall Board Corporation will be the next step in the expansion program of the company, to follow the opening last week of a new factory at Slau-son and San Pedro Sts., Los Angeles, according to A. R. Moylan, vice-president and general manager.

Hitherto factory capacity of the company has been inadequate to supply the current demand for plaster board and associated products, but with the new plant in full operation production is expected to increase more than 75 per cent. Moylan estimates the monthly output at about 7,000,000 square feet of wall board and plaster lath, as compared with the present capacity of 4,000,000 square feet.

Executives of the company attach considerable importance to the fact that the new unit is a great improvement over all existing similar factories, especially from an efficiency standpoint. Large drying furnaces and an extensive roller conveyor system run the entire length of the structure, which is about 600 feet. The cost of the new unit is estimated at approximately \$500,000. Plans of the factory were drawn with the idea of making it one of the most modern plants of its kind, and operating expenses are expected to be reduced to a minimum. It is thought that the entire unit will be running full capacity by March 15.

Earl M. Galbraith, sales manager, reports present sales of the corporation's product are handled through 1650 dealers in every western state, including Texas and Louisiana. In addition, products are distributed to a number of foreign countries. With the increased production new eastern markets will be exploited. During 16 years of operation sales of the company have increased over each previous year and at no time in his history has the company experienced an unprofitable year.

To aid the financing of the expansion program 3000 shares of preferred and 6000 shares of common stock were issued last year, which brings the total issued capital to 33,000 shares of preferred and 66,000 shares of common stock. During the last year the northern division of the company, which operates a plant at Seattle consolidated with the Western Wall Board Company through the formation of Gypsum Products, Inc., capitalized at \$400,000.

The Bates Valve Bag Corp., 35 East Wacker drive, Chicago, has issued an interesting folder citing the advantages of the Bates Multi-Wall Paper bags for cement. This folder illustrates a drop tests by which each run of sacks is tested for strength when loaded with cement and dropped, and cites two jobs where cement so packed was exposed to rain and snow without loss of cement from moisture.

NOTICE TO CONTRACTORS

General Work

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock, P. M., Tuesday, April 17, 1928, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the erection and completion of the General Work for a group of four buildings comprising the Hospital, School, Segregation and Custodial Buildings, Preston School of Industry, near Ione, California, in accordance with plans and specifications therefor. Bidders shall submit one bid for the entire group. Plans and specifications may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California. Sub-bids will not be considered.

The Hospital and Segregation Buildings are 2 story brick buildings with reinforced concrete foundations and floors, frame interior partitions and roof construction— asbestos shingle roof.

The School Building is a 2 story brick building, reinforced concrete foundations and frame interior partitions and roof construction— asbestos shingle roof.

The Custodial Building is a 2 story reinforced concrete building with brick veneer exterior, concrete interior partitions and frame roof construction— asbestos shingle roof.

Bids must be submitted on Proposal Forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, Hospital, School, Segregation and Custodial Buildings, Preston School of Industry, near Ione, California."

March 20, 1928 NOTICE TO CONTRACTORS

Mechanical Work

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock, P. M., Tuesday, April 17, 1928, said bids then and there to be publicly opened and read, for furnishing all plant, material and labor required for the erection and completion of the Mechanical Work, for a group of four buildings comprising the Hospital, School, Segregation and Custodial Buildings, Preston School of Industry, near Ione, California, in accordance with plans and specifications therefor. Bidders shall submit one bid for the entire group. Plans and specifications may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

ment of Public Works, Forum Building, Sacramento, California.

Mechanical Work includes Electrical, Plumbing, Heating and Ventilating Work. Separate bids will be received for "Electrical Work" and for "Plumbing, Heating and Ventilating Work." Combined bids will also be received for "Electrical, Plumbing, Heating and Ventilating Work." Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Plumbing, Heating and Ventilating Work" or "Electrical Work," or both, as the case may be, "Hospital, School, Segregation and Custodial Buildings, Preston School of Industry."

STATE OF CALIFORNIA DEPARTMENT OF PUBLIC WORKS DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Highway Building, Sacramento, California, until 2 o'clock P. M., on April 11, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Shasta County, across Boulder Creek about 4 miles north of La Moine (II-Sha-3-D), a reinforced concrete bridge consisting of one 81'-8" open spandrel arch span and two 30'-4" girder approach spans.

Shasta County, between Shotgun Creek and Conant (II-Sha-3-D), about five and eight-tenths (5.8) miles in length, to be graded and surfaced with crushed gravel or stone.

Shasta County, between Conant and The Northerly Boundary (II-Sha-3-D), about six and three-tenths (6.3) miles in length, to be graded and surfaced with crushed gravel or stone.

San Mateo, Santa Clara and Santa Cruz Counties, between La Honda Road and Saratoga Gap (IV-S.M.-S.Cl-S.-55-

D.E.A.), about thirteen and eight-tenths (13.8) miles in length to be graded and surfaced with crushed gravel or stone.

San Mateo County, between Broadway Station and Fifth Avenue (IV-S.M.-68-B.C.), about three (3.0) miles in length, to be graded and surfaced with crushed stone.

Los Angeles County, between Monrovia and Azusa (VII-LA-9-G), about three and five-tenths (3.5) miles in length, to be graded and paved with asphalt concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the District office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the District office.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

Dated: March 14, 1928.

NOTICE INVITING SEALED BIDS

(Truckee Public Utility District)

Pursuant to the resolution of the Board of Directors of Truckee Public Utility District, notice is hereby given that the said Board of Directors hereby invites sealed bids or proposals for the construction and installation complete of a system for supplying electric light, heat and power to the inhabitants of Truckee Public Utility District, in accordance with the plans and specifications heretofore adopted by Truckee Public Utility District, and now on file in the office of the clerk of the said district. All bidders and all persons proposing to file such bids may examine such plans and specifications at the office of the clerk of Truckee Public Utility District, at Truckee, California. Copies of said plans and specifications may be secured by application to the clerk of said district at his office at Truckee, California, upon payment of the sum of Five Dollars.

All bids must be enclosed in sealed envelopes addressed to the clerk of Truckee Public Utility District, and plainly endorsed, "Bid on Electric Distribution System."

Bids must be filed with the clerk of Truckee Public Utility District at or before the hour hereinafter stated. Each bid must contain the name and the full office address of the bidder, and if made by a corporation, shall be signed and sealed by the president and secretary of the corporation submitting the bid. Such bid must be accompanied by a certified check or certificate of deposit of not less than ten per cent of the total bid. Such check shall be payable at sight to C. Edmunds, clerk of the Truckee Public Utility District, and the

check of the person or corporation to whom the contract is awarded will be forfeited to the district should he or it fail to enter into such contract and file the required bond within five days after his bid shall have been accepted by the Board of Directors of said district.

Said contract shall be made with the lowest responsible bidder who shall give bonds with sufficient sureties to be approved by the said Board of Directors, for the faithful performance of his contract. Said bonds shall be in the sum of one-half of the amount bid for said construction work and one-half of the sum bid for furnishing materials to be used in said construction work.

Sealed bids will be received by the clerk of the Truckee Public Utility District at his office in the Town of Truckee, Nevada County, California, up to the hour of five o'clock P. M., on the 27th day of March, 1928, and said bids will be publicly opened and examined and declared by the Board of Directors of Truckee Public Utility District at 8 o'clock P. M., on the 27th day of March, 1928.

By Order of the Board of Directors.
C. EDMUNDS,
Clerk of Truckee Public Utility District.

NOTICE TO BIDDERS

(C. I. Pipe—Turlock, Calif.)

Notice is hereby given that sealed bids will be received by the undersigned on behalf of the city of Turlock up to the hour of 8 o'clock p. m., Tuesday, the 17th day of April, 1928, for furnishing the following:

1200 ft. of 4-in. bell and spigot cast iron pipe.

2000 feet of 6-in. bell and spigot cast iron pipe.

800 ft. of 8-in. bell and spigot cast iron pipe.

All of said pipe to be equal in strength to class B American Water Works Association Standard. The board reserves the right to reject any and all bids. Ten per cent of the amount of bid will be required by a certified check accompanying each bid. Said bids will be opened and examined at 8:15 p. m. on the 17th day of April, 1928. Shipment to be f. o. b. Turlock, Calif.

By order of the Board of Trustees of the city of Turlock, dated this 16th day of March, 1928.

A. P. FERGUSON,
City Clerk and Ex-officio Clerk of the Board of Trustees of the city of Turlock.

NOTICE TO CONTRACTORS

(Athletic Field — Sacramento Junior College)

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Board of Education of the Sacramento City Junior College District for the completion of a Track and Football Field for Stadium, Sacramento Junior College, in accordance with plans and specifications on file in the office of the Secretary of the Board of Education of the Sacramento City Junior College District, 1200 21st Street, Sacramento, California, and also in the office of Dean & Dean, Architects, 1406 California State Life Building, Sacramento, California.

The work to be done will be in the Stadium now being erected on the east part of the property owned by the Sacramento City Junior College District, said property being bounded on the east by the Western Pacific, on the south by Sutterville Road, and on the west by Freeport Boulevard, all situated in the City of Sacramento, State of California.

On a deposit of \$10.00 with the Board of Education, or the Architects, complete sets of plans and specifications may be had by any prospective bidder, and retained for a period of 15 days. The deposit will be returned to the bidder on the return of the plans and specifications in good condition.

Bids must be made on proposals obtained at the office of the Architects, and be signed by the bidder, accompanied by a certified check for at least 10% of the amount of the bid or proposal, certified to by some responsible bank or banker, and made payable to Charles C. Hughes, Secretary of the Board of Education of the Sacramento City Junior College District, said check to be forfeited to and retained by the Junior College District, should the party or parties to whom the contract shall be awarded

fail to enter into the contract after the award, or to give bonds as required. Bids must be plainly marked on the exterior "Proposal for Track and Football Field for Stadium, Sacramento Junior College."

All bids must be filed with the Secretary of the Board of Education of the Sacramento City Junior College District, 1200 21st Street, Sacramento, California, not later than 5:00 o'clock P. M., Monday, April 2nd, 1928.

The Board of Education of the Sacramento City Junior College District reserves the right to reject any and all bids received.

BOARD OF EDUCATION, SACRAMENTO CITY JUNIOR COLLEGE DIST.
CHARLES C. HUGHES,

No. 100 of Butte County will, on Friday, April 6, 1928, at the hour of 7:30 p. m., in the office of the district in Richvale, Butte County, Calif., receive bids for one "one-half hard Speeder Drag Line," equipped with a thirty-foot boom with five-foot extension—full crawler.

All bids must be in writing and left with Mabel D. Harris, secretary, on or before the hour of the meeting. The board reserves the right to reject any and all bids.

BOARD OF DIRECTORS OF DRAINAGE DISTRICT NO. 100 OF BUTTE COUNTY.

By LOUIS ANDERSON,
President.

By MABEL D. HARRIS,
Secretary.

Dated March 14th, 1928.

NOTICE TO BIDDERS ON NEW BUILDING AT STOCKTON HIGH SCHOOL

Notice to bidders is hereby given that bids on the new classroom building in the northwest corner of the High School grounds, Harding way and San Joaquin street, Stockton, Calif., as per plans and specifications on file at the office of the High School Board, corner San Joaquin and Lindsay streets, Stockton, will be opened on Wednesday, March 28, 1928, at 7:30 p. m., at the office of the High School Board.

Obtain bid forms and plans and specifications from Peter Sala, architect, 2130 North Commerce street, Stockton, Calif.

Award will be made to the lowest responsible bidder. The High School Board reserves the right to reject any or all bids.

A certified check of 10 per cent of the total amount bid on the main propositions plus all additions to the same must accompany said bid. (The certified check must cover the highest possible total bid.) A bidder's bond will not be accepted.

Dated Stockton, Calif., March 14, 1928.
By order of the High School Board.

By ANSEL S. WILLIAMS,
Clerk.

NOTICE TO BIDDERS

(Fencing—Benicia Arsenal)

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif. Sealed proposals will be received here until 11:00 A. M. March 30, 1928, for fencing cemetery at Benicia Arsenal, Calif. Information on application.

NOTICE TO CONTRACTORS

BIDS WANTED.

Sealed proposals will be received at the office of the Park Commissioners, Park Lodge, Golden Gate Park, not later than 12 o'clock noon, Monday, April 2, 1928.

For the general construction of an addition to Kezar Memorial Stadium, Golden Gate Park, San Francisco.

Progressive payments will be made. Said work must be done in accordance with the plans and specifications therefor on file in the office of Masten & Hurd, architects, Shreve Building, San Francisco, and must be commenced within five (5) calendar days and completed within one hundred and fifty-five (155) calendar days after the date of the contract to be made and entered into therefor.

The amount of bond for faithful per-

formance of contract will be not less than fifty per cent (50%) of the aggregate of the proposal.

All proposals offered must be accompanied by a check certified by a responsible bank, payable to the order of the Board of Park Commissioners, for an amount not less than ten per cent (10%) of the aggregate of the proposal.

Printed proposal forms will be furnished gratuitously upon application at the office of Masten & Hurd, architects, Shreve Building, San Francisco, and all proposals must be made upon such forms in sealed envelopes marked "Bid For Addition To Stadium."

The Board of Park Commissioners reserves the right to reject any or all bids.

By order of the Board of Park Commissioners.

B. P. LAMB,
Secretary.

NOTICE INVITING BIDS

(Asphalt Paving—Sonoma County)

Office of the clerk of the Board of Supervisors, Sonoma County, Calif., Mar. 14, 1928.

Sealed bids will be received by the clerk of the Board of Supervisors of Sonoma County, Calif., at his office until 12 o'clock M. April 10, 1928, and will be publicly opened and read at 1:30 o'clock p. m. for the construction of Asphaltic Concrete Paving on Stony Point road, Sec. A; Santa Rosa-Guerneville highway, Sec. A; Sant Rosa-Sebastopol highway, Sec. B, in Third Supervisorial District, in Sonoma County.

Specifications for this work are on file in the office of the clerk of the Board of Supervisors, and in the office of the County Surveyor, which bidders are hereby referred to.

Estimated Quantities

Stony Point Road Sec. A, 1870 tons asphalt concrete.

Santa Rosa-Guerneville highway Sec. A, 4330 tons asphalt concrete.

Santa Rosa-Sebastopol highway Sec. B, 2600 tons asphalt concrete.

Total estimated cost \$54,500.

W. S. COULTER,
Clerk of the Board of Supervisors.

NOTICE INVITING SEALED BIDS

(Well Drilling—Tulare)

Sealed proposals will be received at the office of the city clerk, at the City Hall, Tulare, California, until 4:30 o'clock p. m. on April 5th, 1928, at which time they will be publicly opened and read, for furnishing of tools, labor and materials required for the drilling, lining, perforating and testing of a well for Municipal Water Supply in accordance with the specifications on file in the office of the city clerk. Any one desiring a set of specifications for personal use in submitting bid, may obtain the same by application to the secretary of the Board of Public Utilities of the city of Tulare, and a deposit of \$5.

The Board of Public Utilities of the city of Tulare reserves the right to reject any or all bids or any part thereof.

By order of the Board of Public Utilities, city of Tulare.

W. J. ANDREWS, City Manager.

NOTICE TO BIDDERS

California
(SEAL)

NOTICE TO CONTRACTORS

(Lafayette Elementary School—Fresno, Calif.)

Pursuant to an order of the Board of Education of the City of Fresno School District, County of Fresno, California, duly made and entered in its minutes this 8th day of March, 1928, public notice is hereby given that the said Board will receive up to 5 o'clock P. M., on the 12th day of April, 1928, at the office of the said Board in the Hawthorne School Building, 212 1/2 Fresno Street, Fresno, California, sealed proposals for the construction of the Lafayette Elementary School, as per plans and specifications prepared by E. W. Peterson, architect, Mason Bldg., Fresno, Calif.

Bids will be received for general contract (A-1 to A-11) and the balance segregated as per building form No. 2.

Reference is hereby made to "General Information to Bidders" Building Form No. 6 for further particulars regarding all bids.

Plans and specifications, together with forms for submitting all bids, and further details regarding any and all bids may be obtained from the undersigned Secretary of the said Board at the office of the said Board above designated.

A bidder's surety bond or certified check equal to at least 10% of the amount of the bid submitted must accompany each proposal.

The Board reserves the right to reject any and all bids.

By order Board of Education, City of Fresno School District.

L. L. SMITH, Secretary.

NOTICE TO BIDDERS

(Fencing—Calistoga Grammar School District)

Monday, March 26, 1928, at 8 p. m., in a regular meeting of the Grammar School Building, the Calistoga Grammar School Trustees will accept bids for furnishing fence materials and erection of 1515 lineal feet of Elwood fence. Fence to be Specification 1, 2-inch mesh, 76 inches high, all steel construction, with 3 corner posts properly braced and set 36 inches in concrete. Line posts space at intervals of not less than 12 feet and set at least 30 inches in the ground.

Also 415 feet of Non-Climable Chain Link fence to be erected in a first class and workmanlike manner.

Kind of Material

Chain Link fencing, 60 inches high, 2-inch mesh, and No. 9 gauge wire. Wire shall be copper bearing steel and heavily galvanized after weaving. Top and bottom salvage to be twisted.

Top rail shall be galvanized tubular steel 1 1/2 inches O. D., weighing not less than 2.27 pounds per lineal foot and provided with necessary expansion rail couplings.

Posts to be standard full weight tubular steel, galvanized copper bearing. Line posts to be set not less than 30 inches in the ground, end, gate and corner posts to be 2 inches O. D., weight 5.75 pounds per lineal foot and properly braced, set in the ground 36 inches. All posts to be set in concrete.

Bidders shall itemize quantity of each item included and give full description of materials on which they are bidding. Bids shall be given on units of 1 lineal foot.

C. E. BENTLEY, President.
Attest: Nona Wadsworth, Clerk.

NOTICE TO CONTRACTORS

Office of the Clerk of the Board of Supervisors, Alameda County, Calif.

SEALED BIDS will be received by the clerk of the Board of Supervisors of Alameda County, California, at his office until Monday, the 9th day of April, 1928, at 10:30 o'clock A. M. The day when said bids will be opened and the contract awarded for the erection and completion of a one-story frame building to be known as Detention House, Del Valle, Elgin, California, near Los Gatos, Alameda County, Calif. Plans and specifications for said work are on file in the office of the County Clerk of Alameda County, in the Hall of

Records Building, in the City of Oakland, County of Alameda, State of California, where copies may be obtained by depositing with the County Clerk the sum of Fifty (\$50.00) Dollars.

Contractors will be restricted as to the length of time they may retain said plans and specifications to ten (10) days. Contractors failing to return said plans and specifications in good condition within said ten (10) day period will forfeit their deposit to the County of Alameda. The entire amount of the deposit will be returned to contractors returning said plans and specifications within said limit.

Each bid must be accompanied by a certified check of a bank of the State of California, or a national bank doing business in the State of California, for a sum equal to ten (10%) per cent of the total amount of bid, made payable to Geo. E. Gross, Clerk of the Board of Supervisors of Alameda County, to be forfeited to the County as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award, or to give bonds required by law and the Board.

The Board of Supervisors reserves the right to reject any and all bids.

GEO. E. GROSS,
County Clerk and Ex-officio Clerk of the Board of Supervisors.

Dated: March 12, 1928.

NOTICE TO CONTRACTORS

(Tubercular Sanatorium—Fresno County)

Pursuant to an order of the Board of Supervisors of Fresno County, California, duly made and entered in its minutes on the 12th day of March, 1928, notice is hereby given that said Board will receive up to 2:00 o'clock P. M., of the 6th day of April, 1928, sealed proposals for the erection and completion of the Central Unit and Wards "A" and "B" for the Tubercular Sanatorium of Fresno County, located near Auberry, California.

Bids are called for as follows:

General construction.

Plumbing and Heating.

Electric Work.

The above bids to be made out on forms supplied by the Architect.

Said work shall be done according to plans and specifications heretofore adopted therefor, and on file in the office of the clerk of this Board.

Copies of plans and specifications and forms of bid may be obtained from Architect Charles E. Butner, Cory Bldg., Fresno, California.

A deposit of \$10.00 will be requested from all contractors taking a set of plans. This deposit will be returned to the Contractor upon the return of the plans in good condition and within the time stipulated.

A certified check or bidder's bond in the sum of 10% of the amount of the bid, made payable to the chairman of the Board of Supervisors, must accompany each proposal as a guaranty that the successful bidder will, within 10 days after the acceptance of his bid, enter into a contract with Fresno County to do such work as above mentioned, and furnish good and sufficient bonds according to law and rules of this Board, conditioned upon the faithful performance of such contract, and all the provisions thereof.

Bids not accompanied by certified check or bidder's bond will not be considered.

The Board of Supervisors reserves the right to reject any or all bids.
Dated March 12, 1928.

D. M. BARNWELL,

Clerk.
By FRED MAIN, Deputy

NOTICE TO CONTRACTORS

(School Building—Sacramento)

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Board of Education of the Sacramento City School District for the complete erection of a school building, in accordance with plans and specifications on file in the office of the Secretary of the Board of Education of the Sacramento City School District, 1200 21st Street, Sacramento, California, and also in the office of Dean & Dean, Architects, 1406 California State

Life Building, Sacramento, California.

The said school building is to be erected on the property owned by the School District, in the block bounded by P and Q, 4th and 5th Streets, situated in the City of Sacramento, State of California.

On a deposit of \$10.00 with the Board of Education, or the Architects, complete sets of plans and specifications may be had by any prospective bidder, and retained for a period of 15 days. The deposit will be returned to the bidder on the return of the plans and specifications in good condition.

Bids must be made on proposals obtained at the office of the Architects, and be signed by the bidder, accompanied by a certified check for at least 10% of the amount of the bid or proposal, certified to by same responsible bank or banker, and made payable to Charles C. Hughes, Secretary of the Board of Education of the Sacramento City School District, said check to be forfeited to and retained by the School District, should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award, or to give bonds as required. Bids must be plainly marked on the exterior, "Proposal for the erection of the Lincoln School Building."

All bids must be filed with the Secretary of the Board of Education of the Sacramento City School District, 1200 21st Street, Sacramento, California, not later than 5:00 o'clock P. M., Monday, April 2nd, 1928.

The Board of Education of the Sacramento City School District reserves the right to reject any and all bids received. BOARD OF EDUCATION, SACRAMENTO CITY SCHOOL DISTRICT.

CHARLES C. HUGHES,

Secretary.

RIVERSIDE, Cal.—Until 10 A. M., April 3, bids will be rec. to const. 6-in. c. i. water main in Washington St., bet. Dufferin Ave., etc., and 4-in. c. i. main with laterals in Dewey Ave. from Palm Ave. to South Brockton Ave., and in Merrill Ave., from Palm Ave. to South Brockton; 1911 Act. G. Albert Mills, city clerk.

SAN BERNARDINO, Cal.—Until April 2, 7:30 p. m., bids will be rec. by John H. Osborn, city clerk, to fur. and del. Mazda lamps for period of one year in amount of the value of \$1200, more or less. Further information obtainable from clerk.

SAN FRANCISCO—Fire Commission will request supervisors to provide \$256,548 in next budget to finance extension to high pressure fire system in the Potrero section and \$155,213 for a similar extension in the Marina and Presidio districts.

ARMONA, Kings Co., Cal.—Until April 3, 6 P. M., bids will be rec. by E. E. Vole, clerk, Armona Public Utility District, to const. water system, involv. 1180 ft. 8-in., 5970 ft. 6-in., 9450 ft. 4-in. and 1700 ft. 2-in. c. i. pipe; one 30,000-gal. tank and tower; one turbine pump and motor and well. Plans obtainable from John B. Benedict, engineer, R. A. Box 131, Hanford, Calif. Plans obtainable from eng. on deposit of \$5, returnable.

Fourteen suits, used by sub-contractors and dealers furnishing supplies to the Charles S. Mabrey Construction Co. of Sacramento, builder of the Chize Memorial Hall, will be settled next Monday in the Superior Court at Oroville. It is understood that the suits, asking for a total of approximately \$33,000, in addition to costs and attorney fees, will be met by payment on the part of the defendant. The cases were to have been heard last Monday but were postponed a week at the request of the defense attorney.

February wholesale prices of standard plumbing fixtures for a 6-room house, as compiled by the Department of Commerce from reports of twelve representative manufacturers and wholesalers, were \$98.40, as compared with \$98.59 in January and \$105.16 in February, 1927.

The Associated Metal Lath Manufacturers, 123 W-Madison street, Chicago, has published in a recent issue of Metal Laths News, the official organ of the association, an interesting article on the St. Louis tornado and how various types of ceiling partition, construction withstood the damage that was caused by the storm. According to the article, which is illustrated, metal lath and plaster gave a better account for itself than did other construction, and was an important factor in the protection of life and property. Copies of this issue, Vol. IV, No. V, may be secured upon request.

Los Angeles, Calif.

GEO. H. LAIB ELECTED PRESIDENT OF REORGANIZED J. L. MOTT COMPANY

Reorganization of the new J. L. Mott Co., Inc., the consolidated concern which has grown out of the recent merger of the former Mott Company and its subsidiaries with the Laib Co. and the Columbia Sanitary Manufacturing Co., has been effected and the company incorporated under the laws of Delaware, according to an announcement from George I. Laib.

Mr. Laib is president and chairman of the board of the new company with its various subsidiaries. Other officers are W. G. Probst, vice president and general manager; Jordan L. Mott, third, great-grandson of the founder of the Mott industries, vice president and secretary, and J. E. Siegel, treasurer. Mr. Probst and Mr. Mott are also members of the directorate.

As the initial move in an aggressive merchandising policy indicated by the consolidation, the J. L. Iron Works, sales subsidiary of the Mott Co., will remove its New York offices and showrooms from Fifth avenue at 17th street to a new building at 369 Lexington avenue, which is at 41st street, in the heart of the architects' district. The building will be known as the Mott Bldg. and the company will move on May 1. An elaborate showroom is being fitted up on the ground floor, with several model bathrooms done in the latest colorings and designs. Another floor of the showroom will be devoted to kitchen equipment, marine plumbing and ornamental iron work, and a complete exhibit of the full Mott line of hospital equipment will be on permanent display.

Mr. Mott will be in charge of the New York offices and territory, which now includes all of Northern New Jersey, and his first business was the contract for the 54-story Channing Bldg. now being erected at Lexington avenue and 42nd street, New York. Harry J. Carey has been appointed sales manager for the district, and has assigned the Westches-

ter county section to Fred G. Merkle, formerly at the Mott Haven warehouse; Melville C. Reid will continue to serve the architects in Westchester. Fred T. Limbert and Willard Berrien have been transferred from company branches in other cities to handle the North Jersey business.

With the reorganization of the merged companies, the name of the Columbia Sanitary Manufacturing Co. at Louisville has disappeared, and it is now operating under the name of the J. L. Mott Co., Inc. The Columbia plant, which is devoted exclusively to the manufacture of enamelware, is on a capacity basis, and the various branches of the huge Mott plant at Trenton are gradually being reorganized with a view to speeding up production and extending the Mott line. Since January 15 the brass foundry has been cleaning up back orders and was scheduled to be on a current basis about March 15. The pottery, iron foundry and most of the smaller shops went on a capacity basis March 5. The company states that all of the 18 branches of the Mott and Laib companies will be maintained.

"In addition to an aggressive merchandising policy based on an extensive warehouse facilities serving architects, contractors and jobbers in all sections of the country, our plans call for scientific experimentation and sound development in every branch of the business," Mr. Laib stated. "The financial and mechanical facilities of Mott today are equal to any demand that may be made upon them for quantity and quality. It will be the endeavor of Mott to continue its contributions to the development of sanitary plumbing fixtures for residences, apartment buildings and hotels, railway and public comfort stations, office and public buildings, schools and factories, marine plumbing, hospital plumbing and hydrotherapeutic equipment. The century-old Mott traditions are a vital part of the new J. L. Mott Co."

NATIONAL FORESTS CONTRIBUTE TO STATE ROAD AND SCHOOL DEVELOPMENT

Thirty-nine counties in California will receive a share of \$291,437 as their part of the annual receipts from national forest revenues for the fiscal year ended June 30, 1927, according to report by S. B. Show, chief of the California district, U. S. Forest Service. An additional 10 per cent, or \$115,138, of last year's forest receipts will also be spent by the Forest Service during the present fiscal year in the construction of roads and trails within these counties.

Under the so-called 25 per cent fund law, one-fourth of all receipts from the national forests received from the sale of timber, grazing fees and other forest resources are returned to the state to be pro-rated among the counties on the basis of the amount of Federal forest land within the counties. The leading

counties that will benefit from this return of Federal money are Plumas, \$51,932; Fresno, \$37,843; Tuolumne, \$35,832; Lassen, \$23,119; Shasta, \$16,241, and Madera, \$12,871.

But this 25 per cent refund from receipts and the 10 per cent road and trail fund are not the only monetary benefits that the State derives from the national forests, Mr. Show points out. During the past fiscal year, under appropriations by Congress, more than a million dollars was spent by the Forest Service in California, in co-operation with the state and counties, on road projects within and adjacent to the national forests,—making a grand total of nearly 1½ million dollars received by the state, in lieu of taxes, by reason of the existence of Federal forests in the state.

TO ERECT WAREHOUSE

Crane Co., wholesale plumbing supply concern, is having plans prepared for a \$100,000 warehouse and distributing plant to be erected at Tucson, Arizona.

ANNUAL MEET OF WOOD UTILIZATION COMMITTEE IS SET

The annual meeting of the National Committee of Wood Utilization of the Department of Commerce has been called for May 4 and 5. The sessions will be opened Friday afternoon in the confer-

ence rooms of the Commerce Building, Washington, D. C. This meeting will follow a lumber conference called by Secretary Hoover, May 3 and 4, in order that representatives of the various branches of the lumber industry may gather simultaneously. Two half-day sessions will be devoted to the wood utilization committee's program. Secretary Hoover, as chairman of the Committee, will address the opening session; while Col. W. B. Greeley, vice-chairman, will open the second session. While the previous annual meetings of the National Committee have been devoted to deter-

mination of its program, this year representatives of the principal groups of producers, manufacturers, distributors and consumers will discuss their particular interest in the committee program. Thus each member will be made to realize his part in the program, the object of which is to make reforestation feasible through increased utilization of the felled tree. While the Committee is vitally interested in reforestation its program is concentrated on closer and more efficient utilization of timber.

SELLS BUSINESS

Retail business of the Mucke Rock & Sand Company of Sacramento has been taken over by the West Sand & Gravel Company with the producing end to remain unchanged. A. Mucke and C. Lissman, who are disposing of the retail rights, have controlled the Mucke Company's business for the past two years. The purchasers, C. E. Green, has been in the sand and gravel business in the Sacramento section for the past 15 years and H. E. West has been associated in a similar business in the Santa Cruz section for the past 10 years.

BANKRUPT

Carl Frederick Rawitzer, doing business as the Acme Awning & Canvas Company of Oakland, has filed a bankruptcy petition in the United States District Court, listing debts of \$18,518 and assets of \$20,589, of which he asks \$18,825 be exempt.

SUGAR PINE INVESTMENT COMPANY FACES SUIT

Charging that 38 dummies were used by the Sugar Pine Investment Company of Fresno to secure title to lumber land in Humboldt and Shasta counties, Geo. Hatfield, United States district attorney, announces that suit would be filed in Sacramento to regain title to the land. Hatfield said that an investigation of the chain of title to the land patented by the men showed that all entries were transferred to George L. Hoxie, who turned them over to the investment company. The court will be asked to nullify the patents and return the land to the department of the interior.

QUESTIONS AND ANSWERS

Question: "What is steel wool?"
Answer: "The fleece of a hydraulic ram."

Question: "What are glaciers?"
Answer: "Guys who fix windows when they are broken."

DON'T CHOKE ON THIS!

Teacher: "What does your father do for a living, Willie?"

Willie: "He's an artichoke and draws houses."

CELOTEX ISSUES CATALOGUE

The Celotex Company, Chicago, manufacturers of an insulating material for residences, has issued an interesting booklet entitled "Yes, You Can Own That Home." This booklet deals with the economics of home ownership in a promotional way, and discusses the costs and financing of a home on the basis of income and savings.

SEASONING TOO?

A sweet young thing was being shown through the locomotive department of the Minneapolis Steel & Machinery Company.

"That," answered the guide, "is an engine boiler."

She was an up-to-date young thing and at once became interested.

"And why do they boil engines?"

"To make the engine tender," replied the resourceful guide.

NEW DECORATIVE MATERIAL IS ANNOUNCED IN CATALOGUE

Zonta, a new decorative material for the interiors of any building, has been announced in a catalogue by the Zonta Corporation, 916 Water Street, S. W. Washington, D. C. This is a new Portland cement product that may be applied over new plaster or over old decorated surfaces, and that combines color and texture. The work may be done in many interesting textured effects, and is said to cost about the same as an ordinary paint job, to be permanent, and to be easily cleaned with soap and water and cleaning compounds. It may be applied, according to the literature, by either painters or plasterers. It may be glazed if desired.

UNITED DREDGING COMPANY SUED FOR \$200,000

Ben L. Lamborn filed a suit in the United States District Court, San Francisco, for \$200,000 against the United Dredging Company, the North American Dredging Company and R. A. Perry for services alleged to have been given the defendants in a \$3,000,000 claim against the Mexican government. Lamborn formerly was City Clerk of Alameda. Lamborn asserts he was employed to collect debts due the defendants by Mexico. The Mexican government settled for \$500,000. Lamborn asserts. He says his commission under a contract is 25 per cent of the settlement.

CONSTRUCTION HOLDING ITS OWN STATISTICS PROVE

Construction operations, showing a zest that is remarkable at this period of the year, are abreast of the volume of activities reported for the early weeks of the record-breaking year of 1927, according to statistics just compiled by the Associated General Contractors of America.

The volume of all types of construction work performed during January and February of this year is equal to the corresponding total recorded for last year. This condition largely is the result of last month's record-breaking activities which reached a volume topping the highest previous February mark, established last year.

Figures covering actual shipments of basic construction materials were used in making the computations, it was stated.

A scale which places the 1913 average at 100 as its basis, shows the February volume of operations to hold the index level of 121. This represents a one point decline from the January mark. February, 1927, saw a drop of 7 points from the mark held by the preceding month. The corresponding decline in 1926 was one of 20 points.

Indication that construction operations will have a running start in entering the mid-summer season is found in the large volume of contracts recently awarded. This volume in January was the second greatest ever registered for that month of any year on record, being 10 per cent greater than the corresponding total for January, 1927, though slightly below the peak figure established during the first month of 1926.

PRODUCTION OBSTACLES OF 1928

The millstones of competition grind, but their grinding is a challenge to management to prove itself worthy of its right to leadership, according to Magnus W. Alexander, in *Factory*. In his article, Mr. Alexander, who is president of the National Industrial Conference Board, Inc., says that our present industrial revolution and reorganization is management's answer. This renaissance is largely due to keen competition which is forcing business men everywhere to sense the

realities of our economic situation. The competition, which Mr. Alexander says is the despair of shortsighted industrialists, will cause rejoicing in the long run. Obsolete plants and equipment, inadequately trained labor supply, and ignorance of fundamental economic principles will take their toll from tomorrow's balance sheets. Competition is giving rise to carefully watched production plans, progressive, as well as aggressive, selling policies.

The St. Francis dam which recently burst and flooded the San Francisco Valley in California, was constructed by the city of Los Angeles by the employment of day labor and no contractors were engaged or consulted, the Associated General Contractors of America charged in a resolution adopted at its annual meeting in Chicago March 19. The resolution was adopted as an answer to an editorial criticism in a recent issue of the *Stockton, Calif., Independent*. The newspaper was quoted as saying in part: "If faulty or inferior construction is to blame, the matter should be made public to warn against further tragedies at the price of conscienceless contractors and builders."

When the International Benjamin Franklin Society carries out its plan for a temple of peace in New York to honor Franklin's memory, the Woolworth Bldg. no longer will be the tallest in the world. The temple will rise skyward 800 to 850 feet. The Woolworth Bldg., completed 13 years ago, is 792 feet high. The Franklin memorial will have 75 stories of which three will be devoted to a museum of Frankliniana, an auditorium and offices of the international society. The other 72 stories will be rented for offices.

Larsen Construction Reports

Issued every business day of the year. Furnishes advance information on work projected and contracts awarded for all classes of building, street, sewer and highway projects, bridges, dams and harbor works, machinery, etc. Send for rates in your territory, advising class of work in which you are interested.

ARCHITECTS SEEK TO ENFORCE ACT REGULATING PRACTICE

A committee recently appointed by the Northern California Chapter, American Institute of Architects, to further the organization of a temporary association to promote the enforcement of the California "Act to Regulate the Practice of Architecture" recommends organization of "The State Association of California Architects" whose temporary officers will be the members of the ways and means committee appointed, and which association shall include in its membership all certified architects in the northern district.

The objects of this association shall be:
—Primary Object—"As a measure of public welfare to promote the uniform enforcement of the State Act to Regulate the Practice of Architecture."

—Secondary Objects—(a) In the public interest to ultimately improve the State Act to Regulate the Practice of Architecture; (b) To establish closer relations with the general public; (c) To raise the standards of architectural design and construction.

As the first activity of the association, the committee is suggesting to the State Board of Architecture possible immediate ways and means by which the present state law may be more effectively and uniformly enforced. In addition, the committee is now actively drafting a constitution and by-laws for a permanent association to be governed by a board of governors, consisting of one representative from each congressional district. This will be completed without delay, and a meeting will be called of all architects in the state to vote upon the constitution which this committee will propose. Prior to this meeting a conference will be held with architects in the southern district of California.

The committee submitting the recommendation consists of Mark T. Jorgensen, chairman; William I. Garren, secretary; Chester H. Miller and Ralph Wyckoff.

MIAMI CITY COMMISSION BARS FOREIGN CEMENT

Use of foreign cement in the construction of streets in Miami, Fla., has been prohibited by the Miami city commission until the imported cement can satisfactorily pass a 28-day strength test. Welton A. Snow, city manager, informed the commission that the last test of foreign cement after a 28-day test showed it to be 1.8 per cent below standard, although the 7-day test showed conformity. It was the opinion of commissioners that a thorough local test of cements was important and that conformity with foreign standards should not be deemed sufficient.

The City Commission of Miami, Florida, passed the following resolution on February 9, 1928:

WHEREAS, it appears in the interest of sound and economic public policy, that the public monies of the city should only be used in the purchase of American made products on public work whenever such American made products come into competition with foreign materials, and specifically that Portland cement should always be required in the public work of the city of Miami; NOW, THEREFORE,

BE IT RESOLVED by the City Commission of the city of Miami, that in the future, and until the further order of the Commissioners, no contract involving public improvements in the city of Miami, or the expenditure of the funds or monies of the city of Miami, shall be made by the City Commission, or by any of its officials having authority to contract for and on behalf of the city, unless said contract shall specify the use of American made products in the subject matter whenever the same is found to be in competition with foreign material.

The action by the Miami City Commission is the culmination of a year of effort on the part of the Cement Information Bureau to bring about this result.

TRADE UNIONS SEEK TO SOLVE UNEMPLOYMENT PROBLEM

Various methods are followed by American trade unions in their attempts to meet the problem of unemployment among their members. In a discussion in the March issue of the Monthly Labor Review, of the measures aiming at a solution of the problem which are taken by the different labor organizations, it is stated that these measures may be classified into those tending to prevent the occurrence of unemployment and taken to alleviate the effects of unemployment when it occurs. The means employed for the prevention of unemployment include restriction of membership in the union, insistence upon the equal division of work among the regular workers, and the limiting or prohibiting overtime, while for union members out of a job an employment office or an information service is maintained by several national organizations, and nearly all local follow a consistent policy of finding jobs for members. Unemployment benefits are paid by three national organizations, many others exempt their members from dues while unemployed, and still other organizations have resorted to unemployment insurance.

CITY PLANNING BEING ADOPTED IN MANY CITIES

As a measure of recent civic accomplishment the Civic Development Department of the Chamber of Commerce of the United States calls attention to the fact that 409 cities and towns in this country now have official city planning commissions. It summarizes in its report the methods followed and procedure adopted.

Despite this sudden revival of city planning, John Ihlder, manager of the department, calls attention to the fact that it is as old as the city of Washington. "When we say our present interest in city planning goes back some 15 or 20 years," he says, "we do not mean that city planning in America began only 20 years ago. Some of the earliest settlements, Philadelphia, Savannah, Williamsburg, were carefully planned by their founders. George Washington's determination to have an adequate plan for the Federal City which bears his name, was not due to theory but to experience with the capital of his state, with the temporary capital of the nation, which he probably contrasted with certain unplanned cities.

"The plan of Washington, despite the ridicule heaped upon it by those who could not look forward a century, had its contemporary effect in Buffalo, in Detroit. But then followed a period of lack of vision until some twenty years ago, when, partly due to the World's Fair in Chicago, partly due to our increasing ability to criticize ourselves, interest in city planning had a new birth."

BRITISH ARCHITECTS PROPOSE STANDARD BUILDING CONTRACT

A new standard form of building contract has recently been proposed by a joint committee representative of the Royal Institution of British Architects, the Surveyors' Institution, and the Federation of Building Trade Employers and the Institute of Builders. The advantage of standardizing forms of building contracts, of which many thousands are drawn up every year, says a London architectural magazine, is obvious. The difficulty has hitherto been in fixing the relative responsibility of the architect and the builder. The building contractor objected to the sole arbitrament of the architect, while the latter carries all the responsibility to the building owner for the fulfillment of the specifications. This difficulty has been overcome by giving the builder a right of appeal, in any matter of dispute between him and the architect, to an independent arbitrator. The new form of contract, also, goes far to meet requirements rendered necessary by modern changes in methods of construction, for which old forms of specifications are practically useless.

According to Engineering News-Record, New York, the number of contracts awarded during January and February, 1928, exceed those awarded last year by 4.6 per cent. This confirms the increased activity in the construction industry as measured by value of contract awards and value of contemplated projects given in last week's issue. The number of contracts for engineering construction projects this year and a year ago were:

	1928	1927
January	670	655
February	639	597
Total	1309	1252

REFUSAL TO FURNISH BUILDING PLANS UPHELD BY COMPTROLLER GEN.

The Comptroller General of the United States, J. R. McCarl, has sustained the action of the Acting Supervising Architect of the Treasury in refusing to furnish plans and specifications for the superstructure of the new Department of Agriculture building, to a contractor who did not comply with a request for satisfactory proof of his qualifications to execute the contract.

Mr. McCarl said, however, in his ruling which was made public by the Treasury Department on March 22, that "there is no absolute right to make invitations to bids dependent on the proposition of a showing as to the financial status of the bidders, technical ability, equipment and organization."

The Comptroller General did not rule directly on other points about which the Treasury inquired in connection with its authority to award contracts to other than the lowest bidders when such low bidders were not satisfactory. The full text of Mr. McCarl's ruling follows:

The Secretary of the Treasury: I have your report of March 11, 1928, with respect to the objections made by the English Construction Company as to the refusal of the Acting Supervising Architect of the Treasury Department to furnish them with plans and specifications for the superstructure of the Agricultural Building, in order that they might submit a bid in connection therewith. It appears that the advertisement for bids stipulated that:

"Proposals will be considered only from individuals, firms or corporations possessing satisfactory ability, equipment and organization to insure speedy completion of the contract, and who have established a record for expedition on contracts of similar character and magnitude."

This advertisement did not indicate that before receiving a set of the plans and specifications for the building any information as to the financial standing or experience of the proposed bidder would be required, but it is understood that the Acting Supervising Architect of the Treasury Department, in response to the request for plans and specifications, called attention to the extract from the advertisement for bids quoted and further said:

"You are requested to submit without delay a statement as to your resources and organization, with a list of construction contracts, each amounting to approximately \$1,000,000, that you have completed satisfactorily and expeditiously within the past three or four years. The list must indicate the character of the work, amount of contract, contract time for completion, and the time in which the work was actually completed. If the information submitted is satisfactory the plans and specifications will be forwarded you. Please use the attached form to send in any information you may wish to furnish."

Experienced Builders Desirable

The condition is such that if that had been the purpose of the Department it should have been conveyed in the advertisement so as not to unnecessarily subject parties to the making of a request and the Department to the burden of answering, as appears in the present case. I deny that the construction of building bidders' work is no primary technical or craft work excluding all from participation excepting those who are engaged in the business or with adequate practical experience. These are, of course, desirable elements, but as was pointed out in the decision of March 1, 1927, it

Comp. Gen. 557, quoting the second paragraph of the syllabus:

"A bidder is not to be considered as not acceptable because newly organized or organized for the purpose of the work, especially if performance bond is to be exacted. New services may require new organization to be formed, and be in the interest of the United States to thus obtain bidders."

It is, of course, recognized that because of the magnitude of the building work which the government is undertaking, the administrative burden is more than ordinarily heavy, and it is desirable that it be lessened wherever possible, and it may be that having fully competent and experienced builders will give much assurance in that direction, but equally so that the magnitude of the work is sure to attract newcomers into the field and there is no absolute right to make invitations to bids dependent on the proposition of a showing as to their financial status, technical ability, equipment and organization.

You set forth that the conditions were not considered unreasonable by the Department but you have reference only to the conditions which appeared in advertisement and not the conditions which were imposed on a request for the plans and specifications. There does not appear at that time to have been any reason, so far as the advertisement for bids required, to furnish the qualifications on which the plans and specifications were not furnished to this construction company.

You further set forth that it is evidenced the action of the Department is not considered "unreasonable or improper by the contractors as a whole as evidenced by the fact that the Department received 20 bids on this work and that the only concern which insisted on a right to bid though failing to furnish the qualifications, is the English Construction Co."

There appears nothing specially for objection by this office in view of these facts showing substantially competitive bidding, but the incident which arose is for the consideration of the Department in its future action as tending to show dissatisfaction with the public and as having a tendency to exclude prospective bidders and limit the competition to established organizations, which likewise has a tendency to suggest favoritism.

SOUTHERN CALIFORNIA CHAPTER, A. G. C., ELECTS OFFICERS

Ford J. Twaits, vice president of Scofield-Twaits Co., was unanimously elected president of the Southern California Chapter, Associated General Contractors of America, at the annual election of officers. Edwin A. Irish was elected vice president, and George Hess, secretary-treasurer. J. H. Hall was elected treasurer emeritus.

Contractors elected to serve on the executive board, in addition to retiring president, C. E. Bressley, were: J. C. Edwards, C. E. Green, Harvey R. Field, Harold B. Crowell and Ralph E. Hommann. Directors re-elected to the executive board were: K. R. Bradley, K. P. Lowell and Chas. U. Heuser.

Melville Dozier Jr., manager of the Chapter, and Pecos H. Calahan, engineer, were re-appointed to their positions as was Robert E. Boyd, editor of the California Constructor, a semi-monthly magazine owned and published by the association.

EMPLOYMENT SERVICE ENGINEERING SOCIETY

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 7, 57 Post Street, San Francisco, (Phone Sutter 1684).

K-10-X-3915-C-S DIRECTOR, for vanishing sheet factory. Must be experienced and with technical knowledge in the manufacture of black sheet to the galvanized finished product. Apply by letter, stating your work on this kind of manufacture and the names of the concern. Headquarters, New York City. Location Mexico. Salary open.

X-1462 SALESMAN, to travel parts South America, to visit trade interests of waterproofing and preservative compounds, technical paints, surfacing material, etc. Must have knowledge of Spanish or Portuguese. Company offers all necessary facilities for trading, as well as generous compensation, and opportunity for permanent connection. Headquarters, New York City.

R-1552-S SALES ENGINEER, preferably technical graduate, about 35 years old with sales and construction experience to estimate and detail structural steel and ornamental iron work for fabricating shop. Some travel. Apply by letter with references and photo. Salary about \$250 to start. Location Middlewest.

R-1553-S STRUCTURAL DESIGNER, first class, familiar with both structural steel and reinforced concrete factory and industrial building construction. Salary open. Location San Francisco.

K-38-X-447-CS SALES ENGINEER, about 30, technical graduate and structural engineer to develop the sale of steel roof decking. Must be trained in roofing and especially in insulating material. Will be required to travel to headquarters at own expense. 1 month special training before being assigned to a territory. Salary \$2000 a month plus expenses while traveling. Apply by letter. Location Middlewest, East and South.

R-1551-S DRAFTSMAN, familiar with shop practice in manufacturing structural furniture for detailing shop cutting drawings and general drafting. \$2000 a month. Apply by letter. Location Middlewest. Permanent.

EMPLOYMENT ON INCREASE—HIGHER MATERIAL PRICES CITED

Employment and activity in the manufacturing industry of the United States have been on the increase since November, 1927, according to the Jan., 1928, returns from 2000 manufacturing plants reporting to the National Industrial Conference Board. The decline during 1927 amounted to 3½ per cent for the entire year. Despite the decrease in employment, the average weekly earnings per worker employed in January, 1928, were the same as in January, 1927, and a third higher than in January, 1926. Average hourly earnings per worker, which reflect the rate of pay for work performed to a greater degree than do weekly earnings, were in January, 1928, more than 2 per cent higher than in January, 1927. This indicates that declining employment in contrast with the experience of pre-war times, has not brought with it an general wage reduction.

Higher prices of building materials are reported as follows: common brick New York, up \$1 to \$16@19, delivered wood lath, New York, up \$1 to \$9.50@10; Douglas fir in Seattle, up \$2 to \$2 for 3x12 in. x 20 ft.; linseed oil in Atlanta and Chicago, up ¾c per 7½-lb.

CHAS. PETER WEEKS, NOTED S. F. ARCHITECT, PASSES TO GREAT BEYOND

Charles Peter Weeks, distinguished San Francisco architect whose creations in steel and stone are to be found in places throughout California, was found dead in bed March 25 at his home at the Rockbank apartments, Sacramento and Mason streets, San Francisco. Death was due to a malady from which he had been suffering for a number of years and for which he had been under the care of a physician for many months.

Mr. Weeks was a member of the firm Weeks & Day, architects for some of San Francisco's most imposing structures, notably on Nob Hill and including the Hotel Mark Hopkins, the Huntington, the Brocklebank, and the Cathedral apartments in that district.

Weeks' Firm Made Designs for Chronicle Building

Weeks & Day were the architects for the present Chronicle building at Fifth and Mission streets, a structure that has been much praised for its technical excellence and suitability to its purpose, as well as for the beauty of its design. The Gothic clock tower of the Chronicle building is regarded as a particularly beautiful conception.

Mr. Weeks was born in Ohio, and after attending the university in his native state, went to Paris to study architecture at the Ecole des Beaux Arts. After his graduation in Paris he became associated with John Galen Howard in New

York. He came to California in 1907, and a few years later formed the firm of Sutton & Weeks. After the dissolution of this firm, Weeks formed a partnership with W. P. Day, and the present firm of Weeks & Day was instituted.

Many Cities in California Graced by His Architecture

Some of the out-of-town structures which Mr. Weeks helped to design were the new State buildings at Sacramento, the Ste. Claire Hotel in San Jose, the Loew's State Theatre and office building in Los Angeles, and some of the buildings now under construction upon which he worked just prior to his death include the new hotel at Sutter and Powell streets and the Duffwin Theatre and the new West Coast Theatre in Oakland.

Mr. Weeks was 57 years of age. He was a Mason and a Shriner, and was architect for the Shrine Hospital for Crippled Children. He was a member of the American Institute of Architects, the Commonwealth Club and the San Francisco Golf and Country Club. Sketches drawn by Weeks won first prize in one of the preliminary competitions for the suggested designs for the new House of Parliament buildings for Australia in 1924.

Funeral arrangements are being held in abeyance pending the receipt of advices from relatives in the East, who were notified by wire of his death.

ALONG THE LINE

Delger Trowbridge, Oakland attorney, has been named a member of the California State Industrial Accident Commission by Governor C. C. Young. Trowbridge succeeds J. E. Olmstead of Petaluma, resigned.

A. A. Baxter, 65, pioneer in the Douglas fir industry on the Pacific Coast and vice-president of the Douglas Fir Exploitation and Export Company, died at his home in Berkeley March 25 from heart disease.

Wm. Arthur Newman, Pacific Coast representative for the office of the Supervising Architect, Treasury Department, Washington, D. C., left San Francisco for Honolulu on March 24. Considerable Federal Government work is planned at Honolulu. Mr. Newman will probably be gone for thirty days.

Announcement is made by Professor F. H. Eno, Chairman of the Executive Committee of the Highway Research Board of the National Research Council of the appointment of Mr. Roy W. Crum of Ames, Iowa as Director of the Board, effective April 1, 1928.

John McCool, architect, formerly located in the Hearst Bldg., has moved to 381 Bush St., San Francisco.

Arrangements are being completed for the ninth annual dance of the Engineering Society of the Santa Clara University, to be held at the Vendome Hotel, San Jose, April 14.

ERROR IN CLASSIFYING BURNT CLAY CORRECTED BY CUSTOMS BUREAU

The Bureau of Customs, Department of the Treasury, in a ruling announced March 21, established the classification of burnt clay as dutiable at 20 per cent ad valorem under paragraph 214 of the Tariff Act of 1922.

Following is the full text of the order, in the form of a letter addressed to the Appraiser of Merchandise at Philadelphia and circularized to all customs officers:

The Department is in receipt of a communication from the supervising agent in charge, Customs Information Exchange, dated January 11 last, inviting attention to a variance in practice between your office and that of the appraiser at New York in the classification of burnt clay, you returning it for duty at \$2 per ton under Paragraph 207, and the appraiser at New York at the rate of 30 per cent ad valorem, under Paragraph 214 of the Tariff Act of 1922.

You state that the merchandise is ground burnt clay and falls squarely within the provision in Paragraph 207 for clay, manufactured, not specially provided for, whereas the collector of customs at New York expresses the opinion that the provision in Paragraph 207 is not intended to apply to articles such as are manufactured from clay, and only to clay manufactured and unmanufactured, and cites in support of his position the decision of the Board of General Appraisers (now the Customs Court) T. D. 35915, holding that brick rubble is dutiable as an earthy or mineral, under the Act of 1913, corresponding to Paragraph 214 of the present Tariff Act.

Following the decision cited, the Department is of the opinion that the burnt clay in question is properly dutiable at the rate of 20 per cent ad valorem under Paragraph 214.

MADERA SUGAR PINE LUMBER COMPANY FACES SUIT

Suit has been filed in the Superior Court at Mariposa by Harold Rogers, against the Madera Sugar Pine Company, and others for \$51,552.28. Rogers was employed as an assistant superintendent by the Englehardt Paving & Construction Company in the construction of a railroad grade on Signal Peak for the Madera Sugar Pine Company, in July of last year, Rogers and a number of other men were engaged in testing a new explosive which was to be used for blasting purposes. It is claimed that due to carelessness, there was a premature blast, as a result of which he was seriously injured, and he now asks damages from the company. He was in the hospital for forty days, and a large part of one of his feet was amputated.

CONSULTING ENGINEERS TO AID IN SURVEY OF STORAGE DAMS

The Secretary of the Interior, Dr. Hubert Work, announces appointment of two consulting engineers to work with those of the Bureau of Reclamation in examination of various storage and diversion dams in the West. These engineers are A. J. Wiley of Boise, Idaho, and D. C. Henny of Portland, Oregon.

The statement in full text follows: Mr. Henny, who is a Hollander by birth, has been in the American West for 40 years, engaged in railroad, irrigation and power development work. At one time he was supervising engineer for the Bureau of Reclamation in charge of the projects of the northwest district. As such he built some half dozen of the big Government dams.

Mr. Wiley has been a pioneer in irrigation and power development and has superintended many of the great development enterprises of the West. He has but lately returned from India, where he went on assignment from the British Government to report on a number of storage and irrigation projects.

26,618 KILLED IN 1927 HIGHWAY ACCIDENTS—INCREASE OVER 1926

Highway accidents took a toll of 26,618 lives during 1927, the American Road Builders Association stated recently. The estimates made public include serious injury to 798,700 persons and an economic loss for the year totaling \$672,097,000. The economic loss does not include minor damage to motor vehicles or accident insurance premiums.

The highway accident figures are based on an increase of 5.2 per cent over 1926. The American Road Builders' Association reported 25,302 persons killed in that year, in addition to 759,500 seriously injured. The increase of 5.2 per cent was shown in a progress report assembled by the Bureau of Census.

Grade crossing fatalities show a decreased for the first eleven months of 1927 the number of persons killed totaling

2120 as compared with 2244 for the same months of 1926. Grade crossing fatalities in 1926 had increased from 2206 in 1925. The continued increase in the number of highway accidents has caused the American Road Builders' Association to renew its efforts toward bringing organizations interested in the problem into closer co-ordination.

"The unfortunate increase in highway accidents makes imperative an immediate adoption of uniform traffic codes, and an expansion of the nation's road building programs," officials of the association declared. "The human factor is the main element contributing to these accidents, but the human factor could to a large extent be offset by adequate motorizing facilities and regulations, coupled with the individual practice of courtesy and caution."

THE OBSERVER

What He Hears
and Sees
On His Rounds

For a group of the construction industry the change is hard, according to reports that Gen. R. C. Marshall, Jr., Washington, D. C., war-time chief of army construction is to resign his position as general manager of the Associated General Contractors of America, a post which he has held for eight years. His move will bring D. A. Garber, leading New York builder and construction expert of many years' experience, as Gen. Marshall's successor. Mr. Garber is severing connections with the North-Eastern Construction Co., New York, a construction business headed by him since 1901, to make the change. Gen. Marshall is resigning to become president of the firm of Sumner Solitt & Co., Chicago, one of the country's foremost construction firms, in continuous operation for five generations. The change will be effective May 1.

The toll bridge, commonly regarded as a relic of earlier days, has graduated into the field of big business in these days of many automobiles. The Chicago Motor Club declares that highways are being commercialized by an ever-increasing number of privately owned toll bridges. Many of the structures, it is declared, earned their owners as much as 300 per cent a year on the original investment and earnings of 40 to 150 per cent are said to be comparatively common. Toll bridges in operation in the country at the beginning of the year numbered 275, of which 191 were privately owned. The club's research showed 29 such structures under construction and 163 more proposed.

By an order recently entered in Investigation and Suspension Docket No. 3082, the Interstate Commerce Commission suspended from March 17, 1928, until October 17, 1928, the operation of certain schedules as published in Supplement No. 1, C. C. No. 892. The suspended schedules propose to restrict the application of intermediate rules on lumber between points located principally in Pacific Coast States, so that the joint through rates to more distant points will not apply to any point within the switching limits of the junction (intermediate) point at which the traffic is interchanged by the carriers parties to such joint through rates.

During the first 29 days of March, 1928, Los Angeles city building department issued 2371 permits with an estimated valuation of \$7,982,238 as compared with 2285 permits with an estimated valuation of \$6,332,314 issued during the corresponding period in March of last year. For the first 29 days of February, 1928, the number of permits issued was 2120 and the estimated valuation was \$5,107,330. For the current year up to and including March 29 Los Angeles' building total was \$22,539,657 as compared with \$22,036,117 for the corresponding period in 1927.

Associated Press dispatches dated Mar. 25 from Budapest announce a district court has imposed a small money fine or six days' imprisonment on Joseph Vago, charged with representing himself to be an architect and designing public buildings without possessing an architect's diploma. Vago was one of four victorians defeated in a competition with foreign architects to design League of Nations to be built in Geneva. A new \$5,000,000 palace at the League of Nations is to be built.

Annual convention of the American Oil Burner Association will be held in the Hotel Stevens, Chicago, April 3, 4 and 5.

President Coolidge has designated the week of April 22-28 as American Forest week and will broadcast a message between 8 and 8:30 P. M., April 23 from WRC, Washington.

New orders for fabricated steel plate in February, based on reports received by the Department of Commerce from 51 firms, were 62.1 per cent of capacity, as compared with 44.8 per cent in January and 74.2 per cent in February, 1927.

Pacific Lumber Co. of Scotia, Humboldt county, seeks authorization of State Department of Public Works, Division of Water Rights, to appropriate waters for use in connection with a proposed 150-ton pulp and paper mill at Scotia. The company proposes to utilize the waste redwood from its woods and mills that is now being burned.

The first national materials handling meeting ever arranged will take place in Philadelphia on April 23 and 24 at the Hotel Benjamin Franklin under the auspices of the Materials Handling Division of the American Society of Mechanical Engineers. Materials handling in its various phases will be considered by speakers of national prominence.

Pacific Coast Cement Company, planning construction of a \$3,000,000 cement manufacturing plant at East Marginal Way and Spokane St., Seattle, Wash., has let a contract for piling in connection with the plant for which a 19-acre site is available. Machinery for the plant has been purchased according, according to Major S. E. Hutton, chief engineer for the company.

A committee of architects, headed by D. Everett Waid, and composed of several members of the New York Chapter of the American Institute of Architects, is planning a nation-wide study of health and safety in the building industry. Members of the committee in addition to Mr. Waid are William P. Bannister, Lansing C. Holden, William H. Beers, S. R. Bishop, Theodore I. Coe and Rudolph P. Miller.

Fresno City Commissioners are considering adoption of the uniform building code as prepared by the Pacific Coast Building Officials' Conference. A meeting of the commission will be held April 5 to consider the law. Members of the Industrial Committee of the Fresno Chamber of Commerce, Fire Marshal W. Ralph Williams and City Building Inspector James Anton will confer with the commission regarding adoption of the law.

M. L. Mammen of the Hammond Lumber Company, was elected president of the Lumbermen's Accident Prevention Association at the regular annual 3-day meeting of that body in San Francisco. Sessions were held in the State Building. J. H. Singer of the Sugar Pine Lumber Company was elected secretary and W. T. Boyd, of the Pacific Lumber Company, treasurer. Arrangements were made for holding a plant meeting in June, for investigating working conditions among lumbermen. The next annual meeting of the association will be held in San Francisco next February.

An involuntary petition in bankruptcy has been filed in the United States District Court, San Francisco, against Arthur James Cavaney, proprietor of the Domestic Engineering Company. Petitioner's creditors were Preferred Oil Burners, Inc. of Peoria, Ill., \$3585; Leo J. Meyberg Co. of San Francisco, \$3314, and the Electric Corporation of Los Angeles, \$702.

There are 12,752 building and loan associations in the United States, with approximately 13,000,000 members. Their total resources are \$7,065,000,000, which is somewhat more than the entire capital resources of all the national banks. In the year 1927 the sum of \$2,300,000,000 was invested by them in first mortgages to 639,000 individuals.

Conference of the California City Managers' Association will be held in Monterey next month, according to R. M. Dorton, city manager of that city. Some 15 city managers from various parts of the state are expected to attend, including John Eddy, city manager of Berkeley and president of the International Managers Association. Two days of business sessions and a golf tournament are on the tentative program for the meeting.

The construction of an international highway, linking the United States with Central South America, is provided for under the terms of a bill introduced in the Senate by Senator Tasker L. Odde of Nevada. The purpose of the highway would not only be for better highway facilities and communication between the countries, but would be conducive of good will, Senator Odde declared in introducing the bill.

Automobile registration during 1927, totaled 23,125,000 cars and trucks according to figures compiled by the National Automobile Chamber of Commerce. Comparing the registration to the miles of surfaced highways, the figures show that there are 40.2 cars and trucks in the United States for every mile of surfaced road.

The Michigan State Highway Department has announced to highway road and bridge contractors that the department now requires surety bonds on all contracts, the face value of which is in excess of \$10,000. This action was taken for the purpose of establishing a uniform basis for bidding on highway road and bridge projects, and to properly secure the construction and payment of lien claims.

An effort to have the five-day week put into effect in all state offices and on all state work will be made at the next session of the California legislature by the State Building Trades Council of California. The council unanimously endorsed the five-day week at its 28th annual convention in Petaluma which closed March 24.

Frank C. McDonald of San Francisco was re-elected president of the California Building Trades Council at the recent annual convention in Petaluma. M. J. Connors, Sacramento, was re-elected secretary-treasurer and A. O'Grady, San Francisco, was elected as representative on the general building trades council. San Francisco was chosen for the convention city in 1929.

TRADE NOTES

Jesse Raphael will operate from 4249 California street, San Francisco, under the firm name of Sunset Window Shade Manufacturing Co.

Tobey Christiansen, formerly co-partner with the C. & R. Sheet Metal Works of Oakland, is operating his own sheet metal business at 4279 Piedmont ave., Oakland.

Henry E. Albach will operate from 350 Ocean Ave., San Francisco, under the firm name of Western Grading & Truck company.

Boorman Steel Co. has leased 93,475 square feet of property in Eighth street near Fallon street, Oakland, and will erect a distributing warehouse. George W. Boorman is president of the company.

Rock crushing plant of the Blue Diamond Rock Co. in Temescal Canyon, 7 miles from Corona, was destroyed by fire March 24 throwing 300 men out of work. The plant had a daily capacity of 4000 tons. The loss is estimated at \$100,000.

Don Dickinson, formerly with the Sterling Lumber Co. of Santa Rosa, has become associated with H. C. Mack in the building material business at Santa Rosa and will operate under the firm name of Mack & Dickinson.

P. C. Hansen Lumber Co. will erect a \$10,000 warehouse on the Southern Pacific frontage in First street in Niles, Alameda county.

Marysville Sand Co. has purchased 30 acres of land in the Yuba river at Marysville from Lucien D. George and Byron B. Divver. Increased business, company officials report, warranted the purchase of additional properties.

Pacific Rock Co. of Wilmington, Del., has filed articles of incorporation in Oakland. The company is capitalized for \$40,000. Directors are: T. L. Croteau, T. L. Fray and E. B. Stauffer, all of Wilmington.

Collins Electric Co., operated by W. J. Collins and A. J. Sanguinetti, has opened quarters at 708 East Market street, Stockton, and will carry a complete line of electrical fixtures and equipment. Collins was for five years chief electrician for the National Paper Products Co. Sanguinetti has been in the electrical business in Stockton for several years.

Swanson Uhl Wall Paper & Paint Co. of Oakland, capitalized for \$50,000, has been incorporated. Directors are: Helmer C. Swanson, Adolph Uhl, George Uhl, Audrey I. Swanson and Emile A. Pierre.

J. A. Clark, for the past five years engaged in the building business at Elmhurst, has opened quarters at 1420 Thirty-eighth Ave., Oakland, operating under the firm name of Sun Roofing Company, and will specialize in Johns-Manville roofing products, including asbestos shingles, asphalt shingles and built-up roofing.

Machinery for the new wire specialty department of the Columbia Steel Corp. at Pittsburg, Cal., has arrived and installation will be started at once. Equipment comprises machinery for the manufacture of wire netting, wire hoops, tie wire, and bale ties. It is expected the new department will be operating at full capacity on April 15.

Berkeley Supply Co., 2061 University Ave., Berkeley, has been appointed Northern California representatives of the A. Flanagan Co. of Chicago, manufacturers of blackboards, school and church furniture.

Mitchell-Tappen Co., 15 John St., New York City, has published a pamphlet describing its metal caging for reinforcing the concrete incasement of beams and columns. The pamphlet presents in tabular form the necessary information for ordering metal caging for different sizes of channel, I and H sections. In addition, complete information is given on the method of applying the metal caging.

Frank G. Lukey, formerly Western manager for A. Milne & Co., New York City, has resigned to become associated with the Ziv Steel & Wire Company of Chicago, as district manager in San Francisco.

Traffic Department of the Oakland Chamber of Commerce has obtained a new railroad freight rate on wire fencing and wire cloth which will permit the shipment of 30,000 pounds of wire cloth to Southern California at the carload rate instead of less than carload rate. Before, the minimum weight of wire cloth that could be shipped south at the carload rate was 40,000 pounds. Oakland wire plants have been gradually losing their foothold in Southern California because of this situation. The new rate corrects this.

Paul W. Beggs, Portland engineer and manufacturers' representative, has been appointed representative for the West Coast steel heating boilers, manufactured by the Steel Tank & Pipe Company, for the Oregon and southern Washington territory. Beggs is Portland representative for the following manufacturers of heating and ventilating equipment: Warren, Webster & Company, Western Blower Company, Nash Engineering Company, The Fulton Syphon Company, Patterson-Kelley Company, Boylston Steam Specialty Company, Dean Hill Pump Company and Staples &

Coffman, Sahlberg & Stafford, architects and engineers, with main offices in the Plaza Bldg., Sacramento, announce the opening of branch offices in the American Trust Bldg., Richmond. In Contra Costa county the firm recently completed additions to the San Pablo Grammar school and the Vine Hill Grammar school. The Richmond offices will be in charge of John Stafford.

City Housing Corporation, capitalized for \$500,000, has been incorporated with the principal place of business in San Francisco. Directors are: K. H. Gates,

ELECTRICAL INSPECTORS TO MEET IN SACRAMENTO IN OCTOBER

Following the election of new officers and the decision to hold another convention in October in Sacramento, the three-day convention of the California Association of Electrical Inspectors was brought to a successful close at Santa Barbara, March 25.

Carl Beaton of Sacramento was elected president and A. E. Johnson of San Diego, vice-president. C. W. Mitchell of Los Angeles was named secretary. Executive committee members chosen were: F. A. Morrell of Stockton, Cyrus Guishush of San Francisco and W. R. Franklin of Los Angeles.

The officers elected will serve until the date of the next convention.

At the close of the final business meeting members in attendance expressed themselves as well pleased with the reception they had received in Santa Barbara and with the wealth of information they had gleaned from the speeches given on the convention floor in the Chamber of Commerce Building.

HERE — THERE — EVERYWHERE

Following up a resolution adopted by the State Legislature, the State Board of Control of Texas is taking steps to construct and operate a state-owned cement manufacturing plant. The State Prison Commission proposes that the plant be operated by convicts.

Master plumbers from Watsonville, Santa Cruz, Salinas, Pacific Grove, Monterey, Hollister and Gilroy, met in Hollister March 24 where a dinner meeting was held in the Pendergrass Hotel. A brief business meeting covering matters of interest to the trade was held before the dinner. Guests from San Francisco and Los Angeles were present.

The following were elected directors of the Napa Builders' Exchange, at the annual meeting held March 21: E. W. Doughty, Fred Jaekle, F. A. Pond, Andrew McNair, S. J. Cinnamond, S. H. Wyckoff, Lee Boggs, J. H. Vienop, William Noble, Wade Shiflett and Thos. Jessimen. Three delegates were elected to the state meeting to be held in Stockton late in April. They are Fred Jaekle, S. J. Cinnamond and Lee Boggs.

At the annual meeting of the Fresno Material Dealers' Association, March 21, directors of the organization elected L. L. Walker president and Elmer E. Lord vice president. L. J. Allen was re-elected secretary-treasurer. Frank I. Roberson was re-appointed assistant secretary in charge of field work. Walker served as vice president of the association last year and succeeded B. A. Newman as president. C. M. Wilson and Ben Maisler are members of the board of directors with Walker, Lord and Newman.

S. Lewis Land, in charge of the apprenticeship service department of the Plumbing and Heating Industries' Bureau, will spend most of April in the northwest territory. Land will confer with association leaders and educational executives on the employe training problem and work toward the establishment of classes in northwest centers. His itinerary follows: Eugene, Ore, Apr. 7; Corvallis, April 9; Salem, April 10-11; Portland, April 12-13; Tacoma, Wash., April 14-16; Olympia, April 17; Seattle, April 18-19; Spokane, April 20; Missoula, Mont., April 21; Butte, April 23-24; Great Falls, April 25; Helena, April 26-27; Billings, April 28.

Stockton Chapter, American Association of Engineers, held its annual banquet and installation of officers in the Blue and Gold Room of the Hotel Stockton March 24. Officers installed were J. B. Tyrrell, president; J. E. Lundy, vice president; Norman Powne, secretary-treasurer; O. C. Fursman, Lyle Payton, and Prof. C. L. White, directors. The latter, retiring president, presided until the new president had been inducted.

Jas. P. Jennings, newly elected chairman of the Pacific Coast Lumber Conference, is expected in San Francisco this week. Jennings will maintain headquarters in San Francisco but will be obliged to travel not only up and down the Pacific Coast but also the Atlantis slope. Jennings' chief duties will be to keep the lumber rates committee advised as to all conditions affecting the shipment of lumber. The rate-making committee will be composed of four members and the chairman will have no vote excepting in case of a tie. He will also act in an advisory capacity.

SAN FRANCISCO — Western Pacific Railroad Co., Mills Bldg., (and its subsidiary companies) during the present year will expend \$6,000,000 in betterments and extensions. Chief of the new construction items planned for 1928, is a line thirty-six miles long from near Willotta in Solano county to Petaluma, connecting at the later point with the Petaluma and Santa Rosa Electric Railroad. Connection at Willotta will be with the so-called "orphan" branch of the Sacramento Northern (Vaca Valley Line), owned by the Western Pacific. The company also will expend \$500,000 on the purchase of the Union Belt Line in Oakland. A one and one-quarter mile line to be built at Wells, Nevada, to make a connection with the Union Pacific's branch line leading to the Twin Falls, Idaho, district. This will cost \$160,000. The 1928 budget provides \$4,369,420 for improvements as follows: Bank widening bet. Oakland and Sacramento to cost \$160,000; laying new rails bet. Oakland and Stockton to cost \$610,000; rock ballasting bet. Oakland and Stockton, \$630,000; rock ballasting at points bet. Oroville and Portola, eighteen miles, \$125,000; new bridges and trestles, steel or concrete, six in Nevada and three in California, \$180,000; freight car rebuilding \$600,000; four latest type coach-dining cars, \$175,000; additional passing tracks and extensions chiefly bet. Oroville and Portola, \$310,000; added facilities at terminals, yards, depots, with new industrial tracks.

NEWMAN, Stanislaus Co., Cal.—Bids will be asked at once by city trustees to erect concrete bandstand in municipal park; will also provide for storage quarters and comfort station. Plans on file in office of city clerk.

PORTERVILLE, Tulare Co., Cal.—City will hold election shortly to secure sentiment of voters with regard to establishment of a civic center and the purchase of property required for same.

Contract Awarded.

BUSINESS OPPORTUNITIES

(Continued from Page 15)

12824—Clay Roofing Tile. Generac, France. Manufacturers of clay roofing tile seek representative for the Pacific Coast on commission or outright sale basis. Will manufacture any type of tile to suit requirements. All data in San Francisco. 12837—Lumber, Tientsin, China, Mercantile company seeks connections with San Francisco exporters of Pacific Coast lumber.

12845—Transparent Cloth for Engineering Plans. Transparent Paper for same purpose, Hellographic Paper, Pencils, Rules, Squares, and Similar Merchandise. Rosario, Argentina. Party wishes to get in touch with manufacturers of the above-mentioned lines with a view of representing such firms in Argentina.

D-2805—Light Weight Power Lawn Mower. Manufacturers are seeking representation in this territory for a light weight power lawn mower, guided by hand.

D-2807—Automobile Accessories and Automatic Traffic Signal. New Hampton, Iowa. Manufacturers of several automobile accessories and an automatic traffic signal, are desirous of obtaining the services of a manufacturers' agent to handle their products for the state of California. Their line consists of an adjustable automobile awning, a traffic cop turn-warning signal to be placed on the rear of an automobile, and a 5½-foot automatically operated traffic officer, made in imitation of a real officer.

GLASS SKYSCRAPERS VISIONED FOR THE FUTURE

American business and industrial buildings soon will be built almost entirely of glass, reinforced with steel, in the opinion of William L. Bailey, professor of sociology at Northwestern University.

"The skyscraper of the future will be almost one huge window," says Prof. Bailey. "With glass floors and glass ceilings. With the development of the therapeutic value of the ultra-violet ray, office and factory lighting will undergo a radical change. When thousands of workers are gathered in poorly lighted office buildings each day, it is little wonder that their efficiency is impaired and their dispositions soured."

WHAT IS CEMENT?

Bobby's father was a highway engineer. His teacher, failing to get a satisfactory answer from several in his class in defining of "cement," sought Bobby's assistance and received the following reply:

"Cement is the product obtained by finely pulverizing clinker produced by calcining to incipient fusion and intimate and properly proportioned mixture of argillaceous and calcareous materials with no addition subsequent to calcination except water and calcined or uncalcined gypsum."

PATENTS

Granted to Californians as reported by Munn & Co., Patent Attorneys

William Wesley Hicks, of San Francisco. **ELECTRIC HEATING DEVICE.** It is an object of this invention to provide a hot plate in which a heating surface of comparatively large extent is provided by the aid of corrugation of grooves, said corrugation or groove having roughened surfaces to enhance this effect.

Karl Johan Thorsby, of Oakland. **MACHINE FOR MAKING SPIRAL PIPE.** This invention relates to a machine for winding a strip or sheet of metal helically into tubular form, in the making of so-called spiral pipe. Mr. Thorsby assigns his patent to California Corrugated Culvert Company.

George C. Austin, of Los Angeles. **PISTON.** An object of this invention is to prevent such distortion and to maintain the cylindrical portions of the periphery in true form during engine operation. Mr. Austin assigns his patent to Samuel C. Carter (one-half).

Barton C. Bridgman, of San Francisco. **LIGHT DIFFUSING MEANS.** The object of this invention is to produce a reflector and illuminant combination of the character described in patent 1,659,764, that will effectively produce maximum diffusion of soft light with a minimum consumption of electric current.

Paul Moyer, of Los Angeles. **SECTIONAL CURB GUARD.** This provides an improved curb guard which is formed of short sections, and to provide an improved anchoring means for rigidly fastening or anchoring the sections to the sidewalk. Moyer assigns his patent to Paul Moyer Company.

Edwin Letts Oliver, of Oakland. **ROTARY FILTER.** This relates to a filter used for reducing the liquid contents of bodies of liquid containing solid particles which will not readily precipitate therefrom. Mr. Oliver assigns his patent to Oliver Continuous Filter Company.

PAINT AND VARNISH INDUSTRY TO CONVEVE AT DEL MONTE

The annual convention of the Western Zone of the National Paint, Oil & Varnish Association will be held at Del Monte June 20, 21 and 22. E. A. Bradley, president of the Bradley-Wise Paint Company of Los Angeles and regional vice-president of the western zone of the organization will act as general chairman of the committee in charge of the arrangements.

The gathering, which will be attended by leaders in the industry from every part of the United States, will be held under the auspices of the Los Angeles Paint, Oil and Varnish Club, which will act as host.

Hotel Del Monte has been chosen as the scene of the meeting, which will represent the seventh annual gathering of the western zone, embracing the entire Pacific Coast. One of the most elaborate programs scheduled for a coast conference is being prepared by committees under the chairmanship of Mr. Bradley.

Included in the committees are many prominently identified with the paint industry of Southern California, among them being F. M. Brininstool of the Brininstool Co., M. J. Phillips of the Western Paint Review, George Sillers, R. W. Lindley, E. J. Ellsworth, R. H. Oakley, E. P. McKeegan, J. A. Davis, H. A. Hendriksen, Fred Warner, Langdon Root, A. H. Sconberg, Will Knighton of the Technical Oil & Paint Co., and others.

Official Proposals

NOTICE TO BIDDERS

(Redwood Tank—San Mateo)

Notice is hereby given that sealed bids for proposals will be received by the City Council of the city of San Mateo up to **Monday, April 2nd, 1928, at eight (8) o'clock p. m.**, for the furnishing of all materials and the construction of a forty thousand (40,000) gallon water tank and sub-structure and to be located on the westerly one-half (½) of the foundation now occupied by the present tanks.

Bids are to include the removal of old tanks, and frame work which is to become the property of the city and to be filled within one hundred (100) feet of the site of the work.

Bidders are required to submit their own plans and specifications in complete detail.

Tanks and sub-structure to be constructed of first grade merchantable redwood timber only.

A six (6) inch outlet pipe from bottom of tank to the ground with a gate valve to be included in the work.

Gate valve to be connected to present pipe (3) inch main.

A certified check of ten (10) per cent of the bid must accompany same.

Payment for the work will be made within ten (10) days after the 1st of the month following completion and acceptance.

The City Council reserves the right to reject any or all bids.

By order of said council.

Dated: San Mateo, California, March 1, 1928.

E. W. FOSTER,

City Clerk and ex-Officio Clerk of the City Council of the City of San Mateo, California.

NOTICE TO CONTRACTORS

(Burbank School—Oakland)

Office of the Secretary of the Board of Education of the City of Oakland.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 10th day of April, 1928, at 10:45 A. M., at which time said bids will be opened for the erection and completion of the Burbank School Building, of the Oakland School District, to be erected on the northeast terminus of 64th Avenue Place northeast of Trenor Street. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

- (1) General Work.
- (2) Awning Type Window Fixtures and Hardware.
- (3) Slate Blackboards.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out by bidders on or before April 10th, 1928, shall be returned on or before April 11, 1928. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party

or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 10th day of April, 1928, at 10:45 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEWORTH,
Secretary of the Board of Education of the City of Oakland, California.

NOTICE TO CONTRACTORS

(Grading and Ditching—Butte County)

Notice is hereby given by the Board of Supervisors of Butte county, California, that sealed bids will be received by the clerk of the said board, at his office in the Court House, in the city of Oroville, California, up to **Friday, April 6, 1928, at the hour of 2:15 p. m.**, for grading and ditching three and one-half (¾) miles, on the Fradford road near Nelson.

Specifications for the said work are on file in the office of the said board, and also in the office of the County Road Engineer, to which bidders are hereby referred. Each bid shall be accompanied with a certified check, or cash, in the amount of at least ten per cent of the amount bid, as a guarantee that the bidder will enter into a contract to perform the work, in case he is awarded the contract.

The Board of Supervisors reserve the right to reject any or all bids.

By order of the Board of Supervisors of Butte County, California.

C. F. BELDING, Clerk.

NOTICE TO CONTRACTORS

(Dos Palos Joint High School District—Merced County)

Notice is hereby given by the Board of Trustees of the Dos Palos Joint Union High School District, that sealed bids will be received by the said Board of Trustees at the present High School Building located at the town of Dos Palos, County of Merced, State of California, up to 2 o'clock P. M., on the 21st day of April, 1928, at which time all bids will be publicly opened.

Said bids shall be for the furnishing of all labor and materials for the erection and completion of an Auditorium or assembly building, being a part of the present high school group and located adjacent to the present High School Buildings, according to plans and specifications prepared by W. J. Wright, Architect, employed by the Board.

Said building to be erected on the site of the present Dos Palos Joint Union High School Building being located at or near the town of Dos Palos, County of Merced, State of California.

All bids are to be for work according to said plans and specifications which may be obtained at the office of W. J. Wright in the Mail Building, Stockton, California, during the business hours.

Each bid must be accompanied by a certified check for ten (10%) per cent of the amount of his bid, made payable to George Christian, clerk of the Board of Trustees, on condition that the successful bidder shall enter into a contract in accordance with such bids, and file with said Board of Trustees, two approved bonds within six days after the acceptance of his bid, one of which

bonds shall be conditioned for the faithful fulfillment of the contract entered into and to be done thereunder, and one for the protection of all persons performing labor or furnishing materials for the construction of said building.

In case the contractor shall fail to execute the required contract, or to furnish bonds acceptable to the Board within the six (6) days; due notice having been given him, then shall the contractor forfeit all claims to the said deposit above mentioned and it shall become the property of the Dos Palos Joint Union High School District.

All bids must be submitted upon forms obtained from the Architect. Contractors will be required to make a deposit of Ten Dollars (\$10) for each set of plans and specifications taken from the office of the above mentioned Architect. Contractors will be allowed ten (10) days in which to figure the work. Should the contractor fail to return plans and specifications on or before the allotted time, he will forfeit this aforesaid deposit, and the Architect shall be at liberty to use said money to defray the expense of producing additional blue prints and specifications. However, should the contractor return the said plans and specifications in good order within the time above mentioned, then shall the Architect return the deposit to the contractor.

The Board reserves the right to reject any or all bids.

Dated 21st day of March, 1928.

By order of the Board of Trustees.

WM. E. MOORE, President.

GEORGE CHRISTIAN, Clerk.

HOMER BOWEN.

A. D. JOHN.

D. A. LEONARD.

NOTICE TO BIDDERS

(Grader—Lodi, Calif.)

The City Council of the City of Lodi will receive sealed proposals for the furnishing of a. b. cars at Lodi of one combined street grader, roller and scarifier in accordance with the specifications therefore now on file in the office of the City Clerk.

All proposals must be sealed and plainly marked "City Council of the City of Lodi, Bid on Grader" and must be accompanied by certified check or bid bond in the amount of 10% of the price bid. Said proposals must be delivered to the City Clerk in his office at the City Hall on or before the hour of 5 o'clock P. M. of Monday, April 16th, 1928, and they will be publicly opened immediately after 8 o'clock P. M. of the same day in the Council Chambers of the City Council.

Copies of the specifications may be had on application to the City Clerk. Successful bidder must allow in his proposal an amount equal to rental paid by the City for the roller now in use.

The City Council reserves the right to reject any and all bids.

By order of the City Council of the City of Lodi.

J. F. BLAKELY,
City Clerk.

NOTICE TO BIDDERS

Odd Fellows Lodge—Point Arena, Calif.

The Odd Fellows Lodge of Point Arena request bids for a two-story reinforced concrete building to be built at Point Arena. Plans and specifications may be had by calling at Union Garage, Point Arena. Bids are to be accompanied by a certified check for 10% of the bid, sealed and addressed to the Building Committee of Odd Fellows, Point Arena, Calif., % Clyde Harris.

The Board reserves the right to reject any and all bids.

All bids to be opened April 10, 1928.

ODD FELLOWS LODGE,
Point Arena, Calif.

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS
NOTICE TO CONTRACTORS

SEALED PROPOSALS WILL BE RECEIVED AT THE OFFICE OF THE STATE HIGHWAY ENGINEER, Highway Building, Sacramento, California, until 2 o'clock p. m., on April 18, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications attached thereto, to which special reference is made of portions of State Highway, as follows:

Del Norte County, between Klamath River and Wilson Creek (D-D-N-1-A), about seven and three-tenths (7.3) miles in length to be graded and surfaced with crushed gravel or stone, and four (4) timber bridges to be constructed.

Del Norte County, between Smith River and the Oregon line (D-D-N-1-C-D-E), about thirty-five and three-tenths (35.3) miles in length, to be surfaced with crushed gravel or stone and oiled.

Plumas County (D-E-Ph-29-A), two reinforced concrete girder bridges; one across Rock Creek about 1 1/2 miles west of Westwood consisting of two 20-foot spans, and the other across Bailey Creek about 7 1/2 miles west of Westwood, consisting of one 26-foot span and two 22-foot spans.

Monterey County, between the easterly boundary and Camphora (V-Mon-2-A, B and C) at intervals, about five (5.0) miles in length, to be surfaced with bituminous macadam.

Fresno and Madera Counties, a bridge across the San Joaquin River about 1 mile north of Herndon (VI-Fre-Mad-1-C & A), consisting of four 160-foot deck steel truss spans, two 80-foot deck plate girder spans and one 64-foot deck plate girder span on concrete piers with pile foundations.

Los Angeles County, between Arroyo Secuit and Los Alisos Creek (VII-L-A-60-A), about one and five-tenths (1.5) miles in length to be graded.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the District Office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the District Office.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

DEPARTMENT OF PUBLIC WORKS,
DIVISION OF HIGHWAYS,
C. H. PURCELL,
State Highway Engineer.
Dated March 21, 1928.

Co. and the bids are to be made on a blank form furnished by the H. A. H. Co.

H. A. H. CO. COMPANY

NOTICE FOR BIDS

(Steel, Redwood and Concrete Pipe—Oroville-Wyandotte Irrigation District).

Sealed bids will be received by the Board of Directors of the Oroville-Wyandotte Irrigation District at the office of the Board, Oroville, California, until 10 o'clock A. M., April 4th, 1928, for furnishing 2075 lined feet of 16" Armocon riveted ship joint pipe and fittings or machine banded Redwood Pipe. Also 2184 lined feet of 16" concrete Pressure Pipe.

Also pipe laying, trenching, backfilling, etc.

Contract will be let to the lowest responsible bidder. Plans and specifications can be seen at the office of the Board, Oroville, California.

Contractor proposing to furnish wood pipe will be required to furnish specifications covering work proposed to be done.

W. J. MONRO,
Secretary, Oroville-Wyandotte Irrigation District.

NOTICE TO CONTRACTORS

(Machine Shop—Monterey County)

Office of the Clerk of the Board of Supervisors of Monterey County, March 20, 1928.

Sealed bids will be received by the Clerk of the Board of Supervisors of Monterey County at his office, until two o'clock P. M., April 17th, 1928, for the construction of a machine shop for the County of Monterey.

Plans and specifications, strain-sheets and working details therefor, for this work are on file in the office of the said Board, to which bidders are hereby referred.

T. P. JOY,
Clerk of the Board of Supervisors of the County of Monterey.

37

NOTICE TO CONTRACTORS

(East Bay Municipal Utility District)

Sealed proposals will be received at the office of the East Bay Municipal Utility District, 1924 Broadway, Bay Building, Oakland, California, until 7:30 o'clock P. M., Friday, April 20th, 1928, for furnishing materials for and constructing the Sequoia and Wildcat Aqueducts, Mokelumne River Project. Specifications may be obtained by application to the office of the District.

JOHN H. KIMBALL,
Secretary.
Oakland, Calif., March 3rd, 1928.

NOTICE TO BIDDERS

(Voting Booths and Ballot Boxes—Reno Nevada)

Pursuant to an order of the Board of County Commissioners of Washoe County, State of Nevada, made and entered on the 5th day of March, 1928, sealed bids and proposals will be received by the undersigned at the office of the County Clerk of Washoe County, in the City of Reno, County of Washoe, State of Nevada, not later than ten o'clock A. M., Wednesday, April 11, 1928, for the following, to wit:

Seventy-two (72) folding voting booths, twelve sections.

Also twelve large size ballot boxes. The said Board of County Commissioners reserves the right to reject any or all bids and to accept the bid best suited to the needs of Washoe County.

E. H. BEEMER,
Clerk of Board of County Commissioners

NOTICE TO BIDDERS

(Castro Valley School District—Alameda County)

Notice is hereby given that the Board of Trustees of the Castro Valley School District of Alameda County hereby calls for sealed proposals to be delivered to the clerk of said Board at the office of said Board located in the Castro Valley School Building, Castro Valley, California, until the 14th day of April 1928, at 8 o'clock P. M., at which time and place bids will be opened for the furnishing of all labor, materials and mechanical workmanship to be used and employed in the construction of a new addition and alterations to the present school building of the Castro Valley School Dis-

trict of Alameda County, located at Castro Valley, California.

These bids shall be presented in accordance with the plans and specifications on file at the office of the Board located as hereinabove described, where copies of said plans and specifications may be obtained upon a deposit of Twenty Dollars. If the plans and specifications are not returned to said Board within seven days after the same have been obtained, or are returned in a mutilated or damaged condition, the said deposit shall be retained by the said School District as agreed and liquidated damages for said mutilation or detention, and will be immediately used for the purchase of a new set of blue prints and specifications.

Proposals shall be made upon forms which may be obtained from the Clerk of said Board at the office of the Board located as hereinabove described.

Each bid must be signed by the bidder and accompanied by a certified check for at least ten (10%) per cent of the amount of the bid, certified to by some responsible bank or banker, and made payable to Castro Valley School District of Alameda County, to be retained by said Castro Valley School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give the bonds required by said specifications.

Each bidder shall bid for the completion of the general conditions, and may bid or any or all of the alterations set forth in the bid. The Board reserves the right to reject any and all bids, or any or all items of such bids.

JOHN T. STANTON,
Clerk of the Board of Trustees of the Castro Valley School District of Alameda County, California.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

LIEN LAW REVISION IS URGED AT PLUMBERS' MEETING

Abrogation or revision of the California material lien law was demanded at a recent meeting of the Bay Counties' Conference of Master Plumbers' Associations. W. H. George, president of the San Francisco Builders' Exchange, urged the associations to work for repeal of this act, to insist on the jobbers enforcing proper credit regulations and use the buying power of reputable plumbers to correct present business evils. Mr. George told of the plan of the Pasadena Exchange, which would require that the complete financial statement and history of each project be posted with the

intention to build. He expressed the opinion that this would not correct the situation and urged the complete abrogation of the law.

George Y. Morton, San Francisco, stated that the plumber was particularly interested in getting rid of the indirect lien claims now existing and is not opposed to the direct lien right of the contractor. He suggested that whichever plan meets with the approval of the greatest number of crafts be backed at the next legislature, as present conditions demand some definite action.

R. W. Timmons, chairman of the lien law committee, endorsed the movement for revision or repeal of the state law.

W. H. Graham of Oakland, told of the national committee working under direction of Secretary Herbert Hoover, to establish a lien law under which each building contract would become a trust fund, and withdrawal of funds for any purpose other than paying bills for that job becomes an embezzlement.

MEYERS SAFETY SWITCH COMPANY TO MOVE TO NEW QUARTERS

The Meyers Safety Switch Co., 419 Tehama street, San Francisco, manufacturers of switchboards, externally operated switches and panel Board pertaining to all types of electrical installations, have now under construction a new two-story factory building adjoining their present plant, and will be completed May 1.

The steady growth of this concern and the increasing demand for their products has necessitated enlarged factory working space. In the new factory there will be installed the latest and most modern equipment for the carrying on of this type of work. The former plant will be used for the warehousing of raw materials, finished products and light assembling.

Larsen Construction Reports

Issued every business day of the year. Furnishes advance information on work projected and contracts awarded for all classes of building, street, sewer and highway projects, bridges, dams and harbor works, machinery, etc. Send for rates in your territory, advising class of work in which you are interested.

SEEK TO BAR FOREIGN PRODUCTS
IN PUBLIC CONSTRUCTION

An attempt has been made to insert a clause in the proposed public contract act of 1928, that, in effect, would limit importation of cement and other foreign commodities for use in public construction, according to the Washington, D. C., correspondent for Engineering News-Record, New York. It has become apparent that the cement interests have transferred their efforts to Congress, where a bill has been introduced by Representative Wood, of Indiana, directing purchasing agents to require bidders to specify under each bid the exclusive use of either foreign or domestic material.

It is this procedure that the Associated General Contractors regards as dangerous. The association favors home materials but believes that protection should come through the Tariff Commission. A brief prepared by the Associated General Contractors says: "From the viewpoint of construction, the proposed clause establishes an unfair and discriminatory advantage, which the cement industry has little right to ask. For the purpose of eliminating merely a small amount of foreign competition, it is asking that a detailed procedure be followed, which creates a new difficulty in general contracting and furthermore one in many cases which cannot be compelled with. Should this provision be adopted, it will apply not only to cement but to hundreds of other materials. Numerous foreign products, including chemicals, stone, glass, marble, bronze and other items, find their way into this country and move forward without identity as to origin through successive stages of production, until they finally reach the contractor who bids upon the government project. To ask the contractor to trace out the origin of these things, were it possible even, is carrying out the idea of preference for American materials to an impractical degree."

NEW YORK AND BUFFALO RENT LAWS END ON MAY 31

Expressing the belief the shortage in housing in New York City and Buffalo has disappeared, the State Board of Housing Emergency Rent Laws has made a report to the Legislature in which it recommends that such laws be permitted to lapse automatically on May 31.

Further relief to tenants, however, is urged by the board in a recommendation for the permanent adoption of the six months' discretionary stay provision of the present law, which, it finds, would prevent any undue hardship to protected tenants by removal of the rent laws.

"The emergency rent laws," the report says, "were enacted in 1920 to meet a serious condition of overcrowding and congestion among tenants which grew out of an acute post-war housing shortage. These laws at present apply to dwellings on which the rent, on Dec. 31, 1926, was not more than \$15 per room in New York City, and not more than \$7 a room in Buffalo. The basis for the board's opinion that the emergency does not now exist is because it finds an increase of 36 per cent in vacant apartments in New York City over last year; an increase in available apartments from 286 to 1000 population in 1926 to 301 per 1000 in 1928; an increase in turnover among tenants and a decrease in crowding."

STOCKTON BUILDERS' EXCHANGE ADOPTS WAGE SCHEDULE

A uniform wage schedule for the building industry of California was set and adopted by the Stockton Builders' Exchange April 2, in a monthly meeting. This is a matter that will be considered by a convention of builders' exchanges of the state, to be held April 26 and 27 in Stockton.

The following scale has been adopted, effective immediately:

Bricklayers	\$12.00
Brick Hodcarriers	7.00
Carpenters	9.00
Concrete and Cement Workers.....	7.00
Cement Finishers	9.00
Electricians	9.00
(Time and a half all overtime).	
Hardwood Floormen	9.10
Plasterers	12.00
Plasterer Hodcarriers	8.00
Plumbers	9.00
Painters	8.50
Roofers	8.00
Sheet Metal	9.00
Tile Setters	10.00
Common Laborers	4.00

MILLS

Bench Hands	8.00
Band-Saw, Shaper, Turner Men.....	7.50
General Machine Men.....	7.50
Stick Men	7.50

(5½ day week.)

HIGHWAY CONTRACTORS SUE STATE FOR \$100,000

D. A. Foley & Co., road builders, has filed suit for \$100,000 damages against the State of California alleging it was damaged to that extent when the State restricted it to the southern end of Belle Air Island in the obtaining of materials to build the five-mile stretch of Bayshore highway from San Francisco county line to Broadway station, San Mateo. The company said it was compelled, through the restriction, to blast the hard rock formation and to buy expensive machinery, being unable to use its steam shovels.

FURNACE AND FUEL OIL SPECIFICATIONS ARE ADOPTED

Uniform specifications for the guidance of oil and burner manufacturers and dealers are announced by the American Oil Burner Association. The specifications are the result of research, tests, correspondence and conferences carried on over two years. The American Petroleum Institute and the American Society of Testing Materials co-operated in the work, and the specifications adopted have received practically unanimous approval by the members of the American Oil Burner Association.

In announcing these specifications, Harry F. Tapp, Technologist of the American Oil Burner Association, points out that one of the greatest variables in installations has been non-uniformity of oil. This probably has been more responsible for lack of satisfactory operation than any other one cause. Burner manufacturers found it difficult to explain just what oil they wanted, and oil refiners were in doubt as to the needs of the manufacturer of burners. The oils used have been generally satisfactory and trouble has been due, in the main, to occasional variations.

The first step in solving this problem was the appointment by the American Oil Burner Association of a committee which made a survey with the co-operation of the American Petroleum Institute. Committee D2 of the American Society of Testing Materials was also asked to make a tentative specification form. Specifications of nearly one hundred oils were examined and tabulated, including almost every type of oil on the market and representing almost every locality. Tentative results were submitted to the oil burner and fuel manufacturers and to the Underwriters' Laboratories, and the criticisms received proved useful in determining the final specifications.

The specifications apply to six types of oil, including light, medium and heavy grades of furnace oil used in domestic heating, and light, medium and heavy grades of fuel oil for industrial use. The requirements cover flash point, amount of water and sediment, distillation range, and viscosity.

CALIFORNIA BRANCH OF A. G. C. PERFECTED AT SANTA BARBARA

To bring California builders into closer relationship, a group of twenty-five leading contractors of the state met March 21 in Biltmore hotel at Santa Barbara and perfected organization of the California branch of the Associated General Contractors of America.

C. E. Bressler of Santa Ana was elected president and E. Paul Ford of San Diego was chosen vice-president.

D. H. McQuiddy, president of the Santa Barbara branch, was elected secretary and treasurer of the state organization.

McQuiddy and Roy L. Richardson, secretary of the Santa Barbara branch, will be the Santa Barbara representatives on the state board of directors.

On the evening of April 1 the Santa Barbara chapter of the organization held a dinner in Margaret Baylor Inn to hear W. R. Richards of Washington, D. C., in charge of the national safety campaign, discuss work he is doing.

TRADE UNIONS MAKE EFFORTS TO ADJUST UNEMPLOYMENT AND TO AID IDLE MEMBERS - MEMBERSHIP LIMITED

Federal unions are making efforts to meet the problem of unemployment among their members, according to a statement just made public by the Bureau of Labor Statistics of the Department of Labor, based upon a recent survey of the unemployment situation.

The trade unions seek to do this, it is stated, by limiting their membership, by insisting upon the equal division of work among the regular workers, and by helping the worker who has lost his job to find another. Several labor organizations of national scope are said to maintain either a regular employment office or an information service, and practically all locals regard the finding of jobs for members as part of their regular duties.

Three national organizations, it is said, pay unemployment benefits, and many others suspend payment of dues while a member is out of work. A summary of the survey entitled "American Trade Unions and the Problem of Unemployment" follows in full text:

Unemployment Always Before Organizations

The problem of unemployment is one with which labor organizations are continually confronted, in varying degree. In well-organized trades where the flow of work is more or less even, unemployment may be a very minor factor. In seasonal industries, however, especially in trades or industries where the average labor force exceeds the average supply of work, the matter is one for serious consideration. The mining industry and the clothing trades are well-known examples of the latter situation.

Measures which may be taken to solve the problem are (1) those tending to prevent the occurrence of unemployment, and (2) those taken to alleviate effects of unemployment when it occurs.

As to the prevention of unemployment, labor organizations are handicapped by the fact that unemployment is largely the result of conditions quite outside the control of the workers. They have, however, tackled the problem as best they could by various means, largely from the point of view that the supply of work is a fixed amount. They have endeavored therefore, to conserve and "stretch" this work supply in some or all of the following ways: By limiting the numbers among whom the work must be divided (i. e., by limiting the number of new members admitted to membership in the union and by limiting the number of apprentices); by insisting on the principle of the "worker's right to his job" and requiring an indemnity in case of dismissal; by demanding the "rationing" of the work available among the full working force, instead of permitting the dismissal of unneeded workers and allowing the remainder to work full time; by limiting or prohibiting the working of overtime.

Union Locates Job

When, nevertheless, a union member finds himself out of a job he can rely upon his union to do its best to find him another. Few international unions maintain regular employment offices, but there is hardly a local which does not have some person in touch with conditions and opportunities in the trade. In some cases also a regular office is maintained whose sole business it is to find work for its jobless members. Many unions, indeed, specify in their agreements with the employers that the latter must apply to the union for men to fill any labor requirements.

For persons out of employment through no fault of their own organiza-

tions make provisions in several ways, such as payment of out-of-work benefits, loans, or "relief." Only three international unions are known to be paying unemployment benefits at present, though a great many have done so at one time or another and many local unions still pay such benefits. A great many unions exempt jobless members from the payment of dues during the period of idleness, the sum so "excused" amounting to many thousands of dollars a year. Loans to needy unemployed members are made by at least two national labor organizations.

Notwithstanding the apparently slight assistance given by trade unions to their members, organized workers who are out of a job have an advantage of non-unionists in a similar situation, for, as one investigator put it "there is scarcely an American local union which does not in some form or other contribute toward the support of its unemployed members when they are in need of assistance."

Establish Insurance

The unions in some industries especially subject to the evil of unemployment have realized their inability to cope with the situation alone and have succeeded in obtaining, by collective bargaining with the employers, an unemployment insurance system, with the idea, first, of making the industry responsible for the unemployment of the regular workers within it, and second, of providing employers with an incentive for stabilizing the employment in their plants.

Plans providing either for unemployment insurance or a guaranteed period of employment have been tried in one or more markets of the women's garment industry, the men's clothing industry, the cloth hat and cap industry, the felt-hat industry, and the wall-paper industry. Only a few such plans are now in operation, but where such schemes have been suspended this has not been because of dissatisfaction with the plan but because of factional difficulties within the union. The consensus as regards these plans appear to be that while unemployment insurance has not resulted in decreasing unemployment, it has been of incalculable benefit in alleviating the distress attendant upon it.

ENGINEERS' REGISTRATION ASSOCIATION NOW ORGANIZED

At the meeting of engineers on Engineers' Day at the Los Angeles Road and Equipment Exposition, registration of engineers was unanimously endorsed and a publicity organization formed to be called the "California Engineers' Registration Association". The following officers were elected: president, Donald M. Baker; vice-presidents, Frank H. Olmsted, Philip Schuyler, Walter R. Fleming, and E. Earl Glass; secretary-treasurer, Pecos H. Calahan. A number of additional vice-presidents are to be named in order that the State may be well represented geographically. Practically every engineer present signed the roster, and more than \$90 was subscribed, mostly in one-dollar donations, toward defraying the expenses incident to publicity. Engineers in favor of state registration of engineers are welcome to join the association, merely by sending his name and address to Pecos H. Calahan, secretary-treasurer, 366 West 12th street, Los Angeles, together with a one-dollar bill.

CEMENT IMPORTS GAIN-BELGIUM IS LEADING SHIPPER

Imports of cement during February, 1928, were greater than last year by 29,219 barrels or 19 per cent. On the basis of value a 5 per cent increase is shown, \$211,814 this year compared with \$200,680 in February, 1927. These figures are preliminary reports of the Department of Commerce. The greater portion of imports were from Belgium, which supplied 61 per cent in 1928 and 64 per cent in 1927.

During the first two months the total imports for 1928 were 394,393 barrels and last year there were 323,596 barrels, with the value of \$554,611 and \$470,341 respectively.

Exports during January and February, 1928, amounted to 119,228 barrels valued at \$426,495—a quantitative decrease of 19 per cent from 146,759 barrels valued at \$488,507 exported during the corresponding period last year.

CONFERENCE ON COATED ABRASIVE PRODUCTS ANNOUNCED

A general conference of consumers, technical experts, distributors, and manufacturers interested in coated abrasive products will be held at the Department of Commerce, Washington, D. C., April 11, 1928, to consider drafting a simplified practice recommendation for this commodity, according to the Division of Simplified Practice. For a number of years the quantity of sizes and varieties of abrasive paper and cloth has been increasing at a rapid rate. At present there are many thousands of varieties being carried and catalogued by the industry. It has been estimated that the annual output of the industry amounts to more than \$16,000,000. The Abrasive Paper and Cloth Manufacturers Exchange has submitted a tentative proposal for eliminating the superfluous and seldom-called-for sizes and varieties of coated abrasive products, with the request that the Division of Simplified Practice call a general conference of all interests to consider the adoption of a simplified practice recommendation.

COURT UPHOLDS COLORADO HOME PRODUCTS LAW

A Denver contractor, Peter F. Bossie, who sued for an injunction restraining the mayor of Denver from signing a contract to erect a city and county building, the specifications of which called for foreign marble, stones, etc., won his case through all the lower courts, and on March 19 the state Superior Court ordered that the specifications be rewritten to specify Colorado stone and marble. The intent of the law is that for any state work, including buildings, roads, etc., done in Colorado, the material used must be a Colorado product if it is suitable and the price is not more than 5 per cent above the cost of a foreign article.

100-FOOT WIDE STATE HIGHWAY URGED BY ROAD CHIEF

Minimum right of way for arterial roads should be 100 instead of 80 feet, B. B. Meek, director of the department of public works told state highway engineers assembled in Sacramento, to meet C. H. Purcell, newly appointed state highway engineer. Meek stressed the necessity of anticipating development along such roads so that the necessary rights of way for future expansion of the highway could be obtained either through set-back lines or the actual acquisition of rights of way in such places. The director drew a sharp distinction between methods that should prevail in locating scenic and recreational roads as contrasted with commercial roads.

CONSTRUCTION COSTS ARE SLIGHTLY HIGHER THAN YEAR AGO—SAYS A. G. C.

Construction costs are slightly higher than they were one year ago, according to statistics just compiled by the Associated General Contractors of America. Virtually no change has been recorded since November. This is the first time in two years that a single level has been held throughout three consecutive months.

The average of construction costs now most exactly doubles the average recorded for 1913. A scale which places the 1913 average at 100 as its basis shows the February mark to have been 199. The average level recorded for 1927 was 200, while the corresponding figure for 1926 was 197.

Only two changes in the average of wages paid in the construction industry have been registered since September, 1926. The most recent of these changes, recorded two months ago, was a slight decline that had no effect upon the general cost average.

The average of prices paid for basic construction materials has not shown an

increase since last September, while declines have been registered in October, November and December. The present year not yet has witnessed a change in this average.

With the average of wages remaining virtually unchanged during many months, the trend of construction costs in general has largely been governed by the prices of construction materials. These prices, in turn have shown distinctly different trends in each of the three most recent years. In 1925 the opening months found prices at a high level, with decreases being noted in April, May, August and September. In 1926 the opening of the year found prices at the same level indicated for January of this year, with decreases in March, May, August and October more than offsetting increases in February and November. A general tendency toward higher levels was shown by material during 1927, strong increases in January, February, March and September overcoming the effects of declines in May, June, October, November and December.

CONSTRUCTION COSTS

ENGINEERING SOCIETIES EMPLOYMENT SERVICE

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 715, 57 Post Street, San Francisco, (Phone Sutter 1684).

K-43-X-4472-CS FACTORY SUPERINTENDENT, over 35, with practical experience in manufacture of paint, varnish, lacquers, etc. Apply by letter. Salary \$4000-\$5000 a year. Location Middlewest.

K-51-X-4530-CS SALES ENGINEERS, with backgrounds of five to ten years preferably along combustion engineering and power plant lines, supplemented with some general or sales executive experience, have exceptional opportunity to enter business for themselves as sales agents or franchise holders for prominent pioneer oil burner manufacturer making an unusual product and giving remarkable co-operation. Franchise available in cities of 10,000 upward, requiring capital of \$3000-\$35,000, offering nearly parallel business possibilities existing the automotive industry about 1911. Apply by letter. Hdqtrs. N. Y. C.

R-1563-S SALES ENGINEER, 30-35 yrs. preferably experienced locally, selling reinforcing steel but will consider other selling exper. if record is good. Must know how to estimate steel. Apply by letter with record and photo. Salary open. Location San Francisco.

R-1552-S SALES ENGINEER, preferably technical graduate, about 35 yrs old with sales and construction experience to estimate and detail structural steel and ornamental iron work for fabricating shop. Some travelling. Apply by letter with references and photo. Salary about \$250 to start. Location Midwest.

K-48-X-4532-CS TOPOGRAPHIC DRAFTSMEN, for transit work in connection with farm development, topographic surveying, etc. in the tropics. Salary \$225 month. Single men only. Headquarters East. Apply by letter.

R-1538-S GRADUATE CHEMIST, young man who has had experience if possible in connection with colors and pigments for control laboratory; \$125-150 a month to start. Permanent. Location Alameda County.

SECOND DRAFT OF REVISED UNIFORM MECHANICS' LIEN ACT COMPLETED BY HOOVER COMMITTEE

Announcement is made by the Department of Commerce that the committee appointed some time ago by Secretary Herbert Hoover to study the Mechanics' Lien Laws of the various states for the purpose of determining whether the subject is susceptible of uniform legislation has completed the second tentative draft of a uniform act.

Mechanics' lien acts are in force in all states of the union. They are for the purpose of protecting the claims of contractors, sub-contractors, materialmen, laborers, and others who contribute to an improvement by constituting the property improved a security for their claims while at the same time protecting the owner from payment of claims which, as to him, would be unjust. Complaints have been made that some existing laws are inequitable and that lack of uniformity causes unnecessary expense and inconvenience to those who do an interstate business and to laborers who move from state to state. At the request of various groups this advisory committee was appointed.

The committee is composed of representatives of the principal groups en-

gaged in the construction industry. The National Conference of Commissioners on Uniform State Laws, which is interested in all questions of uniform state legislation and which is composed of officially appointed delegates from each state also has a committee studying this subject and working in close co-operation with the department committee.

The first tentative draft of a Uniform Mechanics' Lien Act was published in the fall of 1926 and distributed to individuals and organizations known to be interested in the subject, soliciting their suggestions and criticisms. A considerable response resulted from this solicitation and in the light of these suggestions which have been carefully analyzed by the committee, the second tentative draft has been prepared.

The new draft is also to be printed and distributed for criticism. The pamphlet will be ready within the next few weeks and will be available at ten cents per copy. Anyone desiring copies may obtain them by addressing Dan H. Wheeler, secretary, Standard State Mechanics' Lien Act Committee, Department of Commerce, Washington, D. C.

PATENTS

Granted to Californians as reported by Munn & Co., Patent Attorneys

Norman F. Stevens, of Los Angeles, LIGHTING FIXTURES. One of the specific objects of this invention is to provide a novel lighting fixture in which the parts are arranged for economical manufacturing.

Fred Hotchner, of Los Angeles, FLASHING AND REGULATING APPARATUS FOR DISCHARGE TUBE DISPLAY. This invention relates to electric displays of the discharge tube type made into electric signs, building ornamentation, stage effects, etc.

Charles A. Carlson, of Long Beach, GAS ANCHOR. This provides a gas anchor in which a separating chamber is in full communication at its upper end with the exterior of the gas anchor.

Nathaniel A. Yuille, of San Francisco, DREDGE PIPE LINE. This invention relates to pipe lines as used in connection with suction dredges, and through which pipe lines, sand mud earth, and small rocks dug up by the cutter are discharged by means of the usual suction mud pump.

THE OBSERVER

**What He Hears
and Sees
On His Rounds**

An interpretation of the term "responsible bidder" has been requested of the Comptroller General by the Secretary of the Treasury. Removal of the growing uncertainty on the part of awarding officials is particularly desirable at this time when the government is embarking upon a large building program. In cases where low bids were not accepted, awarding officials frequently have been subject to such unpleasant criticism that the tendency has been to be lenient with low bidders in the matter of their ability to carry out the contract. In addition, there has been a tendency on the part of the Comptroller to question awards which do not go to the low bidder. As a result the number of defaulted and improperly performed contracts has increased. The Associated General Contractors recently brought together 21 legal decisions which indicate clearly that the courts regard it as the duty of public officials to make awards only to those who are competent to perform their contracts. One of the main questions from the point of view of Treasury officials is whether every bidder is responsible if he can supply a proper surety bond.

General construction costs are the same as they were a month ago, but general building costs are .425 per cent lower, according to the index numbers of the American Appraisal Co. This holds for three main types—frame, brick with wood frame, and reinforced concrete. The decline is due to lower lumber and labor costs.

In general this is true for all sections of the country. The only departure is that it costs a little more than last month to provide reinforced concrete buildings in the Pittsburgh district, the Central West, and on the Pacific Coast.

Material prices have changed negligibly in the last month. The average prices of the chief materials that go into the construction of the four types mentioned are given below for January and February. The drop of $\frac{1}{2}$ in labor amounts to .45 per cent.

	Jan.	Feb.
Lumber	\$50.94	\$50.94
Brick	14.62	14.60
Cement	2.20	2.21
Steel, Pittsburgh	1.85	1.85
Common labor	0.55	0.54%

Endorsement of the five-day week as a means of relieving unemployment throughout the United States was given by Wm. J. McSorley, president of the Building Trades Department of the American Federation of Labor, at a meeting in the Hotel Whitcomb, San Francisco, attended by thirty federation officials, who are investigating the unemployment situation, particularly on the Pacific Coast. The unemployment problem is more serious on the Pacific Coast than in the East, according to McSorley.

Secretary of Labor Davis makes the statement that there is always a million men out of work, some because they cannot get any, and many who do not want to work. The latter, he says, are the men who complain the most about not being able to get a job.

All of the big buildings in down-town Chicago are affected by the strike of the union window washers. They are demanding exclusive rights to wash at \$10.00 month pay and a 41-hour week. The Building Managers are opposing recognition of the union.

The California legislature, meeting next January, will be asked to take steps to acquire all toll bridges and toll roads in the state, under a plan formed by Senator Roy C. Fellom of San Francisco. Fellom plans first an immediate investigation of the toll bridge situation, the findings of which will be embodied in a report he will submit to his fellow legislators. The investigation will be carried on under the terms of the Fellom act appropriating \$5,000 for costs. Examination into structural and operating costs of the Carquinez and other toll bridges in the state and an estimate of revenues will be included in the scope of the investigation.

Following trial runs, the Folsom Prison rock crushing plant in Sacramento county has started permanent operations and will be employed in turning out surfacing material for state highways. The plant, costing about \$10,000, was installed by the State Department of Public Works and will be paid for out of profits accruing from the sale of rock. About 150 convicts will be given employment in the plant and this, in a measure, is expected to have a remedial effect on conditions arising from lack of employment there. The rock will in no case be sold for private enterprises, as it is the desire of the state to refrain from competition with private business.

While final estimates are not available a 10 per cent increase in the Portland cement business is reported for 1927 over 1926. About 170,000,000 barrels of Portland cement were sold during 1927 as against 161,781,000 barrels for 1926 according to information received from the Portland Cement Association.

Will J. French, Director of the Department of Industrial Relations, State of California, announces that the tentative spray coating safety orders on which hearings were conducted during the latter part of last year, are again before the Industrial Accident Commission for consideration. It will be recalled that the tentative orders as originally written were considered by many as being objectionable and confiscatory throughout, and the apparent purpose was interpreted as an effort to legislate the paint spray out of use. It is anticipated that the new Industrial Accident Commission of which Mr. French is the chairman, will go into this matter thoroughly and equitably, and it may be necessary to refer the entire subject to new committees from the several industries affected, for further public hearings.

A conference on lumber standards and trade and grade marking will be held by the Department of Commerce, Washington, D. C., May 3 and 4, following which the National Committee on Wood Utilization will meet May 4 and 5.

The Terrazzo helper wages in Chicago have been increased from \$1.02 $\frac{1}{2}$ to \$1.07 $\frac{1}{2}$ an hour. The agreement runs to April 1, 1930.

The American Committee of the World Engineering Congress, appointed by Herbert Hoover, honorary chairman, will meet in Washington on March 22nd to formulate plans for the participation of American engineers in the Congress, which will be held for the first time in Tokio in 1929.

The Associated General Contractors of America object to the term "lowest responsible bidder" on government work. U. S. Controller McCarl says it means any contractor who can furnish a surety bond. The A. G. C. say there are many other qualifications necessary.

J. J. Backus, city building inspector of Los Angeles, reports the issuance of 327 building permits in March for improvements involving an expenditure of \$9,701,942 as compared with 2576 permits for the corresponding period in 1927 when the total registered \$11,111,777. The operations for the first three months of the year totals 8792 permits for work costing \$25,159,361 as compared with 8912 permits for the same period in 1927 when the total was \$26,815,877.

The city commission of Miami, Florida recently passed a resolution providing that hereafter no contract involving public improvements in the city of Miami shall be made unless said contract shall specify the use of American made products whenever it is found to be in competition with foreign material. The resolution specifically mentioned portland cement.

Business was good in California last month, judging from the number of new corporations that were granted charters by Secretary of State Frank C. Jordan. For the month, 525 articles of incorporation were filed, which equals the record high mark of March, 1924. The receipts for the month were \$43,738 as compared with \$33,288 for February.

Lumber companies owning timber land in Yosemite national park have suspended operations pending the outcome of the controversy regarding the acquisition by the government of their property. W. B. Lewis, superintendent of the park in telling of suspension of operations by lumber companies, also said that assurance had been given that not another tree will be cut on private lands this year.

Contractors of Vancouver, B. C., at a recent meeting vigorously opposed an architects' bill, which they claim would force 85 to 90 per cent of all plans prepared in Greater Vancouver to go through the hands of an architect. At present the regulation is that architects must be called in for all buildings to cost over \$10,000. Under the new proposal any person erecting a building for anyone else must secure the services of an architect. The contractors state that the proposed change would mean a great inconvenience to builders in country districts who could not proceed to erect a small building without calling in an architect from a distance.

Department of Commerce, Division of Simplified Practice, has issued a pamphlet, Commercial Standard N.1-New Billet-Steel Concrete Reinforcement Bars. Copies may be obtained from Supt. of Documents, Government Printing Office, Washington, D. C., for 5 cents each.

Lumber production, shipments and orders during the week ended March 24, surpassed all previous records for this year, reports from 720 mills to the National Lumber Manufacturers show. Production increased about 15,000,000 feet over the 311,000,000 feet of the previous week, while orders reached the unprecedented total of 359,689,000 feet.

TRADE NOTES

Star Lumber Co. of Oakland, capitalized for \$50,000, has been incorporated. Directors are: W. E. Bruce of Stockton, E. Dalton of Oakland and G. N. Whiteide of San Francisco.

Santa Clara Mill & Supply Co. announces change of firm name to Garden Mill & Supply Co., Frank Garden, manager of the company. Headquarters are maintained at Santa Clara.

Consolidated Foundries of San Francisco, capitalized for \$2,000,000, has been incorporated. Directors are Arnold and F. A. Haase, W. V. Lauten, J. E. Long and G. J. Panario.

Associated Lumber Co., conducting yards at Davis, Woodland, Dixon, Auburn, Loomis and Newcastle, has taken over the business of the Central California Building and Loan Association and will operate that business independent of the lumber business.

F. A. Sieke, Jr., has opened an electrical supply store at 1010 Tenth St., Sacramento, and will carry a complete line of electrical appliances and radio accessories.

Taylor Hardware Co. of Santa Barbara has been sold to Irving Newton and John Lindberg by George C. Taylor. The business was established eight years ago. Taylor will enter new lines of business.

National Lighting Fixture and Supply Co., of San Francisco, capitalized for \$50,000, has been incorporated. Directors are: A. H. Felchlin, R. A. Ryan and A. L. Fournier.

Bent Concrete Pipe Co. of Los Angeles has leased 8.43 acres of waterfront land in East Oakland and will establish a plant for the manufacture of high pressure concrete pipe. The initial investment in plant, wharf, spur track, etc., will be \$75,000. The property leased is situated between the William Smith Lumber Co., Crowley shipyard, Southern Pacific tracks and the north arm of Oakland inner harbor.

Retirement of H. A. Rothgran as manager of the Fresno branch of the California Pottery Co. and the appointment of J. E. McDermott as his successor is announced. Rothgran has been connected with the company for the past six years and is said to be leaving to devote his time to his own personal interests. McDermott has been connected with the building trades of the Central California district for several years.

National Fire Proofing Co., Pittsburgh, Pa., announces that Sidney F. Heckert has been elected president. Mr. Heckert has been an architect in Pittsburgh for over forty years and has served as a member of the board of directors of the National Fire Proofing Company for a long time, becoming managing director last year. At the present time Mr. Heckert is also president of the Hollow Building Tile Association.

H. W. Johns-Manville Co. of California is reported to be planning an expansion program at the Pittsburg, Contra Costa County, plant involving an expenditure of \$4,000,000. The company's present holdings in Pittsburg is reported to be valued at \$1,250,000. Growing coastal and foreign trade warrants the increased facilities, according to reports. San Francisco offices of Johns-Manville declare "there is nothing definite yet."

ALONG THE LINE

Lawrence Keyser, 701 Parnassus avenue, San Francisco, has been granted a certificate to practice architecture in California by the State Board of Architecture, Northern District.

R. A. Watkins, city manager of Pittsburg, Calif., will represent that city at the mid-year conference of the California City Managers Association to be held in April 13 and 14 at Monterey.

Felix H. Spitzer, consulting structural engineer, formerly located at 251 Kearny street, has moved to room 414 Humboldt Bank Bldg., San Francisco. Phone Douglas 2908.

Harland P. Bartholomew, city planning expert, will be commissioned by the San Jose city council, to prepare a zoning map for the city. His contract will call for payment of \$6000 for this work.

Ben H. Milliken, 37, former superintendent of State Prison Road Camps, was found dead in his automobile near Walsh Station, eight miles east of Sacramento, April 1. A bullet wound was found in his head and one hand clutched a rifle.

A. M. Barton, engineer for the State Reclamation Board, has been named chief engineer of the American River Flood Control District and will gather engineering data for a flood control project to protect the district's territory. The district was created recently by Governor C. C. Young. An appropriation of \$25,000 was made to finance a study for the situation.

C. E. Crownover of Yakima, Wash., has been appointed by R. K. Tiffany, Washington state hydraulic supervisor, to inspect dams impounding storage water in the state. State Supervisor Tiffany states that 15 major dams in Washington constructed by cities and the reclamation service which were put under his department several years ago, are to be examined. While all of the dams were well constructed, he said that the precaution is being taken as a result of the St. Francis disaster in California.

To reassure the people of California that all dams impounding water either for power, irrigation or domestic purposes are safe, B. B. Meek, state director of public works, has recommended to Governor Young that the latter immediately appoint a high-grade hydraulic engineer to make a careful examination of every dam in the state. This recommendation and a second, providing for a change in the state law to require that all dams erected by public owned utilities or political subdivisions of the state, shall be under state supervision, are the features of a report made by Director Meek at the Governor's council.

George M. McDowell of Portland, Ore., said to be a big stockholder in the Beaver Portland Cement Co., operating a plant at Gold Hill, is reported to be inspecting sites in the Elk Valley district with a view to locating a cement plant, according to word from Crescent City. The Beaver company is said to be the largest user of the present railroad from Grants Pass to Waters Creek, shipping out carloads of limestone for the Gold Hill plant.

HERE — THERE —
EVERYWHERE

The iron, steel and allied industries will again meet at the Hotel Del Monte, Monterey county, in 1929, under the auspices of the California Development Association. The convention will probably be held Jan. 24-26.

City Planning Commission of San Rafael has recommended to city council the adoption of the Uniform Building Code as prepared by the Pacific Coast Building Officials' Conference.

All structural steel operations on \$50,000,000 worth of building in the five boroughs of New York City came to a standstill March 27 pending a settlement of a labor dispute.

E. L. Norberg, San Francisco architect, was a speaker at the recent convention of the Millwork Institute of California. Mr. Norberg addressed the institute on the relation of the architect to the millmen, pointing out the need of closer co-operation.

Bruce Clark of Los Angeles, secretary of the Master Plumbers' Association of California, was the principal speaker at the monthly dinner-meeting March 30, of the Contra Costa County Master Plumbers' Association, held in Martinez.

Business license and plumbing ordinances recently amended by the Oakland city council reduce the cash bond of plumbers from \$200 to \$100.

Beginning June 1st, the Painters Union of St. Louis, Missouri, will adopt the five-day week. Several other crafts are said to be committed to the idea of adopting the five-day basis when their working agreement expire.

F. P. Brady of Martinez, H. W. Near and James Mauzy of Walnut Creek, have been named as delegates to attend the State Association of Master Plumbers' convention to be held at the Clift Hotel, San Francisco, May 14, 15 and 16. The three will represent the Master Plumbers' Association of Contra Costa County.

Iowa contractors are proposing a rating bureau so that architects may be kept informed of the records of contractors on work being done in that state.

New York contractors have renewed agreements for 1928 and 1929 at the prevailing rate of wages.

The carpenters of Youngstown, Ohio, are getting a wage rate of \$1.31¼ an hour. They are content with the wages but want double time for overtime.

The bricklayers of Pittsburgh are making a demand for a short week, effective June 1st.

Building Officials Conference of America will hold its fourteenth annual meeting in the Hotel Statler, Detroit, Mich., April 24-27.

An ordinance embodying the changes in building and plumbing regulations as suggested by the Master Plumbers' Association of San Mateo county has been adopted by the San Mateo city council. The plans are for a uniform building and plumbing code throughout the county. The change in Redwood City ordinances to conform with those of the code will be asked of the council at a meeting in the near future.

(Continued on Page 24)

STANDARD WAGE SCALE URGED FOR STATE BY M. H. GEORGE

It is the latest in the series of public meetings held in San Francisco, and was the principal feature of the dinner meeting of the San Francisco Builders Exchange in the Hotel Lexington at Santa Barbara, Monday.

It is for this is that it never before was expected to erect something of the kind. At the same time, the building industry is not only to agriculture, but also to the least profitable of industries. The reason for this is the lack of a standard wage scale.

There has been a rapid evolution of the industry. Not so many years ago the contractor completed the entire job. Today, there is no man who could gather together and maintain an organization which could complete a modern skyscraper.

Asks Standard Wage

In discussing the problems of the industry, Mr. George advocated a standard wage scale for the year, standard building material prices. He spoke against the five-day week in building trades, declaring that where this has been given a trial, it has resulted first in raising building costs, which in turn has caused a falling off of building. He also spoke in favor of a uniform state building code.

Roy L. Soules, director of the department of vocational education in the

Santa Barbara schools, also made an address which was received with enthusiasm by the audience.

Few Are Trained

"Only 10 out of every 100 boys get college training," said Mr. Soules. "It is up to the schools to provide some training in grades lower than college work for the 90 boys. In this work we offer and ask cooperation of the building trades. With your help we can develop a program beneficial not only to the boys but to you as employers."

Experience Needed

"The school is never the same as real industry. Therefore, a boy should have some actual experience in the trade he is planning to take up. If you men would arrange to hire boys for part time jobs under a cooperative training plan in which you would work together with the schools, I believe we would find that the vocational training plan would have remarkable success."

The meeting was attended by more than a hundred local builders and their wives. There was a long program, starting with community singing under the direction of Fred Lampe, and including an address of welcome by Roy L. Richardson, president of the organization, solos by Mrs. E. B. Pridemore and other features. E. W. Cummings acted as toastmaster.

ever, it is important to note that in point of numbers there are 540 projects this year, compared with 523 last year. There is an extraordinary agreement this year and last for the rest of the West. In the vast region between the Mississippi River and the Pacific Ocean, 1,125 projects have been reported this year, compared with 1,151 last year. The 1927 value was \$457,000,000, compared with \$323,000,000 in the first two months of 1927.

The same remarkable agreement between this year's planning and last year's is to be found in the case of the number and value of projects by classes. Consider the case of water works, in which class this year 143 projects were reported worth \$44,000,000, compared with 142 projects worth \$50,000,000 in 1927. There were 51 excavation projects, against 50 last year, although there has been a distinct decline in value. For roads and streets, the most consistent of all the classes, there are 506 projects, worth \$137,000,000, compared with 533 projects worth \$108,000,000. In the case of industrial buildings, although the value of projects planned is less than last year, the number is about the same. In the case of other buildings (\$150,000 and up), \$441,000,000 worth are planned this year, compared with \$518,000,000 worth last year, and the average value is \$475,000, compared with \$428,000.

PROPOSED WORK BY CLASSES

(000 omitted from value)

	1928		1927	
	No.	Value	No.	Value

SALINAS LICENSE ORDINANCE MAY BE WITHDRAWN

At a recent meeting of the Salinas city council it was brought out that when the city raised the license of the master plumbers' from \$25 to \$100 that there would be no increase in building costs. However, the union plumbers are planning to raise wages from \$9 to \$10, which, according to the contractors, will make building in Salinas much more costly than it is at present. It was the opinion of some of the councilmen that should this increase in wages be made, they will rescind the recent ordinance and put the license back to \$25 so that outside plumbers can compete in Salinas. The matter will be threshed out on April 16 and the master plumbers will be invited to be present at the meeting.

FRED PARR, TERMINAL CHIEF, TALKS TO RICHMOND BUILDERS

Fred Parr of the Parr Terminal Corporation, was the principal speaker at the monthly banquet-meeting of the Builders' Exchange of Contra Costa County, last Thursday evening. Mr. Parr outlined the growth of the city of Richmond and told of the work of his corporation in bettering the harbor facilities of Richmond with a view to attracting additional industries. He expressed his desire to see local contractors successful in bidding on the various improvements to be undertaken on the Richmond waterfront. P. M. Sanford, president of the exchange, acted as toastmaster and delivered a brief address on the accomplishments of the Parr Terminal.

S. F. MARCH BUILDING ACTIVITIES ROLL UP HEALTHY TOTAL OF \$4,240,494

San Francisco building operations during March rolled up the record total of \$4,240,494 when 556 building permits were issued. March figures present the highest monthly total since November, 1927, when 592 permits were issued for improvements involving an expenditure of \$6,382,171.

The figures of past month exceed those of December, 1927, and January and February of 1928.

In January of this year, 611 permits were issued for improvements costing \$3,719,925. Homes and apartment buildings of frame construction lead the operations with a total expenditure of \$1,443,779. No public construction was included in the figures of the month.

February registered a total of \$2,398,410 with 676 permits issued. During this month permits were issued for 262 frame buildings, mostly homes and frame apartment buildings, costing \$1,288,952. No public construction was included in the month's activities.

March, 1928, activities includes a pier project for the State Harbor Commission which will require an expenditure of \$200,000. No other public construction

is included in the month's total. The feature of the operations was home building. During the month 347 permits were issued for frame structures costing \$1,864,638, of these, about 75 per cent covered the erection of bungalows costing from \$3500 to \$6500.

March, 1927, operations registering 611 permits issued involved an expenditure of \$2,582,915. The big construction program during this period also covering home building which approximated an expenditure of \$1,286,955. No public improvements were included in the month's total.

Following is a segregated report of March, 1928, activities as compiled by the Bureau of Building Inspection of the Department of Public Works:

Class	No. of Permits	Est. Cost
A	4	\$ 559,000
B	2	62,400
C	15	265,950
Frames	347	1,864,638
Alterations	487	598,406
Harbor Bldgs.	1	900,000
Total	856	\$4,240,494

Contemplated Construction Equals Early 1927 Record Figures—Survey Shows

The January and February, 1928, construction reports contemplated but not completed, are adding force remarkably in both number and value with those of 1927. According to Engineering News-Record, New York, there is a difference of less than one per cent and the similarity is quite consistent both geographically and for the classes of work.

In the two months of 1928 there were 269 projects valued at \$1,095,763,000, the

average being \$414,000. The figures for 1927 are 2,689 projects, worth \$1,103,080,000, the average being \$411,000. Thus there were only 34 fewer projects reported this year than last and the difference in money value is only \$7,000,000 out of more than a billion total. The principal falling off is the Middle West, where the value of the proposed work this year is only 52 per cent of last year's, in gauging Middle West activity, how-

Building News Section

APARTMENTS

Elevator Contract Awarded.
APARTMENTS Cost, \$90,000
SAN FRANCISCO. NE Height and
Broderick Streets.

Six-story and basement reinforced concrete apartment building (36 apts.)
Owner—Mrs. Bessie Cooley, 2090 Ninth Ave., San Francisco.

Architect—J. C. Hladik, Monadnock Bldg San Francisco.

Elevator—Pacific Elevator & Equipment Co., 45 Rausch St., San Francisco.

As previously reported, structural steel awarded to Herrick Iron Works, 18th and Campbell Sts., Oakland; concrete to H. L. Petersen, 163 Sutter St., S. F.

Working Drawings Being Prepared.

APARTMENTS Cost, \$60,000
OAKLAND, Alameda Co., Cal. Location Withheld, 80x186 feet.

Three-story frame and stucco apartment building (60 2 and 3-room apts.)

Owner—Withheld.

Franklin St., Oakland.

PRATT'S CONCRETE MIX

Clarence
by Sand
Pratt

SUNDAY, APRIL 8th is Easter.
AND MANY California cities.
LIKE SAN Francisco.
WILL HAVE sunrise services.
AT 5:44 A. M. (sunrise).
ON MT. Davidson, San Francisco.
SANDY PRATT, President.
OF THE Pratt Building Material Co.
PRODUCER OF crushed rock.
CLEAN SAND and washed gravel.
WILL SERVE as Chairman.
OF THE committee on arrangements.
TO HELP the 25,000 worshipers.
WITH THEIR sunrise devotion.
WHILE SANDY Pratt, "Mayor."
OF BEAUTIFUL Westwood Park.
AND MONTEREY Heights.
IS ON Mt. Davidson.
THE GOOD people of Placerville.
WILL WORSHIP.
ON SACRAMENTO Hill.
NEAR THEIR wonderful city.
DO YOU know.
THAT ARMOUR sold bacon.
AND STUDEBAKER made wheelbarrows.
AT PLACERVILLE.
IN THE pioneer days.
ACBURN WILL worship.
AT AEOLIA Heights.
ABOVE THEIR pretty city.
OVERLOOKING THE American River.
THAT PRODUCES sharp sand.
FOR SANDY Pratt's Company.
THE FOLKS in Marysville.
HOME OF Sandy's Marysville sand.
OUT OF the Yuba River.
WILL GO to Sutter County.
TO THE "Marysville Buttes."
AND AT sunrise.

ATTEND CHURCH services.
CHICO WILL also assemble.
ITS GOOD citizens.
ON EASTER morning.
SO WILL many other cities.
AND AT the sunrise services.
ON MT. Davidson last year.
TWENTY-FIVE PER cent of the people
THAT CLIMBED the mountain.
WERE NON-CHURCHGOING people.
SO THESE services.
SHOULD BE encouraged.
AND THIS is the reason.
SANDY TAKES an active part.
IN SAN FRANCISCO's sunrise service.
"I THANK you."

This photo taken before sunrise at the 1924 Easter Services on the top of Mt. Davidson, San Francisco, shows the cross that Sandy Pratt, producer of clean, sharp sand, hard, crushed rock and washed gravel, assisted in erecting. The cross is 76 feet high and the arms are 26 feet across, and over 300 electric lights are used to light the cross. This cross when lighted has been seen at sea, over twenty miles from the shore line.

Plans Being Figured.

BUSINESS OPPORTUNITIES

D-2808—Scrap Cast Iron and Scrap Steel. Virginia City, Nev. Mr. R. W. Snell, Consolidated Virginia & Ophir Mining Companies, Virginia City, Nev., has four or five carloads of scrap cast iron and scrap steel of which they wish to dispose. They would appreciate hearing from San Francisco consumers or firms which melt such scrap metals.

12857—High Class Furniture, Basket-ware and Willow Ware. Belgium. Maison Jean Blondel, 54, Boulevard du Jardin Botanique, Brussels, Belgium. Manufacturers of the above-mentioned lines are seeking connections among American importers, buyers and commission agents.

12862—Linseed Oil. Brussels, Belgium. Usines E. Deffaux, 15 Rue St. Martin, Brussels, Belgium. Producers of linseed oil desires to export that commodity to the United States and they would appreciate hearing from interested firms.

12863—Rubber Hose and Belting. United Kingdom. British Consulate General, 310 Sansome St., San Francisco, Calif., represents firm of high standing desirous of appointing an agent in this district for the sale of rubber hose and belting.

12865—Steel Schooner for Carrying Lumber. Vancouver, Canada. Mr. N. S. McDonald, The Union Trading Co., Ltd., Vancouver, Canada, is in the market for a steel schooner or barquentine, with a carrying capacity of about a million and a half board feet of lumber. The vessel must be in commission, or nearly so. She may have auxiliary power or not.

12872—Asbestos (Crude & Mills Fibre). San Francisco, Calif. Mr. J. Brogan, 385 Mills Bldg., San Francisco, representative of Arizona producers of asbestos seeks contract with a suitable San Francisco export house to handle the sale of asbestos and asbestos products in foreign markets.

12875—Redwood Ties. New Orleans, La. The Porto Rican salesmen of a New Orleans hardware and supply company have the opportunity of selling quantities of redwood ties in various sizes. They would appreciate hearing from interested exporters of redwood ties. Address Mr. N. P. Oliver, Mgr. Foreign Dept., Standard Supply & Hardware Co., P. O. Drawer, 620, New Orleans, La.

12878—Hardwoods. Bluefields, Nicaragua. Mr. V. M. Vidaurre, Rivas, Nicaragua, owner of several large tracts of woodland in the Republic of Costa Rica, intends to cut and transport this timber (mahogany, cedar and namboro) the short distance to tidewater on the Pacific Coast and he wishes to get in touch with San Francisco lumber companies with a view to entering into negotiations with them concerning either the buying of the cut timber, or the lands as they are.

Chas. Peter Weeks, San Francisco architect, willed his entire estate to his widow, attorneys announced in filing a petition for probate of the will. Mr. Weeks died recently from a malady from which he was suffering for several months.

LEGAL NOTICE

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC. REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, OF BUILDING & ENGINEERING NEWS, published weekly at San Francisco, California, for April 1, 1928.
 State of California, City and County of San Francisco, ss.

Before me, a Notary Public in and for the state and county aforesaid, personally appeared J. I. Stark and R. J. Rath, who, having been duly sworn according to law, depose and says that they are the owners of the BUILDING & ENGINEERING NEWS, and that the following is, to the best of their knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in Section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, Stark-Rath Printing & Publishing Co., 547 Mission St., San Francisco.

Editor, J. P. Farrell, 1258 39th Ave., San Francisco.

Managing Editor, J. P. Farrell, 1258 39th Ave., San Francisco.

Business Managers, J. I. Stark, 3360 Octavia St., San Francisco, and R. J. Rath, 790 20th Ave., San Francisco.

2. That the owners are:

J. I. Stark, 3360 Octavia St., San Francisco.

R. J. Rath, 790 20th Ave., San Francisco

A. R. Miller, 1614 Grand Ave., Oakland

3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or securities are: none.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is

R. J. RATH,
 Business Manager.
 Sworn to and subscribed before me this 31st day of March, 1928.

(SEAL) CHALMER MUNDAY,
 Notary Public in and for the City and County of San Francisco, State of California.

(My commission expires Oct. 17, 1929)

WEATHERING OF BRICK WALLS

Speaking on the weathering of brick before the recent convention of the Common Brick Manufacturers Association, J. W. McBurney, Bureau of Standards, said that no evidence has been presented showing a relationship between water absorption and weathering. The only absolute test for weather resistance is 100 years' or more exposure. Repeated freezing and thawing conducted in the laboratory are the next best test. Brick of a relatively high absorption and of a high rate of absorption is desirable from several standpoints. The bond between brick and mortar is better with absorbent brick. On the basis of a limited field inspection, the chance of a dry wall is better with a porous absorbent brick than with vitrified brick.

Engineering News Section

BRIDGES

MARTINEZ, Contra Costa Co., Cal.—Superior Judge A. B. McKenzie has sent back to the Contra Costa county supervisors, for reconsideration, the application of Chas. E. Van Damme, president of the Richmond-San Rafael Ferry Co., for a Contra Costa-Marin bay bridge. The supervisors recently denied his application and have been instructed by the court to reopen the proceedings and Van Damme meets the structural and location demands of the board that he be granted a franchise. Judge McKenzie invoked an age old provision of the statutes in making his decision. The provision declares that the land owner on the left hand down stream side shall be given preference in awarding franchises. The supervisors, in granting a franchise to Roy O. Long of Berkeley, for a \$15,000,000 span two miles north of the Van Damme ferry route where he plans his \$10,000,000 bridge, erred in not meeting the terms of this law, Judge McKenzie held.

NAPA, Napa Co., Cal.—City will call election May 1 to vote bonds to finance const. of bridge in Third st. to replace present narrow bridge and a new bridge in connection with the opening of Brown street through from Pearl to Clinton. H. A. Harrold, city eng.

LONG BEACH, Cal.—Eng. R. D. Van Alstine, Heartwell Bldg., Long Beach, preparing plans for reinf. conc. bridge at State st., over Flood Control Channel; est. cost \$200,000.

LOS ANGELES COUNTY, Cal.—Until April 25, 2 P. M., bids will be rec. by State Highway Commission, to const. reinf. conc. girder bridge consisting of two 26-ft. 8-in. spans on conc. pier and two conc. abutments with wing walls over Santa Anita Wash at Arcadia. C. H. Purcell, state highway eng. See call for bids under official proposal section in this issue.

PLUMAS COUNTY, Cal.—As previously reported, bids will be rec. by State Highway Comm., April 18, to const. reinf. conc. girder bridges, one over Rock Creek, $4\frac{1}{2}$ mi. west of Westwood consisting of two 20 ft spans and another over Bailey Creek $7\frac{1}{2}$ mi. west of Westwood, consisting of one 36 ft. and two 22 ft spans. Project involves: 720 cu. yds. rdwy. excav. without classification; 120 cu. yds. struct. excav. without classification; 225 cu. yds. Class "A" and 24 cu. yds. Class "E" cem. conc.; 42,000 lbs. reinf. steel; 85 cu. yds. struct. backfill; 155 cu. yds. light riprap.

FRESNO and MADERO COUNTIES, Cal.—As previously reported, bids will be rec. by State Highway Comm., April 18, to const. bridge over San Joaquin river 1 mi. north of Herndon; consisting of four 160 ft. deck steel truss spans, two 80 ft. deck plate girder spans and one 64 ft. deck plate girder span on conc. piers with pile foundations. Project involves: 1770 cu. yds. struct. excav. without classification; 9268 lin. ft. fur. Douglas fir piles; drive 231 Douglas fir piles; 280 cu. yds. Class "A" cem. conc. (placed by tremie); 850 cu. yds. Class "B" and 1155 cu. yds. Class "A" cem. conc.; 174,000 lbs. reinf. steel; 1,894,000 lbs. struct. steel; 21,200 lbs. cast steel; 27,500 lbs. cast iron; 940 cu. yds. structure backfill; 9 M ft. bd. m. redwood timber, extra merchantable; lighting equipment.

SAN JOSE, Santa Clara Co., Cal.—City will call election to vote bonds of \$75,000 to finance const. of nine or ten bridges including one in East San Antonio St. and another in West Taylor St. Wm. Popp, city engineer.

SAN RAFAEL, Marin Co., Cal.—County Surveyor Rodney Messner completing plans for bridge in Homestead Valley and another in Sacramento Ave. in rear of Mason's Distillery in Rd. Dist. No. 3.

SACRAMENTO, Calif.—Sacramento Chamber of Commerce is considering preliminary plans for a high level bridge across the Sacramento river at M St., forming the main approach to the city from the west. A conference will be held with Bert B. Meek, state director of Public Works with regard to feasibility of the project.

TEHAMA, Tehama Co., Cal.—W. R. Gay and Hillaker, Orland, at \$7,850 sub. low bid to city to const. reinf. conc. bridge at n. w. entrance to city. Other bids, all taken under advisement, were:

I. W. Brunk, Corning, \$8,000; R. B. McKenzie, Gerber, \$8,150; S. Severtson, Redding, \$8,995; Frank Bryant, San Francisco, \$9,000; C. E. McCartney, Red Bluff, \$9,981; G. Mattson, San Bruno, \$10,927; Holdener Const. Co., Sacramento, \$11,800.

DEL NORTE COUNTY, Cal.—Following bids rec. April 4 by State Highway Commission, to const. steel cantilever bridge consisting of two 114-ft. anchor arms, two 114-ft. cantilever arms and one 152-ft. suspended span; on conc. piers and about 1.16 mi. of rdwy. to be graded. Bridge will be constructed over Smith River, about 8 mi. east of Crescent City; Park Schram Co., Couch Bldg.,

Portland, Oregon.....	\$170,479
J. J. Bagarinn, Portland.....	175,534
James S. Hickey, Portland.....	179,863
R. Johnson, Glendale.....	195,815
Holdener Const. Co., Sacramento.....	197,173
Mercer-Fraser Co., Eureka.....	206,042
Engineer's Estimate.....	159,799

REDDING, Shasta Co., Cal.—Until May 9, bids will be rec. by county supervisors to const. reinf. conc. bridge over Stillwater on Anderson-Shingletown Rd. Plans obtainable from County Surveyor Man at Redding.

SACRAMENTO, Cal.—Following a joint meeting of the supervisors of Yolo and Sacramento counties, bids to const. bridge at Freeport have been taken under further advisement. Two members of the Sacramento county board favor the rejection of all bids and to undertake construction by day labor. Definite action will be taken at a meeting to be held April 10 when the reports

of the engineers of both Yolo and Sacramento counties will be presented with a recommendation as to what disposition will be made of the bids. C. J. Nystedt, Stockton, sub. low bid at \$224,117.

DREDGING, HARBOR WORKS AND EXCAVATIONS

SACRAMENTO, Cal.—Recently organized American River Flood Control District has named A. M. Barton, State Reclamation Board engineer, as chief engineer for the district and to prepare data necessary for a flood control project to protect the district's territory. An appropriation of \$25,000 has been made to study the situation.

PACIFIC COAST.—See "Government Work and Supplies," this issue. Funds available for flood control projects on the Pacific Coast.

IRRIGATION PROJECTS

TURLOCK, Stanislaus Co., Cal.—Bids will be asked shortly by Turlock Irrigation District, to be opened probably April 30, 2 P. M., for imp. in Grattan Imp. Dist., No. 4. Further mention will be made of this work.

TURLOCK, Stanislaus Co., Cal.—Lloyd Terrell, Turlock, awarded cont. by Turlock Irrigation District for imp. in Imp. Dist. No. 7, involv. (1) const. 4 conc. structures, involv. 10 cu. yds. conc.; (2) 651 lin. ft. 36-in. dia. conc. pipe. Bid was (1) \$16.20 cu. ft.; (2) \$1.75 lin. ft.

LIGHTING SYSTEMS

STOCKTON, San Joaquin Co., Cal.—Pacific Engineering & Construction Co., Chamber of Commerce Bldg., Los Angeles, at \$81,479, awarded cont. by city for street lighting system in various sts., involv. 222 ornamental duplex standards and 3 single light ornamental brackets together with underground system.

ORLAND, Glenn Co., Cal.—Until April 16, 8 P. M., bids will be rec. by E. W. Parlin, city clerk, (2-A) to install 52 single lamp Marbelite electroliers together with underground system in Walker St., bet. 6th St. and alley bet. 3rd and 4th Sts., and in 4th and 5th Sts., bet. Walker and Colusa Sts. 1911 Act, Bond Act 1915. Cert. check 10% payable to city req. with bid. Plans on file in office of clerk.

SACRAMENTO, Cal.—See "Res. of Inten. 2237" under "Sewers and Street Work," this issue. Street lighting system planned.

STOCKTON, San Joaquin Co., Cal.—Until April 23, 11 a. m. bids will be rec. by Eugene D. Graham, county clerk, to construct ornamental electric street lighting system in Weber Ave., Main St., Hunter and San Joaquin Sts. fronting courthouse. Bids recently received rejected, low bid being submitted by Globe Electric Co., San Francisco, at \$4,933. Cert. check 10% payable to Chairman of Bd. of Suprs. req. with bid. Plans on file in office of clerk. F. E. Smith, county surveyor.

BERKELEY, Alameda Co., Cal.—H. C. Reid Co., 389 Clementina St., San Francisco, at \$26,044 awarded cont. by city to install 64 Union metal electroliers with underground system in Shattuck Ave., bet. Durant Ave. and Ward St., and in Shattuck Ave., bet. Durant and Adeline St., in Adeline St., bet. Shattuck Ave. and Ward St.

BERKELEY, Alameda Co., Cal.—Newberry-Pearce Electric Co., 439 Stevenson St., San Francisco, at \$3,562 sub. low bid to city (617) to install 14 Union Metal electroliners with underground system in Ashby Ave., bet. Grove St. and Shattuck Ave. Other bids, all taken under advisement, were: H. C. Reid Co., San Francisco, \$3,640; M. Flatland, San Francisco, \$3,725.

SACRAMENTO, Cal.—City Planning Commission considering plans for proposed uniform street lighting system. A. J. Wagner, city engineer.

MACHINERY AND EQUIPMENT

RENO, Nev.—Until April 18, 10 a. m., bids will be rec. by E. H. Seemer, county clerk, to fur. and del. one automobile, coach type, leather upholstery, cost not to exceed \$1000. Further information obtainable from clerk.

OAKLAND, Cal.—Until April 10, 8:30 p. m. bids will be rec. by Walter S. Chandler, secty., Park Directors, 407 City Hall, to fur. and del. one power lawn mower. Cert. check 10% payable to city clerk req. with bid. Spec. obtainable from secty. See call for bids under official proposal section in this issue.

RAILROADS

OROVILLE, Butte Co., Cal.—Bids are being received by A. J. Dean, recent purchaser of 210 acres of the Pleasant Valley Tract, adjoining the city of Oroville on the northeast, is taking bids to const. water system with pressure storage capacity for fire protection. Edwin Dean, 609 Bird St., Oroville, is interested in the project.

FIRE EQUIPMENT

MARYSVILLE, Yuba Co., Cal.—Fire Chief A. P. Goss recommends purchase of 500 ft. of 2½-in. and 300 ft. of 1½-in. fire hose; est. cost, \$1 to \$1.30 ft.

RESERVOIRS AND DAMS

COLTON, Cal.—General Construction Co., 517 Andreson Bldg., San Bernardino, awarded cont. by city at \$8200 to const. reinf. conc. reservoir, weir box, sand pit, control inlets and outlets, piping, valves, fittings, and a complete housing and roof.

MONTECITO, Cal.—Carl Wyant, engineer of the Montecito County Water District, preparing tentative plans for various types of dams to be built at Juncal Reservoir Site. An estimate of cost cannot be given until the directors decide upon the type. At the next meeting of the board, April 10, a date for a special election will be set. It is proposed to vote an \$800,000 bond issue for this work. John A. Jameson is president of the district.

SAN JOSE, Santa Clara Co., Cal.—Election will be called shortly by city council to decide question of transferring \$50,000 from city sewer funds to finance const. of dam, reservoir, roads and bridges in Alum Rock Municipal Park. Wm. Popp, city eng.

PIPE LINES, WELLS, ETC.

LONG BEACH, Cal.—S. F. Catey, 624 Gibbons St., Los Angeles, awarded cont. by city at \$17,250 to drill two water wells complete on Farm Lot No. 7, American Colony Tract.

BANNING, Cal.—Pacific Lighting Corp. of San Francisco, recent purchaser of Southwestern Gas & Fuel Co., announces \$50,000 will be expended on betterments and improvements to gas systems of Banning and Beaumont. Of this amount, \$30,000 will be expended for new mains.

REDWOOD CITY, San Mateo Co., Cal.—Until April 16, 8 p. m. bids will be rec. by W. A. Price, city clerk, to drill 200-ft. well for municipal water system. E. J. Matlock, San Jose, only bidder under previous call. Bid was rejected. Cert. check \$200 payable to city req. with bid. Plans obtainable from C. L. Dimmitt, city eng.

SEWAGE DISPOSAL PLANTS

LEMOORE, Kings Co., Cal.—City declares inten. (\$88) to const. sewage treatment plant in Acq. and Imp. Dist. No. 2. Project involves: 450 cu. yds. excav.; 20,200 sq. ft. grading, sludge bed; 350 cu. ft. conc. 4 sacks to yd.; 5900 cu. ft. conc. 5 sacks to yd.; 9600 cu. ft. conc. 6 sacks to yd.; 1056 cu. ft. rock in trick filter; 78,000 lbs. reinf. steel; aerator, mechanical equipment, motor; metal flumes and gates; clarifier, mechanical equipment, incl. motor, etc.; activated sludge pump; syphon and mechanical equipment; trickling filter piping system; distribution piping, valves, etc.; water pump installation and motor; miscellaneous equipment including wiring, switches, control equipment, cast iron pipe, steel pipe valves, hydrants, vitrified pipe, etc. Hearing April 10. C. C. Kennedy, engineer, Call Bldg., San Francisco. W. W. Sheahan, city clerk.

MISCELLANEOUS CONSTRUCTION

REDWOOD CITY, San Mateo Co., Cal.—San Mateo County Chamber of Commerce, through its president, Fred H. Drake, urges the const. of a \$1,000,000 tunnel connecting San Mateo and Half Moon Bay. Preliminary surveys are being made by County Surveyor Geo. A. Kneese. The tunnel will run from a point near Crystal Springs Lakes on the Half Moon Bay-San Mateo road to the Pilarcitos Creek under the mountain; would be 3000 ft. long.

WATER WORKS

MONROVIA, Cal.—Until April 16, 7:30 P. M., bids will be rec. by Lewis P. Black, city clerk, to fur. and install automatic sprinkler system in Recreation Park, consisting of 1 program controlled, 1 pulsator, and 18 selected valves, eighteen point with hand by-pass and appurtenances. Cert. check or bond for 10%. Plans on file in office of clerk.

SANTA ANA, Cal.—U. S. C. I. Pipe Co., Wright-Chandler Bldg., Los Angeles, awarded cont. by city to fur. 72 feet 20-in. centrifugally spun c. i. pipe, \$3,063 ft.; 3400 ft. 16-in., at \$2,529 ft.; 1150 ft. 14-in., at \$1.78 ft.; 3100 ft. 12-in., at \$1.36 ft.; 2950 ft. 10-in. at \$1.048 ft. Fittings also awarded to same firm. Total bid \$16,932.78.

MONROVIA, Cal.—Pomona Mfg. Co., 328 E 3rd st., Los Angeles, awarded cont. by city to fur. deep well turbine pump for Norumbega water system. N. O. Nelson Mfg. Co. awarded cont. for pipe for sprinkler system in Recreation Park, Feer & Biedenbach the installing contract, and Haden Automatic Sprinkling Co. the contract for heads.

BAKERSFIELD, Kern Co., Cal.—Until April 10, 7 P. M., bids will be received by B. L. Marble, clerk, Standard School District, to construct 3600 square feet of concrete sidewalk and install lawn sprinkler system. Further information obtainable from clerk.

LOS ANGELES, Cal.—Pacific Pipe & Supply Co., 1002 Santa Fe Ave., sub. low bid to water and power comm. at \$12.03 per 100 ft. for 37,000 ft. 1-in. galv. extra heavy wrought steel pipe. Spec. W-881.

PORTERVILLE, Tulare Co., Cal.—Monache Golf & Country Club has \$2500 available to improve clubhouse and plant grass fairways and install pumping plant for irrigation system.

OAKLAND, Cal.—East Bay Municipal Utility District will file application with Berkeley city council seeking authorization to const. \$800,000 5-ft. aqueduct to run from Claremont Court to the Berkeley city limits and Cordones Creek. Arthur P. Davis, is general manager of the district.

SACRAMENTO, Cal.—City council plans to abandon old sedimentation chambers and storage basin at municipal filtration plant and const. two entire new units, the ultimate cost of which will be approximately \$386,000. The work will probably be financed by bond issue. Henry D. Dewell, San Francisco engineer, recently submitted a report to the council regarding improvements necessary to place the plant in first class condition.

SONORA, Tuolumne Co., Cal.—C. H. Noak, manager of local Pacific Gas & Electric Co. office, announces company will install large coagulation plant for purification of the city water system. This is part of \$32,400 expenditure for betterments to water system.

SANTA CRUZ, Santa Cruz Co., Cal.—City defeats proposal to issue bonds of \$260,000 to finance water system extensions from San Lorenzo river; 1774 for and 2390 against the proposal.

SAN BERNARDINO, Cal.—Del Rosa District, organized under county water district laws, votes bonds of \$40,000 to finance const. of 250,000-gal. reservoir and other water system imps.

SAN MATEO, San Mateo Co., Cal.—Redwood Manufacturers Co., Hobart Bldg., San Francisco, at \$3000 sub. low bid to city to const. 40,000-gal. water tank and sub-structure. Bids to include removal of old tanks and frame work. Tank and sub-structure to be first grade merchantable redwood timber; 6-in. outlet pipe from bottom of tank to ground with gate valve to be included; gate valve to be connected to present 3-in. main. Pacific Tank & Pipe Co., 320 Market St., San Francisco, only other bidder at \$3610. Taken under ad.

OAKLAND, Cal.—Until April 10, 8:30 P. M., bids will be rec. by Walter S. Chandler, Secty., Park Directors, to furnish and erect well pump and gasoline engine, including pipe fittings, etc., necessary for pumping water from 12-in. dia. well from approx. depth of 100 ft. to tank, the top of which will be approx. 18 ft. above ground. To be installed in Sequoia Park. Cert. check 10% payable to city clerk req. with bid. Spec. obtainable from Secty. See call for bids under official proposal section in this issue.

TRADE EXTENSION MANAGER IS ON WESTERN TOUR

In the interests of grade-marking and trade-marking John M. Gibbs, trade extension manager of the National Lumber Manufacturers Association, left Washington March 26 on a month's trip which will bring him in contact with the principal lumber manufacturers in the South and on the West Coast.

The purpose of Mr. Gibbs' trip is to obtain definite information as to the reaction of the industry to grade-marking and trade-marking to present to the Trade Extension Committee at the meeting to be held prior to the annual meeting of the National Lumber Manufacturers Association May 1-2.

Mr. Gibbs and Wilson Compton, secretary and manager of the National Lumber Manufacturers Association, will speak on grade-marking and trade-marking at the annual meeting of the Southern Pine Association in New Orleans today. From New Orleans Mr. Gibbs will go to Los Angeles, A. C. Horner, Western Division manager, joining him in Texas. California subscribers to the Trade Extension Campaign will be visited by Mr. Gibbs and Mr. Horner, who will be joined by S. V. Fullaway, manager of the Portland District office in that city. Before returning to headquarters Mr. Gibbs, with the aid of Mr. Horner and Mr. Fullaway, hopes to have called on all of the trade extension subscribers in California, Oregon, Washington, Idaho and Montana.

STANDARDS ARE CONTINUED FOR PAVING BRICKS

G. F. Schlesinger, Director of Street Highway, Columbus, Ohio, was elected chairman of the standing Committee for Simplified Practice Recommendation No. 1, Paving Brick, at the annual meeting held in the Department of Commerce, Washington, D. C. He succeeds E. J. Mehren, Vice President of the McGraw-Hill Publishing Company, who tendered his resignation as chairman and member of the committee. E. E. Duff, Secretary of the National Paving Brick Manufacturers Association, also tendered his resignation as a member of the committee.

The conference also reaffirmed without change the existing simplified practice recommendation on paving brick for another year. This recommendation, which eliminated 93 per cent of the varieties of the commodity, was originally promulgated in 1921. The committee reported that the average of adherence to the recommendation was 79.6 per cent for the year 1927.

Those attending the conference were: E. L. Beller, National Paving Brick Manufacturers Association, Chicago; R. Keith Compton, American Society of Civil Engineers, Richmond, Va.; T. R. Lawson, American Society of Municipal Improvements, Buffalo, N. Y.; E. E. McCullough, U. S. Chamber of Commerce, Washington, D. C.; O. W. Renkert, American Ceramic Society, Canton, Ohio; G. F. Schlesinger, American Association of State Highway Officials, Columbus, Ohio; F. L. Manning, Portsmouth, Ohio; and H. R. Cowell of the Division of Simplified Practice.

SELLS FOR \$4 PER FOOT

Several hundred feet of Virginia Longleaf pine lumber which held the roof over the heads of the nation's presidents for 112 years before a new covering was placed on the White House last summer, is going to be finished off into souvenir gables, plaques, and furniture. Auctioned off, the lumber brought as high as \$4 a lineal foot. Historical, patriotic, school and lumber organizations bid in for the lot, the National Lumber Manufacturers' Association taking the largest quantity.

Official Proposals

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS
NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the State Highway Engineer, Highway Building, Sacramento, California, until 2 o'clock P. M., on April 25, 1928, at which time they will be publicly opened and read, for construction in accordance with the specifications therefore, to which special reference is made, of portions of State Highway as follows:

El Dorado County, between Fresh Pond and 3/4 mile east of Riverton (III-ED-11-F-G), about six and two-tenths (6.2) miles in length, crushed gravel or stone surfacing to be produced and stockpiled. San Mateo County, between Broadway Station and Fifth Avenue (IV-S.M.-68-B.C.), about three (3.0) miles in length; to be graded and paved with crushed stone.

Los Angeles County, across Santa Anita Wash at Arcadia (VII-L.A.9-E), a reinforced concrete girder bridge consisting of two 26' 8" spans on a concrete pier and two concrete abutments with wing walls.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, and at the office of the District Engineer of the district in which the work is situated. The District Engineers' offices are located at Eureka, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the District office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the District office.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The Department of Public works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS
C. H. PURCELL,
 State Highway Engineer.
 Dated: March 28, 1928.

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS
NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, Room 407 Highway Building, Sacramento, California, until 2:00 P. M., on April 11, 1928, at which time they will be publicly opened and read, for performing work as follows:

Colusa County between one-half mile west of Freshwater Creek and Williams (III-Col-15-E), about five and five-tenths (5.5) miles of existing crushed gravel or stone surfacing to be treated with oil, road mix.

Plans may be seen, and forms of proposal, bonds, contract and specifications

may be obtained at the above address.

No bid will be received unless it is made on a proposal form furnished by the District Engineer. Each bid must be accompanied by cash, or a certified check made payable to the Director of Public Works, for an amount equal to ten (10) per cent of the amount bid, such guaranty to be forfeited should the bidder to whom the contract is awarded fail to enter into the contract.

The Department of Public Works reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

DEPARTMENT OF PUBLIC WORKS,
DIVISION OF HIGHWAYS.
C. H. PURCELL,
 State Highway Engineer.
 By **F. W. HASELWOOD,**
 District Engineer, Dist. III.
 Dated: March 29, 1928.

NOTICE TO CONTRACTORS

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M. Wednesday, May 2nd, 1928, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the erection and completion of Assistant Physician's Cottage and Quarters for Day Attendants, Napa State Hospital, Napa, California, in accordance with plans and specifications thereof, copies of which may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

The Quarters for Day Attendants is a two-story building with reinforced concrete walls, wood floors and shingle roof. The Assistant Physician's Cottage is one-story frame with reinforced concrete foundations, plastered exterior, and shingle roof. Plumbing, Heating and Electrical Work is included in the General Contract.

Bids must be submitted on Proposal Forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Assistant Physician's Cottage and Quarters for Day Attendants, Napa State Hospital, Napa, California."

STATE DEPARTMENT OF PUBLIC WORKS
DIVISION OF ARCHITECTURE
GEO. B. McDOUGALL,
 State Architect.
B. B. MEEK,
 Director of Public Works.

NOTICE TO BIDDERS

(Well Pump and Gas Engine—Oakland Park Directors)

Notice is hereby given that the Board of Park Directors of the City of Oakland will receive bids for the supplying and erection of a Well Pump and Gasoline Engine, including all pipe fittings, etc., necessary for pumping water from a 12" diameter well from an approximate

depth of 100' to a tank the top of which will be approximately 18' above ground; bids to be received on April 10, 1928, from 7:30 to 8:30 o'clock P. M., at Room 407, City Hall. Bond in the sum of \$1000 will be required for the faithful performance of contract. Contract shall be entered into within ten days after award thereof, and the work shall be completed within thirty days after the date of contract. A certified check by a responsible bank, payable to the City Clerk of the City of Oakland, of 10% of the amount of each bid, shall accompany each proposal. Specifications will be furnished by the Secretary of the Board of Park Directors. The Board of Park Directors reserves the right to reject any and all bids.

BOARD OF PARK DIRECTORS.
 By **WALTER S. CHANDLER,**
 Secretary.

NOTICE TO BIDDERS

(Power Lawn Mower — Oakland Park Directors)

Notice is hereby given that the Board of Park Directors of the City of Oakland will receive bids for one Power Lawn Mower, bids to be received on April 10, 1928, from 7:30 to 8:30 o'clock P. M., at Room 407, City Hall. Bond in the sum of \$350 will be required for the faithful performance of contract. Contract shall be entered into within five days after award thereof and delivery shall be made within five days after the signing of the contract. A certified check by a responsible bank, payable to the City Clerk of the City of Oakland, for 10% of the amount of each bid, shall accompany each proposal. Specifications will be furnished by the Secretary of the Board of Park Directors. The Board of Park Directors reserves the right to reject any and all bids.

BOARD OF PARK DIRECTORS,
 By **WALTER S. CHANDLER,**
 Secretary.

NOTICE TO BIDDERS

(Hospital Furnishings—Nevada State)

The Board of Commissioners for the Care of the Indigent Insane, will receive bids for Furnishings for the New Ward Building at the Nevada Hospital for Mental Diseases, as described in the list to be obtained at the office of the superintendent, at the Hospital in Reno, Nev.

Bids will be open in public in the Secretary's office, Carson City, Nev., at 2 o'clock p. m., Saturday, April 14, 1928.

All bids should be sealed in opaque envelopes, marked plainly "Bids for Furnishings," and mailed to the secretary of the board, Carson City, Nev. A certified check for ten per cent of the total amount of the bid must accompany each bid. Checks will be returned to the unsuccessful bidders when the contract is awarded and to the successful bidder when the contract is fulfilled to the satisfaction of the board.

Carson City, Nevada, March 30, 1928.
A. A. ARMSTRONG,
 Secretary of Board.

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., March 26, 1928.—Sealed Bids will be opened in this office at 3 p. m., May 1, 1928, for furnishing of all labor and materials, and performing all work required for the construction of the U. S. new post office at Fallon, Nev. Not exceeding six sets of drawings and specifications will be furnished to general contractors on request, in the discretion of the supervising architect, provided a deposit of Fifteen Dollars (\$15.00) is made for each set. Deposits will be refunded on return of the drawings and specifications in good condition. Checks must be certified and made payable to the Treasurer of the United States. **JAS. A. WETMORE,** Acting Supervising Architect.

STATE OF CALIFORNIA

NOTICE TO ELECTRIC CONTRACTORS

(Electric Light Fixtures, Fresno)

Pursuant to an order of the Board of Education of the City of Fresno School District and, or the Fresno City High School District, County of Fresno, California, duly made and entered in their minutes this 22nd day of March, 1928, public notice is hereby given that the said board will receive up to 5 o'clock P. M., on the 12th day of April 1928, at the office of said Boards in the Hawthorne School Building, 2125 Fresno St., Fresno, California, sealed proposals for the furnishing and installing of electric light fixtures as follows:

a. L. A. Winchell Elementary School
b. Theodore Roosevelt High School as per plans and specifications prepared by E. J. Farr, Building Superintendent, Fresno City Schools.

Reference is hereby made, to "General Information to Bidders," Building Form No. 6, for further particulars regarding all bids.

Plans and specifications, together with forms for submitting all bids and further details regarding any and all bids may be obtained from the undersigned secretary of said Boards of Education at the office of said boards above designated.

A bidder's surety bond or certified check equal to at least 10% of the amount of the bid submitted must accompany each proposal.

The Boards reserve the right to reject any and all bids.

By order Board of Education City of Fresno School District, and, or Fresno City High School District.

L. L. SMITH,
Secretary.

Continued From Page Five

Action favoring the five and one-half day week in the Seattle building trades and against the five-day week proposal has been taken by the industrial committee of the Seattle Chamber of Commerce. The committee acted favorably on a resolution of a sub-committee of its membership. The resolution set forth the points that the five and one-half day week is prevalent on the coast and that it would hamper local industry and business rather than aid development to adopt the five-day week in Seattle.

W. A. Bechtel, national president of the Associated General Contractors of America and a member of the San Francisco chapter of that organization, has offered two prizes of \$50 each for the best definition of "The Irresponsible Contractor." The contest closes May 8 and is open to all members of the A. G. C. No word limit has been specified and, while brevity is desirable, it is possible that a vivid imagination and an unlimited vocabulary may be necessary to do justice to this subject.

All members of the Board of Directors of the Fresno Builders' Exchange were re-elected at the annual meeting held in the Hotel Fresno March 26. The board includes: T. M. Robinson, D. A. Moore, Otto Batty, E. H. McLennan, F. E. Minard, G. J. Lines, James E. Harrison, A. M. Loper, M. E. Summers, C. E. McMullen and J. G. Teeple. President Robinson presided. A reorganization meeting will be held April 3rd at which officers will be elected. Robinson and Harry R. Cayford, secretary-manager, submitted reports.

Recently the Sacramento Architects' and Engineers' Club held a definition contest sponsored by P. J. Herold, a cash prize of \$5 being given for the best definition of each class defined. The winning definitions are:

Architect—An architect is the planner and expressionist of the building industry.—E. L. Holman.

Engineer—An engineer is one who provides proper structural stability, heating, ventilating, refrigeration, plumbing and lighting to the building industry.—E. L. Holman.

Contractor—One who, for a stipulation, agrees to use his skill to construct building or engineering works for man's benefit.—C. H. Kromer.

Realtor—A realtor is one who specializes in bringing buyers and sellers of property together for mutual benefit.—E. L. Holman.

Owner—One who makes the first payment and whose heirs make the last. He holds the sock and wears it out.—L. E. Rushton.

The Hoover-For-President Club of Northern California has been organized with Chas. W. Merrill, president, Vice-presidents are: Warren H. McBryde, John D. Galloway, P. M. Downing, L. H. Duschak, C. E. Grunsky, W. P. Durand, C. H. Snyder, Wynn Meredith and G. R. Kingsland. F. L. Sizer is secretary and A. D. Oliver, treasurer. The slogan is: "Herbert Hoover, the first engineer in the White House since Washington." A similar club has been organized in Los Angeles.

Purchase of the Ironton-Ashland Bridge Co. from the Baltimore and Ohio Railroad Co. of New York as part of a \$30,000,000 steel merger, is announced at Ironton, Ohio, by C. J. Crawford, representative of the New York firm. Crawford has been conducting negotiations at Ironton for a merger of the Belfont Steel and Wire Co. and the Martin Iron and Steel Co. of Ironton and the Ashland Steel Co. and Morton Steel Works of Ashland, Ky.

U. S. Engineer Office, 85 Second street, San Francisco, plans to let contracts this season for considerable excavation work to be done by dragline excavators, adjacent to the San Joaquin river at and below Stockton. Firms owning dragline equipment and desiring to bid on this work should communicate with the District Engineer at the above address.

A bill proposing a \$200,000,000 bond issue for construction of the Nicaraguan canal, linking the Caribbean and the Pacific, has been introduced in the Senate by Secretary McKellar, Democrat, Tennessee. It would appropriate \$10,000,000 so work could be started as soon as the measure is passed. The canal would restore order in Nicaragua and provide prosperity for the people there and stability for the government, McKellar said. The Panama canal is being overcrowded and will provide in the next few years plenty of business for the Nicaraguan canal, he said.

United States exports of industrial machinery during January were valued at \$15,120,000, a light decline from the \$15,127,000 in December, 1927, but about equal to those during the corresponding month last year, according to the Industrial Machinery Division, Department of Commerce.

Federal Board of Vocational Education, 200 New Jersey ave., N. W., Washington, D. C., has issued Bulletin No. 125, dealing with the training of foremen conference leaders. The bulletin offers suggestions as to methods to be followed and types of subject matter recommended by a committee of experienced conference leaders. Copies will be furnished on request without charge.

In an official statement the Canada Cement Co. has announced that effective immediately a price reduction of 25 cents per barrel on Portland cement will take effect in Western Canada, covering all the Prairie Provinces from Winnipeg west. "This reduction is made in the hope of stimulating business in the West, where the consumption of cement has been extremely low since the war," says the report.

Eastern Clay Products Association, Philadelphia, Pa., has published the second edition of its standards for salt glazed vitrified sewer pipe and fittings, fireclay flue lining and fittings, stove pipe and fittings and wall coping and fittings. The booklet also contains the price list effective Jan. 2, 1928.

London, England, is to have the honor of possessing England's first skyscraper. Plans have been completed for a 17-story office building 217 feet high in the heart of the city.

Bulletin No. 126, Workmen's Compensation Legislation in Relation to Vocational Rehabilitation, has been issued by the Federal Board of Vocational Education, Washington, D. C. The bulletin covers an analysis of certain provision of workmen's compensation laws showing their relation to the administration of vocational rehabilitation of disabled persons. Copy will be furnished on request without charge.

Designed to be of minimum weight and at the same time powerful and efficient, a new electric hand saw, manufactured by Skilsaw, Inc., Chicago, has been placed on the market. The saw weighs 11 lb. and develops ½ hp. It is designed for cutting lumber up to 2 in. thick and can be used in either hand. This new model "J" supplements a larger type which has been on the market for some time.

General Electric Co., Schenectady, N. Y., has published a folder GEA-715A, on its Novalux ornamental units for street lighting. Illustrations are given of some of the various types of lights available while complete information is given in tabular form regarding sizes for special uses.

A general conference of manufacturers, distributors, and users of staple porcelain (all clay) plumbing fixtures, will be held at the Department of Commerce, Washington, D. C., May 22nd, for the purpose of considering a proposed commercial standard for this commodity. A report has been received by Ray M. Hudson, Assistant Director Commercial Standards Group of the Bureau of Standards, from a temporary committee on this commodity, to the effect that the industry believes 87 of the present 622 varieties will be sufficient for regular stock.

Offering of 100,000 shares of common stock of the United States Steel Corp., to its employees will be made at \$145 a share under the annual subscription, the finance committee has announced. The stock closed on the New York Stock Exchange April 3 at \$146.37½. Last year's offering was at \$122 a share.

Dr. Elmer A. Sperry of Brooklyn, N. Y., has been elected chairman of the American Committee of the World Engineering Congress to be held at Tokio, Japan, next year. Formal organization and election took place in Washington recently. Herbert Hoover is honorary chairman of the committee.

Seattle, Wash., building permits in March totaled \$84 involving an expenditure of \$4,273,490 as compared with \$3,492,610 for the corresponding period in 1927. For the first three months of 1928 the total valuation of improvements is placed at \$11,092,815 as compared with \$7,345,745 for the same period in 1927.

NEW ROAD EXECUTIVE

Col. R. Keith Compton of Richmon-
Va., will become president of the Amer-
ican Road Builders' Association at the
annual meeting of the organization to
be held in Washington, D. C., May 1.
Election to that office is considered the
highest honor that may be bestowed on
a street or highway official of the United
States. Col. Compton was elected during
the convention of the association held
in Cleveland, Ohio, last January. He
succeeds Chas. M. Babcock, chairman of
the Minnesota State Highway Commis-
sion, whose term expires.

1928 EDITION

San Francisco Building Laws

Now Ready for Distribution

With the issuance of this 1928 Edition, the Building Ordinance Books heretofore published will be obsolete, inasmuch as many sections of the law have been amended and additional sections added.

The 1928 Edition contains all the revisions and additions to the code up to and including January 31, 1928.

In addition to the Building Laws, the 1928 Edition contains FIRE ORDINANCES as regards the construction industry—the ELECTRICAL ORDINANCES and RULES of the San Francisco Department of Electricity—the BILLBOARD ORDINANCE and other laws covering regulations concerning the construction interests.

Congress of March 3, 1879.

CONCRETE CYLINDERS TESTED BY STANDARDS BUREAU

Comparative tests on concrete cylinders of different sizes have been made at the Bureau of Standards, Department of Commerce, for the purpose of determining the comparative strengths developed by the two sizes of specimens.

A series of 216 cylinders, mixed and made in the field, half of which were 8 by 16 inches, and half 10 by 20 inches, was tested. The cylinders were made in a small field laboratory, the concrete being mixed in a small batch mixer. A shovel full of the mixture, when it had attained the desired consistency, was placed in each of the paper cylinder molds in succession until filled, and each cylinder was tamped during filling.

Three mixes were used:—1:1:2, 1:1½:3, and 2:2:4. The 1:1½:3 and 1:2:4 were tested at 3, 7 and 28 days. The 1:1:2 mix was tested at 3 and 28 days. For each proportion the concrete was mixed to three consistencies giving the approximate slumps of 2, 4½ and 6½. Since the cylinders in each group tested were from the same batch of concrete, and so had the same amounts of cement, water, aggregate and the same mixing time, the strength ratio of the 10 by 20 and the 8 by 16 was unaffected by the variables which enter into cylinder making when there are duplications of mixes.

It was found that the average strength of the 10 by 20 inch cylinders was 96 per cent of the average strength of the 8 by 16 inch cylinders. The strength ratios were 92, 98 and 96 per cent, respectively, for the 1:1:2, 1:1½:3 and 1:2:4, respectively.

Recent tests made by Prof. D. A. Abrams have shown that if tested in one machine at the same platten speed the increase in strain will be slower for small specimens.

MATERIAL PRICES ARE LOW BUT WAGES ARE HIGH

Average prices of building materials were lower in Portland in 1927 than in other major Pacific Coast cities, while the average building crafts wages were highest, according to the monthly review of business conditions issued by the federal reserve bank of San Francisco.

The review also shows that prices of building materials in general and building crafts wages were lower on the Pacific coast than the average for the United States as a whole.

The percentage table on materials prices showed: Portland, 82.2; Seattle, 82.3; San Francisco, 82.6; Los Angeles, 89.8. The percentages on building crafts wages were: Portland, 97.7; Seattle, 97.1; Los Angeles, 93.7, and San Francisco, 93.7.

Among the reasons advanced to explain the above were:

Water transportation is available to all of the coast cities included in the study.

These cities are located relatively close to the timber supply.

Weather conditions on the Pacific coast are more favorable for all-year construction activity than in most other regions in the United States.

Building crafts wages rates are probably influenced by the relatively low cost of living on the coast, by the prospect of a minimum amount of unemployment in winter and by the constant yearly influx of workers desiring to live in Pacific coast states.

STEEL ORDERS DROP 62,983 TONS IN MARCH

Unfilled orders of the United States Steel Corporation March 31 amounted to 4,335,206 tons, a decrease of 62,983 tons compared with the end of the preceding month. The following table gives unfilled tonnage of the Steel Corporation at the end of each month since the close of 1925:

	1928	1927	1926
January	4,275,947	3,800,177	4,882,739
February	4,398,189	3,597,119	4,616,822
March	4,335,206	3,553,140	4,370,935
April		3,456,132	3,867,976
May		2,050,941	3,649,250
June		3,053,246	3,478,642
July		3,142,014	3,602,522
August		3,196,037	3,542,335
September		3,148,113	3,593,500
October		3,341,040	3,682,661
November		3,454,444	3,807,447
December		3,972,874	3,960,969

Although slightly under the total of 4,398,189 tons reported at the close of February, the figures were substantially larger than the 3,553,140 tons reported on March 31, 1927. Unfilled orders on January 31 were \$4,275,947 tons, which rose from 3,972,874 tons at the end of 1927.

BUILDING CODE EXECUTIVE COM- MITTEE NAMES EDITORS

The building code executive committee of the California Development Association held its first joint meeting at Santa Barbara March 30. This committee consists of the following: F. J. Twaits, Associated General Contractors, Los Angeles, chairman; David Witmer, American Institute of Architects, Los Angeles;

Melville Dozier, Jr., American Society of Civil Engineers, Los Angeles; John B. Leonard, American Society of Civil Engineers, San Francisco, vice-chairman; Frederick H. Meyer, American Institute of Architects, San Francisco; and E. T. Thurston, Contractors' Association, San Francisco.

This building code executive committee was appointed by and is acting under the general direction of the disaster insurance committee of the California Development Association, of which committee Arthur S. Bent of Los Angeles is chairman, and Frederick J. Koster of San Francisco is vice-chairman.

Engineer Henry Dewel, member of the American Society of Civil Engineers, San Francisco, and Edwin A. Bergstrom, member of the American Institute of Architects, Los Angeles, have been requested to become the editors of the California building code, which is to be developed by the building code executive committee.

EXCESSIVE MOISTURE IS CAUSE OF PAINT DISCOLORATION

The theory that paint applied to certain kinds of wood commonly used as siding for building purposes will necessarily discolor is unsound, according to observations made by the Forest Products Laboratory, United States Department of Agriculture.

Laboratory officials who have made a study of this problem maintain that the paint discoloration is usually found on houses built in late summer, fall, or winter, particularly in cases where the wood-work has accumulated excessive moisture from some source.

Plastering in cold weather, it is claimed, accounts for many cases of paint discoloration. Part of the moisture evaporated from the plaster condenses on the back of the siding wood and sooner or later passes through the siding to the under layer of the paint film.

Experience indicates that in houses which have been thoroughly drier out before painting this condensation of moisture and the consequent blistering and discoloration of paint on the outside of the building are usually avoided.

While paint blistering and discoloration are more common in the case of new houses they may occur in old houses in which excessive moisture content has developed for some reason. They can be prevented in the case of a house under construction by thoroughly drying the house before the paint is applied. In frosty weather it is necessary to keep the building heated to hasten drying and prevent plaster from freezing. Heat is also desirable in damp weather.

If paint discolors or blisters in an old house, the reason for any unusual moisture condition must be ascertained and the condition corrected.

When paint discoloration has already developed the remedy is to wait until the house is dried out. Frequently the discolored portion may then be washed off with soap and water, or if it proves more resistant, with cloths moistened with denatured alcohol. It may be necessary in some instances to apply another coat of paint, in which case no reappearance of the discoloration is ordinarily to be anticipated.

MARCH BUILDING TOTALS OF PACIFIC COAST CITIES LISTED

At the end of the month of building permits issued for March in 101 cities of the Pacific Coast, the total is greater than the total for the previous month, it is 11% above the total of March, 1927, and the total for the first quarter of this year is 7% above the comparable figure for last year which reflected a 2% reduction from the 1926 comparable figure, as shown by official building department statistics tabulated in the National Monthly Building Survey of S. W. Straus & Co.

A grand total of 31,709 permits were issued for new buildings to cost \$104,727,723 in these cities during the quarter just closed, as compared with 27,000 permits for \$113,267,250 in new buildings in 1927, \$123,000,000 in 1926, \$137,000,000 in 1925, and \$132,000,000 in 1924.

Los Angeles issued 8,792 permits for new buildings to cost \$25,159,361, during the first quarter of this year. This is less than the comparable 1927 figure. The total for March, \$9,701,942, is 12% below the March total of last year.

In the Los Angeles metropolitan area, 15 municipalities issued 11,461 permits for buildings to cost \$25,430,642, during the 1928 first quarter, 5% less than last year's comparable figure, and the March total is 7% below that of 1927. The building record of this area represents more than

one-third of the Pacific Coast total for 101 cities.

San Francisco issued 2,143 permits for \$10,319,869 in new buildings during the first quarter of 1928, and \$4,240,494 in permits during March, a 9% reduction from last year's comparable totals for each.

In the San Francisco Bay metropolitan area, 13 municipalities issued 5,320 permits for \$19,395,174 in new buildings during the first quarter of this year, 11% less than the 1927 first quarter figure. The March total is 22% below that of last year.

Seattle reports a notable increase in building activity with 2,452 permits issued for \$11,092,815 in new buildings during the first quarter of this year, and \$4,273,490 in permits for March. This shows a 51% gain for the quarter and a 22% gain for March over the 1927 comparable figures.

Portland issued 2,460 permits for \$5,421,420 in new construction during the first quarter of 1928, and \$2,907,880 during March. This shows a 39% reduction from last year's comparable quarterly total but an 18% gain for March.

Oakland's first quarter total for 1928 was \$4,563,711 in building permits issued, 14% less than that of last year. The March total, \$1,925,578, however, is 24% above that of last March.

Following are the official construction cost figures issued during the first three months of 1928 and 1927 and also during the month of March, 1928 and 1927, as reported by building department executives from 101 cities in the Pacific Coast Section as reported by S. W. Straus & Co.:

MORE MILLION DOLLAR CONTRACTS AWARDED THIS YEAR THAN LAST

More contracts valued at \$1,000,000 more have been awarded since Jan. 28, than in the corresponding period 1927, according to Engineering News Record. During 1928 there have been such awards valued at \$216,720,000; in the first twelve weeks of last year, had the value of \$201,780,000.

Geographically these awards cover construction in nineteen states in 1928 and twenty-three states in 1927. Illinois, Pennsylvania, California and Missouri show no change over last year in number of large contracts. New York has had twenty-two in 1928 and twelve in 1927 and in Texas there have been nine this year and only one last year.

So-electric plant in South Carolina contributed \$20,000,000 to the 1927 industrial awards, and three New York subway contracts were the principal items in the construction-other-than-buildings classification. New York activity during 1928 has been mainly for large apartment houses and office buildings, and this class of work is the main factor in the large commercial building total. Other construction in 1928 is composed principally of large pipe line in Texas.

MILLION DOLLAR AWARDS DURING FIRST QUARTER

	No.	Value	No.	Value
Com'ci'l	58	\$156,510,000	47	\$123,460,000

Other				
const.	14	38,170,000	9	31,190,000
Total	79	\$216,720,000	62	\$201,780,000

EMPLOYMENT SERVICE ENGINEERING SOCIETIES

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 715, 57 Post Street, San Francisco, (Phone Sutter 1684).

- R-1568-S CIVIL ENGINEER, M. Am. Soc. C. E., engaged in developing projects in the north west desires a young associate on the Pacific Coast with engineering training and experience. Five to ten thousand dollars available capital required. Apply by letter, giving details of experience and photo. Headquarters, Northwest.
- R-1573-S STRUCTURAL ENGINEER, over 35, experienced on the design of steel frame buildings for chief draftsman position. Salary open. Apply by letter. Location, San Francisco.
- R-1557-S ELECTRICAL DRAFTSMAN, not over 40, with at least 5 years' experience to lay out and detail wiring for large industrial warehouses. Knowledge of illumination essential, and if also familiar with sprinkler systems and mechanical devices so much the better. Salary \$225 month. Location Alameda County.
- R-1576-S ENGINEER, experienced on subdivision development work for general supervision of project including building construction, roads, sewers, etc. Salary open. Headquarters, San Francisco.
- K-41-X-4482-C-S PRODUCTION ENGINEER, with experience in steel stampings, steel auto bodies, fenders, disc wheels or similar products for a company manufacturing all-metal monoplanes on a quantity production basis. Position open about June 1st. Apply by letter with qualifications and salary required. Location Middlewest.
- X-4547 GRADUATE CIVIL ENGINEER, with harbor and dock construction experience. Will be in charge of work. Spanish essential. Single man preferred. Apply by letter. Salary \$9000 and all expenses. Location South America.

*Hollywood figures included in Los Angeles totals.

ods that have been used and sums up their relative efficiency, based on the reports from the four hundred engineers and plant owners and on a survey of actual floors of various types.

The Ohio State Engineering Laboratories have cooperated in determining the facts presented, by means of extensive laboratory tests of cement floor finishes, the result of which are given in detail.

An interesting and important parallel between the laboratory findings and the results disclosed by the survey of actual plant floors points to certain definite conclusions regarding installation methods that will be of invaluable help to everyone interested in floor construction.

"Plain Talk About Concrete Floors" which has less than 40 pages, carries over 50 illustrations and bristles with specific facts and figures. Valuable data has been obtained from owners on initial costs and maintenance costs.

The work is published by The Master Builders Company, Cleveland, Ohio, specialists since 1910 in methods and materials for concrete floor installations. Copies are mailed free upon request.

PATENTS

Granted to Californians as reported by Munn & Co., Patent Attorneys

John W. De Ford, of Los Angeles. SYSTEM AND MEANS FOR MARKING STREETS. This relates to street markers or signs, and the like and pertains more particularly to means and systems for readily enabling pedestrians and motorists to learn the name of the street on which they are approaching or on which they are traveling.

Earl S. Hartson, of Los Angeles. UNDERREAMER. This is designed particularly for use in oil wells for reaming or enlarging that portion of the drill hole below the casing in order that the latter may be lowered into the well as the drilling and underreaming operations proceed.

John T. Phipps, of Huntington Park. CORE DRILL. This invention relates to core drills for taking cores of formations to be drilled for oil, water and other wells, which cores are taken so that the log of the well may accurately reflect the formations through which the well is produced. Mr. Phipps assigns his patent to H. C. Smith Manufacturing Company.

Paul Ruegg, of San Francisco. SPEED SIGNAL SWITCH. This provides a governor controlled switch adapted to be directly secured to the speedometer shaft and to operate through a relay switch to control the said electric light signals. Mr. Ruegg assigns his patent to Steven A. Rice.

Charles F. Parker, of San Francisco. SWITCH OPERATING MECHANISM. This relates to a switch operating mechanism and its object is to provide means whereby one of two circuits may be used at a time. Mr. Parker assigns his patent to Western Safety Manufacturing Company, Inc.

LABOR PAPER IS PROPOSED FOR CAPITAL CITY

Developments regarding the establishment of a labor-owned newspaper in Sacramento are reaching a point where its publication is considered a matter of the near future, in the opinion of officials of the Federated Trades Council. In addition to a number of the larger organizations who have already offered their support, the Electricians reported their group 100 per cent behind the proposal. The Sheet Metal Workers have requested that a sub-committee be asked to appear before their union and further explain the proposal.

DATA ON CONCRETE FLOOR FINISHES IS COMPILED BY MASTER BUILDERS CO.

Four hundred industrial plant engineers and owners have reported their experiences with concrete floor finishes of different types, and their reports have just been published in a book entitled "Plain Talk About Concrete Floors."

For nearly two decades architects and builders have been trying to develop concrete floor surfaces that will stand up under present day industrial traffic. Re-

sults have been inconsistent. Good floors and poor floors have been laid side by side for the same owner, by different builders whose methods varied only in details that were regarded as unimportant. The elimination of this variable which has cost industry thousands of dollars in floor upkeep and impeded operations, was the purpose of the authors of this work. The book reviews the principal meth-

THE OBSERVER

What He Hears and Sees On His Rounds

San Francisco, Cal., has been the first city to adopt the simplified practice of the department of Commerce. The recommendation was adopted on March 1, 1928. Prior to the adoption of this simplified practice recommendation on March 1, 1926, the industry was manufacturing 80 styles, 16 sizes and 10 shapes of lights. The last conference held that 10 per cent of this variety would meet at least 90 per cent of the normal requirements. The original recommendation promulgated in 1926 provided for 5 styles, 6 sizes and 2 shapes, an average simplification of 90 per cent. According to the report just received by the Division of Simplified Practice from the Standing Committee of the industry, a survey of acceptors of this recommendation showed that the degree of adherence was 91 per cent.

A definite policy providing for the operation of the Oakland city dock facilities by the city itself is announced by Roseau D. Jones, president of the Oakland Port Commission. A resolution authorizing this system of dock management becomes effective May 1. George B. Hazard, manager of the port of Oakland, has been instructed to prepare a plan of organization for the operation of the Fourteenth street, Grove street and Market street piers. At present the Market street pier is being operated by the Lawrence Terminal Company. The company has been operating on month to month lease, and has been notified of the change of management.

The ratio of the operations to the capacity of the American Portland cement industry during the month of February was 47.5 percent, according to figures released by the bureau of mines of the department of commerce. During the month 8,785,000 barrels were produced, 6,559,000 barrels were shipped, and there were in stocks on hand at the end of the month 27,333,000 barrels. Production in February, 1928, was 19 percent greater, and shipments about 3 percent less, than in February, 1927. Stocks at the mills were 16 percent higher than a year ago.

James E. Noble, Jr., of Sanatorium, Miss., a 24-year-old engineer of the Southern Bell Telephone & Telegraph Co., is announced as the winner of the first prize of \$5000 in the "Slogan for Wood" contest conducted by the National Lumber Manufacturers' Association. His slogan was: "Certified by Centuries of Service." Six other grand prizes were awarded, ranging from \$500 to \$2000 and 59 states and regional awards of \$100 each were made. The total prize money was \$15,000. Approximately 400,000 persons entered the contest.

Supreme Court has granted Government's petition for review of a Court of Claims decision holding that building and loan associations are exempt from the Federal income tax, regardless of whether they make loans to non-members. The defendant company was the Cambridge Loan and Building Company of Ohio.

May 1 is date set by San Francisco Board of Supervisors to vote bonds of \$1,000,000 to finance purchase of Spring Valley Water properties to operate as a water project and \$210,000 to purchase the Hotel of the Hotel, Hotel, project.

The George Bill, appropriating \$6,000,000 for federal aid in states in development of vocational education in rural communities has been passed by the Senate and now goes to the House. The bill specifies that \$500,000 annually will be made available when states appropriate a like amount. An amendment by Senator Bingham, republican, Connecticut, to include territories of the United States, was adopted without objection.

Creation of a Federal reclamation and development board to supervise many sorts of work in the public interest is sought in a bill introduced by Senator Jones, Republican, Washington. To be composed of five members, with the interior secretary as chairman, the board would encourage the reclamation; river development; the development of harbors and inland sections; improvement of home markets and the establishment of airports.

"Forest Fires Make Idle Lands, Idle Industries, Idle Hands — Stop Fires, Grow Trees, Keep Forest Lands Working." A poster with the foregoing inscription was adjudged the most effective forest education material issued in the United States last year by the American Forestry Association, and beaten silver cup was awarded to E. T. Allen, manager of the Western Forestry and Conservation Association at Portland, Ore., who designed the poster. The poster was selected from a list of about 200.

Acting upon the advice of their attorney, George F. Jones, the Butte county supervisors have ordered all accounts against the Charles S. Mabrey Construction Company paid, it having been shown that enough money to pay all withholdings against Mabrey had been deposited by him with the county treasurer. The auditor was instructed to honor all just claims against the account in the original amount of the bills contracted by Mabrey for labor and materials furnished in the construction of the Chico Veterans' Memorial Hall. Jones told the supervisors, petition for dismissals in a number of cases pending against Mabrey had been filed with the county clerk.

Details of a newspaper campaign in a "point up" and "clean up" drive were worked out by the Peninsula Master Painters' Association at a recent meeting in Palo Alto. Delegates attending the meeting from San Jose reported that the San Jose painters will feature a float in the parade of the Fiesta de las Rosas to be held in that city in May.

More than 1,000 desks for use in the new Lincoln school will be constructed by the Sacramento city school department in its own shops. This decision was reached when C. C. Hughes, secretary of the board of education, reported a balance of more than \$8,000 after the award of contract for the initial unit of the new school.

Mrs. Elizabeth Cohn, wife of Wm. Cohn, superintendent of the Columbia Steel Corp., at Pittsburg, Calif., has announced her retirement after seventeen years of service with the corporation. When Mrs. Cohn began her duties with the company the plant was operated on a modest scale with holdings valued at about \$200,000. Today the plant is worth about \$3,500,000 and employs 1100 men.

Support of a standardized building code for major cities in California is asked of the Oakland city council in a letter from the California Development Association. The letter is signed by A. S. Best, chairman of the building code committee of the association and asks the city to appoint a committee to aid in framing the code which will standardize building regulations. The communication was referred to Commissioner of Public Health and Safety C. C. Young and City Attorney Preston Higgins.

An eleven-story garage building for use of patrons and tenants of the First National Bank at Detroit, Mich., was opened April 10. The garage, declared to mark a new step toward solving the parking problems such as prevail in large cities will accommodate 800 cars.

Frank P. Williams, home builder and subdivider of Sacramento, will leave shortly on a three-months tour of Europe, particularly along the Mediterranean during which time he will make a special study of architecture. Williams plans to go to Spain first to study Spanish architecture and furniture and will then study the Moorish influence in Northern Africa and architecture in Italy, Austria, Germany and France. Houses in French Normandy will be given particular attention.

The salary standardization bureau of the San Francisco Civil Service Commission has completed its reclassification of all positions in the city building trades service and requested that department heads study the report at once. Any suggestions for changes in the classification plan should be made before Monday, April 9.

An ordinance that complies with every requirement of the state housing act and one that lacks with the letter of the law fire protection work being performed by the fire department, has been given first reading by the San Mateo city council. Many clauses heretofore not legally observed in San Mateo have been written into the ordinance. Among these is one regulating the handling and storage of inflammable liquids. Others have to do with the placing and construction of fire escapes, equipping certain buildings with basement pipe hole casings, prohibiting the building of open fires without permits, inspection of construction of gravity oil-burning systems and the establishment of fire lines no less than 300 feet from the scene of a fire.

Approximately \$350,000 will be expended the coming summer for the protection of timber lands under the jurisdiction of F. A. Elliott, Oregon State Forester. The area under Mr. Elliott comprises more than 10,000,000 acres of forest land, virtually all of which is in private ownership, with the exception of 1,250,000 acres of revested Oregon and California lands which are patrolled by state and private interests under contract with the United States forest service.

Indicative of the widespread interest in house remodeling is the increasing demand for a pamphlet recently published by the National Lumber Manufacturers Association entitled "New Homes From Old Houses." Over 80,000 copies of the pamphlet have been ordered by retailers throughout the country.

Building permits issued during the month of March in Portland Ore., total \$70 for improvements estimated to cost \$2,907,880. Two hundred homes were erected during the month costing \$842,000.

At the request of a San Francisco construction company trade extension engineers of the National Lumber Manufacturers Association are compiling data in the sound deadening properties of different species of wood. R. W. Smith of the Western Division reports that the company wants the information in connection with the construction of apartment houses.

Alleging that the State routed the Yosemite All-Year Highway over his mining claims at the South Fork of the Merced River, William H. Rykert, formerly of Los Angeles, has filed suit in Mariposa for \$111,853 damages against the State Department of Public Works. Rykert contended that the highway passes over his channel of gravel causing him considerable inconvenience in working his 16 claims of gold quartz.

Requests for the booklet "Airplane Hangar Construction," prepared by the Engineering Department of the National Lumber Manufacturers Association is off the press. The booklet is devoted to four types of hangars, ranging from the one plane type to the large hangars suitable for municipalities.

Some \$400,000,000 will be expended on office building construction in the United States this year, according to estimates of the National Association of Buildings Owners and Managers. More than 50,000,000 square feet were added to the available area last year.

The uniform building code which has been proposed for adoption to all municipalities in California, has been adopted by the Martinez city trustees. The adoption of the code is expected to result in a material saving in construction costs to both contractors and business building and home owners.

A sharp recession in the lumber movement in the week ended March 31st, is reported by the National Lumber Manufacturers' Association, based on telegraphic reports of prices from 715 of the company's largest softwood and hardwood mills. Production and shipment were lower by 7,000,000 and 8,000,000 feet, respectively, while orders dropped 54,000,000 feet compared with the week before. Unfilled orders of 220 southern pine and west coast mills were 714,120,105 feet against 723,660,612 feet the preceding week.

A municipal skyscraper, costing approximately \$5,000,000 is proposed at Chicago for the purpose of enriching the city coffers. Real estate, in the downtown district of Chicago is worth huge sums and a survey made by the city officials revealed that municipal property now is, in many cases, unproductive of revenue. As a result, it has been proposed that a 42-story building be erected by the city on some of its loop property.

Purchase of the Pyramid Portland Cement Company, Des Moines, Iowa, by the Pennsylvania Dixie Cement Corporation is announced, by which the annual output of Penn-Dixie will be increased by 1,250,000 barrels to 12,250,000 barrels. A plan for consolidation of the Penn-Dixie and North American Cement Companies into the General Cement Corporation, has been submitted to stockholders.

Albert Mansfield, attorney representing other interests, will ask to have revocation of his Candlestick-Alameda bridge franchise by the San Mateo county supervisors declared illegal. Mansfield claims the franchise granted him March 5 is still in effect.

TRADE NOTES

Pacific Manufacturing Company of Santa Clara is planning early construction of a \$225,000 plant in that city and has commissioned a firm of engineers in Los Angeles to proceed at once with the architectural and engineering plans. The plant will be of the latest type for the manufacture of sash, door and general woodworking products. It will be one-story, 384x486 feet in dimensions, of brick and concrete construction with sawtooth roof. Dry kilns, dust collection system and boiler plant will be provided in the plans.

Luster Lacquer Manufacturing Co., operating a plant at 1405 Thirty-second St., Sacramento, announces the closing of its plant at Seattle, Wash., and the shipment of all equipment to the Sacramento plant. The company is operated by W. R. Cline and B. A. Brown.

The Cyclone Fence Company, Waukegan, Ill., has purchased the Standard Fence Company of Oakland and the Northwest Fence and Wire Works of Portland. These two latter companies have heretofore been the Pacific Coast agents of the Cyclone Company.

Frank P. Doe Lumber Company, operating a planing mill at 7th and Yuba streets, Marysville, plans enlargements to the present quarters providing additional space for planing mill and storage facilities. The company took over the Nelson Moulding Mill at Marysville several months ago.

C. B. Johnson, superintendent of the Coos Bay Lumber Company's plant at Bay Point for the past twelve years will resign May 1. Previous to being superintendent for the company, Johnson was foreman, serving a total of seventeen years in the company's employ.

Chas. Stockholm & Son, general contractors, formerly occupying quarters in the Hearst Building, have opened offices in the Russ Building, San Francisco.

Eva D. Griswold of Piedmont, Geneva E. Monroe of New York City, Wm. L. Aisthorpe and Harry B. Aisthorpe of Chico, have formed a partnership and will operate in Chico under the firm name of Griswold Lumber Company.

D. E. McLaughlin, formerly vice-president has been elected president of Pacific Coast Steel Company. McLaughlin succeeds the late president, E. M. Wilson. Director William Pigott was named chairman of the board. Henry M. Robinson, president of Los Angeles First National Bank, was named a director. Other members of the board were re-elected. E. S. Houdlette and T. S. Clingan were named vice-presidents. William Pigott Jr. was re-elected secretary-treasurer, and H. C. Jones, comptroller.

A certificate seeking to increase its capital stock from 1,200,000 shares to 3,600,000 shares and from a par value of \$25 to no nominal value, has been filed at Martinez by the Standard Sanitary Manufacturing Company.

O. H. Shoemaker, former manager of the Independent Lumber Co., will enter the building materials business for himself in Livermore. E. E. Ross of Stockton will be his associate. Construction of a plant served by the Western Pacific Railroad in Livermore will be started at once.

ALONG THE LINE

J. P. Galloway, San Francisco engineer, is one of five engineers invited by the Los Angeles City Council to make an impartial investigation of the safety of the Mulholland dam, above Hollywood, and all other city dams and reservoirs. It was admitted that an investigation by outside experts was needed to quiet the fears of residents below the existing dams in the city's water system.

George Calder has been appointed chief engineer for the American Toll Bridge Company with headquarters in San Francisco and will have supervision over the Carquinez and Antioch bridges, owned by that company. Mr. Calder, who is vice-president of the company, was resident engineer during the construction of the Carquinez Straits bridge. Under a reorganization of the company's engineering department, Louis J. Jennings will be resident engineer with offices at Crockett and Professor Chas. Derleth of the University of California remains as consulting engineer.

Frank Davis, junior engineer with the Division of Irrigation Investigations and Practice, College of Agriculture, Davis, has resigned to accept a position with the Woodbridge Irrigation District. Davis went to the college in 1922 from Rock Springs, Wyo., where he was engaged in engineering work for that city. During his five years with the college he has been engaged in irrigation investigation studies in the San Joaquin delta and at Delhi.

Harry Gravitt, 30, a civil engineer, dropped dead in San Francisco, April 6. Physicians say death was due to a heart attack.

Allan J. Wagner, city engineer of Sacramento, has resigned and Samuel A. Hart, chief assistant city engineer, appointed by the city commission to fill the vacancy. The position pays \$6000 a year. Mr. Wagner will enter the contracting business for himself. Chas. R. Blood, now an assistant engineer will be advanced to chief assistant engineer, receiving a salary of \$4200 a year.

TRADE NOTES

Frank G. Kutz, formerly connected with the Kewanee Boiler Corporation and The Babcock & Wilcox Co., has been appointed manager of the San Francisco office of the Coatesville Boiler Works of Coatesville, Pa., builders of riveted fire-box heating boilers as well as welded fire-box heating boilers. Kutz is a son of the late chief engineer George F. Kutz, well known San Franciscan and Marine Engineer.

One of the major industrial projects to be delayed by storms in El Dorado County is the Michigan-California Lumber Company, now building a new \$1,000,000 plant at Camino. It was hoped that the plant might be ready to start work about May 1st, but the heavy storms have made any considerable progress almost impossible.

Watkins Intermitting Pump Co. of San Francisco, capitalized for \$25,000, has been incorporated. Directors are. W. C. Crittenden, H. F. Watkins and G. R. Hanrahan.

Luigi Sartorio formerly of Sartoria and Anderson, general contractors, has been admitted to membership in the San Francisco Builders' Exchange. Victor D. Russo, architectural modeller, is another new member.

UNIFORM WAGE SCALE AND BUILDING CODE WILL BE TOPICS AT CONVENTION OF STATE ORGANIZATION IN STOCKTON

A convention with scale and uniform building code will be among topics of discussion at the third quarterly conference of the California State Builders' Exchange to be held in Stockton, April 27-28. Sessions will be held at the Lincoln Hotel.

Final arrangements for the entertainment of delegates and guests are being worked out by a special committee appointed by the Stockton Builders' Exchange.

Big Attendance Seen

That this meeting will prove the biggest and most important meeting yet held by the state organization is the opinion of those in charge of arrangements. Large delegations are expected from the various construction organizations in the Southern California district, the central section and from scattered cities north of Sacramento.

Committees Meet Friday

The various committees will meet Friday morning at the convention headquarters in the Lincoln Hotel. Immediately following luncheon, Miss Jackson, secretary of the Stockton Builders' Exchange, assisted by ladies of the membership, will entertain visiting ladies with a luncheon at Wood's Tavern which will be followed by an automobile tour of the city.

The general session will be called to order at 1:30. Committee reports will be received and the regular order of business carried on until adjournment of the afternoon session.

Banquet In Evening

A banquet in the spacious banquet hall of the Stockton Civic Memorial Auditorium will be a feature of Friday evening. A program of speaking and entertainment will be carried on in conjunction with the banquet. Reservations for this event are necessary and may be made with the Hotel Lincoln or at the office of the Stockton Builders' Exchange.

Informal Ball

Following the banquet and commencing at nine o'clock a grand informal ball will be held in the main auditorium ball room. This affair will be free to delegates and the general public. Music will be furnished by a fifteen-piece orchestra.

Saturday morning, commencing at 9:30 the business session will be called at the Lincoln Hotel and will continue until business is completed or the convention adjourned.

Program Off Press

A neat four-page program featuring the Stockton deep water project on the front cover and the principal places of interest in Stockton on the back cover with complete convention details on the two inside pages, has been compiled for distribution by the Stockton Exchange in co-operation with the Stockton Chamber of Commerce. The latter organization is lending every possible assistance to the exchange to make the convention a big success.

Coast Rock & Gravel Co., members of the San Francisco Builders' Exchange, is occupying new quarters at 1000 Hunter Dulin Building.

Geo. M. Eastman, specializing in marble since 1903, has opened show rooms at 160 Powell St., featuring Italian statuary and works of art in marble and bronze. Public inspection is invited.

Wilson Compton, secretary-manager of the National Lumber Manufacturers Association, will be a speaker at the annual meeting of the National American Wholesale Lumber Association to be held in Atlantic City April 11-12.

Archie Winchcole, plastering contractor of Richmond, has returned from a tour of Europe where he visited his aged father in Scotland and relatives in England. Winchcole was away seven weeks.

President Thomas M. Robinson and other officers of the Fresno Builders' Exchange were re-elected April 3 at the organization meeting of the board of directors for 1928.

All of the directors who served during 1927 were re-elected at the recent annual meeting of the membership of the organization.

Other officers are: O. J. Lines, vice president; A. M. Loper, treasurer, and Harry R. Cayford, secretary-manager.

The following chairmen of standing committees were appointed at the meeting: Finance, C. E. McMullin; house, F. E. Minard; membership, E. H. Mellen; arbitration, A. M. Loper; social, Otto Baty.

Other members of the directorate are D. A. Moore, J. G. Teeple, James E. Harrison and M. E. Summers.

Four general and twenty sub-contractors of the Monterey Peninsula district held a special meeting in the council chamber of the city hall at Pacific Grove, April 3 and discussed license fees and a building code. A. L. Pawley, presided at the meeting.

A general discussion of fees and building codes elsewhere took place, the Santa Barbara code being the subject of much interesting comparison. Vigorous criticism of the \$100 license, in effect in some other cities and towns of California, was voiced the general opinion of the local men, being that it had proved unsatisfactory.

The ballot taken seemed to indicate a marked leaning toward a license fee of \$30 a year for contractor and \$15 a year for sub-contractors. Flat rate plus percentage charges were opposed by a majority of the builders.

Discussion of a uniform building code was neglected due to lack of time, but it is hoped that another meeting will take place in the near future when this problem may be satisfactorily threshed out.

Michigan is planning to double its force of convicts employed on highway work during 1928. The force, which will begin work about April 1, weather permitting, will number about 1,250 men, as compared with about 600 in 1927. To accommodate the increased prison force three new road camps will be established. According to the commissioner of pardons and paroles, the increase in convict labor is attributable to the good results of last year. Part of the success with convict labor lies in the fact that the entire duty of guarding was placed with prison authorities and the direction of work was left entirely in the hands of the highway department. For 1928 a wage scale has been established as an incentive for willing work. The prisoners will be paid 5c. to 10c. an hour instead of the flat \$1 a day scale formerly used.

HERE — THERE — EVERYWHERE

Howard Bissell of the firm of Mayo, Bissell and Co., Stockton architects, addressed the Stockton Chapter, American Association of Engineers, April 6, on the "Science of Acoustics." J. B. Tyrrell, president of the Stockton chapter, presided.

L. E. Crawford, secretary of the East Bay Industrial Association, announces that during the month of March 549 men were placed by the association's employment bureau, representing an increase of more than 20 percent over the previous month. The increased demand for skilled mechanics in the building trades and metal trades is very encouraging, according to Crawford.

That abuses of the day labor system may be the subject of action by public works contractors was indicated in a recent announcement by the Seattle Chapter of the Western Public Works Contractors Association. The statement was to the effect that the organization contemplates "some action" to require public officials to conform to the provisions of the law regulating construction by the day labor system.

"Dick" Forbes, secretary of the San Francisco Builders' Exchange had been looking over the names of delinquent members which caused him to state that he had of a man in a neighboring city that he had a needle. Nothing further was said. According to Forbes, the man was not a delinquent member and was not in the truck dues.

Spokane (Wash.) Building Trades Council announces "no increases in the present scale of wages or working hours are contemplated during the present building season."

By a vote of three to two the Oakland city council has passed an ordinance reducing cash bonds for plumbers from \$200 to \$100. The ordinance was passed after heated discussion regarding the posting of surety bonds in lieu of cash.

Union painters of Marin County will ply their brushes but five days a week hereafter. When the whistle blew last Friday evening it marked the end of the week's work. The five-day week was adopted by unanimous vote of the members of Local Union No. 83, Brotherhood of Painters, according to John R. Mazza, president of the Union, and M. J. McGuire, secretary-treasurer. The scale of wages will remain unchanged, the painters being paid for five instead of five and one-half days, on a scale of \$9 a day. They will hereafter receive \$45 a week instead of \$49.50. The difference will permit the employment of an additional man at no increase over the previous weekly wage scale.

Wm. H. George has been re-elected president of the San Francisco Builders' Exchange as have the other officers serving for the past year, comprising: Emil Hogberg, 1st vice-president; D. J. Sullivan, 2nd vice-president; Jas. H. Pinkerton, 3rd vice-president; R. J. Forbes, secretary and Alexander Mennie, treasurer.

Production of steel rails during 1927 in the United States is put at 2,806,390 gross tons by American Iron & Steel Institute, against 3,217,649 tons in 1926 and 2,785,257 in 1925. Output for 1926 was the largest since 1913 when the total was 3,502,780 tons.

Building News Section

APARTMENTS

Plans Being Figured.
APARTMENTS Cost, \$250,000
SAN FRANCISCO. Mission District.
One-story Class C steel frame and brick apartment building (50 apts., stores, offices and garage).
Owner—Withheld.

Architect—R. R. Irvine and L. Ebbets, Call Bldg., San Francisco.
Engineer—James Smith, 251 Kearny St., San Francisco.
Two stories of the structure will be devoted to garage. One-story for stores and one floor for doctors' offices.

Plans Being Prepared
APARTMENTS Cost, \$—
SAN FRANCISCO. Franklin St., between Washington and Clay Sts.
Six-story steel frame and concrete apartment building (number of apts. not decided upon).
Owner and Builder—Manning-Baldwin, Inc., 485 14th St., San Francisco.
Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

Specifications Being Written.
APARTMENTS Cost \$15,000
SAN FRANCISCO. NE Church and Twenty-second Streets.
Two-story and basement frame and stucco apartment building (7 apts.)
Owner—George Reede, Humboldt Bank Bldg., San Francisco.
Architect—Bos & Quandt, Humboldt Bk. Bldg., S. F.
Bids will be taken in one week for general contract.

Contract Awarded.
APARTMENTS Cont. Price, \$90,000
SAN JOSE. Santa Clara Co., Cal. N. First St. and Hensley Ave.
Two-story frame and stucco apartment building (34 apts.)
Owner—C. W. Hobson.
Architect—Wolfe & Higgins, Realty Bldg. San Jose.
Contractor—Tynan Lumber Co. (L. C. Rossi, Mgr.), 1090 The Alameda, San Jose.

Plans Being Figured.
APARTMENTS Cost, \$50,000
SAN FRANCISCO. Thirty-sixth Ave. and Balboa St.
Three-story frame and stucco store and apartment building (3 stores, 32 rooms and garage).
Owner—Mr. Lamong.
Engineer—Thos. J. Keenan, 386 15th St., Oakland.
Bids are being taken for a general contract.

Contracts Awarded
APARTMENT Cost, \$60,00
SAN FRANCISCO. W San Jose Ave., N 25th St.; 3-story and basement frame and stucco apartment building (27 apts.)
Owner—C. Miller, Rm. 711, 110 Sutter St.
Architect—Albert W. Burgren, 110 Sutter St.
Contractor—Hinkel Bros.
Building permit applied for.

Sub-Bids Being Taken
APARTMENT Cost, \$150,000
SAN FRANCISCO. 20th and Irving Sts., 77x110; 6-story and basement steel frame and concrete store and apartment bldg. (48 2 and 3 room apts.)
Owner & Builder—Olaf Monson, 15 Plato Street.
Architect—H. C. Baumann, 251 Kearny Street.

Sub-Bids Being Taken.
APARTMENTS Cost, \$50,000
SAN FRANCISCO. N Chestnut Street W Franklin Street.
Three-story and basement frame and stucco apartment building (21 apts.)
Owner and Builder—Chas. D. Grandeman, 78 Johnson Ave., Campbell.
Architect—None.

Plans Being Completed
APARTMENTS Cost, \$150,000
SAN FRANCISCO. 9th Ave. and Judah Street.

Six-story steel frame and concrete apt. bldg., 90-rooms, all modern conveniences.
Owner and Builder—Cox Bros., 1950 Irving St.
Architect—H. C. Baumann, 251 Kearny.
Sub-bids will be taken in one week.

FRESNO, Fresno Co., Cal.—Architect S. Charles Lee, 531 Petroleum Securities Bldg., Los Angeles, has completed plans and Carl Peterson, 1047 Fortcamp St., Fresno, awarded contract to erect 2-story apartments to contain 37 rooms divided into 16 apartments; frame and stucco construction; cost, \$75,000.

Sub-Contracts Awarded.
APARTMENTS Cost, \$75,000
SAN FRANCISCO. NE Gough St. and Fern Ave.
Six-story and basement reinforced concrete apartment building.
Owner and Builder—A. Penziner, 750 Taylor St., San Francisco.

Plans by Owner.
Refrigeration—Frigidaire Agency, 871 Mission St., San Francisco.
Plumbing—Henry Ernst, 551 Hayes St., San Francisco.
Steam Heating—C. Petersen Co., 390 6th St., San Francisco.
Electric Work—Collonan Elec. & Mfg. Co., 3211 Mission St., San Francisco.
As previously reported, concrete awarded to L. Le Lucca, 666 Mission St., S. F. reinforcing steel to Soule Steel Co., Rialto Bldg., S. F.; structural steel to Golden Gate Iron Works, 1541 Howard St., S. F.

Contract Awarded
APARTMENTS Cost, \$50
OAKLAND. Alameda County, Cal. SE Thirty-sixth Ave. and Redding St.
Three-story frame and stucco apartment building (48 rooms).
Owner and Builder—O. E. Jones and H. Andler, 254 Hobart St., Oakland.
Architect—Russell G. DeLappe, 1 Franklin St., Oakland.
Lumber and Mill Work—Tilden Lumber Co., Second and Harrison Sts., Oakland.
Plastering—B. Nelson, 4125 Mera St., Oakland.

LOS ANGELES, Cal.—Architect C. C. Frye, 526 Pacific National Bank Bldg., preparing plans for 5-story Class A apartments to be erected at Sunset Blvd. and Kenmore Ave., for E. J. Burton, 526 Pacific National Bank Bldg.; 134 rooms

divided into single and double apartments; reinforced concrete construction, L-shape, brick and terra cotta facing.

Sub-Bids Being Taken
APARTMENTS Cost, \$45,00
BERKELEY, Alameda Co., Cal. Telegraph Ave., bet. Bancroft and Alameda Way.
Three-story Class C-1 reinforced concrete store and apartment building (12 2-room apts. and 2 stores).
Owner—Addie H. Gorrill, 37 Bonita Ave., Piedmont.
Architect—McWethy & Greenleaf, 291 Telegraph Ave., Oakland.

Preparing Working Drawings
APT. BLDG. Cost, \$35,000
OAKLAND. Alameda Co., Cal., Merritt Ave.
Three-story and basement frame and stucco apt. bldg. (18 3-room apts.) terra cotta, tile roof.
Owner—Name withheld.

 tonio St., San Jose.
 Architect—Weeks & Day, Financial Cen-
 ter Bldg., San Francisco.
 Bids will be taken shortly.

NOTE:—The following story appeared in these columns in March, 1926, and there were so many favorable comments that it surprised even Sandy Pratt, the author of the same. Sandy prints it again. Is the story worth a reprint?

SHE WAS a yellow canary.
 HE WAS a wild one.
 AND HELPED her to escape.
 FROM THE brass cage.
 THEY SPENT their honeymoon.
 ON THE Yuba River.
 WHERE SANDY Pratt, President.
 OF THE Pratt Building Material Co.
 PRODUCES MARYSVILLE sand.
 AND FROM Marysville, California.
 THEY MOVED to Sacramento.
 HE WANTED to build the nest.
 NEAR THE American River.
 WHERE SANDY also digs sand.
 AND WHERE there was freedom.
 AND PLENTY of wild feed.
 SHE WAS a "downtown girl."
 LIKED JAZZ, bright lights.
 AND DELICATESSEN store food.
 SHE WON the argument.
 THEY BUILT their nest.
 IN A sidewalk tree.
 AT SIXTEENTH and K Streets.
 OVER SACRAMENTO'S downtown traffic.
 NEAR THE bright lights.
 THEY RAISED three children.
 ALL GIRLS, if you please.
 WHO CRITICISED dad.

FOR HIS old fashioned ideas.
 ABOUT THE open spaces.
 AND FOOD, mostly worms.
 THESE GIRLS liked prepared foods.
 AND DELICATESSEN store products.
 SO YOU see the bird world.
 IS MOVING along.
 WITH THE rest of us.
 IN THIS age.
 OF AUTOS, jazz, and canned goods.
 "I THANK you."

U. R. A. Singer, the wild canary who
 eloped with Miss Lotta Voice of Marys-
 ville (home of Sandy Pratt's Yuba River
 sand-producing plant). This "bird" at
 his wife's request, built his 1924 home
 at 16th and K Streets (Sacramento), just
 one mile from the Pratt Building Ma-
 terial Company's sand washing and pro-
 ducing plant on the American River, at
 the 12th Street Bridge. Sandy has other
 sand, rock and gravel plants at Pratt-
 rock, (near Folsom), Mayhew, (Sacr-
 mento County), and Pratto (Monterey
 County)—Central office, San Francisco.
